

# Safety and Performance Tests for Medical Textiles

Medical textiles in line with the requirements of safety and functional performances are essential in clinical use. Those well-functioned medical textiles can provide health care personnel and patients with an adequate protection against the virus infection.

**STC tests for medical textiles in European and US standards include:**

**ANSI/AAMI PB70**  
Liquid Barrier Performance  
and Classification of  
Protective Apparel  
and Drapes Intended for Use  
in Health Care Facilities

**BS EN 13795**  
Surgical Drapes, Gowns  
and Clean Air Suits, Used  
as Medical Devices for  
Patients, Clinical Staff and  
Equipment

**ANST F2100**  
Standard Specification  
for Performance of  
Materials Used in  
Medical Face Masks

**More testing services are available, please contact our staff of Textile,  
Furniture and Footwear Products Division.**
