

## Latest changes to the China Compulsory Certification (CCC) Scheme

On June 15<sup>th</sup>, 2018, the Certification and Accreditation Administration of China (CNCA) published a notice to announce changes to the China Compulsory Certification (CCC) scheme as follows:

### 1. Removing certain products from the CCC scheme

From the date of this announcement, the products listed in Table 1 are no longer subject to the CCC.

### 2. Allowing some other products to choose self-declaration and self-evaluation

From October 1<sup>st</sup>, 2018, the products listed in Table 2 will have the liberty to adopt the existing certification procedures through a certification body, or choose one of the self-declaration/self-evaluation procedures. Self-declaration procedure A is applicable to IT and AV equipment with rated voltage  $\leq 5\text{VDC}$ , rated wattage  $\leq 15\text{W}$  (or  $15\text{VA}$ ) without rechargeable battery. Companies should prove their products' conformity to the CCC requirements by type testing through any laboratories. Self-declaration procedure B is for specified products not covered by procedure A. Companies should prove their products' conformity to the CCC requirements by type testing through a (CCC) designated laboratory.

Table 1: Products no longer subject to the CCC scheme

Serial No.	CCC Category	Product Category Code	Product Name
1	Electric tool	0507	Electric spray guns with non-flammable liquid
2		0508	Electric shears
3		0509	Electric tapping machines
4		0512	Electric chain saws
5		0513	Electric planers
6		0514	Electric hedge trimmers and electric grass shears
7	Audio-video equipment	0811	Picture/display tubes
8		0814	Antenna amplifiers
9	Information technology equipment	0908	Computer game consoles
10		0909	Learning machines
11	Motor vehicles and safety accessories	1103	Motorcycle engines
12		1106	Horns
13		1108	Brake hoses
14		1113	Fuel tanks
15	Telecommunication terminal equipment	1601	Modem terminals/cards
16		1607	ISDN terminals
17	Safety protection products	1903	Vehicle burglar alarm systems
18	Wireless LAN products	2001~2006, 2011~2043, 2090	Wireless LAN products
19	Home decor and remodeling products	2103	Concrete antifreezes
	Circuit switches, electrical devices for protection or connection	0203	Plugs and socket-outlets for industrial purposes
		0203	Appliance couplers for industrial purposes

Serial No.	CCC Category	Product Category Code	Product Name
	Low-voltage electrical apparatus	0301	Assemblies for construction sites (ACS)
		0301	Assemblies for power distribution in public networks
	Firefighting equipment	1801	Combustible gas detection products
		1801	Fire alarm control units
		1812	Condensed aerosol fire extinguishing devices

Remark: The products without serial numbers are component product types under the CCC product catalogue.

Table 2: Products eligible for self-declaration

New Certification Procedures	CCC Category	Product Category Code	Product Name
Self-declaration procedure A (Type testing through any laboratories + Self-declaration)	Audio-video equipment, information technology equipment	-	IT and AV equipment with rated voltage $\leq$ 5VDC, rated wattage $\leq$ 15W (or 15VA) and without rechargeable battery (Category III)
Self-declaration procedure B (Type testing through a CCC designated laboratory + Self-declaration)	Low-voltage electrical apparatus	0301	Low-voltage switchgear and control gear assemblies: power switchgear assemblies, busbar trunking systems (busways), switchboards, low-voltage reactive power compensation assemblies
	Low power motors	0401	Low power motors
	Welding machines	0601, 0602, 0603, 0604, 0605, 0606, 0607, 0608, 0609, 0610, 0611, 0612, 0613, 0614, 0615	Portable A.C. arc welding machines, A.C. arc welding machines, D.C. arc welding machines, TIG welding machines, MIG/MAG welding machines, plasma arc cutting machines, plasma arc welding machines, electric shock protective devices for arc welding transformers, coupling devices for welding cables, resistance welding machines, wire feeders for welders, TIG welding blow lamps, MIG/MAG welding torches, electrode holders
	Household and similar electrical appliances	0704	Motor-compressors
	Motor vehicles and safety accessories	1111	Interior decoration materials
	Motor vehicles and safety accessories	1112	Door locks and retention components

Since 2012, STC has officially been approved to conduct CCC testing in its Hong Kong and Dongguan laboratories, with total CCC solutions and type testing services according to China's national GB standards to help you cope with the regulatory changes. For more info on our CCC programs, please contact our Electrical Products Division.
