

Recall Summary – European Toys

Published: 24 July 2019

RAPEX notification (Jun 2019)

Alert No.	Notifying Country	Product	Product Photo	Hazard/ Risk	Measures Adopted
A11/0032/19	Germany	Fancy-dress accessory (Country of Origin: China)		Chemical The product contains an excessive amount of bis (2-ethylhexyl) phthalate (DEHP) (measured value: 43% by weight). This phthalate may harm the health of the user, causing possible damage to the reproductive system. The product does not comply with the REACH Regulation.	Ban on the marketing of the product and any accompanying measures
A12/0813/19	Italy	Toy make-up set (Country of Origin: China)		Chemical The make-up in the product contains an excessive amount of chromium VI and nickel (measured values up to: 3.46 mg/kg and 2.00 mg/kg, respectively) Chromium (VI) and nickel are sensitising and may trigger allergic reactions. The product does not comply with the Cosmetic Products Regulation and the Toy Safety Directive.	Import rejected at border
A12/0824/19	Greece	Toy train (Country of Origin: China)		Choking, Injuries The train could easily break releasing small parts and creating sharp edges. The front part of the toy is very pointed. A child may put one of the small parts in the mouth and choke on it. The front part of the toy and the created sharp edges could cause injuries to the child. The product does not comply with the requirements of the Toy Safety Directive and the European standards EN 71-1.	Ban on the marketing of the product and any accompanying measures, Withdrawal of the product from the market
A12/0826/19	France	Plastic toy set (Country of Origin: China)		Chemical, Choking Small parts can be detached (ducklings). The toy contains an excessive amount of di-(2-ethylhexyl) phthalate (DEHP) (measured value: 14.5%). A small child may put small pieces in the mouth and choke. And the phthalate	Recall of the product from end users

Alert No.	Notifying Country	Product	Product Photo	Hazard/ Risk	Measures Adopted
				may harm the health of children, causing possible damage to the reproductive system. The product does not comply with the REACH Regulation and with the requirements of the Toy Safety Directive and the relevant European Standard EN 71-1.	
A12/0827/19	France	Keyring with a plush toy (Country of Origin: China)		Choking The product contains small parts (the eyes) that can easily be detached. A small child may put them in the mouth and choke on them. The product does not comply with the requirements of the Toy Safety Directive and the relevant European standard EN 71-1.	Recall of the product from end users
A12/0830/19	United Kingdom	Toy slime kit (Country of Origin: China)		Chemical The migration of boron from the clays in the product is too high (measured value up to 2110 mg/kg). Ingestion or contact with an excessive quantity of boron may harm the health of children by damaging their reproductive system. The product does not comply with the requirements of the Toy Safety Directive and the relevant European standard EN 71-3.	Import rejected at border
A12/0833/19	United Kingdom	Soft clay kit (Country of Origin: China)		Chemical The migration of boron from the clay is too high (measured value up to 1806 mg/kg). Ingestion or contact with an excessive quantity of boron may harm the health of children by damaging the reproductive system. The product does not comply with the requirements of the Toy Safety Directive and the relevant European standard EN 71-3.	Import rejected at border
A12/0837/19	Finland	Soft toy with sequins (Country of Origin: China)		Choking The small sequins on the product can be easily detached. A small child could put the sequins in the mouth and choke on them. The product does not comply with the requirements of the Toy Safety Directive	Ban on the marketing of the product and any accompanying measures

Alert No.	Notifying Country	Product	Product Photo	Hazard/ Risk	Measures Adopted
				and the relevant European standard EN 71-1.	
A12/0839/19	Czech Republic	Plastic doll (Country of Origin: China)		Chemical The plastic material of the toy contains an excessive amount of bis(2-ethylhexyl) phthalate (DEHP) (measured value: 7% by weight). This phthalate may harm the health of children, causing possible damage to their reproductive system. The product does not comply with the REACH Regulation.	Withdrawal of the product from the market
A12/0840/19	Poland	Soft toy (Country of Origin: China)		Choking The small elastic bands on the product can be easily detached. A small child may put any of them in the mouth and choke. The product does not comply with the requirements of the Toy Safety Directive and the relevant European standard EN 71-1.	Making the marketing of the product subject to prior conditions

Alert No.	Notifying Country	Product	Product Photo	Hazard/ Risk	Measures Adopted
A12/0841/19	Latvia	Battery-operated musical toy (Country of Origin: China)		Choking The lid on the toy can easily be unscrewed, giving access to a small light-emitting diode which the child can easily break into small parts. A small child may put them in the mouth and choke. The product does not comply with the requirements of the Toy Safety Directive and the relevant European standard EN 71-1.	Recall of the product from end users
A12/0845/19	Poland	Toy telephone (Country of Origin: China)		Environment Four solders in the toy contain lead (measured value up to 57.5% by weight) and one solder contains cadmium (measured value up to 0.25% by weight) in concentrations above limit values. Lead and cadmium pose a risk to the environment. The product does not comply with the requirements of the Commission Directive on the restriction of the use of certain hazardous substances in electrical and electronic equipment (RoHS 2 Directive).	Withdrawal of the product from the market
A12/0846/19	Czech Republic	Plastic mouse (Country of Origin: China)		Environment Four solders in the toy contain an excessive amount of lead and cadmium (measured values up to 45.3% and 0.13% by weight respectively). Lead and cadmium pose a risk to the environment. The product does not comply with the requirements of the Commission Directive on the restriction of the use of certain hazardous substances in electrical and electronic equipment (RoHS 2 Directive).	Withdrawal of the product from the market

Alert No.	Notifying Country	Product	Product Photo	Hazard/ Risk	Measures Adopted
A12/0850/19	Czech Republic	Plastic doll (Country of Origin: China)	  	<p>Chemical, Choking, Environment</p> <p>The battery compartment can easily be opened without the use of any tools, leaving button cell batteries accessible. A child may put these in the mouth, which could cause damage to the child's gastrointestinal tract or a risk of choking.</p> <p>The solders in the toy contain an excessive amount of lead (measured value up to: 66,9%). Lead poses a risk to the environment. The product does not comply with the requirements of the Toy Safety Directive, the relevant European Standard EN 62115 and the Commission Directive on the restriction of the use of certain hazardous substances in electrical and electronic equipment (RoHS 2 Directive).</p>	Withdrawal of the product from the market
A12/0853/19	Romania	Sound toy (Country of Origin: China)	  	<p>Choking</p> <p>Small parts can easily detach from the toy (debris from the broken interior sound block).</p> <p>A small child may put these in the mouth and choke. The product does not comply with the requirements of the Toy Safety Directive and the relevant European Standard EN 71-1.</p>	Ban on the marketing of the product and any accompanying measures

Alert No.	Notifying Country	Product	Product Photo	Hazard/ Risk	Measures Adopted
A12/0856/19	France	Soft toy (Country of Origin: China)		Chemical The flowers on the product contain an excessive amount of polycyclic aromatic hydrocarbons (PAHs), notably benzoanthracene (BaA) (measured value up to: 0.95 mg/kg). This PAH may cause cancer. The product does not comply with the REACH regulation.	Recall of the product from end users
A12/0863/19	Poland	Plastic doll (Country of Origin: China)		Chemical The plastic material of the doll contains an excessive amount of bis(2-ethylhexyl) phthalate (DEHP) (measured value: 30% by weight). This phthalate may harm the health of children, causing possible damage to their reproductive system. The product does not comply with the REACH Regulation.	Withdrawal of the product from the market
A12/0872/19	Czech Republic	Plastic train (Country of Origin: China)		Environment Four solders in the toy contain an excessive amount of lead and cadmium (measured values up to 45.1% and 0.38% by weight respectively). Lead and cadmium pose a risk to the environment. The product does not comply with the requirements of the Commission Directive on the restriction of the use of certain hazardous substances in electrical and electronic equipment (RoHS 2 Directive).	Withdrawal of the product from the market

Alert No.	Notifying Country	Product	Product Photo	Hazard/ Risk	Measures Adopted
A12/0877/19	Poland	Soft toy (Country of Origin: China)		<p>Chemical, Choking</p> <p>The battery compartment and the fibrous stuffing material are easily accessible through a zipper. The lid of the battery compartment can be easily opened without the use of any tools, leaving button cell batteries accessible.</p> <p>A child may put the batteries in the mouth, which could cause damage to the child's gastrointestinal tract. A small child may put the stuffing material into the mouth and choke. The product does not comply with the requirements of the Toy Safety Directive and the relevant European standards EN 71-1 and EN 62115.</p>	Withdrawal of the product from the market
A12/0878/19	Poland	Soft toy (Country of Origin: China)		<p>Chemical, Choking</p> <p>The battery compartment and the fibrous stuffing material are easily accessible through a zipper. The lid of the battery compartment can be easily opened without the use of any tools, leaving button cell batteries accessible.</p> <p>A child may put the batteries in the mouth, which could cause damage to the child's gastrointestinal tract. A small child may put the stuffing material into the mouth and choke. The product does not comply with the requirements of the Toy Safety Directive and the relevant European standards EN 71-1 and EN 62115.</p>	Withdrawal of the product from the market
A12/0885/19	Czech Republic	Plastic gun (Country of Origin: China)		<p>Environment</p> <p>Four solders in the toy contain an excessive amount of lead and cadmium (measured values up to 57% and 0.17% by weight respectively).</p> <p>Lead and cadmium pose a risk to the environment. The product does not comply with the requirements of the Commission Directive on the restriction of the use of certain hazardous substances in electrical and electronic equipment (RoHS 2 Directive).</p>	Withdrawal of the product from the market

Alert No.	Notifying Country	Product	Product Photo	Hazard/ Risk	Measures Adopted
A12/0894/19	France	Keyring with a plush toy (Country of Origin: China)		Choking The product contains small parts (keyring) that can easily be detached. A small child may put them in the mouth and choke on them. The product does not comply with the requirements of the Toy Safety Directive and the relevant European standard EN 71-1.	Recall of the product from end users
A12/0901/19	Romania	Wooden toy (Country of Origin: Germany)	 IAN 304083 OWIM GmbH & Co. KG Stiftsbergstraße 1, DE-74167 Neckarsulm GERMANY Model No.: HG04414 Version: 11/2018	Choking The rivets on the edges can detach, generating small parts. A small child may put them in the mouth and choke. The product does not comply with the requirements of the Toy Safety Directive and the relevant European standard EN 71-1.	Withdrawal of the product from the market
A12/0905/19	Poland	Educational toy (Country of Origin: China)		Environment Four solders in the toy contain an excessive amount of lead and cadmium (measured values up to 71% and 0.51% by weight respectively). Lead and cadmium pose a risk to the environment. The product does not comply with the requirements of the Commission Directive on the restriction of the use of certain hazardous substances in electrical and electronic equipment (RoHS 2 Directive).	Withdrawal of the product from the market
A12/0906/19	Poland	Educational toy (Country of Origin: China)		Environment Four solders in the toy contain an excessive amount of lead and cadmium (measured values up to 73.5% and 0.94% by weight respectively). Lead and cadmium pose a risk to the environment. The product does not comply with the requirements of the Commission Directive on the restriction	Withdrawal of the product from the market

Alert No.	Notifying Country	Product	Product Photo	Hazard/ Risk	Measures Adopted
				of the use of certain hazardous substances in electrical and electronic equipment (RoHS 2 Directive).	
A12/0917/19	United Kingdom	Toy putty/slime (Country of Origin: China)		Chemical The migration of boron from the slime/putty is too high (measured value up to 1300 mg/kg). Ingestion or contact with an excessive quantity of boron may harm the health of children by damaging their reproductive system. The product does not comply with the requirements of the Toy Safety Directive and the relevant European standard EN 71-3.	Withdrawal of the product from the market
A12/0928/19	Czech Republic	Remote controlled car (Country of Origin: China)		Environment Four solders in the toy contain an excessive amount of lead and cadmium (measured values up to 61% and 0.06% by weight respectively). Lead and cadmium pose a risk to the environment. The product does not comply with the requirements of the Commission Directive on the restriction of the use of certain hazardous substances in electrical and electronic equipment (RoHS 2 Directive).	Withdrawal of the product from the market

Alert No.	Notifying Country	Product	Product Photo	Hazard/ Risk	Measures Adopted
INFO/0072/19	Greece	Plastic airplane (Country of Origin: China)		Injuries The instructions for a safe use or replacement of the batteries are missing from the packaging and the toy. The indications on the packaging are not in the national language. This could consequently lead to an incorrect use of the batteries or the product. The product does not comply with the requirements of the Toy Safety Directive and the relevant European standard EN 62115.	Ban on the marketing of the product and any accompanying measures, Withdrawal of the product from the market
A11/0036/19	Hungary	Tricycle (Country of Origin: China)		Injuries There are accessible gaps between the moving elements of the tricycle and accessible openings in the front wheel. While driving the tricycle, the child's fingers might get trapped in the openings and the child could be injured due to the movement. The product does not comply with the requirements of the Toy Safety Directive and the relevant European standard EN 71-1.	Withdrawal of the product from the market
A11/0037/19	Croatia	Baby doll set (Country of Origin: China)		Choking The filling material of the toy is easily accessible due to the weakness of the seam. This stuffing material may cause choking if put in the mouth by children. The product does not comply with the requirements of the Toy Safety Directive and the relevant European standard EN 71-1.	Destruction of the product, Import rejected at border

Alert No.	Notifying Country	Product	Product Photo	Hazard/ Risk	Measures Adopted
A12/0934/19	Italy	Toy bow and arrow set (Country of Origin: China)		<p>Chemical</p> <p>The suction cups on the arrows contain bis (2-ethylhexyl) phthalate (DEHP) (measured value: 3.38% by weight) and dibutyl phthalate (DBP) (measured value: 7.52% by weight). These phthalates may harm the health of children, causing possible damage to the reproductive system.</p> <p>The product contains also di-isononyl phthalate (DINP) (measured value: 0.29% by weight). This phthalate may harm the health of children, causing possible damage to the liver. The product does not comply with the REACH Regulation.</p>	Import rejected at border
A12/0935/19	Finland	Plush toy (Country of Origin: China)		<p>Choking</p> <p>Both products pose a risk of choking due to small part (plastic nose) which can be easily detached.</p> <p>A child could put them in the mouth and choke on them. The product does not comply with the requirements of the Toy Safety Directive and the European Standard EN 71-1.</p>	Import rejected at border
A12/0941/19	Croatia	Baby doll (Country of Origin: China)		<p>Chemical</p> <p>The plastic material of the product contains an excessive amount of bis(2-ethylhexyl) phthalate (DEHP) (measured value: 6.5 % by weight).</p> <p>This phthalate may harm the health of children, causing possible damage to their reproductive system. The product does not comply with the REACH Regulation.</p>	Destruction of the product, Import rejected at border

Alert No.	Notifying Country	Product	Product Photo	Hazard/ Risk	Measures Adopted
					
A12/0943/19	Finland	Toy slime (Country of Origin: China)		Chemical The migration of boron from the toy slimes is too high (measured values: 900 mg/kg and 580 mg/kg for 1) and 2) respectively). Ingestion or contact with an excessive quantity of boron may harm the health of children by damaging their reproductive system. The product does not comply with the requirements of the Toy Safety Directive and the relevant European standard EN 71-3.	Ban on the marketing of the product and any accompanying measures
A12/0944/19	Finland	Toy slime (Country of Origin: China)		Chemical The migration of boron from the toy slimes is too high (measured value: 2700 mg/kg). Ingestion or contact with an excessive quantity of boron may harm the health of children by damaging their reproductive system. The product does not comply with the requirements of the Toy Safety Directive and the relevant European standard EN 71-3.	Ban on the marketing of the product and any accompanying measures
A12/0946/19	Finland	Plush toy (Country of Origin: China)		Choking A small part (antenna) can be detached from the toy. A child could put the small part in the mouth and choke on it. The product does not comply with the requirements of the Toy Safety Directive and the relevant European standard EN 71-1.	Ban on the marketing of the product and any accompanying measures

Alert No.	Notifying Country	Product	Product Photo	Hazard/ Risk	Measures Adopted
A12/0951/19	Cyprus	Shooting play set (Country of Origin: China)	 	Choking The suction cups can easily become detached from the projectiles. If a child puts the projectile in the mouth, the suction cup may detach and obstruct the airways. The product does not comply with the requirements of the Toy Safety Directive and the relevant European standard EN 71-1.	Withdrawal of the product from the market
A12/0955/19	Finland	Soft toy with sequins (Country of Origin: China)	   	Choking Small parts (sequins) can easily be detached from the plush toys and the fibrous stuffing material of the toys in the shape of a ladybird and a mermaid is easily accessible due to the weakness of certain seams. A small child could put the small parts or the stuffing material in the mouth and choke. The product does not comply with the requirements of the Toy Safety Directive and the relevant European Standard EN 71-1.	Ban on the marketing of the product and any accompanying measures
A12/0956/19	Slovakia	Soft toy (Country of Origin: China)	 	Choking The suction cup can easily detach from the toy. A child may put it in the mouth, which could result in obstruction of the airways. The product does not comply with the requirements of the Toy Safety Directive and the relevant European standard EN 71-1.	Recall of the product from end users, Warning consumers of the risks, Withdrawal of the product from the market

Alert No.	Notifying Country	Product	Product Photo	Hazard/ Risk	Measures Adopted
INFO/0074/19	Greece	Plastic robot (Country of Origin: China)		Injuries The instructions for the safe use of the toy are missing from the packaging and the toy. The indications on the packaging are not in national language. The user does therefore not have the necessary information for a safe use of the product. The product does not comply with the requirements of the Toy Safety Directive and the relevant European standards EN 62115.	Ban on the marketing of the product and any accompanying measures, Withdrawal of the product from the market

RAPEX – Rapid Exchange of Information System

The Rapid Alert System enables the rapid exchange of information (RAPEX) between **31 European countries** and the European Commission on non- food dangerous products found on the market posing a risk to health and safety of consumers.

A weekly overview of the alerts on those products is published in English for free on <http://ec.europa.eu/rapex>. The measures taken in the notifying country in order to restrict their marketing or use can be ordered by national authorities ("compulsory measures") or be taken directly by producers and distributors ("voluntary measures").

The official contact points of the Member and EFTA-EEA States provide the information published in these weekly overviews. Under the terms of Annex II.10 of the General Product Safety Directive ([2001/95/EC](#)) responsibility for the information provided lies with the notifying party. The Commission does not take any responsibility for the accuracy of the information provided.

Recall Summary – US Toys / Children’s Products

CPSC Recall List (Jun 2019)

Recall No.	Notifying Country	Product	Product Photo	Hazard/ Risk	Remedy
19-135	USA	Cat & Jack “Lilia” Rain Boots (Country of Origin: China)		Choking The unicorn horn on the rain boot can detach, posing a choking hazard to young children.	Consumers should immediately take the recalled rain boots away from children and return them to any Target store for a full refund.
19-151	USA	Inclined sleeper accessory included with all models of Fisher-Price Ultra-Lite Day & Night Play Yards (Country of Origin: China)		Fatal Infant fatalities have been reported while using other inclined sleep products, after the infants rolled from their back to their stomach or side while unrestrained, or under other circumstances.	Consumers should immediately stop using the inclined sleeper accessory and contact Fisher-Price for a refund or voucher. Consumers can continue to use the play yard portion of the product without the inclined sleeper accessory, and can also continue to use the changing station clutch accessory and carry bag.

CPSC

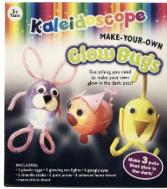

The United States Consumer Product Safety Commission (CPSC) is an independent agency of the United States government. To provide better service in alerting the American people to unsafe, hazardous or defective products, a “one stop shop” for U.S. Government recalls, www.recalls.gov, has been created. Publics can report unsafe products to CPSC by using the platform.

The recall list is divided into seven categories: Consumer Products, Motor Vehicles, Boats, Food, Medicine, Cosmetics and Environmental Products. Generally, the recall was conducted, voluntarily by the company, under CPSC’s Fast Track Recall program. Fast Track recalls are initiated by firms who commit to work with CPSC to quickly announce the recall and remedy to protect consumers.

Recall Summary – Australia Toys / Children’s Products

ACCC Recall List (Jun 2019)

PRA No.	Notifying Country	Product	Product Photo	Hazard/ Risk	Remedy
2019/17548	Australia	Monster High Ghouls Nightie Style Number 121208		The garments do not carry the fire hazard information label as required by the mandatory standard 'Consumer Goods (Children's Nightwear and Limited Daywear and Paper Patterns for Children's Nightwear) Safety Standard 2017'.	Consumers should stop using the product immediately and return the garment to any Brand Clearance store for a full refund.
2019/17552	Australia	Steelcraft Festiva Baby Walker		The toy bar may break, releasing the coloured beads.	Consumers should immediately cease use of the Activity Tray and return the product to Baby Bunting for a full refund.
2019/17555	Australia	Stokke Steps Bouncer Greige		Stokke Steps Bouncer set accessory may not attach properly to the Stokke Steps high chair, even though the locking indicator turns green. If someone leans on or hangs off the back of the high chair, this may cause the product to detach from the high chair. This defect only occurs when the Stokke Steps High Chair and the Stokke Steps Bouncer are used together.	Consumers should immediately stop using the combination of Stokke Steps Chair and Bouncer, and go to https://reclamations.stokke.com/stepsbouncer to check whether their Bouncer is affected.
2019/17559	Australia	Tripp Trapp® Newborn Set		When re-assembling the Newborn Set harness after washing, consumers may misassemble the harness. This can lead to one or more harness attachment points detaching.	Consumers should stop using the Newborn Set, and go to https://reclamations.stokke.com/newbornupgrade to check whether their Newborn Set is affected.
2019/17585	Australia	8 in 1 Newborn baby stroller	Pushchair 	The stroller does not comply with the mandatory standard 'Competition and Consumer Act 2010 - Consumer Protection Notice No. 8 of 2007 - Consumer Product Safety Standard for Prams and Strollers'.	Consumers should stop using the product and return to eBay store lightinthehouse0 for a full refund including original shipping cost.

PRA No.	Notifying Country	Product	Product Photo	Hazard/ Risk	Remedy
2019/17587	Australia	Inclined infant lightweight framed sleepers with a rounded bottom frame		Product is potentially dangerous when instructions and warnings are not followed. Infants may roll from their back to their stomach or side if unrestrained.	Consumers should stop using the product immediately and contact Kids II for recall information and refund procedures.
2019/17588	Australia	Compact lightweight baby stroller		The stroller does not comply with the mandatory standard 'Competition and Consumer Act 2010 - Consumer Protection Notice No. 8 of 2007 - Consumer Product Safety Standard for Prams and Strollers'.	Consumers should stop using the product and return to eBay store au_goodseller for a full refund including original shipping cost.
2019/17590	Australia	Foldable baby strollers		The stroller does not comply with the mandatory standard 'Competition and Consumer Act 2010 - Consumer Protection Notice No. 8 of 2007 - Consumer Product Safety Standard for Prams and Strollers'.	Consumers should stop using the product and return to eBay store crazybarginstore for a full refund including original shipping cost.
2019/17604	Australia	Teething toys with wooden shapes of a fox, a heart, a cloud and a wooden ring attached.		The wooden shapes attached to the teething toys are smaller than the permitted dimensions specified in 'Consumer Protection Notice No. 14 of 2003 — Consumer Product Safety Standard: Toys for children up to and including 36 months of age'.	Consumers should immediately cease using the teething toy(s) and dispose of them. Consumers should then contact Our Little Helpers for a full refund.
2019/17634	Australia	Kaleidoscope Make Your Own Glow Bugs		The battery compartment may not be adequately secured with a screw in some instances, and the button batteries in the product may be easily accessible.	Consumers should immediately cease using the product if non-compliant, and return it to any Big W store for a full refund.

Australian Product Safety System

The Australian product safety system is to maximize the safety of good by the cooperation of consumers, businesses and agencies. This policy sets out the principles adopted by the Australian Competition and Consumer Commission (ACCC) for prioritizing and addressing product safety risks.

Under the Australian Consumer Law, a responsible Minister can order a compulsory recall when there are hazards on the products. A voluntary recall could be conducted to remove the product from the marketplace when the suppliers become aware of unsafe or defective products.

The ACCC administers a national recalls system for recalls of specific and general consumer products, and publishes all product recalls on the website <https://www.productsafety.gov.au/recalls>.
