

Recall Summary – European Toys

Published: 12 August 2019

RAPEX notification (Jul 2019)

Alert No.	Notifying Country	Product	Product Photo	Hazard/ Risk	Measures Adopted
A12/0967/19	United Kingdom	Plastic doll with accessories (Country of Origin: China)		Chemical The plastic material of the toy contains an excessive amount of bis(2-ethylhexyl) phthalate (DEHP) (measured value: 27.6% by weight). This phthalate may harm the health of children, causing possible damage to their reproductive system. The product does not comply with the REACH Regulation.	Destruction of the product
A12/0968/19	Finland	Pranking pack (Country of Origin: China)		Chemical The migration of boron from the modelling clay (putty) is too high (measured value up to 1700 mg/kg). Ingestion or contact with an excessive quantity of boron may harm the health of children by damaging the reproductive system. The product does not comply with the requirements of the Toy Safety Directive and the relevant European standard EN 71-3.	Ban on the marketing of the product and any accompanying measures
A12/0970/19	Denmark	Wooden Toys (Country of Origin: China)		Choking The balls forming the toy can detach, generating small parts. A small child may put them in the mouth and choke. The product does not comply with the requirements of the Toy Safety Directive and the relevant European standard EN 71-1.	Recall of the product from end users

Alert No.	Notifying Country	Product	Product Photo	Hazard/ Risk	Measures Adopted
A12/0981/19	Italy	Plastic doll (Country of Origin: China)		Chemical The pink boots and the head of the doll contain an excessive amount of bis(2-ethylhexyl) phthalate (DEHP) (measured value: 15.9% and 24.3% by weight respectively). The boots contain as well an excessive amount of diisononyl phthalate (DINP) (measured value: 1.1% by weight). These phthalates may harm the health of children, causing possible damage to their reproductive system. The product does not comply with the REACH Regulation.	Import rejected at border
A12/0982/19	Czech Republic	Plastic doll (Country of Origin: China)		Chemical The plastic material of the head of the doll contains an excessive amount of bis(2-ethylhexyl) phthalate (DEHP) (measured value: 17.6% by weight). This phthalate may harm the health of children, causing possible damage to their reproductive system. The product does not comply with the REACH Regulation.	Withdrawal of the product from the market
A12/0984/19	United Kingdom	Toy gun set (Country of Origin: China)		Choking The suction cups can easily detach from the darts. If a child puts the dart in the mouth, for example in order to moisten it so that it better sticks to the impact surface, the suction cup may detach and obstruct the airways. The product does not comply with the requirements of the Toy Safety Directive and the relevant European standard EN 71-1.	Destruction of the product
A12/0985/19	Finland	Soft-filled toy with sequins (Country of Origin: China)		Choking Small parts (sequins) can easily be detached from the soft toy. A small child could put them in the mouth and choke. The product does not comply with the requirements of the Toy Safety Directive and the relevant European standard EN 71-1.	Ban on the marketing of the product and any accompanying measures

Alert No.	Notifying Country	Product	Product Photo	Hazard/ Risk	Measures Adopted
A12/0998/19	Italy	Plastic doll set (Country of Origin: China)		Chemical The plastic material of the doll's head, the arms and the legs contain an excessive amount of bis(2-ethylhexyl) phthalate (DEHP) (measured value up to 23.5% by weight). The legs contain as well an excessive amount of diisononyl phthalate (DINP) (measured value: 0.4% by weight). These phthalates may harm the health of children, causing possible damage to their reproductive system. The product does not comply with the REACH Regulation.	Import rejected at border
A12/0999/19	Poland	Plastic toy (Country of Origin: China)		Choking, Damage to hearing The sound level produced by the toy is too high and there are protruding parts. The sound level could lead to permanent or partial hearing loss. A child could put the protruding parts into the mouth, which could block the airways. The product does not comply with the requirements of the Toy Safety Directive and the relevant European standard EN 71-1.	Withdrawal of the product from the market
A12/1000/19	Finland	Toy slime (Country of Origin: Taiwan)		Chemical The migration of boron from the slime is too high (measured value 510 mg/kg). Ingestion or contact with an excessive quantity of boron may harm the health of children by damaging the reproductive system. The product does not comply with the requirements of the Toy Safety Directive and the relevant European standard EN 71-3.	Ban on the marketing of the product and any accompanying measures
A12/1001/19	Austria	Plastic spiders (Country of Origin: China)		Chemical The product contains an excessive amount of polycyclic aromatic hydrocarbons (PAHs), including: benzo(a)anthracene (BaA) (measured value up to: 389 mg/kg) + benzo(e)pyrene (measured value up to: 133 mg/kg) + benzo(b)fluoranthene measured value up to: 63 mg/kg), chrysene (measured value up to: 685 mg/kg), dibenzo(a,h)anthracene (measured value up to: 10.1 mg/kg). These PAH may cause cancer. The product does not comply with the REACH regulation.	Withdrawal of the product from the market

Alert No.	Notifying Country	Product	Product Photo	Hazard/ Risk	Measures Adopted
A12/1002/19	United Kingdom	Plastic toy dinosaur (Country of Origin: China)		Chemical The plastic of the toy contains an excessive amount of lead (measured value: 80mg/kg). Exposure to lead is harmful for human health and can cause developmental neurotoxicity. The product does not comply with the requirements of the Toy Safety Directive and the relevant European standard EN 71-3.	Destruction of the product
A12/1004/19	Poland	Soft toy (Country of Origin: China)		Choking Small parts (plastic eyes) may be easily detached from the toy. A child may put the small parts in the mouth and choke. The product does not comply with the requirements of the Toy Safety Directive and the relevant European standard EN 71-1.	Withdrawal of the product from the market
A12/1005/19	Czech Republic	Plastic doll (Country of Origin: China)		Chemical The plastic material of the doll contains an excessive amount of bis(2-ethylhexyl) phthalate (DEHP) (measured value: 17.2% by weight). This phthalate may harm the health of children, causing possible damage to their reproductive system. The product does not comply with the REACH Regulation.	Withdrawal of the product from the market
A12/1010/19	Italy	Plastic doll (Country of Origin: China)		Chemical The product contains bis (2-ethylhexyl) phthalate (DEHP) (measured value: 0.1% by weight) and dibutyl phthalate (DBP) (measured value: 0.1% by weight). These phthalates may harm the health of children, causing possible damage to the reproductive system. The product does not comply with the REACH Regulation.	Import rejected at border
A12/1021/19	Poland	Toy flute (Country of Origin: China)		Choking The mouthpiece of the flute detaches easily, generating a small part. A child may put the small part in the mouth	Withdrawal of the product from the market

Alert No.	Notifying Country	Product	Product Photo	Hazard/ Risk	Measures Adopted
		China)		and choke on it. The product does not comply with the requirements of the Toy Safety Directive and the relevant European standard EN 71-1.	
A12/1023/19	Lithuania	Plastic toy tractor (Country of Origin: China)		Choking The driver, steering wheel and the plastic cord can detach, generating small parts. A small child may put them in the mouth and choke. The product does not comply with the requirements of the Toy Safety Directive and the relevant European standard EN 71-1.	Withdrawal of the product from the market
A12/1024/19	Sweden	Squeezable toy (Country of Origin: China)		Chemical The product contains the substance cyclohexanone. There is a risk of eye and mucous membrane irritation. The product does not comply with the requirements of the Toy Safety Directive.	Withdrawal of the product from the market
A12/1031/19	Sweden	Squeezable toy (Country of Origin: Hong Kong)		Chemical The product contains the substances N,N-dimethylformamide, dimethylaminoethanol, cyclohexanone, bis (2-(dimethylamino) ethyl) ether) and triethylenediamine. There is a risk of eye and mucous membrane irritation. The product does not comply with the requirements of the Toy Safety Directive.	This product listing was removed by the online shop. Ban on the marketing of the product and any accompanying measures
A12/1032/19	Sweden	Squeezable toy (Country of Origin: China)		Chemical The product contains the substances cyclohexanone, bis(2-(dimethylamino)ethyl)ether) and triethylenediamine. There is a risk of eye and mucous membrane irritation. The product does not comply with the requirements of the Toy Safety Directive.	Withdrawal of the product from the market

Alert No.	Notifying Country	Product	Product Photo	Hazard/ Risk	Measures Adopted
A12/1033/19	Sweden	Squeezable toy (Country of Origin: China)		Chemical The product contains the substances N,Ndimethylformamide, dimethylaminoethanol, cyclohexanone, bis (2-(dimethylamino) ethyl) ether) and triethylenediamine. There is a risk of eye and mucous membrane irritation. The product does not comply with the requirements of the Toy Safety Directive.	Withdrawal of the product from the market
A12/1043/19	United Kingdom	Magnetic toy (Country of Origin: China)		Injuries The product contains magnets with a high magnetic flux. If a child swallows the small magnet and other metallic objects, they could attract one another causing intestinal blockage or perforation. The product does not comply with the requirements of the Toy Safety Directive and the relevant European standard EN 71-1.	Import rejected at border
A11/0041/19	Germany	Toy machine gun (Country of Origin: Unknown)		Damage to sight The kinetic energy of the projectiles fired from the toy machine gun is too high which can lead to eye injuries. The product does not comply with the requirements of the Toy Safety Directive and the relevant European standard EN 71-1.	Other
A11/0042/19	Germany	Toy gun (Country of Origin: Unknown)		Damage to sight The kinetic energy of the projectiles fired from the toy gun is too high which can lead to eye injuries. The product does not comply with the requirements of the Toy Safety Directive and the relevant European standard EN 71-1.	Other
A11/0045/19	Germany	Toy gun (Country of Origin: China)		Damage to sight The kinetic energy of the projectiles fired from the toy gun is too high which can lead to eye injuries. The product does not comply with the	Other

				requirements of the Toy Safety Directive and the relevant European standard EN 71-1.	
A11/0046/19	Germany	Toy gun (Country of Origin: China)		Damage to sight The kinetic energy of the projectiles fired from the toy gun is too high which can lead to eye injuries. The product does not comply with the requirements of the Toy Safety Directive and the relevant European standard EN 71-1.	Other
A12/1048/19	Germany	Plastic doll (Country of Origin: China)		Chemical The plastic material of the toy contains an excessive amount of bis(2-ethylhexyl) phthalate (DEHP) (measured value up to 28.9% by weight). This phthalate may harm the health of children, causing possible damage to their reproductive system. The product does not comply with the REACH Regulation.	Withdrawn from sale
A12/1052/19	Italy	Soap bubble toy (Country of Origin: China)		Microbiological The soap solution of the toy contains mesophilic aerobic bacteria (measured quantity 1200000 cfu/ml) and the presence of Pseudomonas aeruginosa has been detected. There is a risk of contracting infections as the solution may come into contact with the mouth, hands and eyes. The product does not comply with the requirements of the Toy Safety Directive.	Ban on the marketing of the product and any accompanying measures, Import rejected at border

Alert No.	Notifying Country	Product	Product Photo	Hazard/ Risk	Measures Adopted
A12/1053/19	Denmark	Wooden toy rattle (Country of Origin: China)		Choking The wooden rattle can be separated and release small parts (the balls). A small child could put the small parts in the mouth and choke. The product does not comply with the requirements of the Toy Safety Directive and the relevant European Standard EN 71-1.	Recall of the product from end users
A12/1057/19	Italy	Squeezable toy (Country of Origin: China)		Microbiological The toy contains aerobic bacteria (measured value up to: 50000 cfu/g) and the presence of Pseudomonas fluorescens has been identified. If played with by children with compromised or weakened immunity, the product may cause infection or irritation. The product does not comply with the requirements of the Toy Safety Directive.	Ban on the marketing of the product and any accompanying measures
A12/1066/19	Italy	Toy hairdryer (Country of Origin: China)		Chemical The yellow, red and blue cables contain an excessive amount of bis(2-ethylhexyl) phthalate (DEHP) (measured values: 3.3%, 3% and 4.3% by weight respectively). This phthalate may harm the health of children, causing possible damage to their reproductive system. The product does not comply with the REACH Regulation.	Withdrawal of the product from the market
A12/1072/19	France	Pedal go (Country of Origin: China)		Chemical The black plastic wheels contain an excessive amount of bis(2-ethylhexyl) phthalate (DEHP) (measured value: 9.5 % by weight). This phthalate may harm the health of children, causing possible damage to their reproductive system. The product does not comply with the REACH Regulation.	Recall of the product from end users
A12/1083/19	Sweden	Squeezable toy (Country of Origin: China)		Chemical The product contains the substances N,N-dimethylformamide, cyclohexanone, bis(2-(dimethylamino)ethyl)ether and triethylenediamine. There is a risk of eye and mucous membrane irritation. The product does not comply with the requirements of the Toy Safety	Stop of sales, Withdrawal of the product from the market

				Directive.	
A12/1084/19	Sweden	Squeezable toy (Country of Origin: China)		Chemical The product in the shape of an avocado contains the substances N,N-dimethylformamide, cyclohexanone, bis(2-(dimethylamino)ethyl)ether and triethylenediamine. There is a risk of eye and mucous membrane irritation. The product does not comply with the requirements of the Toy Safety Directive.	Stop of sales, Withdrawal of the product from the market
A12/1085/19	Sweden	Squeezable toy (Country of Origin: China)		Chemical The product contains the substances N,N-dimethylformamide, cyclohexanone, bis(2-(dimethylamino)ethyl)ether and triethylenediamine. There is a risk of eye and mucous membrane irritation. The product does not comply with the requirements of the Toy Safety Directive.	Stop of sales , Withdrawal of the product from the market
A12/1086/19	Sweden	Squeezable toy (Country of Origin: China)		Chemical The product contains the substances N,N-dimethylformamide, cyclohexanone, and triethylenediamine. There is a risk of eye and mucous membrane irritation. The product does not comply with the requirements of the Toy Safety Directive.	Stop of sales, Withdrawal of the product from the market

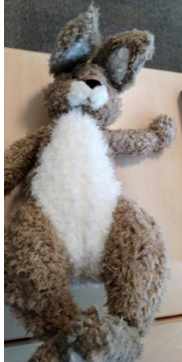

Alert No.	Notifying Country	Product	Product Photo	Hazard/ Risk	Measures Adopted
A12/1087/19	Sweden	Squeezable toy (Country of Origin: China)		Chemical The product contains the substances bis(2-(dimethylamino)ethyl)ether and triethylenediamine. There is a risk of eye and mucous membrane irritation. The product does not comply with the requirements of the Toy Safety Directive.	Stop of sales, Withdrawal of the product from the market
A12/1088/19	Sweden	Squeezable toy (Country of Origin: China)		Chemical The product contains the substances bis(2-(dimethylamino)ethyl)ether and triethylenediamine. There is a risk of eye and mucous membrane irritation. The product does not comply with the requirements of the Toy Safety Directive.	Stop of sales, Withdrawal of the product from the market
A12/1089/19	Sweden	Squeezable toy (Country of Origin: China)		Chemical The product contains the substances dimethylformamide, cyclohexanone, bis (2-(dimethylamino) ethyl) ether) and triethylenediamine. There is a risk of eye and mucous membrane irritation. The product does not comply with the requirements of the Toy Safety Directive.	Stop of sales, Withdrawal of the product from the market
A12/1090/19	Sweden	Squeezable toy (Country of Origin: China)		Chemical The product contains the substances N,N-dimethylformamide, cyclohexanone, bis (2-(dimethylamino) ethyl) ether) and triethylenediamine. There is a risk of eye and mucous membrane irritation. The product does not comply with the requirements of the Toy Safety Directive.	Stop of sales, Withdrawal of the product from the market

Alert No.	Notifying Country	Product	Product Photo	Hazard/ Risk	Measures Adopted
A12/1097/19	Poland	Plastic doll set (Country of Origin: China)		Chemical The plastic of the pony contains an excessive amount of bis(2-ethylhexyl) phthalate (DEHP) (measured value: 30 % by weight). This phthalate may harm the health of children, causing possible damage to their reproductive system. The product does not comply with the REACH Regulation.	Withdrawal of the product from the market
A12/1099/19	United Kingdom	Toy slime kit (Country of Origin: United Kingdom)		Chemical The migration of boron from the toy slime is too high (measured value: 1080 mg/kg). Ingestion or contact with an excessive quantity of boron may harm the health of children by damaging their reproductive system. The product does not comply with the requirements of the Toy Safety Directive and the relevant European standard EN 71-3.	Recall of the product from end users
A12/1106/19	United Kingdom	Teething Ring (Country of Origin: United Kingdom)		Choking The small beads can be easily detached and the clip can easily break generating small parts. A child could put one of these in the mouth and choke on it. The product does not comply with the Toy Safety Directive and the relevant European standard EN71 -1.	Recall of the product from end users
A11/0044/19	Slovakia	Plush toy (Country of Origin: China)		Choking The fibrous stuffing material of the toy is easily accessible due to the weakness of certain seams. A small child may put the stuffing material into the mouth and choke. The product does	Recall of the product from end users, Warning consumers of the risks, Withdrawal of

				not comply with the requirements of the Toy Safety Directive and the relevant European standards EN 71-1.	the product from the market
A12/1107/19	Austria	Baby doll (Country of Origin: China)		Chemical The plastic material of the head and the arms of the doll contain an excessive amount of bis(2-ethylhexyl) phthalate (DEHP) (measured value: 9.9% and 9.7% by weight respectively). These phthalates may harm the health of children, causing possible damage to their reproductive system. The product does not comply with the REACH Regulation.	Withdrawal of the product from the market
A12/1116/19	Poland	Toy mobile phone (Country of Origin: China)		Environment Four solders in the toy contain an excessive amount of lead (measured value up to 69.5% by weight) and three solders contain an excessive amount of cadmium (measured value up to 0.25% by weight). Lead and cadmium pose a risk to the environment. The product does not comply with the requirements of the Commission Directive on the restriction of the use of certain hazardous substances in electrical and electronic equipment (RoHS 2 Directive).	Withdrawal of the product from the market
A12/1117/19	Poland	Toy cash register (Country of Origin: China)		Environment Four solders in the toy contain an excessive amount of lead and cadmium (measured values up to 60.5% and 0.13% by weight respectively). Lead and cadmium pose a risk to the environment. The product does not comply with the requirements of the Commission Directive on the restriction of the use of certain hazardous substances in electrical and electronic equipment (RoHS 2 Directive).	Withdrawal of the product from the market

Alert No.	Notifying Country	Product	Product Photo	Hazard/ Risk	Measures Adopted
A12/1118/19	Czech Republic	Plastic toy (Country of Origin: China)		<p>Environment Four solders in the toy contain an excessive amount of lead (measured value up to 77% by weight) and three solders contain an excessive amount of cadmium (measured value up to 0.33% by weight respectively).</p> <p>Lead and cadmium pose a risk to the environment. The product does not comply with the requirements of the Commission Directive on the restriction of the use of certain hazardous substances in electrical and electronic equipment (RoHS 2 Directive).</p>	Withdrawal of the product from the market
A12/1120/19	Lithuania	Rattle toy (Country of Origin: China)		<p>Choking The rattle can easily break releasing the handle, which is too long, and also small plastic pieces.</p> <p>A small child could put either the handle or the small pieces in the mouth and choke on either of them. The product does not comply with the requirements of the Toy safety Directive and the relevant European standard EN 71-1.</p>	Withdrawal of the product from the market
A12/1124/19	Poland	Plastic toy set (Country of Origin: China)		<p>Chemical The plastic material of the pony contains bis(2-ethylhexyl) phthalate (DEHP) (measured value: 25.8% by weight).</p> <p>This phthalate may harm the health of children, causing possible damage to the reproductive system. The product does not comply with the REACH Regulation.</p>	Withdrawal of the product from the market
A12/1125/19	Germany	Toy ball (Country of Origin: China)		<p>Microbiological While playing with the ball, liquid may leak out. The liquid contains an excessive amount of aerobic mesophilic bacteria (measured amount up to 94 000 cfu/g) and the presence of stentrophomonas maltophilia has been detected.</p> <p>If used on damaged skin or by</p>	Withdrawal of the product from the market

Alert No.	Notifying Country	Product	Product Photo	Hazard/ Risk	Measures Adopted
				immunocompromised users, or if it comes into contact with the eyes or mucous membrane, the product may cause infection or irritation. The product does not comply with the requirements of the Toy Safety Directive.	
A12/1126/19	Luxembourg	Slime toy (Country of Origin: Unknown)		Chemical The migration of boron from the slime is too high (measured value 2360 mg/kg). Ingestion or contact with an excessive quantity of boron may harm the health of children by damaging the reproductive system. Moreover, a child could choke on the packaging in the shape of a small ball when trying to open it with its teeth. The product does not comply with the requirements of the Toy Safety Directive and the relevant European standards EN 71-1 and EN 71-3.	Ban on the marketing of the product and any accompanying measures, Ban on the marketing of the product and any accompanying measures
A12/1127/19	Poland	Toy drum (Country of Origin: China)		Strangulation The strap attached has no quick release mechanism. If worn around the neck, it could form a loop and become trapped, leading to strangulation. The product does not comply with the requirements of the Toy Safety Directive and the relevant European standard EN 71-1.	Withdrawal of the product from the market
A12/1128/19	Poland	Toy police set (Country of Origin: China)		Choking The suction cups of the projectiles can easily detach. If a child puts the projectile in the mouth, the suction cup could detach and obstruct the airways. The product does not comply with the requirements of the Toy Safety Directive or the relevant European standard EN 71-1.	Withdrawal of the product from the market
A12/1134/19	Slovakia	Plush toy (Country of Origin: China)		Choking The eyes and the suction cup can easily detach from the toy, generating small parts A small child may put these small parts in the mouth and choke. The product does not comply with the requirements of the Toy Safety Directive and the relevant European standard EN 71-1.	Recall of the product from end users, Warning consumers of the risks, Withdrawal of the product from the market

Alert No.	Notifying Country	Product	Product Photo	Hazard/ Risk	Measures Adopted
A12/1135/19	Slovakia	Plush toy (Country of Origin: China)		Choking The nose and the suction cup can easily detach from the toy, generating small parts. A small child may put these small parts in the mouth and choke. The product does not comply with the requirements of the Toy Safety Directive and the relevant European standard EN 71-1.	Recall of the product from end users, Warning consumers of the risks, Withdrawal of the product from the market
A12/1136/19	Slovakia	Plush toy (Country of Origin: China)		Choking The eyes, the nose and the suction cup can easily detach from the toy, generating small parts. A child could put the small part in the mouth and choke on it. The product does not comply with the requirements of the Toy Safety Directive and the relevant European standard EN 71-1.	Recall of the product from end users, Warning consumers of the risks, Withdrawal of the product from the market
A12/1139/19	United Kingdom	Plush toy rabbit (Country of Origin: China)		Choking The fibrous stuffing material of the toy is easily accessible due to the weakness of certain seams. A small child may put the stuffing material in the mouth and choke. The product does not comply with the requirements of the Toy Safety Directive and with the relevant European standards EN 71-1.	Import rejected at border
A11/0047/19	France	Soft toy (Country of Origin: China)		Choking The fibrous stuffing material of the toy is easily accessible due to the weakness of certain seams. A small child may put the stuffing material in the mouth and choke. The product does not comply with the requirements of the Toy Safety Directive and with the relevant European standards EN 71-1.	Recall of the product from end users, Withdrawal of the product from the market
A11/0048/19	United Kingdom	Soft toy (Country of Origin: China)		Choking The nose and eyes of the toy can be easily detached. A small child may put them in the mouth and choke on them. The product does not comply with the requirements of the Toy Safety Directive and the relevant European standard EN 71-1.	Recall of the product from end users
A12/1151/19	France	Interactive soft toy		Burns The surface of the battery compartment can overheat.	Recall of the product from end users,

Alert No.	Notifying Country	Product	Product Photo	Hazard/ Risk	Measures Adopted
		(Country of Origin: China)		This can lead to a risk of burns for children. The product does not comply with the requirements of the Toy Safety Directive and the relevant European standard EN 62115.	Withdrawal of the product from the market
A12/1152/19	Germany	Slacker eagle (Country of Origin: United States)		Injuries The hand slide can easily break. As a consequence, a child could lose balance and fall down. The product does not comply with the relevant European standard EN 71-1.	Recall of the product from end users
A12/1153/19	France	Toy experimental kit (Country of Origin: Portugal)		Chemical The plastic frame of the protective goggles contains bis(2-ethylhexyl) phthalate (DEHP) (measured value: 12.7 % by weight). This phthalate may harm the health of children, causing possible damage to their reproductive system. The product does not comply with the REACH Regulation.	Recall of the product from end users, Withdrawal of the product from the market
A12/1158/19	Hungary	Toy slime (Country of Origin: China)		Chemical The content of Boron in the toy slime is too high (declared value up to: 1289 mg/kg). Ingestion or contact with an excessive quantity of boron may harm the health of children by damaging the reproductive system. The product does not comply with the requirements of the Toy Safety Directive and the relevant European standard EN 71-3.	Recall of the product from end users, Withdrawal of the product from the market
A12/1169/19	Hungary	Fancy-dress mask (Country of Origin: China)		Burns The fancy-dress mask is highly flammable and does not self-extinguish. When catching fire, the child could suffer burns. The product does not comply with the requirements of the Toy Safety Directive and the relevant European standard EN 71-2.	Recall of the product from end users, Withdrawal of the product from the market

Alert No.	Notifying Country	Product	Product Photo	Hazard/ Risk	Measures Adopted
INFO/0088/19	Poland	Soft toy (Country of Origin: Unknown)		Choking Small parts (the eyes, the nose) may be easily detached from the toy. In addition, the fibrous stuffing material of the toy is easily accessible due to the weakness of certain seams. A small child may put the detached elements or the stuffing material in the mouth and choke on them. The product does not comply with the requirements of the Toy Safety Directive and the relevant European standard EN 71-1.	Withdrawal of the product from the market
INFO/0089/19	Denmark	Plastic toy (Country of Origin: Unknown)		Chemical The toy contains an excessive amount of bis(2-ethylhexyl) phthalate (DEHP) (measured value: 18.3% by weight). This phthalate may harm the health of children, causing possible damage to their reproductive system. The product does not comply with the REACH Regulation.	Removal of the products from the Wish platform
INFO/0090/19	Denmark	Plastic toy (Country of Origin: Unknown)		Chemical The product contains an excessive amount of bis(2-ethylhexyl) phthalate (DEHP) (measured value: 20% by weight). This phthalate may harm the health of children, causing possible damage to their reproductive system. The product does not comply with the REACH Regulation.	Removal of the products from the eBay platform
INFO/0091/19	Denmark	Plastic figures (Country of Origin: Unknown)		Chemical The toy contains an excessive amount of di-(2-ethylhexyl) phthalate (DEHP) (measured value: 21% by weight). The phthalate may harm the health of children, causing possible damage to the reproductive system. The product does not comply with the REACH Regulation and with the requirements of the Toy Safety Directive and the relevant European Standard EN 71-1.	Removal of the products from the Wish platform

RAPEX – Rapid Exchange of Information System

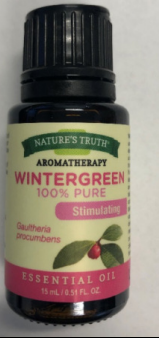

The Rapid Alert System enables the rapid exchange of information (RAPEX) between [31 European countries](#) and the European Commission on non- food dangerous products found on the market posing a risk to health and safety of consumers.

A weekly overview of the alerts on those products is published in English for free on <http://ec.europa.eu/rapex>. The measures taken in the notifying country in order to restrict their marketing or use can be ordered by national authorities ("compulsory measures") or be taken directly by producers and distributors ("voluntary measures").

The official contact points of the Member and EFTA-EEA States provide the information published in these weekly overviews. Under the terms of Annex II.10 of the General Product Safety Directive (2001/95/EC) responsibility for the information provided lies with the notifying party. The Commission does not take any responsibility for the accuracy of the information provided.

Recall Summary – US Toys / Children’s Products

CPSC Recall List (Jul 2019)

Recall No.	Notifying Country	Product	Product Photo	Hazard/ Risk	Remedy
19-156	USA	Faraday electric Porteur, Porteur S, Cortland and Cortland S Bicycle Seat Posts (Country of Origin: Taiwan)		Fall the seat post on the bicycles can break, posing a fall hazard to the rider.	Consumers should immediately stop using the recalled bikes and contact Faraday for information on how to receive a free seat post replacement and free installation at a specialty bicycle retailer.

The United States Consumer Product Safety Commission (CPSC) is an independent agency of the United States government. To provide better service in alerting the American people to unsafe, hazardous or defective products, a “one stop shop” for U.S. Government recalls, www.recalls.gov, has been created. Publics can report unsafe products to CPSC by using the platform.

The recall list is divided into seven categories: Consumer Products, Motor Vehicles, Boats, Food, Medicine, Cosmetics and Environmental Products. Generally, the recall was conducted, voluntarily by the company, under CPSC’s Fast Track Recall program. Fast Track recalls are initiated by firms who commit to work with CPSC to quickly announce the recall and remedy to protect consumers.

Australian Product Safety System

The Australian product safety system is to maximize the safety of good by the cooperation of consumers, businesses and agencies. This policy sets out the principles adopted by the Australian Competition and Consumer Commission (ACCC) for prioritizing and addressing product safety risks.

Under the Australian Consumer Law, a responsible Minister can order a compulsory recall when there are hazards on the products. A voluntary recall could be conducted to remove the product from the marketplace when the suppliers become aware of unsafe or defective products.

The ACCC administers a national recalls system for recalls of specific and general consumer products, and publishes all product recalls on the website <https://www.productsafety.gov.au/recalls>.

STC (The Hong Kong Standards and Testing Centre) is a not-for-profit, independent testing, inspection and certification organization. With a global network of ISO/IEC 17025 accredited testing laboratories and over 50 years of experience in consumer product testing, we can meet your conformity assessment needs with highly efficient and reliable service. Our testing scope and capabilities related to toys and children's products include but not limited to:
