

Recall Summary – European Toys

Published: 12 November 2019
RAPEX notification (Oct 2019)

Alert No.	Notifying Country	Product	Product Photo	Hazard/ Risk	Measures Adopted
A12/1442/19	Estonia	Plastic doll (Country of Origin: China)		Chemical The plastic material of the product contains an excessive amount of bis(2-ethylhexyl) phthalate (DEHP) (measured value over 20 % by weight). This phthalate may harm the health of children, causing possible damage to their reproductive system. The product does not comply with the REACH Regulation.	Withdrawal of the product from the market
A12/1443/19	Germany	Street chalk (Country of Origin: China)		Chemical There is an excessive migration of lead from the yellow and red chalk (measured value up to 36.8 mg/kg). Exposure to lead can result in severe and irreversible neurotoxicity, particularly in the case of children. The product does not comply with the requirements of the Toy Safety Directive and the relevant European standard EN 71-3.	Destruction of the product, Recall of the product from end users, Warning consumers of the risks, Withdrawal of the product from the market
A12/1446/19	Germany	Wood pencil set (Country of Origin: China)		Chemical, Health risk / other There is an excessive migration of lead from the lead and coating of the pencils (measured values up to: 1442 mg/kg). A child using the pencils could put one in the mouth and suck on it and become exposed to lead. Exposure to lead can result in severe and irreversible neuro-behavioural and neuro-developmental effects to which children are particularly sensitive. The product does not comply with the Toy Safety Directive and with the relevant European standard EN 71-3.	Recall of the product from end users, Warning consumers of the risks, Withdrawal of the product from the market
A12/1447/19	France	Play gym frame (Country of Origin: China)		Choking The foot of the frame of the toy can detach, generating small parts. As a consequence, a small child may put it in the mouth and choke. The product does not comply with the requirements of the	Bringing the product into compliance

Alert No.	Notifying Country	Product	Product Photo	Hazard/ Risk	Measures Adopted
				Toy Safety Directive and the relevant European standard EN 71-1.	
A12/1455/19	Finland	Coloured pencil set (Country of Origin: China)		Chemical The banana-scented colour pencil contains eugenol (measured value: 0,05 %), which use in toys is prohibited. Eugenol is a sensitizing fragrance and could trigger allergic reactions. The product does not comply with the requirements of the Toy Safety Directive.	Import rejected at border
A12/1458/19	United Kingdom	Children's backpack (Country of Origin: China)		Choking, Strangulation, Suffocation Small parts (button and zip tag) of the product can be easily detached. A small child might put one of them in the mouth and choke. Additionally, the fabric in the back panel of the bag is impermeable to air and the plastic in which is delivered is too thin. If any of them would be put against the nose and mouth of the child, it would lead to asphyxiation. Furthermore, the fixed loops in the product are too big. Consequently, a child might put the head in it and be strangled. The product does not comply with the requirements of the Toy Safety Directive and the relevant European standard EN71-1.	Recall of the product from end users
A12/1459/19	United Kingdom	Inflatable airplane swim ring (Country of Origin: China)		Chemical The plastic material of the product contains an excessive amount of bis(2-ethylhexyl) phthalate (DEHP) and di-'isononyl' phthalate (DINP) (measured values at least: 1.0 % and 0.6% by weight, respectively). These phthalates may harm the health of children, causing possible damage to their reproductive system and liver. The product does not comply with the REACH Regulation.	Recall of the product from end users

Alert No.	Notifying Country	Product	Product Photo	Hazard/ Risk	Measures Adopted
A12/1460/19	Poland	Plastic doll set (Country of Origin: China)		Chemical The plastic material of the doll's head contains an excessive amount of bis(2-ethylhexyl) phthalate (DEHP) (measured value: 31 % by weight). This phthalate may harm the health of children, causing possible damage to their reproductive system. The product does not comply with the REACH Regulation.	Withdrawal of the product from the market
A12/1461/19	Poland	Toy fishing set (Country of Origin: China)		Chemical The plastic material of the ducks contains an excessive amount of bis(2-ethylhexyl) phthalate (DEHP) (measured value: 17 % by weight). This phthalate may harm the health of children, causing possible damage to their reproductive system. The product does not comply with the REACH Regulation.	Withdrawal of the product from the market
A12/1462/19	United Kingdom	Wooden train set (Country of Origin: China)		Choking, Injuries Small parts with a high magnetic flux (carriage buffers) can easily be detached from the toy. If a small child puts the small magnet in the mouth, it could lead to choking. If the small magnet and other metallic objects are swallowed, they could attract one another causing intestinal blockage or perforation. The product does not comply with the requirements of the Toy Safety Directive and the relevant European standard EN 71-1.	Withdrawal of the product from the market
A12/1471/19	Poland	Rattle toy (Country of Origin: China)		Choking, Damage to hearing The product has two protruding pieces which are too long and the sound level is too high. When playing with the toy or if put it in the mouth, a small child could get injured or choke on it. If the toy is used close to the ear, it could cause damage to hearing. The product does not comply with the requirements of the Toy Safety Directive and with the relevant European standard EN 71-1.	Withdrawal of the product from the market

Alert No.	Notifying Country	Product	Product Photo	Hazard/ Risk	Measures Adopted
INFO/0108/19	United Kingdom	Air Drying Modelling Clay (Country of Origin: China)		Chemical The migration of boron from the yellow clay is too high (measured value: 1777 mg/kg). Ingestion or contact with an excessive quantity of boron may harm the health of children by damaging their reproductive system. The product does not comply with the requirements of the Toy Safety Directive and the relevant European standard EN 71-3.	Withdrawal of the product from the market
INFO/0109/19	Poland	Hanging plastic doll (Country of Origin: China)		Chemical The plastic material of the doll's head contains an excessive amount of bis(2-ethylhexyl) phthalate (DEHP) (measured value: 0,36 % by weight). This phthalate may harm the health of children, causing possible damage to their reproductive system. The product does not comply with the REACH Regulation.	Destruction of the product
INFO/0110/19	Poland	Plastic doll (Country of Origin: China)		Chemical The plastic material of the head of the doll contains an excessive amount of bis(2-ethylhexyl) phthalate (DEHP) (measured value: 17 % by weight). This phthalate may harm the health of children, causing possible damage to their reproductive system. The product does not comply with the REACH Regulation.	Destruction of the product
INFO/0111/19	Poland	Soft toy (Country of Origin: China)		Chemical The plastic material of the suction cup contains an excessive amount of bis(2-ethylhexyl) phthalate (DEHP) (measured value: 31 % by weight). This phthalate may harm the health of children, causing possible damage to their reproductive system. The product does not comply with the REACH Regulation.	Destruction of the product

Alert No.	Notifying Country	Product	Product Photo	Hazard/ Risk	Measures Adopted
A12/1479/19	Poland	Rattle toy (Country of Origin: China)		Choking The product can easily break, releasing small parts. A child may put the small parts in the mouth and choke. The product does not comply with the requirements of the Toy Safety Directive and the relevant European standard EN 71-1.	Withdrawal of the product from the market
A12/1480/19	Latvia	Plastic doll (Country of Origin: China)		Chemical The plastic material of the product contains an excessive amount of di-'isononyl' phthalate (DINP) and bis(2-ethylhexyl) phthalate (DEHP)(measured values: 28 % and 15 % by weight, respectively). These phthalates may harm the health of children, causing possible damage to their reproductive system and liver. The product does not comply with the REACH Regulation.	Destruction of the product
A12/1481/19	Latvia	Plastic doll (Country of Origin: China)		Chemical The plastic material of the product contains an excessive amount of di-'isononyl' phthalate (DINP)(measured value: 2 % by weight). This phthalate may harm the health of children, causing possible damage to their reproductive system and liver. The product does not comply with the REACH Regulation.	Destruction of the product
A12/1482/19	Hungary	Plastic doll on a bicycle (Country of Origin: China)		Chemical The plastic material of the doll contains an excessive amount of bis(2-ethylhexyl) phthalate (DEHP) and dibutyl phthalate (DBP) (measured values: 1.00 % and 0.15 % by weight, respectively). These phthalates may harm the health of children, causing possible damage to their reproductive system. The product does not comply with the REACH Regulation.	Destruction of the product, Import rejected at border

Alert No.	Notifying Country	Product	Product Photo	Hazard/ Risk	Measures Adopted
A12/1484/19	France	Plastic toy (Country of Origin: China)	  	<p>Chemical The product releases an excessive amount of Nitrosatable substances (measured value: 2.7 mg/kg).</p> <p>Nitrosatable compounds can be converted into nitrosamines, which are genotoxic carcinogens via inhalation, ingestion or dermal exposure. A child can get exposed to them by putting the giraffe in the mouth. The product does not comply with Toy Safety Directive and with the relevant European Standard EN 71112.</p>	Recall of the product from end users
A12/1486/19	Czech Republic	Plastic doll with accessories (Country of Origin: China)	 	<p>Chemical The doll contains 2-ethylhexyl phthalate (DEHP) (measured value: up to 3% by weight).</p> <p>This phthalate may harm the health of children, causing possible damage to the reproductive system. The product does not comply with the REACH Regulation.</p>	Withdrawal of the product from the market
A12/1488/19	France	Bubble gun with LED (Country of Origin: United Kingdom)	 	<p>Damage to sight, Microbiological The lights of the LED are too powerful and the toy contains aerobic bacteria (measured value up to: 2410 cfu/g)</p> <p>If played with by children with compromised or weakened immunity, the product may cause infection or irritation. Direct viewing of the lights could damage sight. The product does not comply with the requirements of the Toy Safety Directive and the relevant European standard EN 62115.</p>	Recall of the product from end users, Withdrawal of the product from the market

Alert No.	Notifying Country	Product	Product Photo	Hazard/ Risk	Measures Adopted
A12/1495/19	Latvia	Plastic doll (Country of Origin: China)		Chemical The plastic material of the product contains an excessive amount of bis(2-ethylhexyl) phthalate (DEHP), dibutyl phthalate (DBP) and di-'isononyl' phthalate (DINP)(measured values: 14 %, 0,6 % and 9,9 % by weight, respectively). These phthalates may harm the health of children, causing possible damage to their reproductive system and liver. The product does not comply with the REACH Regulation.	Recall of the product from end users
A12/1501/19	Poland	Toy gun (Country of Origin: China)		Environment Four solders in the toy contain an excessive amount of lead (measured values up to 76.5%) and two solders contain cadmium (measured values up to 0.33% by weight). Lead and cadmium pose a risk to the environment. The product does not comply with the requirements of the Commission Directive on the restriction of the use of certain hazardous substances in electrical and electronic equipment (RoHS 2 Directive).	Withdrawal of the product from the market
A11/0065/19	Germany	Toy slime (Country of Origin: France)		Chemical The migration of boron from the toy slime is too high (measured value up to 469 mg/kg, yellow slime; 573 mg/kg orange slime). Ingestion or contact with an excessive quantity of boron may harm the health of children by damaging the reproductive system. The product does not comply with the requirements of the Toy Safety Directive and the relevant European standard EN 71-3.	Ban on the marketing of the product and any accompanying measures. Ban on the marketing of the product and any accompanying measures

Alert No.	Notifying Country	Product	Product Photo	Hazard/ Risk	Measures Adopted
A12/1510/19	Hungary	Plastic toy set (Country of Origin: China)		Chemical The plastic material of the toy contains an excessive amount of bis(2-ethylhexyl) phthalate (DEHP) (measured value: 32% by weight). This phthalate may harm the health of children, causing possible damage to the reproductive system. The product does not comply with the REACH Regulation.	Withdrawal of the product from the market
A12/1517/19	Sweden	Toy slime (Country of Origin: China)		Chemical The migration of boron from the toy slime is too high (measured value up to 733 mg/kg). Ingestion or contact with an excessive quantity of boron may harm the health of children by damaging their reproductive system. The product does not comply with the requirements of the Toy Safety Directive and the relevant European standard EN 71-3.	Withdrawal of the product from the market
A12/1518/19	Sweden	Toy slime (Country of Origin: China)		Chemical The migration of boron from the toy slime is too high (measured value up to 642 mg/kg). Ingestion or contact with an excessive quantity of boron may harm the health of children by damaging their reproductive system. The product does not comply with the requirements of the Toy Safety Directive and the relevant European standard EN 71-3.	Withdrawal of the product from the market
A12/1519/19	Sweden	Toy slime (Country of Origin: China)		Chemical The migration of boron from the toy slime is too high (measured value up to 784 mg/kg) Ingestion or contact with an excessive quantity of boron may harm the health of children by damaging their reproductive system. The product does not comply with the requirements of the Toy Safety Directive and the relevant European standard EN 71-3.	Withdrawal of the product from the market

Alert No.	Notifying Country	Product	Product Photo	Hazard/ Risk	Measures Adopted
A12/1520/19	Sweden	Toy slime (Country of Origin: China)		Chemical The migration of boron from the toy slime is too high (measured value up to 1098 mg/kg). Ingestion or contact with an excessive quantity of boron may harm the health of children by damaging their reproductive system. The product does not comply with the requirements of the Toy Safety Directive and the relevant European standard EN 71-3.	Withdrawal of the product from the market
A12/1521/19	Sweden	Toy slime (Country of Origin: China)		Chemical The migration of boron from the toy slime is too high (measured value up to 1092 mg/kg). Ingestion or contact with an excessive quantity of boron may harm the health of children by damaging their reproductive system. The product does not comply with the requirements of the Toy Safety Directive and the relevant European standard EN 71-3.	Withdrawal of the product from the market
A12/1522/19	Sweden	Toy slime (Country of Origin: China)		Chemical The migration of boron from the toy slime is too high (measured value up to 881 mg/kg). Ingestion or contact with an excessive quantity of boron may harm the health of children by damaging their reproductive system. The product does not comply with the requirements of the Toy Safety Directive and the relevant European standard EN 71-3.	Withdrawal of the product from the market
A12/1529/19	Hungary	Plastic doll with accessories (Country of Origin: China)		Chemical The product contains an excessive amount of bis(2-ethylhexyl) phthalate (DEHP) (measured value: 11 % by weight) and dibutyl phthalate (DBP) (measured value: 3.6 % by weight). These phthalates may harm the health of children, causing possible damage to the reproductive system. The product does not comply with the REACH Regulation.	Destruction of the product, Import rejected at border

Alert No.	Notifying Country	Product	Product Photo	Hazard/ Risk	Measures Adopted
A12/1530/19	Hungary	Plastic doll with accessories (Country of Origin: China)		Chemical The plastic material of the doll's head contains 2-ethylhexyl phthalate (DEHP) (measured value: 31 % by weight). This phthalate may harm the health of children, causing possible damage to the reproductive system. The product does not comply with the REACH Regulation.	Destruction of the product, Import rejected at border
A12/1537/19	France	Fancy-dress mask (Country of Origin: China)		Burns The fancy-dress mask is flammable, does not self-extinguish and the fire spreads rapidly on it. If the mask catches fire, the child could suffer burns. The product does not comply with the requirements of the Toy Safety Directive and the relevant European standard EN 71-2.	Recall of the product from end users, Withdrawal of the product from the market
A12/1544/19	Lithuania	Beach toy set (Country of Origin: China)		Choking There are small parts in the toy that can get loose. If a child puts the small parts in the mouth, they could block the child's airways. The product does not comply with the requirements of the Toy Safety Directive and the relevant European standard EN 71-1.	Withdrawal of the product from the market
A12/1547/19	Finland	Wooden puzzle (Country of Origin: China)		Choking Small parts (knobs) can be detached from the toy. A child could put the small parts in the mouth and choke on them. The product does not comply with the requirements of the Toy Safety Directive and the relevant European Standard EN 71-1.	Import rejected at border

Alert No.	Notifying Country	Product	Product Photo	Hazard/ Risk	Measures Adopted
A12/1550/19	Hungary	Soft toy with suction cup (Country of Origin: China)	  	<p>Chemical, Choking</p> <p>Small parts (plastic eyes and suction cup) may be easily detached from the toy. The fibrous stuffing material of the toy is easily accessible due to the weakness of certain seams. In addition, the suction cup contains an excessive amount di (2-ethylhexyl) phthalate (DEHP) (measured value: 35 % by weight).</p> <p>A small child may put the detached small parts or the stuffing material in the mouth and choke. At the same time, this phthalate may harm the health of children, causing possible damage to the reproductive system. The product does not comply with the REACH Regulation and with the requirements of the Toy Safety Directive and the relevant European Standard EN 71-1.</p>	Destruction of the product, Import rejected at border
A12/1551/19	Hungary	Soft toy with suction cup (Country of Origin: China)	  	<p>Chemical, Choking</p> <p>Small parts may be easily detached from the toy. In addition, the fibrous stuffing material of the toy is easily accessible due to the weakness of certain seams. The suction cup contains an excessive amount di (2-ethylhexyl) phthalate (DEHP) (measured value: 22 % by weight) and dibutyl phthalate (DBP) (measured value: 7.2 % by weight).</p> <p>A small child may put the detached small parts or the stuffing material in the mouth and choke. At the same time, this phthalate may harm the health of children, causing possible damage to the reproductive system. The product does not comply with the REACH Regulation and with the requirements of the Toy Safety Directive and the relevant European Standard EN 71-1.</p>	Destruction of the product, Import rejected at border

Alert No.	Notifying Country	Product	Product Photo	Hazard/ Risk	Measures Adopted
A12/1568/19	Hungary	Plastic doll set (Country of Origin: China)		Chemical The plastic material of the doll contains an excessive amount of bis(2-ethylhexyl) phthalate (DEHP) and dibutyl phthalate (DBP) (measured values: 33 % and 0.69 % by weight, respectively). These phthalates may harm the health of children, causing possible damage to their reproductive system. The product does not comply with the REACH Regulation.	Destruction of the product, Import rejected at border
A12/1570/19	Poland	Rattle toy set (Country of Origin: China)		Choking The product has protruding parts and can also easily break, releasing small parts. A child may put the protruding or small parts in the mouth and choke on them. The product does not comply with the requirements of the Toy Safety Directive and the relevant European standard EN 71-1.	Withdrawal of the product from the market
A12/1571/19	Poland	Rattle toy set (Country of Origin: China)		Choking The product has protruding parts and can also easily break, releasing small parts. A child may put the protruding or small parts in the mouth and choke on them. The product does not comply with the requirements of the Toy Safety Directive and the relevant European standard EN 71-1.	Withdrawal of the product from the market
A12/1573/19	Poland	Toy musical instrument set (Country of Origin: China)		Choking, Strangulation The strap of the toy drum has no quick release mechanism. If worn around the neck, it could form a loop and become trapped, leading to strangulation. The handle of some of the instruments is too long. A small child could put it in the mouth and choke. The product does not comply with the requirements of the Toy Safety Directive and the relevant European standard EN 71-1.	Withdrawal of the product from the market
A12/1576/19	United Kingdom	Play mat (Country of Origin: China)		Choking, Suffocation The product has loose small parts (lids of the pens and suction cups). A small child may put one of them in the mouth and choke on it.	Destruction of the product

Alert No.	Notifying Country	Product	Product Photo	Hazard/ Risk	Measures Adopted
				Furthermore, the plastic bag in which the product is packed is too thin. If a child plays with the packaging, the plastic can cover the mouth and nose, causing the child to suffocate. The product does not comply with the requirements of the Toy Safety Directive and the relevant European standard EN 71-1 and the relevant national standard.	
A12/1579/19	Luxembourg	Soft filled toy with suction cup (Country of Origin: China)		Chemical, Choking The plush toy has small parts (eyes and suction cup) that can be easily detached. A small child may put them in the mouth and choke. Furthermore, the plastic material of the suction cup contains an excessive amount of bis(2-ethylhexyl) phthalate (DEHP)(measured value: 1.4 % by weight). This phthalate may harm the health of children, causing possible damage to their reproductive system. The product does not comply with REACH, the requirements of Toy Safety Directive and the relevant European standard EN71-1.	Ban on the marketing of the product and any accompanying measures, Warning consumers of the risks, Withdrawal of the product from the market
A12/1581/19	Hungary	Soft toy (Country of Origin: China)		Choking The toy has small parts (plastic eyes and nose) that can be easily detached. In addition the fibrous stuffing material of the toy is easily accessible due to the weakness of certain seams. A small child may put the small parts or the stuffing material in the mouth and choke on them. The product does not comply with the requirements of the Toy Safety Directive and the relevant European standard EN 71-1.	Destruction of the product, Import rejected at border
A12/1584/19	Sweden	Toy slime (Country of Origin: Unknown)		Chemical The migration of boron from the toy slime is too high (measured value up to 956 mg/kg). Ingestion or contact with an excessive quantity of boron may harm the health of children by damaging their reproductive system. The product does not comply with the requirements of the Toy Safety Directive and the relevant European standard EN 71-3.	This product listing was removed by Wish, Withdrawal of the product from the market

Alert No.	Notifying Country	Product	Product Photo	Hazard/ Risk	Measures Adopted
A12/1585/19	Sweden	Toy slime (Country of Origin: China)		Chemical The migration of boron from the toy slime is too high (measured value up to 731 mg/kg). Ingestion or contact with an excessive quantity of boron may harm the health of children by damaging their reproductive system. The product does not comply with the requirements of the Toy Safety Directive and the relevant European standard EN 71-3.	This product listing was removed by Aliexpress, Withdrawal of the product from the market
A12/1586/19	Sweden	Toy slime (Country of Origin: Unknown)		Chemical The migration of boron from the toy slime is too high (measured value up to 1229 mg/kg). Ingestion or contact with an excessive quantity of boron may harm the health of children by damaging their reproductive system. The product does not comply with the requirements of the Toy Safety Directive and the relevant European standard EN 71-3.	This product listing was removed by Wish, Withdrawal of the product from the market
A12/1587/19	France	Finger paints (Country of Origin: China)		Chemical The white finger paint releases an excessive amount of 4-nitrosomorpholine (NMOR)(measured value: 1,2 mg/ kg). NMOR is a nitrosamine, which may cause cancer through ingestion or dermal exposure. A child could be exposed to it when touching or putting the product in the mouth. The product does not comply with the requirements of the Toy Safety Directive and the relevant European standard EN 71-12.	Withdrawal of the product from the market
A12/1595/19	Poland	Pull along toy (Country of Origin: China)		Choking, Cuts, Suffocation The product has small parts (plastic wheels) that can be easily detached. A child may put them in the mouth and choke. The toy has accessible sharp elements (metal axle), which could cause cuts. The plastic of the packaging is too thin. If a child plays with the packaging, the plastic can cover the mouth and nose, causing the child to suffocate. The product does not comply with the requirements of the Toy Safety Directive and the relevant European standard EN 71-1.	Withdrawal of the product from the market

Alert No.	Notifying Country	Product	Product Photo	Hazard/ Risk	Measures Adopted
A12/1608/19	Belgium	Plastic doll (Country of Origin: China)		Choking Small parts (Velcro closure of the dress) of the product can be easily detached. A small child may put the small part in the mouth and choke. The product does not comply with the requirements of the Toy Safety Directive and the relevant European Standard EN71-1.	Recall of the product from end users
A12/1621/19	Slovenia	Soft toy (Country of Origin: Indonesia)		Choking The chain of the product can easily break releasing the small metal links. A small child may put them in the mouth and choke. The product does not comply with the requirements of the Toy Safety Directive and the relevant European standard EN 71-1.	Recall of the product from end users
A12/1622/19	Croatia	Plastic doll set (Country of Origin: China)		Chemical The plastic material of the product contains an excessive amount of bis(2-ethylhexyl) phthalate (DEHP)(measured value up to: 13 % by weight). This phthalate may harm the health of children, causing possible damage to their reproductive system. The product does not comply with the REACH Regulation.	Destruction of the product, Import rejected at border
A12/1623/19	Poland	Toy gun set (Country of Origin: China)		Choking The suction cups can easily detach from the projectiles. If a child puts the projectile in the mouth, the suction cups may detach and obstruct the airways. The product does not comply with the requirements of the Toy Safety Directive and the relevant European standard EN 71-1.	Withdrawal of the product from the market
A12/1626/19	Poland	Rattle toy (Country of Origin: China)		Choking The toy breaks easily generating small parts. Furthermore, there are protruding parts. A child could put the small parts or the protruding handle in the mouth, which could block the airways and cause choking. The product does not comply with the requirements of the Toy Safety Directive and the relevant European standard EN 71-1.	Withdrawal of the product from the market

Alert No.	Notifying Country	Product	Product Photo	Hazard/ Risk	Measures Adopted
A12/1635/19	United Kingdom	Children's swing (Country of Origin: China)		Strangulation The product is incorrectly labelled as being suitable for small children. The crotch strap can break and the seat back and bottom may come apart, causing the small child to slip down and become trapped by the neck where the two shoulder straps meet, leading to strangulation. The product does not comply with the requirements of the Toy Safety Directive and the relevant European Standard EN 71-8.	Recall of the product from end users
A12/1636/19	United Kingdom	Light up gloves (Country of Origin: Unknown)		Chemical The battery is easily accessible without the use of any tools. A child may put these in the mouth, which could cause damage to the child's gastrointestinal tract. The product does not comply with the requirements of the Toy Safety Directive and the relevant European standard EN 62115.	This product listing was removed by Amazon. Recall of the product from end users
A12/1646/19	Hungary	Soft toy (Country of Origin: China)		Choking The product has small parts (eyes and nose) that can be easily detached. A small child may put them in the mouth and choke. The product does not comply with the requirements of the Toy Safety Directive and the relevant European standard EN 71-1.	Destruction of the product, Import rejected at border
A12/1647/19	Hungary	Soft toy (Country of Origin: China)		Choking The product has small parts (eyes and nose) that can be easily detached. A small child may put them in the mouth and choke. The product does not comply with the requirements of the Toy Safety Directive and the relevant European standard EN 71-1.	Destruction of the product, Import rejected at border

Alert No.	Notifying Country	Product	Product Photo	Hazard/ Risk	Measures Adopted
A12/1648/19	Hungary	Soft toy (Country of Origin: China)		Choking The product has small parts (eyes and nose) that can be easily detached. A small child may put them in the mouth and choke. The product does not comply with the requirements of the Toy Safety Directive and the relevant European standard EN 71-1.	Destruction of the product, Import rejected at border
A12/1650/19	United Kingdom	Balloons (Country of Origin: China)		Chemical The amount of nitrosamines released by the balloons is too high (measured value up to 2.3 mg/kg). Nitrosamines are genotoxic carcinogens via inhalation, ingestion or dermal exposure. A child can get exposed to them by putting the balloon in the mouth. The product does not comply with the requirements of the Toy Safety Directive and the relevant European standard EN 71-12.	Destruction of the product
A12/1653/19	Hungary	Toy microphone (Country of Origin: China)		Damage to hearing The sound level of the toy is too high. It could cause damage to hearing. The product does not comply with the requirements of the Toy Safety Directive and the relevant European standard EN 71-1.	Recall of the product from end users, Withdrawal of the product from the market
A12/1659/19	Czech Republic	Plastic doll (Country of Origin: China)		Chemical The plastic material of the doll's head contains 2-ethylhexyl phthalate (DEHP) (measured value: 21 % by weight). This phthalate may harm the health of children, causing possible damage to the reproductive system. The product does not comply with the REACH Regulation.	Withdrawal of the product from the market

Alert No.	Notifying Country	Product	Product Photo	Hazard/ Risk	Measures Adopted
A12/1660/19	Czech Republic	Plastic doll (Country of Origin: China)		<p>Chemical The plastic material of the doll's head contains 2-ethylhexyl phthalate (DEHP) (measured value: 20.4 % by weight).</p> <p>This phthalate may harm the health of children, causing possible damage to the reproductive system. The product does not comply with the REACH Regulation.</p>	Withdrawal of the product from the market

RAPEX – Rapid Exchange of Information System

The Rapid Alert System enables the rapid exchange of information (RAPEX) between 31 European countries and the European Commission on non- food dangerous products found on the market posing a risk to health and safety of consumers.

A weekly overview of the alerts on those products is published in English for free on <http://ec.europa.eu/rapex>. The measures taken in the notifying country in order to restrict their marketing or use can be ordered by national authorities ("compulsory measures") or be taken directly by producers and distributors ("voluntary measures").

The official contact points of the Member and EFTA-EEA States provide the information published in these weekly overviews. Under the terms of Annex II.10 of the General Product Safety Directive (2001/95/EC) responsibility for the information provided lies with the notifying party. The Commission does not take any responsibility for the accuracy of the information provided.

Recall Summary – US Toys / Children’s Products

CPSC

The United States Consumer Product Safety Commission (CPSC) is an independent agency of the United States government. To provide better service in alerting the American people to unsafe, hazardous or defective products, a “one stop shop” for U.S. Government recalls, www.recalls.gov, has been created. Publics can report unsafe products to CPSC by using the platform.

The recall list is divided into seven categories: Consumer Products, Motor Vehicles, Boats, Food, Medicine, Cosmetics and Environmental Products. Generally, the recall was conducted, voluntarily by the company, under CPSC’s Fast Track Recall program. Fast Track recalls are initiated by firms who commit to work with CPSC to quickly announce the recall and remedy to protect consumers.

Recall Summary – Australia Toys / Children’s Products

ACCC Recall List (Oct 2019)

PRA No.	Notifying Country	Product	Product Photo	Hazard/ Risk	Remedy
2019/17819	Australia	Kid's Choice children's nightwear		These products do not comply with the fire hazard labelling requirements of the mandatory standard 'Consumer Goods (Children's Nightwear and Limited Daywear and Paper Patterns for Children's Nightwear) Safety Standard 2017'.	Consumers should stop using the garments and return them to the place of purchase for a full refund.
2019/17838	Australia	Baby walker (green)		The baby walker does not comply with the labelling requirements of the mandatory standard 'Competition and Consumer Act 2010 - Consumer Protection Notice No. 1 of 2013 - Safety Standard: Baby Walkers'.	Consumers will be contacted by HB Commerce to arrange for a new warning label and instruction manual to replace the warning labels currently on the baby walker.
2019/17842	Australia	MATVRÅ bib blue/red		The snap button on the MATVRÅ bib may detach from the bib.	Consumers should return the product to IKEA for a full refund or to exchange for a similar product. Proof of purchase (receipt) is not required.
2019/17870	Australia	Jack & Milly "Ollie"		The ring snaps may become loose and detach from the garment.	Consumers should stop using the garment and return the product to a Myer store as soon as possible for a refund. A receipt is not required to obtain a refund.

Australian Product Safety System

The Australian product safety system is to maximize the safety of good by the cooperation of consumers, businesses and agencies. This policy sets out the principles adopted by the Australian Competition and Consumer Commission (ACCC) for prioritizing and addressing product safety risks.

Under the Australian Consumer Law, a responsible Minister can order a compulsory recall when there are hazards on the products. A voluntary recall could be conducted to remove the product from the marketplace when the suppliers become aware of unsafe or defective products.

The ACCC administers a national recalls system for recalls of specific and general consumer products, and publishes all product recalls on the website <https://www.productsafety.gov.au/recalls>.

STC (Hong Kong Standards and Testing Centre) is a not-for-profit, independent testing, inspection and certification organization. With a global network of ISO/IEC 17025 accredited testing laboratories and over 50 years of experience in consumer product testing, we can meet your conformity assessment needs with highly efficient and reliable service. Our testing scope and capabilities related to toys and children's products include but not limited to:
