

Recall Summary – European Toys

*Published: 12 December 2019
RAPEX notification (Nov 2019)*

Alert No.	Notifying Country	Product	Product Photo	Hazard/ Risk	Measures Adopted
A12/1663/19	Poland	Toy gun set (Country of Origin: China)		<p>Choking, Injuries</p> <p>The water bullets expand in size by more than 50% when placed in water. If the small bullets are put into the mouth and swallowed by children, they could expand causing fatal occlusion of the respiratory tract or intestinal blockage. Moreover, the foam projectiles can break easily, creating small parts with suction cups.</p> <p>A child playing with the toy may put the projectile in the mouth in order to wet it before shooting. If it breaks, the suction cup could obstruct the airways. The product does not comply with the requirements of the Toy Safety Directive and the relevant European standard EN 71-1.</p>	Withdrawal of the product from the market
A12/1664/19	United Kingdom	Magnetic Building Blocks (Country of Origin: China)		<p>Asphyxiation, Choking</p> <p>The product contains small loose parts and a plastic packaging that can become accessible.</p> <p>A small child could put the small parts in the mouth and choke; and can place the plastic on the face and become asphyxiated. The product does not comply with the requirements of the Toy Safety Directive and the relevant European standard EN 71-1.</p>	Withdrawal of the product from the market
A12/1670/19	Lithuania	Soft-filled toy (Country of Origin: China)		<p>Chemical</p> <p>The battery compartment and the fibrous stuffing material are easily accessible. The product contains an excessive amount of DEHP (Bis (2-ethylhexyl) phthalate (measured value: 9% by weight).</p> <p>A child may put the batteries in the mouth, which could cause damage to the child's gastrointestinal tract. A small</p>	Withdrawal of the product from the market

Alert No.	Notifying Country	Product	Product Photo	Hazard/ Risk	Measures Adopted
				child may put the stuffing material into the mouth and choke. At the same time, this phthalate may harm the health of children, causing possible damage to the reproductive system. The product does not comply with the REACH Regulation and the requirements of the Toy Safety Directive and the relevant European standards EN 71-1 and EN 62115.	
A12/1671/19	Lithuania	Soft-filled toy (Country of Origin: China)		Choking The product contains small parts (the zipper head) that can be easily detached. The fibrous stuffing material can be accessible through a zipper. A small child may put the small parts and the stuffing material into the mouth and choke. The product does not comply with the requirements of the Toy Safety Directive the relevant European Standard EN 71-1.	Withdrawal of the product from the market
A12/1674/19	Latvia	Plastic doll with duck (Country of Origin: Belarus)		Chemical The plastic material of the duck contains an excessive amount of bis(2-ethylhexyl) phthalate (DEHP) (measured value 0.17 % by weight). This phthalate may harm the health of children, causing possible damage to their reproductive system. The product does not comply with the REACH Regulation.	Destruction of the product
A12/1675/19	Lithuania	Soft-filled toy (Country of Origin: China)		Choking A small plastic part can easily detach from the left leg of the doll. A small child may put it in the mouth and choke on it. The product does not comply with the requirements of the Toy Safety Directive and the relevant European standard EN 71-1.	Withdrawal of the product from the market

Alert No.	Notifying Country	Product	Product Photo	Hazard/ Risk	Measures Adopted
A12/1679/19	Poland	Soft toy (Country of Origin: China)		Choking The product has small parts (plastic rhinestone) that can be easily detached. A small child may put the small part in the mouth and choke on it. The product does not comply with the requirements of the Toy Safety Directive and the relevant European standard EN 71-1.	Withdrawal of the product from the market
A12/1680/19	Lithuania	Soft-filled toy (Country of Origin: China)		Chemical, Environment The product contains an excessive amount of bis(2-ethylhexyl) phthalate (DEHP) (measured value: up to 5.8% by weight) in the wires of the toy, and diisobutyl phthalate (DIBP) (measured value 0.79 by weight). These phthalates may harm the environment and the health of children, causing possible damage to their reproductive system. The product does not comply with the REACH Regulation.	Withdrawal of the product from the market
A12/1681/19	Slovenia	Plastic toy gun (Country of Origin: China)		Damage to sight, Injuries The laser beam (blue LED light) is too powerful. If a child directs the LED light to the eye of another person it may cause damage to sight. Moreover, the kinetic energy of the projectile fired from the toy gun is too high and can lead to eye injuries. The product does not comply with the requirements of the Toy Safety Directive and the relevant European Standards EN 71-1 and 60825-1.	Recall of the product from end users

Alert No.	Notifying Country	Product	Product Photo	Hazard/ Risk	Measures Adopted
INFO/0122/19	Germany	Plastic toy (Country of Origin: China)		Chemical The toy contains an excessive amount of bis(2-ethylhexyl) phthalate (DEHP) (measured value: 4.2% by weight). This phthalate may harm the health of children, causing possible damage to the reproductive system. The product does not comply with the REACH Regulation.	Withdrawal of the product from the market
INFO/0123/19	Hungary	Soft toy (Country of Origin: China)		Choking The eyes and the nose can easily detach from the soft toy, generating small parts. A small child may put them in the mouth and choke. The product does not comply with the requirements of the Toy Safety Directive and with the relevant European standard EN 71-1 and EN 62115.	Destruction of the product, Import rejected at border
A11/0066/19	France	Soft toy (Country of Origin: China)		Choking The fibrous stuffing material of the toy is easily accessible due to the weakness of certain seams. A small child may put the stuffing material in the mouth and choke. The product does not comply with the requirements of the Toy Safety Directive and the relevant European Standard EN 71-1.	Recall of the product from end users, Temporary ban on the supply, offer to supply and display of the product, Withdrawal of the product from the market
A12/1703/19	Sweden	Toy slime (Country of Origin: China)		Chemical The migration of boron from the toy slime is too high (measured value up to 775 mg/kg). Ingestion or contact with an excessive quantity of boron may harm the health of children by damaging the reproductive system. The product does not comply with the requirements of the Toy Safety Directive and the relevant European standard EN 71-3.	Withdrawal of the product from the market

Alert No.	Notifying Country	Product	Product Photo	Hazard/ Risk	Measures Adopted
A12/1707/19	Czech Republic	Plastic doll (Country of Origin: China)		Chemical The plastic material of the doll's head contains an excessive amount of 2-ethylhexyl phthalate (DEHP) (measured value: 18.7 % by weight). This phthalate may harm the health of children, causing possible damage to the reproductive system. The product does not comply with the REACH Regulation.	Withdrawal of the product from the market
A12/1717/19	Sweden	Plastic figure (Country of Origin: Unknown)		Chemical The plastic material of the red figure contains 2-ethylhexyl phthalate (DEHP) (measured value up to 15.2 % by weight). This phthalate may harm the health of children, causing possible damage to the reproductive system. The product does not comply with the REACH Regulation.	Withdrawal of the product from the market
INFO/0125/19	Sweden	Plastic figure (Country of Origin: China)		Chemical The plastic material of the figure contains 2-ethylhexyl phthalate (DEHP) (measured value up to 9.6 % by weight). This phthalate may harm the health of children, causing possible damage to the reproductive system. It also contains Cadmium (measured value: 0.012% by weight). Cadmium causes damage to organs if swallowed or inhaled and may cause cancer. The product does not comply with the REACH Regulation.	Withdrawal of the product from the market
A12/1719/19	Cyprus	Soft-filled toys (Country of Origin: China)		Choking A small part (the nose) can easily be detached from the toy. A small child may put it in the mouth and choke on it. The toy does not comply with the requirements of the Toy Safety Directive and the relevant European Standard EN 71-1.	Withdrawal of the product from the market

Alert No.	Notifying Country	Product	Product Photo	Hazard/ Risk	Measures Adopted
A12/1722/19	Sweden	Toy slime (Country of Origin: China)		Chemical The migration of boron from the toy slime is too high (measured value up to 1021 mg/kg). Ingestion or contact with an excessive quantity of boron may harm the health of children by damaging the reproductive system. The product does not comply with the requirements of the Toy Safety Directive and the relevant European standard EN 71-3.	Withdrawal of the product from the market
A12/1724/19	Sweden	Plastic doll with accessories (Country of Origin: China)		Chemical, Environment The plastic material of the dolls contains 2-ethylhexyl phthalate (DEHP) (measured value up to 12.42% by weight). This phthalate may harm the health of children, causing possible damage to the reproductive system. The plastic dolls contain short chain chlorinated paraffins (SCCPs) (measured value up to 2.01%). SCCPs persist in the environment, are toxic to aquatic organisms at low concentrations and bioaccumulate in wildlife and humans, posing a risk to human health and the environment. The product does not comply with the REACH Regulation and with the Regulation on persistent organic pollutants (POP Regulation).	Withdrawal of the product from the market
A12/1731/19	Hungary	Toy scooter (Country of Origin: China)		Injuries The front wheel is too small and could get stuck in holes in the ground and the steering tube is not sufficiently stable. This could cause the child to lose balance and fall off, leading to injuries. The product does not comply with the requirements of the Toy Safety Directive and the relevant European standard EN 71-1.	Recall of the product from end users, Withdrawal of the product from the market

Alert No.	Notifying Country	Product	Product Photo	Hazard/ Risk	Measures Adopted
A12/1733/19	Lithuania	Soft-filled toy (Country of Origin: United States)		Choking, Health risk / other The sequins can easily detach from the toy, generating small parts. A child may put small part into the mouth, where it may block the airways, or may inhale it, leading to infection in the lungs. The product does not comply with the requirements of the Toy Safety Directive and the relevant European standard EN 71-1.	Withdrawal of the product from the market
A12/1734/19	Lithuania	Baby teether set (Country of Origin: China)		Choking Small parts can easily detach from the teethers. A small child may put them in the mouth and choke on them. The product does not comply with the requirements of the Toy Safety Directive and the relevant European standard EN 71-1.	Withdrawal of the product from the market
A12/1740/19	Slovenia	Plastic doll with accessories (Country of Origin: China)		Chemical The plastic material of the doll and the shoes contains an excessive amount of bis(2-ethylhexyl) phthalate (DEHP), di-‘isononyl’ phthalate (DINP) and dibutyl phthalate (DBP) (measured values: 21.4%, 1.2% and 1.2 % by weight, respectively). This phthalate may harm the health of children, causing possible damage to the reproductive system and the liver. The product does not comply with the REACH Regulation.	Recall of the product from end users
A12/1743/19	Hungary	Rattle toy (Country of Origin: China)		Choking, Injuries The product can easily break, releasing small parts. A child may put the small parts in the mouth and choke. The sharp endings of the broken toy may cause injuries. The product does not comply with the requirements of the Toy Safety Directive and the relevant European standard EN 71-1.	Recall of the product from end users, Withdrawal of the product from the market

Alert No.	Notifying Country	Product	Product Photo	Hazard/ Risk	Measures Adopted
A12/1744/19	Hungary	Rattle toy (Country of Origin: Poland)		Choking The product can easily break, releasing small parts. A child may put the small parts in the mouth and choke. The product does not comply with the requirements of the Toy Safety Directive and the relevant European standard EN 71-1.	Recall of the product from end users, Withdrawal of the product from the market
A12/1745/19	Hungary	Rattle toy set (Country of Origin: China)		Choking The product can easily break, releasing small parts. A child may put the small parts in the mouth and choke. The product does not comply with the requirements of the Toy Safety Directive and the relevant European standard EN 71-1.	Recall of the product from end users, Withdrawal of the product from the market
A12/1746/19	Hungary	Mobile phone toy (Country of Origin: China)		Damage to hearing The sound level of the toy is too high. It could cause damage to hearing. The product does not comply with the requirements of the Toy Safety Directive and the relevant European standard EN 71-1.	Recall of the product from end users, Withdrawal of the product from the market
A12/1747/19	Hungary	Mobile phone toy (Country of Origin: China)		Damage to hearing The sound level of the toy is too high. It could cause damage to hearing. The product does not comply with the requirements of the Toy Safety Directive and the relevant European standard EN 71-1.	Withdrawal of the product from the market

Alert No.	Notifying Country	Product	Product Photo	Hazard/ Risk	Measures Adopted
INFO/0127/19	Sweden	Toy slime (Country of Origin: China)		Chemical The migration of boron from the toy slime is too high (measured value up to 1078 mg/kg). Ingestion or contact with an excessive quantity of boron may harm the health of children by damaging the reproductive system. The product does not comply with the requirements of the Toy Safety Directive and the relevant European standard EN 71-3.	Withdrawal of the product from the market
A11/0068/19	Latvia	Soft-filled toy (Country of Origin: China)		Choking The fibrous stuffing material of the toy is easily accessible due to the weakness of certain seams. A small child may put the stuffing material in the mouth and choke on it. The product does not comply with the requirements of the Toy Safety Directive and the relevant European standard EN 71-1.	Recall of the product from end users
A11/0070/19	Czech Republic	Squeezable toy (Country of Origin: China)		Choking The product, due to its characteristic form, colour and size, may be mistaken for foodstuff and small parts can easily be detached. This may lead especially children to put the small pieces in the mouth and choke on them.	Withdrawal of the product from the market
A11/0071/19	Lithuania	Soft-filled toy (Country of Origin: China)		Chemical The wires of the toy contain an excessive amount of di-2-ethylhexyl phthalate (measured value up to 2.4 % by weight). This phthalate may harm the health of children, causing possible damage to the reproductive system. The product does not comply with the REACH Regulation.	Withdrawal of the product from the market

Alert No.	Notifying Country	Product	Product Photo	Hazard/ Risk	Measures Adopted
A11/0072/19	Slovakia	Toy steering wheel (Country of Origin: China)		Chemical The battery compartment lacks a fastening screw and could be opened without the use of a tool, leaving the batteries accessible. A child may put the batteries in the mouth and become exposed to their chemical content. The product does not comply with the requirements of the Toy Safety Directive and the relevant European standard EN 62115.	Ban on the marketing of the product and any accompanying measures, Recall of the product from end users, Warning consumers of the risks, Withdrawal of the product from the market
A12/1758/19	Austria	Whistle (Country of Origin: China)		Damage to hearing The sound pressure level of the toy is too high (measured value up to: 122 dB). This could lead to permanent impairment of hearing. The product does not comply with the requirements of the Toy Safety Directive and the relevant European standard EN 71-1.	Destruction of the product
A12/1761/19	Finland	Soft filled toy with suction cup (Country of Origin: China)		Choking Small parts can easily be detached from the toys. Plastic material of the suction cups contain too much phthalates A child could put them in the mouth and choke on them. The product does not comply with the requirements of Toy Safety Directive and the relevant European standard EN 71-1.	Import rejected at border
A12/1763/19	Luxembourg	Teething ring (Country of Origin: China)		Choking Small parts can easily detach from the toy. A child may put the small part in the mouth and choke on it. The product does not comply with the Toy Safety Directive and the relevant European standard EN71 -1.	Withdrawal of the product from the market

Alert No.	Notifying Country	Product	Product Photo	Hazard/ Risk	Measures Adopted
A12/1766/19	Luxembourg	Wooden toy (Country of Origin: China)		Choking, Strangulation The product contains small balls than can be detached and the cord is too long. As a consequence, a small child may put the them in the mouth and choke on it. Furthermore, a child may get strangled when its neck gets caught in the long cord. The product does not comply with the requirements of the Toy Safety Directive and the relevant European Standard EN 71-1.	Withdrawal of the product from the market
A12/1769/19	Luxembourg	Plastic toy (Country of Origin: China)		Choking, Injuries, Strangulation Small metallic parts can easily detach. The cord of the fishing rod is too long. Some items of the set protrudes too much. A child may put a small part in the mouth and choke on it. A child could get strangled if the too long cord gets entangled around its neck. A child could get injured when falling whilst putting one of the items which protrude. The product does not comply with the requirements Toy Safety Directive and the relevant European standard EN 71-1.	Withdrawal of the product from the market
A12/1770/19	Lithuania	Soft-filled toy (Country of Origin: China)		Choking The accessible plastified foam in the product's wings can be easily broken into small pieces. A small child could put these pieces in the mouth and choke on them. The product does not comply with the requirements of Toy safety Directive and the relevant European standard EN 71-1.	Destruction of the product
A12/1775/19	Latvia	Plastic doll (Country of Origin: China)		Chemical The plastic material of the product contains an excessive amount of di-'isononyl' phthalate (DINP) and bis(2-ethylhexyl) phthalate (DEHP)(measured values: 3,6 % and 0,49 % by weight, respectively). These phthalates may harm the health of children, causing possible damage to their reproductive system and liver. The	Destruction of the product

Alert No.	Notifying Country	Product	Product Photo	Hazard/ Risk	Measures Adopted
A12/1778/19	Hungary	Toy microphone (Country of Origin: China)		product does not comply with the REACH Regulation. Damage to hearing The sound level of the toy is too high. It could cause damage to hearing. The product does not comply with the requirements of the Toy Safety Directive and the relevant European standard EN 71-1.	Withdrawal of the product from the market
A12/1779/19	Malta	Soft-filled Toy (Country of Origin: Unknown)		Choking The plastic sheeting on the product's paws can be easily broken and detached, generating small parts. A small child may put these in the mouth and choke on them. The product does not comply with the requirements of the Toy Safety Directive and the relevant European standard EN 71-1.	Withdrawal of the product from the market
A12/1780/19	Hungary	Interactive soft toy (Country of Origin: China)		Choking Small parts (the eyes and the nose) can easily detach from the soft toy, generating small parts. The battery compartment can be easily opened, leaving batteries accessible. A child may put the batteries in the mouth, which could cause an intestinal irritation. A small child may put them in the mouth and choke. The product does not comply with the Toy Safety Directive and the relevant European standard EN 71-1 and EN 62115.	Destruction of the product, Import rejected at border

Alert No.	Notifying Country	Product	Product Photo	Hazard/ Risk	Measures Adopted
A12/1785/19	Luxembourg	Wooden puzzle (Country of Origin: China)		Choking Small parts can easily detach from the toy (gripping pins of the fruits). A child may put the small part in the mouth and choke on it. The product does not comply with the requirements of the Toy Safety Directive and the relevant European Standard EN 71-1.	This product listing was removed by Amazon., Withdrawal of the product from the market
A12/1786/19	Luxembourg	Wooden toy (Country of Origin: China)		Choking Small parts can be easily detached (bees). A small child may put them in the mouth and choke. The product does not comply with the requirements of the Toy Safety Directive and the relevant European standard EN 71-1.	This product listing was removed by Amazon., Withdrawal of the product from the market
A12/1787/19	Luxembourg	Plastic doll set (Country of Origin: China)		Chemical The toy contains an excessive amount of di-(2-ethylhexyl) phthalate (DEHP), dibutyl phthalate (DBP) and di-'isononyl' phthalate (DINP) (measured value: 19.2%, 0.28%, 0.74% by weight respectively). These phthalates may harm the health of children, causing possible damage to the reproductive system and liver. The product does not comply with the REACH Regulation and the requirements of the Toy Safety Directive.	Withdrawal of the product from the market
A12/1788/19	Luxembourg	Slime toy set (Country of Origin: China)		Chemical The migration of boron from the toy slime is too high (measured value up to 1875 mg/kg). Ingestion or contact with an excessive quantity of boron may harm the health of children by damaging the reproductive system. The product does not comply with the requirements of the Toy Safety Directive and the relevant European standard EN 71-3.	Withdrawal of the product from the market

Alert No.	Notifying Country	Product	Product Photo	Hazard/ Risk	Measures Adopted
A12/1789/19	Luxembourg	Plastic toy set (Country of Origin: China)		Chemical, Choking, Injuries Small parts can be detached. Moreover, sharp parts become accessible. The toy contains an excessive amount of di-(2-ethylhexyl) phthalate (DEHP) and di-'isononyl' phthalate (DINP) (measured value: 14.5%, 1.30% by weight respectively). A small child may put small pieces in the mouth and choke and the sharp parts may cause injuries. The phthalates may harm the health of children, causing possible damage to the reproductive system. The product does not comply with the REACH Regulation and with the requirements of the Toy Safety Directive and the relevant European Standard EN 71-1.	Withdrawal of the product from the market
A12/1790/19	Hungary	Plastic doll set (Country of Origin: China)		Chemical The plastic material of the doll contains 2-ethylhexyl phthalate (DEHP) (measured value: 35 % by weight). This phthalate may harm the health of children, causing possible damage to the reproductive system. The product does not comply with the REACH Regulation.	Recall of the product from end users, Withdrawal of the product from the market
A12/1798/19	Luxembourg	Rattle toy (Country of Origin: China)		Choking Small parts can easily detach from the toy. A child may put the small part in the mouth and choke on it. The product does not comply with the requirements of the Toy Safety Directive and the relevant European Standard EN 71-1.	Withdrawal of the product from the market
A12/1799/19	Luxembourg	Jigsaw puzzle (Country of Origin: China)		Choking Small parts can easily detach from the toy. A child may put the small part in the mouth and choke on it. The product does not comply with the requirements of the Toy Safety Directive and the relevant European Standard EN 71-1.	Withdrawal of the product from the market

Alert No.	Notifying Country	Product	Product Photo	Hazard/ Risk	Measures Adopted
A12/1800/19	Luxembourg	Baby bottle with teethers and rattles (Country of Origin: China)	 	<p>Choking The teat of the feeding bottle can protrude around the base and can detach.</p> <p>As a result, it can enter into the mouth of a child and the child could choke on it. The product does not comply with the requirements of the Toy Safety Directive and the relevant European Standard EN 71-1.</p>	Withdrawal of the product from the market
A12/1803/19	Luxembourg	Soft toy with keyring (Country of Origin: China)	 	<p>Choking, Suffocation Small parts (the ring and the removable fastener) can easily be detached from the toy. A small child may put the small parts in the mouth and choke.</p> <p>Moreover, the plastic of the packaging is too thin and too big: If a child plays with it, the plastic might cover the nose and mouth, causing the child to suffocate. The product does not comply with the requirements of the Toy Safety Directive and the relevant European standard EN 71-1.</p>	This product listing was removed by Amazon. , Withdrawal of the product from the market
A12/1804/19	Hungary	Magnetic fishing toy (Country of Origin: China)		<p>Choking, Injuries The small magnetic hook has a high magnetic flux and can easily become detached.</p> <p>If a small child puts it in the mouth, it could cause choking. If the magnets are swallowed together, they could attract each other, causing intestinal blockage or perforation. The product does not comply with the requirements of the Toy Safety Directive and the relevant European standard EN 71-1.</p>	Recall of the product from end users, Withdrawal of the product from the market

Alert No.	Notifying Country	Product	Product Photo	Hazard/ Risk	Measures Adopted
A12/1806/19	Latvia	Soft-filled toy (Country of Origin: China)		Choking The plastic eyes, the puller of the zipper, the white plastic pieces of the cords and the cables can easily be detached from the toy, generating small parts. A small child could put the small parts in the mouth and choke. The product does not comply with the requirements of the Toy Safety Directive and the relevant European standard EN 71-1.	Destruction of the product
A12/1807/19	Latvia	Soft-filled doll (Country of Origin: China)		Chemical, Choking, Injuries The battery compartment can easily be opened without the use of any tools, giving access to the button cell battery and small parts that can easily be detached (the speaker with a high magnetic flux, the push button, the plate and wires). Moreover, the fibrous stuffing material is easily accessible due to the weakness of certain seams. A child could put the small parts or the button battery into the mouth, which could cause damage to the child's gastrointestinal tract or choking. If the small magnetic part and other metallic objects are swallowed, they could attract one another causing intestinal blockage or perforation. The stuffing material may cause choking if put in the mouth by children. The product does not comply with the requirements of the Toy Safety Directive and the relevant European standards EN 71-1 and EN 62115.	Recall of the product from end users
A12/1809/19	France	Wooden toys (Country of Origin: China)		Strangulation The cord of the toy is too long. It may get wrapped around the child's neck and lead to strangulation. The product does not comply with the requirements of the Toy Safety Directive and the relevant European Standard EN 71-1.	Ban on the marketing of the product and any accompanying measures

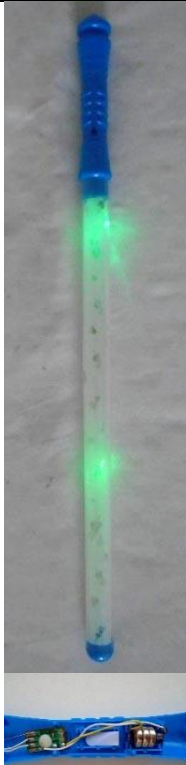

Alert No.	Notifying Country	Product	Product Photo	Hazard/ Risk	Measures Adopted
A12/1812/19	Luxembourg	Musical toy set (Country of Origin: China)		Choking Small parts can easily detach from the different toy musical instruments or they may break. The straps of the toy drum do not have a quick-release mechanism and several parts protrude. A child may put the small parts in the mouth and choke. A child wearing the drum could get strangled when the strap of the drum gets caught in a fixed object. The child could get injured when falling whilst putting the mouthpiece of the trumpet in his mouth. The product does not comply with the requirements of the Toy Safety Directive and the relevant European Standard EN 71-1.	This product listing was removed by Amazon., Withdrawal of the product from the market
A12/1813/19	Slovakia	Plastic doll (Country of Origin: China)		Chemical The plastic material of the doll contains an excessive amount of 2-ethylhexyl phthalate (DEHP) (measured value: 19.4 % by weight). This phthalate may harm the health of children, causing possible damage to the reproductive system. The product does not comply with the REACH Regulation.	Recall of the product from end users, Withdrawal of the product from the market
A12/1814/19	Czech Republic	Plastic doll (Country of Origin: China)		Chemical The plastic material of the doll contains an excessive amount of 2-ethylhexyl phthalate (DEHP) (measured value up to 18.7 % by weight). This phthalate may harm the health of children, causing possible damage to the reproductive system. The product does not comply with the REACH Regulation.	Withdrawal of the product from the market

Alert No.	Notifying Country	Product	Product Photo	Hazard/ Risk	Measures Adopted
A12/1815/19	Czech Republic	Plastic doll (Country of Origin: China)		Chemical The plastic material of the doll contains an excessive amount of 2-ethylhexyl phthalate (DEHP) (measured value up to 25.9 % by weight). This phthalate may harm the health of children, causing possible damage to the reproductive system. The product does not comply with the REACH Regulation.	Withdrawal of the product from the market
A12/1816/19	Czech Republic	Plastic doll (Country of Origin: China)		Chemical The plastic material of the plastic doll contains an excessive amount of 2-ethylhexyl phthalate (DEHP) (measured value up to 25.1 % by weight). This phthalate may harm the health of children, causing possible damage to the reproductive system. The product does not comply with the REACH Regulation.	Withdrawal of the product from the market
A12/1817/19	Slovakia	Plastic doll (Country of Origin: China)		Chemical The plastic material of the doll's head contains an excessive amount of bis(2-ethylhexyl)phthalate (DEHP) (measured value 14.6% by weight). This phthalate may harm the health of children, causing possible damage to the reproductive system. The product does not comply with the REACH Regulation.	Recall of the product from end users, Withdrawal of the product from the market

Alert No.	Notifying Country	Product	Product Photo	Hazard/ Risk	Measures Adopted
A12/1818/19	Slovakia	Plastic doll set (Country of Origin: China)		Chemical The plastic material of the doll's head contains an excessive amount of bis(2-ethylhexyl)phthalate (DEHP) (measured value 17.4% by weight). This phthalate may harm the health of children, causing possible damage to the reproductive system. The product does not comply with the REACH Regulation.	Recall of the product from end users, Withdrawal of the product from the market
A12/1820/19	Czech Republic	Battery-operated soft toy (Country of Origin: China)		Environment The solder contains an excessive amount of lead (measured value up to 74.8% by weight). Lead poses a risk to the environment. The product does not comply with the requirements of the Commission Directive on the restriction of the use of certain hazardous substances in electrical and electronic equipment (ROHS 2).	Withdrawal of the product from the market
A12/1821/19	Czech Republic	Battery-operated plastic toy (Country of Origin: China)		Environment The solder contains an excessive amount of lead (measured value up to 74.8% by weight). Lead poses a risk to the environment. The product does not comply with the requirements of the Commission Directive on the restriction of the use of certain hazardous substances in electrical and electronic equipment (ROHS 2).	Withdrawal of the product from the market
A12/1822/19	Czech Republic	Battery-operated plastic toy (Country of Origin: China)		Environment The solder contains an excessive amount of lead (measured value up to 74.8% by weight). Lead poses a risk to the environment. The product does not comply with the requirements of the Commission Directive on the restriction of the use of	Withdrawal of the product from the market

RAPEX – Rapid Exchange of Information System

The Rapid Alert System enables the rapid exchange of information (RAPEX) between **31 European countries** and the European Commission on non- food dangerous products found on the market posing a risk to health and safety of consumers.

A weekly overview of the alerts on those products is published in English for free on <http://ec.europa.eu/rapex>. The measures taken in the notifying country in order to restrict their marketing or use can be ordered by national authorities ("compulsory measures") or be taken directly by producers and distributors ("voluntary measures").

The official contact points of the Member and EFTA-EEA States provide the information published in these weekly overviews. Under the terms of Annex II.10 of the General Product Safety Directive ([2001/95/EC](#)) responsibility for the information provided lies with the notifying party. The Commission does not take any responsibility for the accuracy of the information provided.

Recall Summary – US Toys / Children’s Products

CPSC

The United States Consumer Product Safety Commission (CPSC) is an independent agency of the United States government. To provide better service in alerting the American people to unsafe, hazardous or defective products, a “one stop shop” for U.S. Government recalls, www.recalls.gov, has been created. Publics can report unsafe products to CPSC by using the platform.

The recall list is divided into seven categories: Consumer Products, Motor Vehicles, Boats, Food, Medicine, Cosmetics and Environmental Products. Generally, the recall was conducted, voluntarily by the company, under CPSC’s Fast Track Recall program. Fast Track recalls are initiated by firms who commit to work with CPSC to quickly announce the recall and remedy to protect consumers.

Recall Summary – Australia Toys / Children’s Products

ACCC Recall List (Nov 2019)

PRA No.	Notifying Country	Product	Product Photo	Hazard/ Risk	Remedy
2019/17871	Australia	4mm and 5mm Magnetic Cube 216pcs Per Cube		This product contains small, high-powered magnets. The product exceeds the maximum allowable magnetic flux index set by the permanent ban on certain small, high powered magnets, prescribed in Consumer Protection Notice No 5 of 2012 'Imposition of permanent ban on small, high powered magnets'. Consumers should immediately cease using the teething toy and may contact Zao & Co to arrange for a return and full refund.

Australian Product Safety System

The Australian product safety system is to maximize the safety of good by the cooperation of consumers, businesses and agencies. This policy sets out the principles adopted by the Australian Competition and Consumer Commission (ACCC) for prioritizing and addressing product safety risks.

Under the Australian Consumer Law, a responsible Minister can order a compulsory recall when there are hazards on the products. A voluntary recall could be conducted to remove the product from the marketplace when the suppliers become aware of unsafe or defective products.

The ACCC administers a national recalls system for recalls of specific and general consumer products, and publishes all product recalls on the website <https://www.productsafety.gov.au/recalls>.

STC (Hong Kong Standards and Testing Centre) is a not-for-profit, independent testing, inspection and certification organization. With a global network of ISO/IEC 17025 accredited testing laboratories and over 50 years of experience in consumer product testing, we can meet your conformity assessment needs with highly efficient and reliable service. Our testing scope and capabilities related to toys and children's products include but not limited to:

European EU Requirements

- EN 71
- Phthalates (EC) no. 1907/2006
