

Recall Summary – European Toys

Published: 17 January 2020
RAPEX notification (Dec 2019)

Alert No.	Notifying Country	Product	Product Photo	Hazard/ Risk	Measures Adopted
A11/0074/19	Slovakia	Toy guitar (Country of Origin: China)		Chemical The battery compartment can be easily opened without the use of any tools, leaving the batteries accessible. A child might put them in the mouth and suck on them. If the batteries leak, this could cause damage to the gastrointestinal tract. The product does not comply with the requirements of the Toy Safety Directive and the relevant European Standard EN 62115.	Ban on the marketing of the product and any accompanying measures, Recall of the product from end users, Warning consumers of the risks, Withdrawal of the product from the market
A12/1837/19	Slovakia	Wooden puzzle (Country of Origin: China)		Choking The product contains loose small parts. A small child may put them in the mouth and choke on them. The product does not comply with the requirements of the Toy Safety Directive and the relevant European standard EN 71-1.	Recall of the product from end users, Withdrawal of the product from the market
A12/1841/19	Luxembourg	Toy slime set (Country of Origin: China)		Chemical The migration of boron from the toy slimes is too high (measured value up to 1078 mg/kg). Also the plastic of the straws and fruit slices contains an excessive amount of bis(2-ethylhexyl) phthalate (DEHP) (measured value up to: 2,9% by weight). Ingestion of boron or contact with an excessive quantity of boron may harm the health of children by damaging the reproductive system. DEHP is a phthalate and may harm the health of children, causing possible damage to their reproductive system. The product does not comply with the REACH Regulation and the requirements of the Toy Safety Directive and the relevant European standard EN 71-3.	This product listing was removed by Amazon., Withdrawal of the product from the market
A12/1842/19	Sweden	Inflatable climbing and obstacle course (Country of Origin: Belgium)		Injuries The climbing grips on the product can detach. Consequently, they could detach while a child is climbing, leading the child to fall to the ground. The product does not comply with the relevant European Standard EN14960.	Warning consumers of the risks. Ban on the marketing of the product and any accompanying measures, Destruction of the product

Alert No.	Notifying Country	Product	Product Photo	Hazard/ Risk	Measures Adopted
A12/1846/19	Czech Republic	Plush toy (Country of Origin: China)		Choking The product has small parts (eyes) that can easily be detached. Additionally, the fibrous stuffing material of the toy is easily accessible due to the weakness of certain seams. A small child may put the small parts or the stuffing material in the mouth and choke on it. The product does not comply with the requirements of the Toy Safety Directive and the relevant European standard EN 71-1.	Withdrawal of the product from the market
A12/1857/19	Cyprus	Soft-filled doll (Country of Origin: China)		Chemical, Choking Small parts can easily detach from the toy. A child may put the small parts in the mouth and choke on them. Also the plastic head and hands of the doll contain an excessive amount of bis (2-ethylhexyl) phthalate (DEHP) (measured value 9 % by weight). This phthalate may harm the health of children, causing possible damage to the reproductive system. The product does not comply with the requirements of the Toy Safety Directive, the REACH Regulation and the relevant European standard EN 71-1.	Withdrawal of the product from the market
A12/1858/19	Cyprus	Baby doll (Country of Origin: China)		Chemical, Choking, Injuries The product can easily break, releasing small parts. A child may put the small parts in the mouth and choke. The sharp endings of the broken toy may cause injuries. Also the plastic head and hands of the doll contain an excessive amount of bis (2-ethylhexyl) phthalate (DEHP) (measured value: 4.6 % by weight). This phthalate may harm the health of children, causing possible damage to the reproductive system. The product does not comply with the requirements of the Toy Safety Directive, the REACH Regulation and the relevant European Standard EN 71-1.	Withdrawal of the product from the market

Alert No.	Notifying Country	Product	Product Photo	Hazard/ Risk	Measures Adopted
A12/1859/19	Cyprus	Plastic doll set (Country of Origin: China)		Chemical The plastic materials contain an excessive amount of bis (2-ethylhexyl) phthalate (DEHP) (measured values: up to 33.4% by weight). This phthalate may harm the health of children, causing possible damage to the reproductive system. The product does not comply with the REACH Regulation.	Withdrawal of the product from the market
A12/1860/19	Cyprus	Soft filled doll (Country of Origin: China)		Chemical, Choking Small parts can easily detach from the toy and the fibrous stuffing material is easily accessible due to the weakness of certain seams. A child may put the small parts and the fibrous stuffing in the mouth and choke. The plastic material of the doll contains an excessive amount of bis (2-ethylhexyl) phthalate (DEHP) (measured value 8 % by weight). This phthalate may harm the health of children, causing possible damage to the reproductive system. The product does not comply with the requirements of the Toy Safety Directive, the REACH Regulation and the relevant European Standard EN 71-1.	Withdrawal of the product from the market
A12/1861/19	Cyprus	Plastic doll (Country of Origin: China)		Chemical The plastic material of the doll contains an excessive amount of bis (2-ethylhexyl) phthalate (DEHP) and dibutyl phthalate (DBP) (measured values up to 37% and 0.6% by weight respectively). These phthalates may harm the health of children, causing possible damage to the reproductive system. The product does not comply with the REACH Regulation.	Withdrawal of the product from the market

Alert No.	Notifying Country	Product	Product Photo	Hazard/ Risk	Measures Adopted
A12/1862/19	Cyprus	Plastic doll (Country of Origin: China)		Chemical The plastic material of the doll contains an excessive amount of bis (2-ethylhexyl) phthalate (DEHP) (measured value up to 32.3% by weight). This phthalate may harm the health of children, causing possible damage to the reproductive system. The product does not comply with the REACH Regulation.	Withdrawal of the product from the market
A12/1863/19	Cyprus	Plastic doll set (Country of Origin: China)		Chemical The plastic materials contain an excessive amount of bis (2-ethylhexyl) phthalate (DEHP) (measured value: 37%). This phthalate may harm the health of children, causing possible damage to the reproductive system. The product does not comply with the REACH Regulation.	Withdrawal of the product from the market
A12/1866/19	Cyprus	Plastic doll (Country of Origin: China)		Chemical The plastic material of the doll bis (2-ethylhexyl) (DEHP) and di-butylphthalate (DBP) phthalates (measured values up to 29.8% and 30.4% by weight respectively). These phthalates may harm the health of children, causing possible damage to the reproductive system. The product does not comply with the REACH Regulation.	Withdrawal of the product from the market

Alert No.	Notifying Country	Product	Product Photo	Hazard/ Risk	Measures Adopted
A12/1868/19	Cyprus	Plastic doll set (Country of Origin: China)		Chemical The plastic materials contain an excessive amount of bis (2-ethylhexyl) phthalate (DEHP) (measured value: 33%). This phthalate may harm the health of children, causing possible damage to the reproductive system. The product does not comply with the REACH Regulation.	Withdrawal of the product from the market
A12/1872/19	Hungary	Toy gun set (Country of Origin: China)		Choking, Injuries The foam projectiles can break easily, creating small parts with suction cups. The kinetic energy of the projectiles fired from the toy gun is too high and can lead to eye injuries. A child playing with the toy may put the projectile in the mouth in order to wet it before shooting. If it breaks, the suction cup could obstruct the airways. The product does not comply with the requirements of the Toy Safety Directive and the relevant European standard EN 71-1.	Ban on the marketing of the product and any accompanying measures, Destruction of the product
A12/1873/19	Hungary	Toy gun set (Country of Origin: China)		Chemical, Choking The suction cups can easily detach from the projectiles. If a child puts the projectile in the mouth, the suction cups may detach and obstruct the airways. The suction cups contain di-(2-ethylhexyl) phthalate (DEHP) (measured value: 4.5 % by weight) and dibutyl phthalate (DBP) (measured value: 14% by weight). These phthalates may harm the health of children causing possible damage to the reproductive system. The product does not comply with the REACH Regulation and the requirements of the Toy Safety Directive and the relevant European standard EN 71-1.	Ban on the marketing of the product and any accompanying measures, Destruction of the product

Alert No.	Notifying Country	Product	Product Photo	Hazard/ Risk	Measures Adopted
A12/1874/19	Hungary	Toy gun set (Country of Origin: China)		Chemical, Choking, Injuries The suction cups can easily detach from the projectiles. If a child puts the projectile in the mouth, the suction cups may detach and obstruct the airways. The suction cups contain di-(2-ethylhexyl) phthalate (DEHP) (measured value: 4.5 % by weight) and dibutyl phthalate (DBP) (measured value: 14% by weight). These phthalates may harm the health of children causing possible damage to the reproductive system. The kinetic energy of the projectiles fired from the toy gun is too high which can lead to eye injuries. The product does not comply with the REACH Regulation and the requirements of the Toy Safety Directive and the relevant European standard EN 71-1.	Ban on the marketing of the product and any accompanying measures, Destruction of the product
A12/1876/19	Poland	Plastic doll (Country of Origin: China)		Chemical The plastic material of the toy contains an excessive amount of 2-ethylhexyl phthalate (DEHP) (measured value: 23.8% by weight). This phthalate may harm the health of children, causing possible damage to the reproductive system. The product does not comply with the REACH Regulation.	Withdrawal of the product from the market
A12/1877/19	Poland	Plastic toy (Country of Origin: China)		Chemical The plastic material of the toy contains an excessive amount of 2-ethylhexyl phthalate (DEHP) (measured value: 27.2% by weight). This phthalate may harm the health of children, causing possible damage to the reproductive system. The product does not comply with the REACH Regulation.	Withdrawal of the product from the market
A12/1878/19	Hungary	Plastic doll set (Country of Origin: China)		Chemical The plastic material of the doll's head contains an excessive amount of 2-ethylhexyl phthalate (DEHP) (measured value: 30 % by weight). This phthalate may harm the health of children, causing possible damage to the reproductive system. The product does not comply with the REACH Regulation.	Recall of the product from end users, Withdrawal of the product from the market

Alert No.	Notifying Country	Product	Product Photo	Hazard/ Risk	Measures Adopted
A12/1880/19	Italy	Puffer ball (Country of Origin: China)		Chemical, Choking The toy can break, releasing the battery compartment. It can easily break, generating small parts and leaving button cell batteries accessible. A child may put the small parts or the button batteries in the mouth, which could cause damage to the child's gastrointestinal tract or choking. The product does not comply with the requirements of the Toy Safety Directive and the relevant European standard EN 62115.	Withdrawal of the product from the market
A12/1881/19	Italy	Toy gun set (Country of Origin: China)		Choking The suction cups can easily become detached from the toy. If a child puts the projectile in the mouth, the suction cups may detach and obstruct the airways. The product does not comply with the requirements of the Toy Safety Directive and the relevant European standard EN 71-1.	Withdrawal of the product from the market
A12/1882/19	Lithuania	Plastic doll set (Country of Origin: Lithuania)		Chemical The plastic material of the doll contains an excessive amount of di-(2-ethylhexyl) phthalate (DEHP) (measured value: 33.4 % by weight). This phthalate may harm the health of children, causing possible damage to the reproductive system. The product does not comply with the REACH Regulation.	Withdrawal of the product from the market
A12/1885/19	Luxembourg	Wooden trumpet for children (Country of Origin: China)		Choking Small parts (the mouthpiece) can easily detach from the toy. A child may put the small part in the mouth and choke on it. The product does not comply with the requirements of the Toy Safety Directive and the relevant European Standard EN 71-1.	This product listing was removed by Amazon., Withdrawal of the product from the market
A12/1886/19	Luxembourg	Plush toy (Country of Origin: China)		Choking The fibrous stuffing material of the plush toy is easily accessible due to the weakness of all seams. A child may put the stuffing material in the mouth and choke on it. The product does not comply with the requirements of the Toy Safety Directive and the relevant European Standard EN 71-1.	This product listing was removed by Amazon., Withdrawal of the product from the market

Alert No.	Notifying Country	Product	Product Photo	Hazard/ Risk	Measures Adopted
A12/1890/19	Malta	Soft-filled toy (Country of Origin: China)		Chemical The battery compartments are easily accessible. A child may put the batteries in the mouth, which could cause damage to the child's gastrointestinal tract. The product does not comply with the REACH Regulation and the requirements of the Toy Safety Directive and the relevant European standards EN 71-1 and EN 62115.	Withdrawal of the product from the market
A12/1897/19	Luxembourg	Bath toy set (Country of Origin: China)		Chemical, Choking, Injuries The product has small parts that can be easily detached. Additionally it can easily break releasing small parts and creating sharp edges. The plastic material of the toy contains an excessive amount of bis(2-ethylhexyl) phthalate (DEHP)(measured value: 6,66 % by weight). This phthalate may harm the health of children, causing possible damage to their reproductive system. A small child may put the small pieces in the mouth and choke or suffer from injuries due to the sharp edges. The product does not comply with the REACH Regulation and the requirements of the Toy Safety Directive and the relevant European standard EN 71-1.	This product listing was removed by Amazon, Withdrawal of the product from the market
A12/1901/19	Cyprus	Plastic doll set (Country of Origin: China)		Chemical The plastic material of the dolls contain an excessive amount of bis (2-ethylhexyl) phthalate (DEHP) and di-butylphthalate (DBP) phthalate (measured value up to: 33.2% by weight and 6.3% by weight respectively). These phthalates may harm the health of children, causing possible damage to the reproductive system. The product does not comply with the REACH Regulation.	Withdrawal of the product from the market

Alert No.	Notifying Country	Product	Product Photo	Hazard/ Risk	Measures Adopted
A12/1902/19	Czech Republic	Plastic doll (Country of Origin: China)		Chemical The plastic material of the product contains an excessive amount of bis(2-ethylhexyl) phthalate (DEHP)(measured value: 29,7 % by weight). This phthalate may harm the health of children, causing possible damage to their reproductive system. The product does not comply with the REACH Regulation.	Withdrawal of the product from the market
A12/1903/19	Slovakia	Soft toy (Country of Origin: China)		Choking The product has small parts (eyes) that can easily be detached. A small child may put them in the mouth and choke on them. The product does not comply with the requirements of the Toy Safety Directive and the relevant European standard EN 71-1.	Recall of the product from end users, Withdrawal of the product from the market
A12/1917/19	Belgium	Plush toy (Country of Origin: China)		Choking A small part (the eye) can easily detach from the plush toy. A small child can put the small part in the mouth and choke. The product does not comply with the requirements of the Toy Safety Directive and the relevant European standard EN 71-1.	Recall of the product from end users
A12/1920/19	Italy	Toy make-up kit (Country of Origin: China)		Chemical The product contains an excessive amount of chromium (VI) (measured value up to 7.41 mg/kg). Chromium (VI) can cause cancer, is sensitising and can trigger allergic reactions. The product does not comply with the requirements of the Toy Safety Directive and the relevant European standard EN 71-3.	Import rejected at border

Alert No.	Notifying Country	Product	Product Photo	Hazard/ Risk	Measures Adopted
INFO/0137/19	Germany	Soft rubber ball (Country of Origin: China)		Microbiological While playing with the ball, the liquid inside may leak out. The liquid contains an excessive amount of aerobic mesophilic bacteria (measured amount 750 000 cfu/g) and the presence of Burkholderia spp and Burkholderia cepacia has been detected. If used on damaged skin or by immunocompromised users, or if it comes into contact with the eyes or mucous membrane, the product may cause infection or irritation. The product does not comply with the requirements of the Toy Safety Directive.	Recall of the product from end users, Withdrawal of the product from the market
INFO/0139/19	Poland	Soft toy (Country of Origin: Unknown)		Choking Small part (suction cup) may be easily detached from the toy. A small child may put the detached element in the mouth and choke on it. The product does not comply with the requirements of the Toy Safety Directive and the relevant European standard EN 71-1.	Withdrawal of the product from the market
INFO/0140/19	Malta	Soft toy (Country of Origin: China)		Chemical The plastic material of the eyes contains an excessive amount of dibutyl phthalate (DBP) (measured value: 0.32% by weight). This phthalate may harm the health of children, causing possible damage to the reproductive system. The product does not comply with the REACH Regulation.	Withdrawal of the product from the market
A11/0078/19	Romania	Soft toy (Country of Origin: China)		Choking Small parts may easily detach from the toy (pieces of fur). A small child may put them in the mouth and choke. The product does not comply with the requirements of the Toy Safety Directive and the relevant European standard EN 71-1.	Withdrawal of the product from the market
A11/0079/19	Romania	Soft toy (Country of Origin: China)		Choking Small parts may easily detach from the toy. A small child may put them in the mouth and choke. The product does not comply with the requirements of the Toy safety Directive and the relevant European Standard EN 71-1.	Withdrawal of the product from the market

Alert No.	Notifying Country	Product	Product Photo	Hazard/ Risk	Measures Adopted
A12/1934/19	Hungary	Plastic doll (Country of Origin: China)		Chemical The plastic material of the doll's head contains an excessive amount of bis(2-ethylhexyl) phthalate (DEHP) and dibutyl phthalate (DBP) (measured values: 16 % and 0.19 % by weight, respectively). These phthalates may harm the health of children, causing possible damage to their reproductive system. The product does not comply with the REACH Regulation.	Recall of the product from end users, Withdrawal of the product from the market
A12/1945/19	Slovakia	Children's swing (Country of Origin: Poland)		Choking Small parts (star nuts, plastic tube caps) can easily become detached from the swing. A small child may put them in the mouth and choke. The product does not comply with the requirements of the Toy Safety Directive and the relevant European standard EN 71-8 and EN 71-1.	Recall of the product from end users, Withdrawal of the product from the market
A12/1954/19	Germany	Squeezable toy (Country of Origin: China)		Microbiological The liquid inside the product contains an excessive amount of aerobic mesophilic bacteria (measured value: 260000 cfu/g), among which Klebsiella oxytoca and Rhizobium radiobacter. Klebsiella oxytoca, which can be resistant to antibiotics, and Rhizobium radiobacter are opportunistic pathogens and could lead to bacterial sepsis or pneumonia in immunocompromised individuals. The product could break while the child is playing with it and become exposed to the bacteria. The product does not comply with the requirements of the Toy Safety Directive.	Recall of the product from end users, Warning consumers of the risks, Withdrawal of the product from the market

Alert No.	Notifying Country	Product	Product Photo	Hazard/ Risk	Measures Adopted
A12/00002/19	Slovenia	Soft toy with keychain (Country of Origin: People's Republic of China)		Chemical, Injuries The key ring has sharp edges and its metal releases an excessive amount of nickel (measured value up to: 3.95 µg/cm ² /week . Nickel is a strong sensitiser and can cause allergic reactions if present in articles that come into direct and prolonged contact with the skin. A child may become exposed to it by playing with the ring or injured with the sharp edges. The product does not comply with the REACH Regulation, the requirements of the Toy Safety Directive and the relevant European standard EN 71-1.	Withdrawal of the product from the market
A12/00005/19	Poland	Plastic toy (Country of Origin: People's Republic of China)		Choking The product has a small part (plastic exhaust pipe) that can be easily detached. A child may put it in the mouth and choke on it. The product does not comply with the requirements of the Toy Safety Directive and the relevant European standard EN 71-1.	Withdrawal of the product from the market
A12/00011/19	Hungary	Soft toy (Country of Origin: People's Republic of China)		Choking The product has small parts (eyes and nose) that can be easily detached. A small child may put them in the mouth and choke on them. The product does not comply with the requirements of the Toy Safety Directive and the relevant European standard EN 71-1.	Destruction of the product, Import rejected at border
A12/00020/19	Hungary	Remote-controlled dog (Country of Origin: People's Republic of China)		Choking The eyes and the nose can easily detach from the soft toy, generating small parts. A small child may put them in the mouth and choke. The product does not comply with the requirements of the Toy Safety Directive and the relevant European standard EN 71-1.	Ban on the marketing of the product and any accompanying measures, Import rejected at border
A12/00021/19	Hungary	Soft toy (Country of Origin: People's Republic of China)		Choking The eyes can easily detach from the soft toy, generating small parts. The fibrous stuffing material of the toy is easily accessible due to the zipper. The small parts and the stuffing material may cause choking when put in the mouth by children. The product does not comply with the requirements of the Toy Safety Directive and the relevant European standard EN 71-1.	Ban on the marketing of the product and any accompanying measures, Import rejected at border
A12/00022/19	Hungary	Soft toy (Country of Origin: People's Republic of China)		Choking The eyes and the nose can easily detach from the soft toy, generating small parts. A small child may put them in the mouth and choke. The product does not comply with the requirements of the Toy Safety Directive and the relevant European standard EN 71-1.	Destruction of the product, Import rejected at border

Alert No.	Notifying Country	Product	Product Photo	Hazard/ Risk	Measures Adopted
		Republic of China)		requirements of the Toy Safety Directive and the relevant European standard EN 71-1.	
A12/00026/19	Hungary	Soft toy (Country of Origin: People's Republic of China)		Choking The eyes can easily detach from the soft toy, generating small parts. The fibrous stuffing material of the toy is easily accessible due to the weakness of certain seams. The small parts and the stuffing material may lead to choking when put in the mouth by children. The product does not comply with the requirements of the Toy Safety Directive and the relevant European standard EN 71-1.	Ban on the marketing of the product and any accompanying measures, Import rejected at border
A12/00027/19	Hungary	Rattle toy set (Country of Origin: People's Republic of China)		Choking Small parts can easily detach from the toy. They can be put in the mouth by small children, causing them to choke. The product does not comply with the requirements of the Toy Safety Directive and the relevant European standard EN 71-1.	Recall of the product from end users, Withdrawal of the product from the market
A12/00030/19	Slovenia	Squeezable toy (Country of Origin: People's Republic of China)		Chemical, Choking The external rubber of the toy can break during use, releasing the internal flashing capsule with button batteries. This capsule can easily break, leaving the button batteries accessible. A child could put the button batteries in the mouth, which could cause damage to the child's gastrointestinal tract or choking. The product does not comply with the requirements of the Toy Safety Directive and the relevant European standard EN 62115.	Recall of the product from end users
A12/00031/19	Slovenia	Balloons (Country of Origin: Belgium)		Chemical The rubber of the balloons releases an excessive amount of nitrosatable substances generating n-nitrosodimethylamine (NDMA)(measured value: 1.2 mg/ kg). NDMA is a nitrosamine, which may cause cancer through ingestion or dermal exposure. A child could be exposed to it when touching or putting the product in the mouth. The product does not comply with the requirements of the Toy Safety Directive and the relevant European standard EN 71-12.	Recall of the product from end users

Alert No.	Notifying Country	Product	Product Photo	Hazard/ Risk	Measures Adopted
A12/00036/19	Hungary	Soft toy (Country of Origin: People's Republic of China)		Choking The eyes and the nose can easily detach from the soft toy, generating small parts. A small child may put them in the mouth and choke. The product does not comply with the requirements of the Toy Safety Directive and the relevant European standard EN 71-1.	Ban on the marketing of the product and any accompanying measures, Import rejected at border

RAPEX – Rapid Exchange of Information System

The Rapid Alert System enables the rapid exchange of information (RAPEX) between [31 European countries](#) and the European Commission on non- food dangerous products found on the market posing a risk to health and safety of consumers.

A weekly overview of the alerts on those products is published in English for free on <http://ec.europa.eu/rapex>. The measures taken in the notifying country in order to restrict their marketing or use can be ordered by national authorities ("compulsory measures") or be taken directly by producers and distributors ("voluntary measures").

The official contact points of the Member and EFTA-EEA States provide the information published in these weekly overviews. Under the terms of Annex II.10 of the General Product Safety Directive ([2001/95/EC](#)) responsibility for the information provided lies with the notifying party. The Commission does not take any responsibility for the accuracy of the information provided.

Recall Summary – US Toys / Children’s Products

CPSC Recall List (Dec 2019)

Recall No.	Notifying Country	Product	Product Photo	Hazard/ Risk	Remedy
20-035	USA	Trek Super Commuter+ 8S (Country of Origin: China)		Fall the front fender can fall onto the front wheel and stop the bicycle suddenly, posing a fall hazard to the rider.	Consumers should immediately stop using the recalled bicycle and take it to a Trek retailer for a free inspection and repair.
20-036	USA	Surly front bicycle racks (Country of Origin: Taiwan)		Crash And Injury the recalled front bicycle rack can loosen and contact the front wheel, posing crash and injury hazards to the rider.	Consumers should stop using the recalled bicycle racks immediately and contact the bike shop or online retailer where it was originally purchased to arrange for a free repair.
20-039	USA	Aeria Ultimate carbon aerobars (Country of Origin: Taiwan)		Crack And Break the bicycle aerobars can crack and break, causing the rider to lose control and crash.	Consumers should immediately stop using bicycles with the recalled aerobars and contact Profile Design for instructions to receive a free replacement aerobar via their local retailer.

Recall No.	Notifying Country	Product	Product Photo	Hazard/ Risk	Remedy
20-040	USA	<p>Crewcuts boys' stone washed denim pants</p> <p>(Country of Origin: Pakistan)</p>		<p>Choking small stones can be present in the pockets or waistband of the pants from the stone washing manufacturing process, posing aspiration or choking hazards to young children.</p>	<p>Consumers should immediately take the recalled pants away from children and remove the stones from pockets or internal waistband opening to eliminate the hazard</p>
20-041	USA	<p>Chadwick and Bailey five-drawer chests</p> <p>(Country of Origin: Vietnam)</p>		<p>Over And Entrapment the chests are unstable and can tip over if not anchored to the wall, posing serious tip-over and entrapment hazards that can result in death or injuries to children. the chests do not comply with the performance requirements of the u.s. voluntary industry standard (astm f2057-17).</p>	<p>Consumers should immediately stop using any recalled chest that is not properly anchored to the wall and place it in an area that children cannot access. Contact Bob's Discount Furniture or Hillsdale Furniture to receive a free repair or refund. Remedy options include a free self-install repair kit, free in-home installation of repair kit or free pick-up of the chest.</p>
20-042	USA	<p>Teammachine SLR01 DISC bicycles and framesets</p>		<p>Fall the fork steerer tube on the bicycles and framesets can crack or break during use, posing a fall hazard.</p>	<p>Consumers should immediately stop using recalled bicycles</p>

Recall No.	Notifying Country	Product	Product Photo	Hazard/ Risk	Remedy
		(Country of Origin: Taiwan and Poland)			and contact their local BMC authorized dealer for a free inspection and free replacement fork.
20-044	USA	Merge Playground Climbers (Country of Origin: United States)		Entrapment a welded rung opening on the sides of the climber poses an entrapment hazard to children.	Consumers should immediately stop using the Merge Climbers and block them off from children's use. BCI Burke is contacting all known owners directly by certified mail, and Burke representatives will inspect and replace climbers that are not compliant with the current voluntary standard for this product.
20-045	USA	Light-Up Magic Wands (Country of Origin: China)		Choking And Ingestion the battery cover can detach and expose the button-cell batteries, posing choking and ingestion hazards to young children.	Consumers should immediately stop using the recalled magic wands, place them out of the reach of children and return them to store where purchased for a refund.

Recall No.	Notifying Country	Product	Product Photo	Hazard/ Risk	Remedy
20-711	USA	DaVinci Bailey bassinets (Country of Origin: Taiwan)		Fall the bassinet’s support legs can break, posing a fall hazard to babies.	Consumers should immediately stop using the recalled bassinets and contact DaVinci for a free repair kit that includes new support legs. In the meantime, parents are urged to remove the support legs and use the bassinet on a safe space on the floor or to find an alternate, safe sleeping environment for the child, such as a crib that meets current safety standards. DaVinci is contacting all known purchasers directly.

CPSC

The United States Consumer Product Safety Commission (CPSC) is an independent agency of the United States government. To provide better service in alerting the American people to unsafe, hazardous or defective products, a “one stop shop” for U.S. Government recalls, www.recalls.gov, has been created. Publics can report unsafe products to CPSC by using the platform.

The recall list is divided into seven categories: Consumer Products, Motor Vehicles, Boats, Food, Medicine, Cosmetics and Environmental Products. Generally, the recall was conducted, voluntarily by the company, under CPSC’s Fast Track Recall program. Fast Track recalls are initiated by firms who commit to work with CPSC to quickly announce the recall and remedy to protect consumers.

Recall Summary – Australia Toys / Children’s Products

ACCC Recall List (Dec 2019)

PRA No.	Notifying Country	Product	Product Photo	Hazard/ Risk	Remedy
2019/17952	Australia	Costway 6-in-1 Baby Toddler Stroller Tricycle		These products have some of the features of a stroller, but are unsafe for use as a stroller as they do not have a parking brake, tether strap, or relevant warnings as required by the mandatory standard 'Consumer Product Safety Standard for Prams and Strollers - Consumer Protection Notice No 8 of 2007', as amended on 14 February 2019.	Consumers should immediately stop using the product. Catch.com.au customer service will make direct contact with affected consumers and provide instructions on how to dispose of the affected products. Australian Product Safety System

The Australian product safety system is to maximize the safety of good by the cooperation of consumers, businesses and agencies. This policy sets out the principles adopted by the Australian Competition and Consumer Commission (ACCC) for prioritizing and addressing product safety risks.

Under the Australian Consumer Law, a responsible Minister can order a compulsory recall when there are hazards on the products. A voluntary recall could be conducted to remove the product from the marketplace when the suppliers become aware of unsafe or defective products.

The ACCC administers a national recalls system for recalls of specific and general consumer products, and publishes all product recalls on the website <https://www.productsafety.gov.au/recalls>.

STC (Hong Kong Standards and Testing Centre) is a not-for-profit, independent testing, inspection and certification organization. With a global network of ISO/IEC 17025 accredited testing laboratories and over 50 years of experience in consumer product testing, we can meet your conformity assessment needs with highly efficient and reliable service. Our testing scope and capabilities related to toys and children's products include but not limited to:
