

Recall Summary – European Toys

Published: 12 February 2020
RAPEX notification (Jan 2020)

Alert No.	Notifying Country	Product	Product Photo	Hazard/ Risk	Measures Adopted
A12/00040/19	Poland	Expandable toy (Country of Origin: China)		Choking, Injuries The toy can be put into the mouth and swallowed by children. As the toy expands, it can cause fatal occlusion of the respiratory track or intestinal blockage of small children. / The product does not comply with the requirements of the Toy Safety Directive and the relevant European standard EN 71-1.	Withdrawal of the product from the market
A12/00043/19	Slovenia	Squeezable toy (Country of Origin: China)		Chemical, Choking The fake bulb screw of the toy can easily detach during use, releasing the internal flashing capsule with button batteries. This capsule can easily break, leaving the button batteries accessible. A child could put them in the mouth, which could cause damage to the child's gastrointestinal tract or choking. / The product does not comply with the requirements of the Toy Safety Directive and the relevant European standard EN 62115.	Recall of the product from end users
A12/00047/19	Belgium	Advent calendar (Country of Origin: China)		Choking The white mouthpiece of the toy trumpet, in the calendar drawer 9, can easily detach. It may do so while a child has the trumpet in the mouth, leading the child to choke. / The product does not comply with the requirements of Toy Safety Directive and the relevant European standard EN 71-1.	Recall of the product from end users

A12/00048/19	Hungary	Plastic doll with accessories (Country of Origin: China)		Chemical The plastic material of the product contains an excessive amount of bis(2-ethylhexyl) phthalate (DEHP) and dibutyl phthalate (DBP) (measured values: 35 % and 0.22 % by weight, respectively). These phthalates may harm the health of children, causing possible damage to their reproductive system. / The product does not comply with the REACH Regulation.	Ban on the marketing of the product and any accompanying measures
A12/00049/19	Hungary	Soft toys (Country of Origin: China)		Choking The eyes of the toy can easily detach, generating small parts. A small child may put them in the mouth and choke. / The product does not comply with the requirements of the Toy Safety Directive and the relevant European standard EN 71-1.	Import rejected at border
A12/00050/19	Hungary	Plastic doll set (Country of Origin: China)		Chemical The plastic material of the product contains an excessive amount of bis(2-ethylhexyl) phthalate (DEHP) and dibutyl phthalate (DBP)(measured values: 41 % and 0.17 % by weight, respectively). These phthalates may harm the health of children, causing possible damage to their reproductive system. / The product does not comply with the REACH Regulation.	Import rejected at border
A12/00062/19	Finland	Fishing Game (Country of Origin: China)		Choking Small pieces (the metal part) may detach from the toy. A small child may put them in the mouth and choke. / The product does not comply with the requirements of the Toy Safety Directive and the relevant European standard EN 71-1.	Recall of the product from end users

A12/00072/19	Sweden	<p>Slime</p> <p>(Country of Origin: Unknown)</p>		<p>Chemical</p> <p>The migration of boron from the toy slime is too high (measured value up to 1097 mg/kg). / Ingestion or contact with an excessive quantity of boron may harm the health of children by damaging their reproductive system. The product does not comply with the requirements of the Toy Safety Directive and the relevant European standard EN 71-3.</p>	<p>Removal of this product listing by the online marketplace, Withdrawal of the product from the market</p>
A12/00075/19	Denmark	<p>Fishing game</p> <p>(Country of Origin: Unknown)</p>		<p>Choking</p> <p>Small pieces (the magnet) can easily detach from the toy. A small child may put it in the mouth and choke. / The product does not comply with the requirements of the Toy Safety Directive and the relevant European standard EN 71-1.</p>	<p>Removal of this product listing by the online marketplace, Stop of sales</p>
INFO/00005/19	Denmark	<p>Squeezable toy</p> <p>(Country of Origin: Unknown)</p>		<p>Choking</p> <p>Small parts can easily be detached from the toy. A small child may put one of them in the mouth and choke. / The product does not comply with the requirements of the Toy Safety Directive and the relevant European standard EN 71-1.</p>	<p>Stop of sales</p>
INFO/00007/19	Denmark	<p>Rattle toy</p> <p>(Country of Origin: Unknown)</p>		<p>Choking</p> <p>The rattle has protruding parts. A small child could put the protruding part in the mouth, which could block the airways and cause choking. / The product does not comply with the requirements of the Toy Safety Directive and the relevant European standard EN 71-1.</p>	<p>Stop of sales</p>
INFO/00008/19	Denmark	<p>Plastic toy dinosaur</p> <p>(Country of Origin: Unknown)</p>		<p>Burns</p> <p>A short-circuit can occur, causing the toy dinosaur to overheat. A child can consequently suffer burns. / The product does not comply with the requirements of the Toy Safety Directive and the relevant European standard EN 62115.</p>	<p>Stop of sales</p>

A11/00006/20	Luxembourg	Soft-filled doll (Country of Origin: China)		Choking The filling material of the toy is easily accessible due to the weakness of certain seams. This stuffing material may cause choking if put in the mouth by children. / The product does not comply with the requirements of the Toy Safety Directive and the relevant European standard EN 71-1.	Ban on the marketing of the product and any accompanying measures, Withdrawal of the product from the market
A12/00003/20	Finland	Soft toys with keyring (Country of Origin: China)		Choking Small parts (plastic eyes) can be easily detached from the toy. A small child could put them in the mouth and choke. / The product does not comply with the requirements of the Toy Safety Directive and the relevant European Standard EN 71-1.	Import rejected at border
A12/00004/20	Poland	Finger paint (Country of Origin: China)		Chemical The paints contain an excessive amount of 5-Chloro-2-methyl-isothiazolin-3(2H)-one (CMI), 2-methylisothiazolin-3(2H)-one (MI), 1,2-benzisothiazol-3(2H)-on (BIT) (measured values up to 36 mg/kg, 29.1 mg/kg and 34.1 mg/kg respectively). These substances can cause eye and skin irritation, burns and are toxic. / The product does not comply with the requirements of the Toy Safety Directive.	Withdrawal of the product from the market
A12/00006/20	Poland	Plastic rattle (Country of Origin: China)		Damage to hearing The sound level produced by the toy is too high which could lead to permanent or partial hearing loss. / The product does not comply with the requirements of the Toy Safety Directive and the relevant European standard EN 71-1.	Withdrawal of the product from the market

A12/0007/20	Poland	Plastic toy (Country of Origin: China)		Chemical The toy contains an excessive amount of 2-ethylhexyl phthalate (DEHP) (measured value: 0.33 % by weight). This phthalate may harm the health of children, causing possible damage to the reproductive system. / The product does not comply with the REACH Regulation.	Withdrawal of the product from the market
A12/00011/20	Poland	Plastic gun (Country of Origin: China)		Choking, Injuries The suction cups may be easily detached. If a child puts the projectile in the mouth, the suction cup could detach and obstruct the airways. Moreover, the kinetic energy of the projectiles, when hitting a person, is too high. This could cause injuries, especially to the eyes. / The product does not comply with the requirements of the Toy Safety Directive and the relevant European standard EN 71-1.	Withdrawal of the product from the market
A12/00012/20	Poland	Toy gun set (Country of Origin: China)		Injuries The kinetic energy of the projectiles, when hitting a person, is too high. This may cause injuries, especially to the eyes. / The product does not comply with the requirements of the Toy Safety Directive and the relevant European standard EN 71-1.	Withdrawal of the product from the market
A12/00013/20	Poland	Soft toy (Country of Origin: China)		Choking A small part (elastic band) may be easily detached from the toy. A small child may put the small part in the mouth and choke on it. / The product does not comply with the requirements of the Toy Safety Directive and the relevant European standard EN 71-1.	Making the marketing of the product subject to prior conditions, Warning consumers of the risks

A12/00014/20	Poland	Toy musical instrument set (Country of Origin: China)		Choking, Damage to hearing, Strangulation Small parts can easily be detached from the toy and it can easily break, releasing small parts. A small child may put the small parts in the mouth and choke. The toy's handle is too long: a child could put the protruding part into the mouth, which could block the airways. The strap attached to the toy does not have a quick release mechanism. If worn around the neck, it could form a loop and become trapped, leading to strangulation. The sound pressure level is too high and could lead to permanent or partial hearing loss. / The product does not comply with the requirements of the Toy Safety Directive and the relevant European standard EN 71-1	Withdrawal of the product from the market
A12/00015/20	Poland	Plastic ball (Country of Origin: China)		Chemical The toy contains diisobutyl phthalate (DIBP) (measured value more than 50% by weight). This phthalate may harm the health of children, causing possible damage to the reproductive system. / The product does not comply with the requirements of the Toy Safety Directive.	Withdrawal of the product from the market
A12/00029/20	Czechia	Plastic doll (Country of Origin: China)		Chemical The plastic material of the doll's head contains an excessive amount of di-(2-ethylhexyl) phthalate (DEHP) (measured value up to 46.7% by weight). This phthalate may harm the health of children, causing possible damage to the reproductive organs. / The product does not comply with the REACH Regulation.	Withdrawal of the product from the market

A12/00047/20	United Kingdom	Plastic Doll (Country of Origin: China)		Chemical The plastic material of the product contains an excessive amount of bis(2-ethylhexyl) phthalate (DEHP)(measured values: 35.5 % by weight). / This phthalate may harm the health of children, causing possible damage to their reproductive system. The product does not comply with the REACH Regulation.	Recall of the product from end users
A12/00052/20	United Kingdom	Toy slime (Country of Origin: Unknown)		Chemical The migration of boron from the toy slime is too high (measured value up to 1450 mg/kg). / Ingestion or contact with an excessive quantity of boron may harm the health of children by damaging their reproductive system. The product does not comply with the requirements of the Toy Safety Directive and the relevant European standard EN 71-3.	Ban on the marketing of the product and any accompanying measures
A12/00054/20	Poland	Plastic balls (Country of Origin: China)		Chemical The plastic material of the product contains an excessive amount of dibutyl phthalate (DBP)(measured value: 0.21 % by weight). / This phthalate may harm the health of children, causing possible damage to their reproductive system. The product does not comply with the REACH Regulation.	Withdrawal of the product from the market
A12/00058/20	Finland	Wooden toy (Country of Origin: China)		Strangulation The toy's elastic cord is too long and may form a loop. It might tighten around the child's neck and lead to strangulation. / The product does not comply with the requirements of the Toy Safety Directive and the relevant European Standard EN 71-1.	Ban on the marketing of the product and any accompanying measures

A12/00063/20	Czechia	Plastic doll (Country of Origin: China)		Chemical The plastic material of the product contains an excessive amount of bis(2-ethylhexyl) phthalate (DEHP) (measured value: up to 8.7 % by weight.) This phthalate may harm the health of children, causing possible damage to their reproductive system. / The product does not comply with the REACH Regulation.	Withdrawal of the product from the market
A12/00064/20	Poland	Soft Musical Toy (Country of Origin: China)		Strangulation The cord attached to the toy is too long. The cord can wrap around child's neck and become trapped, leading to strangulation. / The product does not comply with the requirements of the Toy Safety Directive and the relevant European standard EN 71-1.	Withdrawal of the product from the market
INFO/00001/20	Denmark	Finger Family Puppets (Country of Origin: Unknown)		Choking Small parts can detach from the toy. A small child may put them in the mouth and choke. / The product does not comply with requirements of the Toy Safety Directive and the relevant European Standard EN 71-1.	Stop of sales
INFO/00007/20	Denmark	Toy gun set (Country of Origin: Unknown)		Choking The suction cups of the projectiles can easily detach. / If a child puts the projectile in the mouth, the suction cup may detach and obstruct the airways. The product does not comply with the requirements of the Toy Safety Directive and the relevant European standard EN 71-1.	Removal of this product listing by the online marketplace
INFO/00008/20	Austria	Soft toy (Country of Origin: China)		Choking The eyes and the beak can easily be detached, generating small parts. A small child may put them in the mouth and choke. / The product does not comply with the requirements of the Toy Safety Directive and the relevant European standard EN 71-1.	Withdrawal of the product from the market

A11/00009/20	Poland	Soft toy (Country of Origin: China)		Choking The fibrous stuffing material of the toy is easily accessible due to the weakness of certain seams. A small child may put the stuffing material in the mouth and choke on it. / The product does not comply with the requirements of the Toy Safety Directive and the relevant European standard EN 71-1.	Withdrawal of the product from the market
A11/00010/20	Poland	Soft toy (Country of Origin: China)		Choking The fibrous stuffing material of the toy is easily accessible due to the weakness of certain seams. A small child may put the stuffing material in the mouth and choke on it. / The product does not comply with the requirements of the Toy Safety Directive and the relevant European standard EN 71-1.	Withdrawal of the product from the market
A12/00076/20	Czechia	Soft-filled toy (Country of Origin: Unknown)		Choking Small part (suction cup) may be easily detached from the toy. A small child may put the detached element in the mouth and choke on it. / The product does not comply with the requirements of the Toy Safety Directive and the relevant European standard EN 71-1.	Withdrawal of the product from the market
A12/00077/20	Poland	Wooden toy (Country of Origin: China)		Choking Small parts (cat's ears) may be easily detached from the toy. A small child may put the small parts in the mouth and choke on it. / The product does not comply with the requirements of the Toy Safety Directive and the relevant European standard EN 71-1.	Withdrawal of the product from the market
A12/00084/20	Austria	Toy car set (Country of Origin: Germany)		Choking The toy contains small parts (warning cones) and small parts can easily be detached. A small child may put them in the mouth and choke. / The product does not comply with the requirements of the Toy Safety Directive and the relevant European standard EN 71-1.	Withdrawal of the product from the market

A12/00091/20	Portugal	Modeling clay (Country of Origin: China)	 	Chemical The migration of boron from the toy slime is too high (measured value up to 1985 mg/kg). Ingestion or contact with an excessive quantity of boron may harm the health of children by damaging their reproductive system. / The product does not comply with the requirements of the Toy Safety Directive and the relevant European standard EN 71-3.	Withdrawal of the product from the market, Withdrawal of the product from the market
A12/00092/20	Portugal	Modeling clay (Country of Origin: China)	 	Chemical The migration of boron from the toy slime is too high (measured value up to 1300 mg/kg). Ingestion or contact with an excessive quantity of boron may harm the health of children by damaging their reproductive system. / The product does not comply with the requirements of the Toy Safety Directive and the relevant European standard EN 71-3.	Withdrawal of the product from the market, Withdrawal of the product from the market
A12/00097/20	United Kingdom	Plastic doll (Country of Origin: China)		Chemical The plastic material of the product contains an excessive amount of bis(2-ethylhexyl) phthalate (DEHP)(measured value: 45.1 % by weight). / This phthalate may harm the health of children, causing possible damage to their reproductive system. The product does not comply with the REACH Regulation.	Recall of the product from end users
A12/00107/20	Poland	Soft musical toy (Country of Origin: China)		Injuries The retraction force of cord attached to the toy is too high. / A small child may wrap the cord around its finger, which may become trapped and get injured. The product does not comply with the requirements of the Toy Safety Directive and the relevant European standard EN 71-1.	Withdrawal of the product from the market

INFO/00010/20	Denmark	<p>Fancy-dress costume for children</p> <p>(Country of Origin: Unknown)</p>		<p>Choking, Strangulation</p> <p>The sequins can fall off, generating small parts and the straps of the dress intended to be worn partially around the neck create a fixed loop without breakaway feature. A small child may put the small parts in the mouth and choke or get stuck with the straps, leading to strangulation. / The product does not comply with the requirements of the Toy Safety Directive and the relevant European Standard EN 71-1.</p>	Stop of sales
INFO/00015/20	Denmark	<p>Wooden rattle toy</p> <p>(Country of Origin: Unknown)</p>		<p>Chemical</p> <p>The product contains small loose parts that can become accessible. The child may put the small parts into the mouth and choke. / The product does not comply with the requirements of the Toy Safety Directive and the relevant European standard EN 71-1.</p>	Stop of sales
INFO/00019/20	Denmark	<p>Rattle toy</p> <p>(Country of Origin: Unknown)</p>		<p>Choking</p> <p>Both sides of the product protrude in excess and the bells can easily break generating small parts. / A small child may put the protruding or small parts in the mouth and choke on them. The product does not comply with the requirements of the Toy Safety Directive and relevant European Standard EN 71-1.</p>	Stop of sales
INFO/00021/20	Sweden	<p>Toy slime</p> <p>(Country of Origin: Unknown)</p>		<p>Chemical</p> <p>The migration of boron from the toy slime is too high (measured value up to 862 mg/kg). / Ingestion or contact with an excessive quantity of boron may harm the health of children by damaging their reproductive system. The product does not comply with the requirements of the Toy Safety Directive and the relevant European standard EN 71-3.</p>	Other
A12/00118/20	Poland	<p>Plastic toy</p> <p>(Country of Origin: China)</p>		<p>Choking</p> <p>Small plastic part (locomotive's smokestack) may be easily detached from the toy. A child may put the small part in the mouth and choke on it. / The product does not comply with the requirements of the Toy Safety Directive and the relevant European standard EN 71-1.</p>	Withdrawal of the product from the market

A12/00119/20	Poland	Plastic doll (Country of Origin: China)		Chemical The toy contains an excessive amount of bis(2-ethylhexyl) phthalate (DEHP) (measured value: up to 34,2% by weight). This phthalate may harm the health of children, causing possible damage to the reproductive system. / The product does not comply with the REACH Regulation.	Withdrawal of the product from the market
A12/00121/20	Malta	Toy slime kit (Country of Origin: China)		Chemical The migration of boron from the toy slime is too high (measured value up to 1980mg/kg). / Ingestion or contact with an excessive quantity of boron may harm the health of children by damaging their reproductive system. The product does not comply with the requirements of the Toy Safety Directive and the relevant European standard EN 71-3.	Recall of the product from end users
A12/00126/20	Hungary	Soft toy (Country of Origin: China)		Choking The eyes can easily detach from the soft toy, generating small parts. A small child may put them in the mouth and choke. / The product does not comply with the requirements of the Toy Safety Directive and with the relevant European standard EN 71-1.	Ban on the marketing of the product and any accompanying measures
A12/00131/20	Hungary	Plastic doll set (Country of Origin: China)		Chemical The plastic material of the doll's head contains an excessive amount of bis(2-ethylhexyl) phthalate (DEHP) (measured value: 31 % by weight). This phthalate may harm the health of children, causing possible damage to the reproductive system. / The product does not comply with the REACH Regulation.	Recall of the product from end users, Withdrawal of the product from the market
A12/00132/20	Hungary	Soft toy (Country of Origin: China)		Choking The eyes and the nose can easily detach from the soft toy, generating small parts. A small child may put them in the mouth and choke. / The product does not comply with the requirements of the Toy Safety Directive and with the relevant European standard EN 71-1.	Ban on the marketing of the product and any accompanying measures

A12/00133/20	Hungary	Plastic doll set (Country of Origin: China)		Chemical The plastic material of the doll's head contains 2-ethylhexyl phthalate (DEHP) (measured value: 31 % by weight). This phthalate may harm the health of children, causing possible damage to the reproductive system. / The product does not comply with the REACH Regulation.	Recall of the product from end users, Withdrawal of the product from the market
INFO/00024/20	Austria	Plush toy (Country of Origin: China)		Choking The nose, buttons and eyes can easily be detached, generating small parts. A small child may put them in the mouth and choke. / The product does not comply with the requirements of the Toy Safety Directive and the relevant European standard EN 71-1.	Withdrawal of the product from the market
INFO/00026/20	Austria	Christmas ball (Country of Origin: China)		Choking Small parts can easily detach. A child may put them in the mouth and choke. / The product does not comply with the requirements of the Toy Safety Directive and the relevant European standard EN 71-1.	Destruction of the product

RAPEX – Rapid Exchange of Information System

The Rapid Alert System enables the rapid exchange of information (RAPEX) between 31 European countries and the European Commission on non- food dangerous products found on the market posing a risk to health and safety of consumers.

A weekly overview of the alerts on those products is published in English for free on <http://ec.europa.eu/rapex>. The measures taken in the notifying country in order to restrict their marketing or use can be ordered by national authorities ("compulsory measures") or be taken directly by producers and distributors ("voluntary measures").

The official contact points of the Member and EFTA-EEA States provide the information published in these weekly overviews. Under the terms of Annex II.10 of the General Product Safety Directive (2001/95/EC) responsibility for the information provided lies with the notifying party. The Commission does not take any responsibility for the accuracy of the information provided.

Recall Summary – US Toys / Children’s Products

CPSC Recall List (Jan 2020)

Recall No.	Notifying Country	Product	Product Photo	Hazard/ Risk	Remedy
20-052	USA	Tango Mini Strollers (Country of Origin: China)		Fall both of the stroller’s hinge joints can release and collapse under pressure, posing a fall hazard to children in the stroller. CPSC

The United States Consumer Product Safety Commission (CPSC) is an independent agency of the United States government. To provide better service in alerting the American people to unsafe, hazardous or defective products, a “one stop shop” for U.S. Government recalls, www.recalls.gov, has been created. Publics can report unsafe products to CPSC by using the platform.

The recall list is divided into seven categories: Consumer Products, Motor Vehicles, Boats, Food, Medicine, Cosmetics and Environmental Products. Generally, the recall was conducted, voluntarily by the company, under CPSC’s Fast Track Recall program. Fast Track recalls are initiated by firms who commit to work with CPSC to quickly announce the recall and remedy to protect consumers.

Recall Summary – Australia Toys / Children’s Products

ACCC Recall List (Jan 2020)

PRA No.	Notifying Country	Product	Product Photo	Hazard/ Risk	Remedy
2019/18013	Australia	Giant emoji inflatable pool toys		The product does not comply with the requirements of the mandatory standard 'Consumer Protection Notice No. 2 of 2009 - Consumer Product Safety Standard: Flotation Toys and Aquatic Toys'.	Consumers should immediately stop using the product and return it to the place of purchase for a full refund.
2019/18078	Australia	Giraffe-shaped wooden teether with silicone beads		The teethers are smaller than the permitted dimensions specified in the mandatory standard 'Consumer Protection Notice No. 14 of 2003 — Consumer Product Safety Standard: Toys for children up to and including 36 months of age'.	Consumers should immediately cease using the teethers. Big Babies Co will contact affected consumers directly to organise a return and refund.
2020/18095	Australia	A pair of blue rattles		The product does not meet the requirements of the mandatory standard 'Consumer Protection Notice No. 14 of 2003 - Consumer Product Safety Standard: Toys for children up to and including 36 months of age'.	Consumers should stop using the rattles and return them to XIMI Vogue for a full refund.

The product may break, releasing small parts.	Consumers should immediately stop using the product and return it to the place of purchase for a full refund.

PRA No.	Notifying Country	Product	Product Photo	Hazard/ Risk	Remedy
2020/18128	Australia	A battery-powered plush toy dog that barks and walks		The battery cover is not adequately secured, which could allow access to the internal batteries or allow the batteries to fall out if the cover becomes detached.	Consumers should immediately stop using the product and return it to Hot Bargain for a full refund.

Australian Product Safety System

The Australian product safety system is to maximize the safety of good by the cooperation of consumers, businesses and agencies. This policy sets out the principles adopted by the Australian Competition and Consumer Commission (ACCC) for prioritizing and addressing product safety risks.

Under the Australian Consumer Law, a responsible Minister can order a compulsory recall when there are hazards on the products. A voluntary recall could be conducted to remove the product from the marketplace when the suppliers become aware of unsafe or defective products.

The ACCC administers a national recalls system for recalls of specific and general consumer products, and publishes all product recalls on the website <https://www.productsafety.gov.au/recalls>.

STC (Hong Kong Standards and Testing Centre) is a not-for-profit, independent testing, inspection and certification organization. With a global network of ISO/IEC 17025 accredited testing laboratories and over 50 years of experience in consumer product testing, we can meet your conformity assessment needs with highly efficient and reliable service. Our testing scope and capabilities related to toys and children's products include but not limited to:

EU Requirements

- EN 71
- Phthalates (EC) no. 1907/2006
- Nickel Release (EC) no. 1907/2006
- Total Cadmium (EEC) no. 91/338
- Lead in Jewellery product (EC) no. 836/2012
- Azo-dye (EC) no. 1907/2006
- Bisphenol-A (2014/81/EU)
- DMF (Dimethylfumarate) (EU) no. 2011/135
- Flame retardants TCEP, TCPP, TDCP (2014/79/EU)
- Package Waste Directive (94/62/EC)

US & Canada Requirements

- ASTM F963
