

## Recall Summary – European Toys

Published: 25 May 2020  
RAPEX notification (Apr 2020)

Alert No.	Notifying Country	Product	Product Photo	Hazard/ Risk	Measures Adopted
A11/00040/20	United Kingdom	<b>Toy binoculars</b>  (Country of Origin: <b>China</b> )		<b>Strangulation</b> The strap attached to the toy does not have a quick release mechanism. If worn around the neck, it could form a loop or become trapped, leading to strangulation. / The product does not comply with the requirements of the Toy Safety Directive and the relevant European standard EN 71-1.	Removal of this product listing by the online marketplace
A11/00043/20	Czechia	<b>Toy pushchair</b>  (Country of Origin: <b>China</b> )		<b>Cuts, Injuries</b> The pushchair has an insufficient securing device and is not sufficiently resistant to load. Therefore, it can easily collapse and a child playing with the pushchair may fall to the ground. The metal construction has sharp ends and can lead to cuts. / The product does not comply with the requirements of the Toy Safety Directive and the relevant European standard EN 71-1.	Withdrawal of the product from the market, Withdrawal of the product from the market
A12/00531/20	United Kingdom	<b>Baby teether and rattle toy set</b>  (Country of Origin: <b>United Kingdom</b> )		<b>Choking</b> The product easily breaks releasing small parts. A small child may put the small parts in the mouth and choke on them. / The product does not comply with the requirements of the Toy Safety Directive and the relevant European standard EN 71-1.	Withdrawal of the product from the market Removal of this product listing by the online marketplace
A12/00532/20	Cyprus	<b>Toy truck set</b>  (Country of Origin: <b>China</b> )		<b>Choking</b> Small plastic parts (arm of the truck) can easily be detached from the toy. A small child may put the small parts in the mouth and choke on them. / The product does not comply with the requirements of the Toy Safety Directive and the relevant European Standard EN 71-1.	Withdrawal of the product from the market
A12/00534/20	United Kingdom	<b>Doctor play set</b>		<b>Choking</b> The product has small parts (medication) that can easily detach. A child may put them in the mouth and choke. / The product does not	Removal of this product listing by the online marketplace

		(Country of Origin: <b>China</b> )		comply with the requirements of the Toy Safety Directive and the relevant European standard EN 71-1.	
A12/00536/20	United Kingdom	<b>Fidget toy set</b>  (Country of Origin: <b>China</b> )		<b>Chemical</b> The product releases an excessive amount of nickel (measured value up to: 5.8 µg/cm <sup>2</sup> /week). Nickel is a strong sensitizer and causes allergic reactions if present in articles that come into direct and prolonged contact with the skin. / The product does not comply with the REACH Regulation.	Removal of this product listing by the online marketplace
A12/00537/20	Cyprus	<b>Toy weapon set</b>  (Country of Origin: <b>China</b> )		<b>Choking</b> The suction cups of the projectiles and arrows can easily detach. If a child puts the projectile or the arrow in the mouth, the suction cup may detach and obstruct the airways. / The product does not comply with the requirements of the Toy Safety Directive and the relevant European standard EN 71-1.	Withdrawal of the product from the market
A12/00541/20	Cyprus	<b>Toy gun</b>  (Country of Origin: <b>China</b> )		<b>Choking</b> The toy has small parts that can be easily detached and it can easily break, releasing further small pieces. A small child may put the small parts in the mouth and choke on them. / The product does not comply with the requirements of the Toy Safety Directive and the relevant European Standard EN 71-1.	Withdrawal of the product from the market
A12/00542/20	United Kingdom	<b>Make up toy set</b>  (Country of Origin: <b>China</b> )		<b>Chemical</b> The plastic material of the product contains an excessive amount of bis(2-ethylhexyl) phthalate (DEHP), benzyl butyl phthalate (BBP) and dibutyl phthalate (DBP)(measured combined value: 1% by weight). These phthalates may harm the health of children, causing possible damage to their reproductive system. / The product does not comply with the REACH Regulation.	Removal of this product listing by the online marketplace

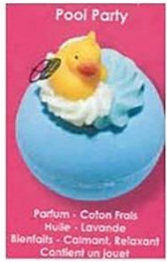

A12/00558/20	Sweden	<p><b>Novelty headband</b></p> <p>(Country of Origin: <b>China</b>)</p>		<p><b>Chemical, Environment</b></p> <p>The Halloween banner contains excessive amounts of bis(2-ethylhexyl) phthalate (DEHP) (measured value up to: 16 % by weight) and of short chain chlorinated paraffins (SCCPs) (measured value: 0.5 % by weight). Solders contain an excessive amount of lead (measured value up to 10.9 % by weight). DEHP may harm the health of children, causing possible damage to their reproductive system. The placing on the market and use of articles containing SCCPs is banned. SCCPs persist in the environment, are toxic to aquatic organisms at low concentrations and bioaccumulate in wildlife and humans, posing a risk to human health and the environment. Lead poses a risk to the environment. / The product does not comply with the REACH Regulation, the Regulation on persistent organic pollutants (POP Regulation) and the requirements of the RoHS-2 Directive.</p>	Withdrawal of the product from the market
A12/00559/20	Sweden	<p><b>Toy slime</b></p> <p>(Country of Origin: <b>China</b>)</p>		<p><b>Chemical</b></p> <p>The migration of boron from the toy slime is too high (measured value up to 6030 mg/kg). Ingestion or contact with an excessive quantity of boron may harm the health of children by damaging their reproductive system. / The product does not comply with the requirements of the Toy Safety Directive and the relevant European standard EN 71-3.</p>	Recall of the product from end users, Withdrawal of the product from the market
A12/00564/20	Czechia	<p><b>Toy slime</b></p> <p>(Country of Origin: <b>China</b>)</p>		<p><b>Chemical</b></p> <p>The migration of boron from the toy slime is too high (measured value up to 474 mg/kg). Ingestion of boron or contact with an excessive quantity of boron may harm the health of children by damaging the reproductive system. / The product does not comply with the requirements of the Toy Safety Directive and the relevant European standard EN 71-3.</p>	Withdrawal of the product from the market
A12/00565/20	Germany	<p><b>Squeezeable toy</b></p> <p>(Country of Origin: <b>Unknown</b>)</p>		<p><b>Microbiological</b></p> <p>The rubber of the internal ball easily breaks, releasing its liquid, which contains an excessive amount of mesophilic microorganisms (measured values: 8100 bacterial cfu/g and 310 mould cfu/g), among which</p>	Warning consumers of the risks

				opportunistic pathogens ( <i>Pseudomonas putida</i> ) often resistant to antibiotics. The leaked liquid could cause severe infections or sepsis in immunocompromised or debilitated individuals. / The product does not comply with the requirements of the Toy Safety Directive.	
A12/00572/20	United Kingdom	<b>Toy musical instrument set</b>  (Country of Origin: <b>China</b> )		<b>Choking, Suffocation</b> The toys have small parts that can easily detach and, as well as the packaging, they can easily break releasing small parts. The handle of the maraca is too long. A small child may put the small parts or handle in the mouth and choke. Additionally, the plastic of the packaging is too thin. If a child plays with the packaging, the plastic can cover the mouth and nose, causing the child to suffocate. / The product does not comply with the requirements of the Toy Safety Directive and the relevant European standard EN 71-1.	Removal of this product listing by the online marketplace
A12/00573/20	United Kingdom	<b>Toy firetruck set</b>  (Country of Origin: <b>China</b> )		<b>Choking, Suffocation</b> The product has small parts that can easily detach. A child may put them in the mouth and choke. The plastic of the packaging is too thin. If a child plays with the packaging, the plastic can cover the mouth and nose, causing the child to suffocate. / The product does not comply with the requirements of the Toy Safety Directive and the relevant European standard EN 71-1.	Removal of this product listing by the online marketplace
A12/00578/20	United Kingdom	<b>Soft toy</b>  (Country of Origin: <b>China</b> )		<b>Choking</b> Small parts (the eyes) can easily detach from the toy. A small child may put them in the mouth and choke on them. / The product does not comply with the requirements of the Toy Safety Directive and the relevant European standard EN 71-1.	Recall of the product from end users

A12/00579/20	United Kingdom	<b>Writing board</b>  (Country of Origin: <b>China</b> )		<b>Battery</b> The battery compartment can easily be opened or breaks when the toy is dropped, giving access to the button battery. A child may put the battery in the mouth, which could cause damage to the child's gastrointestinal tract. / The product does not comply with the requirements of the Toy Safety Directive and the relevant European standard EN 62115.	Removal of this product listing by the online marketplace
A12/00580/20	Cyprus	<b>Toy motorcycle</b>  (Country of Origin: <b>China</b> )		<b>Choking</b> Small plastic parts may easily detach from the toy. A small child may put the small parts in the mouth and choke. / The product does not comply with the requirements of the Toy Safety Directive and the relevant European Standard EN 71-1.	Withdrawal of the product from the market
A12/00581/20	Cyprus	<b>Toy gun set</b>  (Country of Origin: <b>China</b> )		<b>Choking</b> The product contains small balls that are easily accessible. A child may put them in the mouth and choke. / The product does not comply with the requirements of the Toy Safety Directive and the relevant European standard EN 71-1.	Withdrawal of the product from the market
A12/00595/20	Italy	<b>Stacking toy</b>  (Country of Origin: <b>China</b> )		<b>Choking</b> The cover of the rattle piece can be easily detached releasing its inner ball. A small child may put the ball in the mouth and choke on it. / The toy does not comply with the requirements of the toy safety directive and the relevant European standard EN 71-1.	Other
A12/00600/20	Cyprus	<b>Push along toy</b>  (Country of Origin: <b>China</b> )		<b>Choking</b> Small parts can easily be detached from the handle of the toy and the toy can easily break, releasing small parts. A small child may put them in the mouth and choke. / The product does not comply with the requirements of the Toy Safety Directive and the relevant European standard EN 71-1.	Withdrawal of the product from the market

A12/00603/20	Cyprus	<b>Toy gun set</b>  (Country of Origin: <b>China</b> )		<b>Choking</b> The suction cup of the projectile can easily detach. If a child puts the projectile in the mouth, the suction cup can detach leaving the airways obstructed by the suction cup. / The product does not comply with the requirements of the Toy Safety Directive and the relevant European standard EN 71-1.	Withdrawal of the product from the market
A12/00609/20	Cyprus	<b>Magnetic fishing toy</b>  (Country of Origin: <b>China</b> )		<b>Choking, Injuries</b> The small magnetic hook has a high magnetic flux and can easily become detached. If a small child puts it in the mouth, it could cause choking. If the magnets are swallowed together, they could attract each other, causing intestinal blockage or perforation. / The product does not comply with the requirements of the Toy Safety Directive and the relevant European standard EN 71-1.	Withdrawal of the product from the market
A12/00610/20	Cyprus	<b>Toy microphone</b>  (Country of Origin: <b>China</b> )		<b>Choking</b> The toy can easily break, releasing small parts. A small child may put them in the mouth and choke. / The toy does not comply with the requirements of the Toy Safety Directive and the relevant European standard EN 71-1.	Withdrawal of the product from the market
A12/00613/20	United Kingdom	<b>Toy gun</b>  (Country of Origin: <b>China</b> )		<b>Injuries</b> The kinetic energy of the projectiles fired from the toy gun is too high and may lead to injuries, especially to the eyes. / The product does not comply with the requirements of the Toy Safety Directive and the relevant European standard EN 71-1.	Removal of this product listing by the online marketplace

A12/00631/20	Iceland	<b>Toy Slime</b>  (Country of Origin: <b>Unknown</b> )		<b>Chemical</b> The migration of boron from the toy slime is too high (measured value up to 905 mg/kg). Ingestion or contact with an excessive quantity of boron may harm the health of children by damaging their reproductive system. / The product does not comply with the requirements of the Toy Safety Directive and the relevant European standard EN 71-3.	Recall of the product from end users
A12/00634/20	Iceland	<b>Toy Slime</b>  (Country of Origin: <b>China</b> )		<b>Chemical</b> The migration of boron from the toy slime is too high (measured value up to 829 mg/kg). Ingestion or contact with an excessive quantity of boron may harm the health of children by damaging their reproductive system. / The product does not comply with the requirements of the Toy Safety Directive and the relevant European standard EN 71-3.	Recall of the product from end users
A12/00648/20	France	<b>Bath toy</b>  (Country of Origin: <b>United Kingdom</b> )		<b>Choking</b> The product contains small figures, a small child may put the small pieces in the mouth and choke. / The product does not comply with the requirements of the Toy Safety Directive and the relevant European standard EN 71-1.	Recall of the product from end users
A12/00649/20	France	<b>Bath toy</b>  (Country of Origin: <b>United Kingdom</b> )		<b>Choking</b> The product contains small figures, a small child may put the small pieces in the mouth and choke. / The product does not comply with the requirements of the Toy Safety Directive and the relevant European standard EN 71-1.	Recall of the product from end users
A12/00650/20	France	<b>Bath toy</b>  (Country of Origin: <b>United Kingdom</b> )		<b>Choking</b> The product contains small figures, a small child may put the small pieces in the mouth and choke. / The product does not comply with the requirements of the Toy Safety Directive and the relevant European standard EN 71-1.	Recall of the product from end users

A12/00651/20	France	<b>Bath toy</b>  (Country of Origin: <b>United Kingdom</b> )		<b>Choking</b> The product contains small figures, a small child may put the small pieces in the mouth and choke. / The product does not comply with the requirements of the Toy Safety Directive and the relevant European standard EN 71-1.	Recall of the product from end users
A12/00652/20	United Kingdom	<b>Soft toy</b>  (Country of Origin: <b>China</b> )		<b>Chemical, Choking</b> The toy's foam filling is easily accessible, while its battery box can be easily opened, generating small parts and leaving button batteries accessible. A small child may put in its mouth the small parts and choke on them, or the button batteries, which could cause damage to the child's gastrointestinal tract or choking. / The product does not comply with the requirements of the Toy Safety Directive and the relevant European standard EN 71-1.	Removal of this product listing by the online marketplace
A12/00654/20	Iceland	<b>Toy Slime</b>  (Country of Origin: <b>Unknown</b> )		<b>Chemical</b> The migration of boron from the toy slime is too high (measured value up to 675 mg/kg). Ingestion or contact with an excessive quantity of boron may harm the health of children by damaging their reproductive system. / The product does not comply with the requirements of the Toy Safety Directive and the relevant European standard EN 71-3.	Recall of the product from end users
A12/00655/20	Iceland	<b>Toy Slime</b>  (Country of Origin: <b>United Kingdom</b> )		<b>Chemical</b> The migration of boron from the toy slime is too high (measured value up to 446 mg/kg). Ingestion or contact with an excessive quantity of boron may harm the health of children by damaging their reproductive system. / The product does not comply with the requirements of the Toy Safety Directive and the relevant European standard EN 71-3.	Recall of the product from end users
A12/00661/20	Cyprus	<b>Plastic doll with accessories</b>  (Country of Origin: <b>China</b> )		<b>Choking</b> Small parts (pink plastic teat of the baby bottle) can be easily be detached. A small child may put them in the mouth and choke. / The product does not comply with the requirements of the Toy Safety Directive and the relevant European Standard EN 71-1.	Withdrawal of the product from the market

A12/00664/20	United Kingdom	<b>Expandable toy</b>  (Country of Origin: <b>China</b> )		<b>Choking, Injuries</b> The turtles are too small and excessively expand when in contact with liquids. A child may put them into the mouth and swallow them. As the toy expands, it can cause fatal occlusion of the respiratory track or intestinal blockage of small children. / The product does not comply with the requirements of the Toy Safety Directive and the relevant European standard EN 71-1.	Removal of this product listing by the online marketplace
A12/00665/20	United Kingdom	<b>Expandable toy</b>  (Country of Origin: <b>China</b> )		<b>Choking, Injuries</b> Small parts (e.g. the head) can be easily torn from the toy dinosaur and may be put into the mouth and swallowed by children. As the toy expands, it can cause fatal occlusion of the respiratory track or intestinal blockage of children. / The product does not comply with the requirements of the Toy Safety Directive and the relevant European standard EN 71-1.	Removal of this product listing by the online marketplace
A12/00666/20	Cyprus	<b>Soft toy</b>  (Country of Origin: <b>China</b> )		<b>Choking</b> The plastic eyes may easily be detached from the toy, generating small parts. A small child may put them in the mouth and choke on them. / The product does not comply with the requirements of the Toy Safety Directive and the relevant European Standard EN 71-1.	Withdrawal of the product from the market
A12/00669/20	Cyprus	<b>Battery-operated toy guitar</b>  (Country of Origin: <b>China</b> )		<b>Chemical, Choking</b> The toy can easily break, releasing small parts. A small child may put them in the mouth and choke on them. Also, the battery compartment can be opened without the need of a tool, leaving batteries accessible. A child might put them in the mouth and suck on them. If the batteries leak, this could cause damage to the gastrointestinal tract. / The product does not comply with the requirements of the Toy Safety Directive and the relevant European standards EN 71-1 and EN 62115.	Withdrawal of the product from the market

A12/00670/20	Finland	<b>Toy xylophone</b>  (Country of Origin: <b>China</b> )		<b>Chemical, Choking, Suffocation</b> The product releases small parts, which a child could put in its mouth and choke on them. It contains an excessive amount of lead (measured value: 110 mg/kg), which is harmful to human health, accumulates in the body and can cause developmental neurotoxicity. The plastic of the packaging is too thin: if a child plays with the packaging, the plastic can cover the mouth and nose, causing the child to suffocate. / The product does not comply with the requirements of the Toy Safety Directive and with the relevant European standards EN 71-3 and EN 71-1. The product does not comply with the REACH Regulation.	Withdrawal of the product from the market Recall of the product from end users
INFO/00045/20	United Kingdom	<b>Soft toy</b>  (Country of Origin: <b>China</b> )		<b>Choking</b> The product's zip can be easily detached while the toy's foam filling is easily accessible, generating small parts. A small child may put them in the mouth and choke on them. / The product does not comply with the requirements of the Toy Safety Directive and the relevant European standard EN 71-1.	Removal of this product listing by the online marketplace
INFO/00050/20	Czechia	<b>Puffer ball with elastic cord</b>  (Country of Origin: <b>Unknown</b> )		<b>Choking, Strangulation</b> The product can easily release small parts. A small child may put them in the mouth and choke on them. Also, a child may be strangled when the elastic cord is stretched. / The product does not comply with the requirements of the Toy Safety Directive and the relevant European standard EN 71-1.	Withdrawal of the product from the market

### RAPEX – Rapid Exchange of Information System

The Rapid Alert System enables the rapid exchange of information (RAPEX) between [31 European countries](#) and the European Commission on non- food dangerous products found on the market posing a risk to health and safety of consumers.

A weekly overview of the alerts on those products is published in English for free on <http://ec.europa.eu/rapex>. The measures taken in the notifying country in order to restrict their marketing or use can be ordered by national authorities ("compulsory measures") or be taken directly by producers and distributors ("voluntary measures").

The official contact points of the Member and EFTA-EEA States provide the information published in these weekly overviews. Under the terms of Annex II.10 of the General Product Safety Directive ([2001/95/EC](#)) responsibility for the information provided lies with the notifying party. The Commission does not take any responsibility for the accuracy of the information provided.

## Recall Summary – US Toys / Children’s Products

**CPSC**

The United States Consumer Product Safety Commission (CPSC) is an independent agency of the United States government. To provide better service in alerting the American people to unsafe, hazardous or defective products, a “one stop shop” for U.S. Government recalls, [www.recalls.gov](http://www.recalls.gov), has been created. Publics can report unsafe products to CPSC by using the platform.

The recall list is divided into seven categories: Consumer Products, Motor Vehicles, Boats, Food, Medicine, Cosmetics and Environmental Products. Generally, the recall was conducted, voluntarily by the company, under CPSC’s Fast Track Recall program. Fast Track recalls are initiated by firms who commit to work with CPSC to quickly announce the recall and remedy to protect consumers.

## Recall Summary – Australia Toys / Children’s Products

ACCC Recall List (Apr 2020)

PRA No.	Notifying Country	Product	Product Photo	Hazard/ Risk	Remedy
2019/18030	Australia	<b>Bepak 148pcs Magnet Building Blocks Construction Set Puzzle Stacking Game Sculpture Desk Toys</b>		This product contains small, high-powered magnets. These products are banned under the 'Consumer Protection Notice No. 11 of 2011, Permanent Ban on Children's Products containing more than 1% diethylhexyl phthalate (DEHP)'.	Consumers should cease using the product and return it to the place of purchase for a full refund.

### Australian Product Safety System

The Australian product safety system is to maximize the safety of good by the cooperation of consumers, businesses and agencies. This policy sets out the principles adopted by the Australian Competition and Consumer Commission (ACCC) for prioritizing and addressing product safety risks.

Under the Australian Consumer Law, a responsible Minister can order a compulsory recall when there are hazards on the products. A voluntary recall could be conducted to remove the product from the marketplace when the suppliers become aware of unsafe or defective products.

The ACCC administers a national recalls system for recalls of specific and general consumer products, and publishes all product recalls on the website <https://www.productsafety.gov.au/recalls>.

STC (Hong Kong Standards and Testing Centre) is a not-for-profit, independent testing, inspection and certification organization. With a global network of ISO/IEC 17025 accredited testing laboratories and over 50 years of experience in consumer product testing, we can meet your conformity assessment needs with highly efficient and reliable service. Our testing scope and capabilities related to toys and children's products include but not limited to:
