

Recall Summary – European Toys

Published: 09 November 2020
RAPEX notification (Oct 2020)

Alert No.	Notifying Country	Product	Product Photo	Hazard/ Risk	Measures Adopted
A11/00079/20	Slovakia	Keychain (Country of Origin: China)		Choking, Injuries The sequins can easily be detached. A small child might put the toy in the mouth, detach the sequins with the teeth and inhale them. This could lead to infection in the lungs. Moreover, the fibrous stuffing material is easily accessible due to the weakness of certain seams. A small child may put the stuffing material in the mouth and choke. / The product does not comply with the requirements of the Toy Safety Directive and the relevant European Standard EN 71-1.	Recall of the product from end users, Withdrawal of the product from the market
A11/00080/20	Slovakia	Soft-filled doll (Country of Origin: China)		Choking A small part (the rubber band) may be easily detached from the doll's braid. A small child may put the detached element in the mouth and choke on it. / The toy does not comply with the requirements of Toy Safety Directive and the relevant European standard EN 71-1.	Stop of sales, Warning consumers of the risks
A11/00081/20	United Kingdom	Puzzle play mat (Country of Origin: China)		Choking Small parts may easily detach from the product. A child may put the small parts in the mouth and choke. / The product does not comply with the requirements of the Toy Safety Directive and the relevant European standard EN 71-8.	Destruction of the product

A11/00082/20	Croatia	Swing (Country of Origin: Serbia)		Injuries, Strangulation The T bar is too low, allowing a child to lean over it causing the swing to turn forward. This can lead to the child falling from the swing, causing injuries. The ropes of the swing are not adequate and can create a loop through which a child may insert his/her head, leading to strangulation. / The product does not comply with the requirements of the Toy Safety Directive and of the relevant European standard 71-8.	Ban on the marketing of the product and any accompanying measures
A11/00083/20	Germany	Modeling Clay (Country of Origin: The Netherlands)		Chemical The migration of boron from the toy slime is too high (measured value up to 2010 mg/kg). Ingestion or contact with an excessive quantity of boron may harm the health of children by damaging their reproductive system. / The product does not comply with the requirements of the Toy Safety Directive and the relevant European standard EN 71-3.	Withdrawal of the product from the market
A11/00084/20	Austria	Plastic car (Country of Origin: China)		Choking Small parts can easily detach. A child may put them in the mouth and choke on them. / The product does not comply with the requirements of the Toy Safety Directive and the relevant European Standard EN 71-1.	Destruction of the product, Withdrawal of the product from the market
A12/01322/20	Czechia	Plastic ball (Country of Origin: China)		Chemical The plastic material of the ball contains bis (2-ethylhexyl) phthalate (DEHP) (measured value: 27.4% by weight). This phthalate may harm the health of children, causing possible damage to the reproductive system. / The product does not comply with the REACH Regulation.	Withdrawal of the product from the market
A12/01323/20	Czechia	Plastic doll (Country of Origin: China)		Chemical The plastic material of the doll contains bis (2-ethylhexyl) phthalate (DEHP) (measured value: 20.7% by weight). This phthalate may harm the health of children, causing possible damage to the reproductive system. / The product does not comply with the REACH Regulation.	Withdrawal of the product from the market

The information contained in this newsletter is obtained from sources believed to be accurate to the best knowledge of STC and its subsidiaries. It is distributed without warranty, representation, inducement or license of any kind and STC and its subsidiaries do not assume any legal responsibility for use or reliance upon the information.

A12/01324/20	Czechia	Plastic doll (Country of Origin: China)		Chemical The plastic material of the doll contains bis (2-ethylhexyl) phthalate (DEHP) (measured value: 13.2% by weight). This phthalate may harm the health of children, causing possible damage to the reproductive system. / The product does not comply with the REACH Regulation.	Withdrawal of the product from the market
A12/01325/20	Austria	Baby doll pull-along toy (Country of Origin: China)		Choking Small parts such as one of the wheels can easily detach. A small child may put them in the mouth and choke on them. / The product does not comply with the requirements of the Toy Safety Directive and the relevant European standard EN 71-1	Withdrawal of the product from the market
A12/01329/20	Slovakia	Key ring with a soft toy (Country of Origin: China)		Choking The metal ring can easily detach from the toy becoming a small part. A small child may put it in the mouth and choke on it. / The product does not comply with the requirements of the Toy Safety Directive and the European Standard EN 71-1.	Recall of the product from end users, Withdrawal of the product from the market
A12/01330/20	Poland	Toy Slime (Country of Origin: China)		Chemical The migration of boron from the toy slime is too high (measured value up to: 880 mg/kg). Ingestion or contact with an excessive quantity of boron may harm the health of children by damaging their reproductive system. / The product does not comply with the requirements of the Toy Safety Directive and the relevant European standard EN 71-3.	Destruction of the product, Withdrawal of the product from the market
A12/01332/20	Slovakia	Toy slime (Country of Origin: China)		Chemical The migration of boron from the toy slime is too high (measured value up to 3450 mg/kg). Ingestion of or contact with an excessive quantity of boron may harm the health of children by damaging the reproductive system. / The product does not comply with the requirements of the Toy Safety Directive and the relevant European standard EN 71-3.	Recall of the product from end users, Withdrawal of the product from the market

The information contained in this newsletter is obtained from sources believed to be accurate to the best knowledge of STC and its subsidiaries. It is distributed without warranty, representation, inducement or license of any kind and STC and its subsidiaries do not assume any legal responsibility for use or reliance upon the information.

A12/01335/20	United Kingdom	Battery Operated Toy (Country of Origin: United Kingdom)		Chemical, Injuries The electrical circuit and the button batteries can easily detach from the toy. A child could place any of them in the mouth and choke on it. When swallowed, button cells can trigger the generation of the highly corrosive sodium hydroxide in the body, leading to severe burns and tissue damage. / The product does not comply with the requirements of the Toy Safety Directive and the relevant European standard EN 62115.	Recall of the product from end users
A12/01345/20	United Kingdom	Flashing Swing Ball (Country of Origin: United Kingdom)		Strangulation Given the design and the material of the toy, a child could swing the toy around the head and twist it around the neck, causing strangulation. / The product does not comply with the requirements of the Toy Safety Directive and the relevant European Standard EN 71-1.	Recall of the product from end users
A12/01346/20	United Kingdom	Flashing Toy (Country of Origin: United Kingdom)		Chemical, Injuries The electrical circuit and the button batteries can easily detach from the toy. A child could place any of them in the mouth and choke on it. When swallowed, button cells can trigger the generation of the highly corrosive sodium hydroxide in the body, leading to severe burns and tissue damage. / The product does not comply with the requirements of the Toy Safety Directive and the relevant European standard EN 62115.	Recall of the product from end users
A12/01351/20	Slovakia	Soft-filled toy (Country of Origin: China)		Choking The nose can easily be detached, generating a small part. A small child may put it in the mouth and choke on it. / The product does not comply with the requirements of the Toy Safety Directive and the relevant European standard EN 71-1.	Recall of the product from end users, Withdrawal of the product from the market
A12/01352/20	Cyprus	Rattle toy set (Country of Origin: China)		Choking Small parts can easily be detached from the rattles (butterfly). A small child may put them in the mouth and choke on them. / The product does not comply with the requirements of the Toy Safety Directive and the relevant European Standard EN 71-1.	Withdrawal of the product from the market

The information contained in this newsletter is obtained from sources believed to be accurate to the best knowledge of STC and its subsidiaries. It is distributed without warranty, representation, inducement or license of any kind and STC and its subsidiaries do not assume any legal responsibility for use or reliance upon the information.

A12/01353/20	Cyprus	Multifunctional toy (Country of Origin: China)		Choking The product has small parts (small wheels) that can release or detach easily. A child may put the small parts in the mouth and choke. / The product does not comply with the requirements of the Toy Safety Directive and the relevant European Standard EN 71-1.	Withdrawal of the product from the market
A12/01354/20	Poland	Wooden toy drum (Country of Origin: China)		Damage to hearing, Strangulation The strap attached to the drum has no quick release mechanism. If worn around the neck, it could form a loop and become trapped, leading to strangulation. The sound pressure level is too high (measured value up to: 130 dB). This could lead to partial loss of hearing, when the product is used. / The product does not comply with the requirements of the Toy Safety Directive and the relevant European standard EN 71-1.	Withdrawal of the product from the market
A12/01355/20	Poland	Toy slime (Country of Origin: China)		Chemical The migration of boron from the toy is too high (measured value up to 1208 mg/kg). Ingestion or contact with an excessive quantity of boron may harm the health of children by damaging their reproductive system. / The product does not comply with REACH Regulation.	Withdrawal of the product from the market
A12/01356/20	Cyprus	Toy bow and arrow set (Country of Origin: China)		Choking The suction cups of the projectiles can easily detach. If a child puts the projectile in the mouth, the suction cup could detach and obstruct the airways. / The product does not comply with the requirements of the Toy Safety Directive and the relevant European standard EN 71-1.	Withdrawal of the product from the market

The information contained in this newsletter is obtained from sources believed to be accurate to the best knowledge of STC and its subsidiaries. It is distributed without warranty, representation, inducement or license of any kind and STC and its subsidiaries do not assume any legal responsibility for use or reliance upon the information.

A12/01363/20	Slovakia	Soft toy (Country of Origin: China)		Choking A small part (a suction cup) may be easily detached from the toy. A small child may put the detached element in the mouth and choke on it. / The product does not comply with the requirements of the Toy Safety Directive and the relevant European standard EN 71-1.	Stop of sales, Warning consumers of the risks
A12/01364/20	Slovakia	Soft toy (Country of Origin: China)		Choking A small part (the suction cup) may be easily detached from the toy. A small child may put the detached element in the mouth and choke on it. / The product does not comply with the requirements of the Toy Safety Directive and the relevant European standard EN 71-1.	Stop of sales, Warning consumers of the risks
A12/01365/20	Slovakia	Rag doll (Country of Origin: China)		Choking Small parts (the Velcro, the zipper puller and the metal brackets) can easily be detached from the doll. A small child may put them into the mouth and choke. / The product does not comply with the requirements of the Toy Safety Directive and the relevant European Standard EN 71-1.	Recall of the product from end users, Withdrawal of the product from the market
A12/01366/20	Hungary	Bath toy set (Country of Origin: China)		Chemical The toy contains an excessive amount of di-(2-ethylhexyl) phthalate (DEHP) (measured value: 32% by weight). This phthalate may harm the health of children, causing possible damage to the reproductive system. / The product does not comply with the REACH Regulation.	Recall of the product from end users, Withdrawal of the product from the market
A12/01367/20	Greece	Plastic doll (Country of Origin: China)		Chemical The plastic material of the toy contains an excessive amount of bis(2-ethylhexyl) phthalate (DEHP), dibutyl phthalate (DBP) and di-isonylphthalate (DINP) (measured values up to: 0.65%, 0.27% and 33.5% by weight, respectively). These phthalates may harm the health of children, causing possible damage to their reproductive system and/or liver. / The product does not comply with the REACH Regulation.	Ban on the marketing of the product and any accompanying measures, Withdrawal of the product from the market

The information contained in this newsletter is obtained from sources believed to be accurate to the best knowledge of STC and its subsidiaries. It is distributed without warranty, representation, inducement or license of any kind and STC and its subsidiaries do not assume any legal responsibility for use or reliance upon the information.

A12/01368/20	Hungary	Plastic doll (Country of Origin: China)		Chemical The plastic material of the doll's head contains an excessive amount of di-(2-ethylhexyl) phthalate (DEHP) (measured value: 32% by weight). This phthalate may harm the health of children, causing possible damage to the reproductive system. / The product does not comply with the REACH Regulation.	Recall of the product from end users, Withdrawal of the product from the market
A12/01369/20	Cyprus	Rattle toy set (Country of Origin: China)		Choking, Injuries The toys can easily break, generating small parts. A child may put the small parts in the mouth and choke on them. The product has protruding pieces (the guitar). When playing with the toy or if put it in the mouth, a small child could get injured or choke on it. / The toy does not comply with the requirements of the relevant European Standard EN 71-1.	Withdrawal of the product from the market
A12/01377/20	Poland	Toy scooter (Country of Origin: China)		Injuries There are accessible gaps between moving parts of the scooter. Body parts may become trapped, a child may suffer injuries. / The product does not comply with the requirements of the Toy Safety Directive and the relevant European standard EN 71-1.	Withdrawal of the product from the market
A12/01379/20	Poland	Toy telephone (Country of Origin: China)		Damage to hearing The sound pressure level is too high and could lead to permanent or partial hearing loss. / The product does not comply with the requirements of the Toy Safety Directive and the relevant European standard EN 71-1.	Withdrawal of the product from the market
A12/01381/20	Poland	Plastic swing (Country of Origin: China)		Injuries The rope is fixed to the swing seat with knots that may easily loosen and the child may fall down. / The product does not comply with the requirements of the Toy Safety Directive and the relevant European standard EN 71-8.	Withdrawal of the product from the market

The information contained in this newsletter is obtained from sources believed to be accurate to the best knowledge of STC and its subsidiaries. It is distributed without warranty, representation, inducement or license of any kind and STC and its subsidiaries do not assume any legal responsibility for use or reliance upon the information.

A12/01392/20	Hungary	Plastic doll (Country of Origin: China)		Chemical The plastic material of the doll's head contains an excessive amount of bis(2-ethylhexyl) phthalate (DEHP) (measured value: 32% by weight). This phthalate may harm the health of children, causing possible damage to the reproductive system. / The product does not comply with the REACH Regulation.	Recall of the product from end users, Withdrawal of the product from the market
A12/01394/20	Slovakia	Keychain (Country of Origin: China)		Choking Small parts (the metal ring and the nose) can easily detach from the toy, generating small part. A small child may put them in the mouth and choke. / The product does not comply with the requirements of the Toy Safety Directive and the relevant European Standard EN 71-1.	Recall of the product from end users, Withdrawal of the product from the market
A12/01399/20	Cyprus	Plastic toy dinosaur (Country of Origin: China)		Choking The eggs are small parts. A small child may put them in the mouth and choke. / The product does not comply with the requirements of the Toy Safety Directive and the relevant European standard EN 71-1.	Withdrawal of the product from the market
A12/01400/20	Hungary	Toy police set (Country of Origin: China)		Choking, Injuries The suction cups can be easily detached. If a child puts the projectile in the mouth, the suction cup could detach and obstruct the airways. Moreover, the kinetic energy of the projectiles, when hitting a person, is too high. This could cause injuries, especially to the eyes. / The product does not comply with the requirements of the Toy Safety Directive and the relevant European standard EN 71-1.	Import rejected at border

The information contained in this newsletter is obtained from sources believed to be accurate to the best knowledge of STC and its subsidiaries. It is distributed without warranty, representation, inducement or license of any kind and STC and its subsidiaries do not assume any legal responsibility for use or reliance upon the information.

A12/01402/20	Slovakia	Soft doll (Country of Origin: Unknown)		Choking The velcro can be detached from the dress, generating a small part, and the fibrous stuffing material is easily accessible due to the weakness of certain seams. A small child may put the small part or the stuffing material in the mouth and choke on them. / The product does not comply with the requirements of the Toy Safety Directive and the relevant European Standard EN 71-1.	Recall of the product from end users
A12/01409/20	Poland	Set of soft toys (Country of Origin: China)		Chemical, Choking The migration of lead from orange oilcloth material of the ball is too high (measured value: 311 mg/kg). Lead is harmful to human health, accumulates in the body and can cause developmental neurotoxicity. The fibrous stuffing material of the toy is easily accessible due to the weakness of certain seams. A small child may put the stuffing material in the mouth and choke. / The product does not comply with the requirements of the Toy Safety Directive and with the relevant European standards EN 71-3.	Destruction of the product, Withdrawal of the product from the market
A12/01410/20	Poland	Soft toy (Country of Origin: China)		Injuries The sequins can easily be detached. A small child might put the toy in the mouth, detach the sequins with the teeth and inhale them. This could lead to infection in the lungs. / The product does not comply with the requirements of the Toy Safety Directive and the relevant European Standard EN 71-1.	Withdrawal of the product from the market
A12/01411/20	United Kingdom	Toy doll (Country of Origin: China)		Chemical The plastic material of the toy contains an excessive amount of bis(2-ethylhexyl) phthalate (DEHP), dibutyl phthalate (DBP) and di-isonylphthalate (DINP) (measured value up to: 10.6%, 1.6% and 4.7% by weight, respectively). These phthalates may harm the health of children, causing possible damage to their reproductive system and/or liver. / The product does not comply with the REACH Regulation.	Removal of this product listing by the online marketplace. Recall of the product from end users

The information contained in this newsletter is obtained from sources believed to be accurate to the best knowledge of STC and its subsidiaries. It is distributed without warranty, representation, inducement or license of any kind and STC and its subsidiaries do not assume any legal responsibility for use or reliance upon the information.

A12/01421/20	Lithuania	Battery-operated toy (Country of Origin: China)		Choking, Cuts Small parts (flowers, wheels) can easily detach from the toy. A child may put them into the mouth and choke on it. The toy has accessible sharp elements, which could cause cuts. / The product does not comply with the requirements of the Toy Safety Directive and the relevant European Standard EN 71-1.	Withdrawal of the product from the market
A12/01424/20	Austria	Soft toy (Country of Origin: China)		Choking Small parts can easily detach. Therefore, a small child may put them in the mouth and choke on them. / The product does not comply with the requirements of the Toy Safety Directive and the relevant European standard EN 71-1.	Withdrawal of the product from the market
A12/01425/20	Hungary	Plastic doll (Country of Origin: China)		Chemical The plastic head of the toy contains an excessive amount of bis(2-ethylhexyl) phthalate (DEHP) (measured value: 33% by weight) and dibutyl phthalate (DBP) (measured value: 0.18% by weight). These phthalates may harm the health of children, causing possible damage to the reproductive system. / The product does not comply with the REACH Regulation.	Import rejected at border
A12/01426/20	France	Baby teether (Country of Origin: Unknown)		Choking Small parts (wooden beads) can easily detach. As a consequence, a small child may put them in the mouth and choke on them. / The product does not comply with the relevant European standard EN 71-1.	Recall of the product from end users
A12/01435/20	United Kingdom	Wooden toy (Country of Origin: China)		Strangulation The cord of the toy is too long. It may get wrapped around the child's neck and lead to strangulation. / The product does not comply with the requirements of the Toy Safety Directive and the relevant European Standard EN 71-1.	Destruction of the product

The information contained in this newsletter is obtained from sources believed to be accurate to the best knowledge of STC and its subsidiaries. It is distributed without warranty, representation, inducement or license of any kind and STC and its subsidiaries do not assume any legal responsibility for use or reliance upon the information.

A12/01436/20	Poland	Toy musical instrument set (Country of Origin: China)		Choking, Cuts, Strangulation The toy has small parts that can easily detach or break releasing small parts. A small child may put them in the mouth and choke on them. Furthermore, the toy has sharp edges that may cause cuts. The strap attached to the drum has no quick release mechanism. If worn around the neck, it could form a loop and become trapped, leading to strangulation. / The product does not comply with the requirements of the Toy Safety Directive and the relevant European standard EN 71-1.	Withdrawal of the product from the market
A12/01438/20	United Kingdom	Wooden puzzle (Country of Origin: China)		Choking The product contains loose small parts. A small child may put them in the mouth and choke on them. / The product does not comply with the requirements of the Toy Safety Directive and the relevant European standard EN 71-1.	Destruction of the product

RAPEX – Rapid Exchange of Information System

The Rapid Alert System enables the rapid exchange of information (RAPEX) between [31 European countries](#) and the European Commission on non- food dangerous products found on the market posing a risk to health and safety of consumers.

A weekly overview of the alerts on those products is published in English for free on <http://ec.europa.eu/rapex>. The measures taken in the notifying country in order to restrict their marketing or use can be ordered by national authorities ("compulsory measures") or be taken directly by producers and distributors ("voluntary measures").

The official contact points of the Member and EFTA-EEA States provide the information published in these weekly overviews. Under the terms of Annex II.10 of the General Product Safety Directive ([2001/95/EC](#)) responsibility for the information provided lies with the notifying party. The Commission does not take any responsibility for the accuracy of the information provided.

Recall Summary – US Toys / Children’s Products

CPSC Recall List (Oct 2020)

Recall No.	Notifying Country	Product	Product Photo	Hazard/ Risk	Remedy
21-010	USA	MorfBoard Skate & Scoot Combo scooters with “Y” handlebars (Country of Origin: China)		Fall the “y” handlebar joint on the scooter can break, posing a fall hazard.	Consumers should immediately take these recalled scooters with the “Y” handlebars away from children and contact Jakks Pacific to receive a free replacement “T” handlebar.
21-015	USA	Ron Jon Surf Shop Sippy Cup (Country of Origin: China)		Lead Content the plastic characters on the recalled sippy cup contain levels of lead that exceed the federal lead content ban and contain levels of a regulated phthalate that exceed the prohibition of specific phthalates. lead and banned phthalates are toxic if ingested by young children and can cause adverse health issues.	Consumers should immediately take the recalled Sippy Cup away from children and contact Porter World Trade for instructions on how to return the product for a full refund.
21-702	USA	PR70P Clip-In Pedals fitted on Peloton bikes (sold between July 2013 and May 2016) (Country of Origin: Taiwan)		Break Unexpectedly During Use pr70p clip-in pedals can break unexpectedly during use, causing laceration injuries.	Consumers should immediately stop using bikes fitted with PR70P Clip-In pedals. Peloton is notifying all affected consumers directly on how to receive free replacement pedals, along with instructions for self-installation.

The information contained in this newsletter is obtained from sources believed to be accurate to the best knowledge of STC and its subsidiaries. It is distributed without warranty, representation, inducement or license of any kind and STC and its subsidiaries do not assume any legal responsibility for use or reliance upon the information.

21-706	USA	<p>Nash Convertible Cribs</p> <p>(Country of Origin: Vietnam)</p>		<p>Injury the leg can become partially detached from the crib's headboard and footboard, posing an injury hazard.</p>	<p>Consumers should immediately stop using the recalled cribs and contact Serena & Lily for a repair, replacement or refund. Consumers can choose a replacement headboard and footboard to repair the crib, plus a coupon for \$250 good for one year from date of issue; replace the Nash Convertible Crib; exchange for another Serena & Lily crib of equivalent value; or a full refund. Serena & Lily is contacting all purchasers of recalled cribs directly.</p>

CPSC

The United States Consumer Product Safety Commission (CPSC) is an independent agency of the United States government. To provide better service in alerting the American people to unsafe, hazardous or defective products, a “one stop shop” for U.S. Government recalls, www.recalls.gov, has been created. Publics can report unsafe products to CPSC by using the platform.

The recall list is divided into seven categories: Consumer Products, Motor Vehicles, Boats, Food, Medicine, Cosmetics and Environmental Products. Generally, the recall was conducted, voluntarily by the company, under CPSC’s Fast Track Recall program. Fast Track recalls are initiated by firms who commit to work with CPSC to quickly announce the recall and remedy to protect consumers.

Recall Summary – Australia Toys / Children’s Products

ACCC Recall List (Oct 2020)

PRA No.	Notifying Country	Product	Product Photo	Hazard/ Risk	Remedy
2020/18471	Australia	Thule Sleek Stroller		Two screws that secure the handlebar to the frame may be missing. The handlebar may detach from the frame.	Consumers should stop using the stroller.
2020/18480	Australia	Summer Mini Personalised Sleepwear		The garments do not comply with the requirements of the mandatory standard 'Consumer Goods (Children's Nightwear and Limited Daywear and Paper Patterns for Children's Nightwear) Safety Standard 2017'. Consumers should cease using the product immediately and return the product to their nearest Best & Less store for a full refund.
2020/18610	Australia	Herobility infant cutlery		The Eco Feeding Spoon and Eco Baby Spoon and Fork products may break into small pieces.	Affected consumers will be given a gift voucher to the value of goods purchased to be used on the Bloom and Grow website.

Australian Product Safety System

The Australian product safety system is to maximize the safety of good by the cooperation of consumers, businesses and agencies. This policy sets out the principles adopted by the Australian Competition and Consumer Commission (ACCC) for prioritizing and addressing product safety risks.

Under the Australian Consumer Law, a responsible Minister can order a compulsory recall when there are hazards on the products. A voluntary recall could be conducted to remove the product from the marketplace when the suppliers become aware of unsafe or defective products.

The ACCC administers a national recalls system for recalls of specific and general consumer products, and publishes all product recalls on the website <https://www.productsafety.gov.au/recalls>.

STC (Hong Kong Standards and Testing Centre) is a not-for-profit, independent testing, inspection and certification organization. With a global network of ISO/IEC 17025 accredited testing laboratories and over 50 years of experience in consumer product testing, we can meet your conformity assessment needs with highly efficient and reliable service. Our testing scope and capabilities related to toys and children's products include but not limited to:

EU Requirements

- EN 71
- Phthalates (EC) no. 1907/2006
- Nickel Release (EC) no. 1907/2006
- Total Cadmium (EEC) no. 91/338
- Lead in Jewellery product (EC) no. 836/2012
- Azo-dye (EC) no. 1907/2006
- Bisphenol-A (2014/81/EU)
- DMF (Dimethylfumarate) (EU) no. 2011/135
- Flame retardants TCEP, TCPP, TDCP (2014/79/EU)
- Package Waste Directive (94/62/EC)

US & Canada Requirements

- ASTM F963
- CPSIA
- California Proposition 65
- 16 CFR 1501
- ASTM F2923 (Children's jewellery)
- ASTM F2999 (Adult's jewellery)
- US Toxic in Packaging Clearinghouse (TPCH)
- CCPSA - Toys Regulations (SOR/2011-17)

Japan Requirements

- Japan Toy Safety Standard (ST)
- Japan Food Sanitation Law (JFSL)

Australia Requirements

- AS/NZS 8124
- Consumer Protection Notice No. 6 of 2010 - DEHP
