

## Recall Summary – European Toys

### EU Safety Gate Alerts (Dec 2021)

Alert No.	Notifying Country	Product	Product Photo	Hazard/ Risk	Measures Adopted
A11/00105/21	Ireland	<b>Sleeping Bag</b>  (Country of Origin: <b>Unknown</b> )		<b>Suffocation</b> The neck opening is too large in relation to a child's height/age. This can increase the risk of the child to slip inside the sleeping bag which could cause suffocation. The product does not comply with the requirements of the General Product Safety Directive and the European standard EN 16781.	Recall of the product from end users
A11/00106/21	Hungary	<b>Toy Slime</b>  (Country of Origin: <b>China</b> )		<b>Chemical</b> Due to its presentation, the product can easily be confused with a soft drink. It may therefore be swallowed by a child from the easily opened bottle, which can cause gastrointestinal irritation. The product does not comply with the requirements of the Food-imitating Products Directive.	Withdrawal of the product from the market
A11/00110/21	Hungary	<b>Musical Toy</b>  (Country of Origin: <b>China</b> )		<b>Chemical</b> The batteries could be easily accessed without the use of any tools. A small child might put them in the mouth and their acid content may cause damage of the intestinal tract. The product does not comply with the requirements of the Toy Safety Directive and the European standards EN 71-1.	Withdrawal of the product from the market
A11/00113/21	Portugal	<b>Child Sleeping Bag</b>  (Country of Origin: <b>India</b> )		<b>Entrapment, Suffocation</b> The neck opening is too large in relation to a child's height/age. This can increase the risk of the child to slip inside the sleep bag which could cause suffocation. The product does not comply with the requirements of the General Product Safety Directive and the European standard EN 16781.	Withdrawal of the product from the market

A12/01644/21	Poland	<b>Plastic Toy</b>  (Country of Origin: <b>China</b> )		<b>Chemical, Choking</b> The button cell batteries are easily accessible. A child might put them in the mouth and swallow them, which may lead to choking if they enter the airways, or could cause damages to the gastrointestinal tract if they are ingested. The product does not comply with the requirements of the Toy Safety Directive and the European standard EN 62115.	Withdrawal of the product from the market
A12/01645/21	Poland	<b>Toy Musical Instrument Set</b>  (Country of Origin: <b>China</b> )		<b>Choking, Cut, Damage to hearing</b> The rattles can easily break, resulting in small parts, and their handles are too long. A small child may put them in the mouth and choke. The drum can break easily, creating sharp edges which may cause cuts. Moreover, the warning on the safe use of a percussion toy is missing. If the toy is used improperly it may cause damage to hearing. The product does not comply with the requirements of the Toy Safety Directive and the European standard EN 71-1.	Withdrawal of the product from the market
A12/01646/21	Slovakia	<b>Wooden Puzzle</b>  (Country of Origin: <b>China</b> )		<b>Choking</b> The product contains loose small parts. A small child may put them in the mouth and choke. The product does not comply with the requirements of the Toy Safety Directive and the European standard EN 71-1.	Recall of the product from end users
A12/01648/21	France	<b>Baby Soother</b>  (Country of Origin: <b>China</b> )		<b>Chemical</b> The product contains Bisphenol A (BPA) (measured value: 0.1 mg/kg). BPA may damage fertility and has been identified as a substance affecting the hormonal systems of humans and animals. The product does not comply with the requirements of the General Product Safety Directive and the European standard EN 1400.	Removal of this product listing by the online marketplace
A12/01649/21	France	<b>Babies' Soother</b>  (Country of Origin: <b>Thailand</b> )		<b>Chemical</b> The product contains Bisphenol A (BPA) (measured value: 0.1 mg/kg). BPA may damage fertility and has been identified as a substance affecting the hormonal systems of humans and animals. The product does not comply with the requirements of the General Product Safety Directive and the European standard EN 1400.	Recall of the product from end users

A12/01650/21	France	<b>Babies' Soother</b>  (Country of Origin: <b>China</b> )		<b>Chemical</b> The product contains Bisphenol A (BPA) (measured value: 8.59 mg/kg). BPA may damage fertility and has been identified as a substance affecting the hormonal systems of humans and animals. The product does not comply with the requirements of the General Product Safety Directive and the European standard EN 1400.	Withdrawal of the product from the market
A12/01651/21	Hungary	<b>Plastic Doll</b>  (Country of Origin: <b>China</b> )		<b>Chemical</b> The product contains an excessive amount of di-2-ethylhexyl phthalate (DEHP) (measured value: 38% by weight) and dibutyl phthalate (DBP) (measured value: 0.18% by weight). These phthalates may harm the health of children, causing possible damage to their reproductive system. The product does not comply with the REACH Regulation.	Withdrawal of the product from the market
A12/01652/21	Hungary	<b>Plastic Doll</b>  (Country of Origin: <b>China</b> )		<b>Chemical</b> The product contains an excessive amount of di-2-ethylhexyl phthalate (DEHP) (measured value: 35% by weight). This phthalate may harm the health of children, causing possible damage to their reproductive system. The product does not comply with the REACH Regulation.	Withdrawal of the product from the market
A12/01653/21	Hungary	<b>Plastic Doll</b>  (Country of Origin: <b>China</b> )		<b>Chemical</b> The product contains an excessive amount of di-2-ethylhexyl phthalate (DEHP) (measured value: 37% by weight). This phthalate may harm the health of children, causing possible damage to their reproductive system. The product does not comply with the REACH Regulation.	Withdrawal of the product from the market
A12/01655/21	Czechia	<b>Inflatable Armbands</b>  (Country of Origin: <b>China</b> )		<b>Chemical</b> The product contains an excessive amount of bis(2-ethylhexyl) phthalate (DEHP) (measured value: up to 11% by weight). This phthalate may harm the health of children causing possible damage to their reproductive system. The product does not comply with the REACH Regulation.	Withdrawal of the product from the market

The information contained in this newsletter is obtained from sources believed to be accurate to the best knowledge of STC and its subsidiaries. It is distributed without warranty, representation, inducement or license of any kinds and STC and its subsidiaries do not assume any legal responsibility for use or reliance upon the information.

A12/01659/21	Hungary	<b>Toy Musical Instrument Set</b>  (Country of Origin: <b>China</b> )		<b>Choking</b> Small parts (cap, legs and arms of the pig figure) may easily detach from the toy. A small child may put them in the mouth and choke. The product does not comply with the requirements of the Toy Safety Directive and with the European standard EN 71-1.	Withdrawal of the product from the market
A12/01660/21	Hungary	<b>Plastic Doll</b>  (Country of Origin: <b>China</b> )		<b>Chemical</b> The plastic material of the doll's head contains an excessive amount of di-2-ethylhexyl phthalate (DEHP) (measured value: 23% by weight). This phthalate may harm the health of children, causing possible damage to their reproductive system. The product does not comply with the REACH Regulation.	Withdrawal of the product from the market
A12/01661/21	Hungary	<b>Toy Kitchen Set</b>  (Country of Origin: <b>China</b> )		<b>Suffocation</b> The pink pot has a hemispheric shape that could cover the nose and mouth of a small child, leading to suffocation. The product does not comply with the requirements of the Toy Safety Directive and the European standard EN 71-1.	Withdrawal of the product from the market
A12/01664/21	Lithuania	<b>Toy Bow with Arrows</b>  (Country of Origin: <b>China</b> )		<b>Choking</b> The suction cups of the projectile can easily detach. If a child puts the projectile in the mouth, the suction cups can obstruct the airways and lead to choking. The product does not comply with the requirements of the Toy Safety Directive and the European standard EN 71-1.	Withdrawal of the product from the market
A12/01667/21	Lithuania	<b>Electrical Toy Plane</b>  (Country of Origin: <b>China</b> )		<b>Environment</b> Concentrations of lead (measured value: up to 57.51%) and cadmium (measured value: up to 0.30%) in solders in individual parts of the toy exceed the limit values. Lead and cadmium pose a risk to the environment. The product does not comply with the requirements of the Directive on the restriction of the use of certain hazardous substances in electrical and electronic equipment (RoHS 2 Directive).	Withdrawal of the product from the market

A12/01668/21	France	<b>Children's Fancy-dress Costume</b>  (Country of Origin: <b>China</b> )		<b>Choking, Suffocation</b> The product has small parts, namely a button, that can be easily detached. A child can put it in the mouth and choke. The plastic bag of the packaging is too thin. If a child plays with the packaging, the plastic can cover the mouth and nose, causing the child to suffocate. The product does not comply with the Toy Safety Directive and the European standard EN 71-1.	Removal of this product listing by the online marketplace
A12/01669/21	Hungary	<b>Bath Toy Set</b>  (Country of Origin: <b>China</b> )		<b>Choking</b> Small plastic parts (squeaking element) may easily detach from the toy. A small child may put them in the mouth and choke. The product does not comply with the requirements of the Toy Safety Directive and with the European standard EN 71-1.	Withdrawal of the product from the market
A12/01684/21	France	<b>Soft Toy</b>  (Country of Origin: <b>China</b> )		<b>Chemical, Choking, Suffocation</b> The suction cup on top of the soft toy's head detaches easily. A child can put it in the mouth and choke. The suction cup also contains an excessive amount of bis(2-ethylhexyl) phthalate (DEHP) (measured value: up to 19.4% by weight). This phthalate may harm the health of children, causing possible damage to their reproductive system. The plastic bag of the packaging is too thin. If a child plays with the packaging, the plastic can cover the mouth and nose, causing the child to suffocate. The product does not comply with the requirements of the Toy Safety Directive and European standard EN 71-1.	Removal of this product listing by the online marketplace
A12/01685/21	France	<b>Teddy Bear</b>  (Country of Origin: <b>China</b> )		<b>Choking</b> Due to the weakness of the seams, the fibrous stuffing material of the toy is easily accessible. A small child may put the stuffing material in the mouth and choke. The product does not comply with the requirements of the Toy Safety directive and the European standard EN 71-1.	Removal of this product listing by the online marketplace

A12/01686/21	France	<b>Toy Telephone</b>  (Country of Origin: <b>China</b> )		<b>Choking, Suffocation</b> The wheels of the product are too small and easily detached. A small child can put it in the mouth and choke. In addition, the non-permeable plastic bag of the product is too thin. If a child plays with the bag, the plastic can cover the mouth and nose, causing the child to suffocate. The product does not meet the requirements of the Product Safety Directive and the European standard EN 71-1.	Removal of this product listing by the online marketplace
A12/01687/21	France	<b>Children's Fancy Dress</b>  (Country of Origin: <b>China</b> )		<b>Injury, Strangulation, Suffocation</b> The dress has free cords which can cause the child to fall during their normal activities and cause injury. The toy also has two fixed buckles which are too large and can go around the neck of the child and cause strangulation. The plastic bag of the packaging is too thin. If a child plays with the packaging, the plastic can cover the mouth and nose, causing the child to suffocate. The product does not comply with the requirements of the Toy Safety Directive and European standard EN 71-1.	Removal of this product listing by the online marketplace
A12/01694/21	Lithuania	<b>Electric Toy</b>  (Country of Origin: <b>China</b> )		<b>Environment</b> The solders of the toy contain an excessive amount of lead (measured value: up to 37.86% by weight). Lead poses a risk to the environment. The product does not comply with the requirements of the Directive on the restriction of the use of certain hazardous substances in electrical and electronic equipment (RoHS 2 Directive).	Withdrawal of the product from the market

A12/01695/21	Belgium	<b>Toy Bow with Arrows</b>  (Country of Origin: <b>China</b> )		<b>Chemical</b> The plastic material of the product contains an excessive amount of bis(2-ethylhexyl) phthalate (DEHP), benzyl butyl phthalate (BBP), diisobutyl phthalate (DIBP) and dibutyl phthalate (DBP) (measured value of the sum: 23% in the arrow pink head and 0.58% in the rubber, by weight, respectively). Moreover, the plastic material of the product (the arrow pink head in particular) contains an excessive amount of di-'isononyl' phthalate (DINP), di-'isodecyl' phthalate (DIDP) and di-n-octyl phthalate (DNOP) (measured value of the sum: 0.91% by weight). These phthalates may harm the health of children, causing possible damage to their reproductive system and liver. The product does not comply with the REACH Regulation.	Inform customers of the dangerous products concerned on the specific product page and the homepage
A12/01696/21	Belgium	<b>Plastic Doll</b>  (Country of Origin: <b>China</b> )		<b>Chemical</b> The plastic material of the product (the head of the doll in particular) contains an excessive amount of bis(2-ethylhexyl) phthalate (DEHP) (measured value: 27% by weight). This phthalate may harm the health of children, causing possible damage to their reproductive system. The product does not comply with the REACH Regulation.	Removal of this product listing by the online marketplace
A12/01697/21	Lithuania	<b>Plastic Doll</b>  (Country of Origin: <b>China</b> )		<b>Chemical</b> The head of the doll contains an excessive amount of bis(2-ethylhexyl) phthalate (DEHP) and of di-n-octyl phthalate (DNOP) (measured values: 27% and 1.5% by weight, respectively). These phthalates may harm the health of the children, causing possible damage to their reproductive system. The product does not comply with the REACH Regulation.	Withdrawal of the product from the market

The information contained in this newsletter is obtained from sources believed to be accurate to the best knowledge of STC and its subsidiaries. It is distributed without warranty, representation, inducement or license of any kinds and STC and its subsidiaries do not assume any legal responsibility for use or reliance upon the information.

A12/01700/21	Hungary	<b>Toy Kitchen Set</b>  (Country of Origin: <b>China</b> )		<b>Suffocation</b> The pots have a hemispheric shape, lacking the required openings, which can cover nose and mouth of a small child. During play, the child may cover the face with the pot and due to the vacuum effect, the pot may block the airways and cause suffocation. The product does not comply with the requirements of the Toy Safety Directive and the European standard EN 71-1.	Withdrawal of the product from the market
A12/01704/21	Sweden	<b>Soft Toy Rattle</b>  (Country of Origin: <b>China</b> )		<b>Choking</b> The toy's seams are too weak and the padding and the associated rattle may then fall out. The rattle itself is too small, a child can put it in the mouth and choke. The product does not comply with the requirements of the Toy Safety Directive and the European standard EN 71-1.	Recall of the product from end users
A12/01705/21	Finland	<b>Plush Toy with Suction Cup</b>  (Country of Origin: <b>China</b> )		<b>Chemical</b> The suction cup of the toy contains an excessive amount of di-2-ethylhexyl phthalate (DEHP) (measured value: up to 6% by weight) and dibutyl phthalate (DBP) (measured value: up to 0.032% by weight). These phthalates may harm the health of children, causing possible damage to their reproductive system. The product does not comply with the REACH Regulation.	Import rejected at border
A12/01707/21	Lithuania	<b>Toy with Batteries</b>  (Country of Origin: <b>China</b> )		<b>Environment</b> Concentrations of lead (measured value: up to 37.26% per weight) and cadmium (measured value: up to 0.16% per weight) in solders of the individual parts of the toy exceed the limit values. Lead and cadmium pose a risk to the environment. The product does not comply with the requirements of the Directive on the restriction of the use of certain hazardous substances in electrical and electronic equipment (RoHS 2 Directive).	Withdrawal of the product from the market

The information contained in this newsletter is obtained from sources believed to be accurate to the best knowledge of STC and its subsidiaries. It is distributed without warranty, representation, inducement or license of any kinds and STC and its subsidiaries do not assume any legal responsibility for use or reliance upon the information.

A12/01708/21	Lithuania	<b>Toy Plane</b>  (Country of Origin: <b>China</b> )		<b>Environment</b> Concentrations of lead (measured value: up to 2.47% per weight) in solders of the individual parts of the toy exceed the limit values. Lead poses a risk to the environment. The product does not comply with the requirements of the Directive on the restriction of the use of certain hazardous substances in electrical and electronic equipment (RoHS 2 Directive).	Withdrawal of the product from the market
A12/01710/21	Finland	<b>Drinking Bottle</b>  (Country of Origin: <b>France</b> )		<b>Choking, Suffocation</b> Small parts can easily detach from the product. A small child may put them in the mouth and choke. The product does not comply with the European standard EN 14350.	Stop of sales
A12/01711/21	Czechia	<b>Plastic Doll</b>  (Country of Origin: <b>China</b> )		<b>Chemical</b> The doll contains an excessive amount of bis(2-ethylhexyl) phthalate (DEHP) (measured value: up to 20.9% by weight). This phthalate may harm the health of children, causing possible damage to their reproductive system. The toy does not comply with the REACH regulation.	Withdrawal of the product from the market
A12/01716/21	Hungary	<b>Toy Stroller with Doll</b>  (Country of Origin: <b>China</b> )		<b>Chemical</b> The doll's head contains an excessive amount of di-2-ethylhexyl phthalate (DEHP) (measured value: 3.5% by weight) and dibutyl phthalate (DBP) (measured value: 0.16% by weight). These phthalates may harm the health of children, causing possible damage to their reproductive system. The product does not comply with the REACH Regulation.	Recall of the product from end users
A12/01718/21	Czechia	<b>Plastic Doll</b>  (Country of Origin: <b>Unknown</b> )		<b>Chemical</b> The plastic material of the doll's head contains an excessive amount of bis(2-ethylhexyl) phthalate (DEHP) (measured value: up to 8.7% by weight). These phthalates may harm the health of children, causing possible damage to their reproductive system. The product does not comply with the REACH Regulation.	Destruction of the product

A12/01720/21	Poland	<b>Magnetic Balls</b>  (Country of Origin: <b>China</b> )		<b>Injury</b> The toy is made of small parts (balls) with a high magnetic flux. If a child swallows them, they could attract one another causing intestinal blockage or perforation. The product does not comply with the requirements of the Toy Safety Directive and the European standard EN 71-1.	Destruction of the product
A12/01722/21	Austria	<b>Rattle Toy</b>  (Country of Origin: <b>China</b> )		<b>Choking</b> Small parts (part of the toy's arms, threaded beads) can easily detach from the rattle. A small child may put them in the mouth and choke. The product does not comply with the requirements of the Toy Safety Directive and the European standard EN 71-1.	Withdrawal of the product from the market
A12/01726/21	Hungary	<b>Fancy-dress Mask</b>  (Country of Origin: <b>Poland</b> )		<b>Fire</b> The mask is easily flammable and the flame propagation is too high. If it catches fire, the child could suffer burns. The product does not comply with the Toy Safety Directive and the European standard EN 71-2.	Withdrawal of the product from the market
A12/01731/21	Sweden	<b>Electrical Remote-controlled Car</b>  (Country of Origin: <b>China</b> )		<b>Environment</b> A solder in the toy contains an excessive amount of lead and cadmium (measured value: up to 73.3% and 0.15% by weight, respectively). Lead and cadmium pose a risk to the environment. The product does not comply with the requirements of the Directive on the restriction of the use of certain hazardous substances in electrical and electronic equipment (RoHS 2 Directive).	Withdrawal of the product from the market
A12/01732/21	Sweden	<b>Electrical Toy Piano and Drum</b>  (Country of Origin: <b>China</b> )		<b>Environment</b> A solder in the toy contains an excessive amount of lead and cadmium (measured value: up to 89.2% and 0.31% by weight, respectively). Lead and cadmium pose a risk to the environment. The product does not comply with the requirements of the Directive on the restriction of the use of certain hazardous substances in electrical and electronic equipment (RoHS 2 Directive).	Withdrawal of the product from the market

A12/01733/21	Sweden	<b>Toy Iron</b>  (Country of Origin: <b>China</b> )		<b>Environment</b> A solder on the Printed Circuit Board (PCB) in the toy contains an excessive amount of lead and cadmium (measured value: up to 71.9% and 0.16% by weight, respectively). Also, a solder in the speaker contains an excessive amount of lead and cadmium (measured value: up to 63.1% and 0.53% by weight, respectively). Lead and cadmium pose a risk to the environment. The product does not comply with the requirements of the Directive on the restriction of the use of certain hazardous substances in electrical and electronic equipment (RoHS 2 Directive).	Withdrawal of the product from the market
A12/01735/21	Hungary	<b>Filled-in Balloons</b>  (Country of Origin: <b>China</b> )		<b>Choking</b> During inflation of the balloon the small balls inside can easily come out of the balloon. A small child could put the balls in the mouth and choke. The product does not comply with the requirements of the Toy Safety Directive and the European standard EN 71-1.	Withdrawal of the product from the market
A12/01736/21	France	<b>Children's Mermaid Costume</b>  (Country of Origin: <b>United States</b> )		<b>Strangulation</b> The dress has non-detachable cords in the neck area. These cords can become trapped during various activities of a child, leading to strangulation. The product does not comply with the requirements of the Toy Safety Directive and the European standard EN-71-1.	Removal of this product listing by the online marketplace
A12/01737/21	France	<b>Costume</b>  (Country of Origin: <b>China</b> )		<b>Choking</b> The product has small part (a button) that can be easily detached. A child can put it in the mouth and choke. The product does not comply with the Toy Safety Directive and the European standard EN 71-1.	Removal of this product listing by the online marketplace
A12/01738/21	France	<b>Plush Toy</b>  (Country of Origin: <b>China</b> )		<b>Choking</b> Small parts (chains) can easily detach. Consequently, a small child may put them in the mouth and choke. The product does not comply with the requirements of the Toy Safety Directive and the European standard EN 71-1.	Removal of this product listing by the online marketplace

The information contained in this newsletter is obtained from sources believed to be accurate to the best knowledge of STC and its subsidiaries. It is distributed without warranty, representation, inducement or license of any kinds and STC and its subsidiaries do not assume any legal responsibility for use or reliance upon the information.

A12/01744/21	France	<b>Finger Paint</b>  (Country of Origin: <b>China</b> )		<b>Chemical</b> The finger paint product contains a mixture of the preservatives methylchloroisothiazolinone (MCI) and methylisothiazolinone (MI), measured value: up to 0.004% and 0.006%, respectively), which are forbidden in leave-on cosmetics. Dermal contact with MCI and MI containing products can provoke allergic contact dermatitis. The product does not comply with the requirements of the Toy Safety Directive.	Removal of this product listing by the online marketplace
A12/01750/21	France	<b>Children's Bath Thermometer</b>  (Country of Origin: <b>China</b> )		<b>Burn, Choking, Cut</b> The bath thermometer is not accurate as the temperature shown and it may consequently lead to a risk of burn due to the water being too hot. The thermometer has a protruding part. A child can put it in the mouth and choke. The thermometer is designed in a way that when it is dropped the glass tube becomes accessible, it may lead to a risk of cut. The product does not comply with the requirements of the General Product Safety Directive.	Removal of this product listing by the online marketplace
A12/01752/21	Ireland	<b>Baby Nest</b>  (Country of Origin: <b>Poland</b> )		<b>Strangulation</b> The baby nest has long functional cords. A baby could get entangled in a cord which may wrap around the neck, leading to strangulation. The product does not comply with the requirements of the General Product Safety Directive.	Recall of the product from end users
A12/01754/21	France	<b>Babies' Soother with Thermometer</b>  (Country of Origin: <b>China</b> )		<b>Chemical</b> The product contains Bisphenol A (BPA) (measured value: 0.1 mg/kg). BPA may damage fertility and has been identified as a substance affecting the hormonal systems of humans and animals. The product does not comply with the requirements of the General Product Safety Directive and the European standard EN 1400.	Removal of this product listing by the online marketplace
A12/01759/21	Denmark	<b>Baby Gym</b>  (Country of Origin: <b>Denmark</b> )		<b>Choking</b> The toy can easily break, resulting in small parts. A small child may put them in the mouth and choke. The product does not comply with the requirements of the Toy Safety Directive and the European standard EN 71.	Recall of the product from end users

The information contained in this newsletter is obtained from sources believed to be accurate to the best knowledge of STC and its subsidiaries. It is distributed without warranty, representation, inducement or license of any kinds and STC and its subsidiaries do not assume any legal responsibility for use or reliance upon the information.

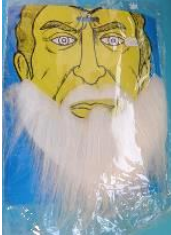

A12/01763/21	Hungary	<b>Toy Mask</b>  (Country of Origin: <b>China</b> )		<b>Burn</b> The product poses a risk of burn due to the high flammability of the material of the mask. If a child wears the mask and it catches fire, the child may burn mostly on the face. The product does not comply with the Toy Safety Directive and the European standard EN 71-2.	Recall of the product from end users
A12/01764/21	Cyprus	<b>Toy Car</b>  (Country of Origin: <b>China</b> )		<b>Choking</b> The pink feather is easily detached. A child can put the small part in the mouth and choke. The product does not comply with the requirements of the Toy Safety Directive and the European standard EN 71-1	Withdrawal of the product from the market
A12/01765/21	Cyprus	<b>Plastic Toy</b>  (Country of Origin: <b>China</b> )		<b>Choking</b> The wheels of the toy is easily detached. A child can put the small parts in the mouth and choke. The product does not comply with the requirements of the Toy Safety Directive and the European standard EN 71-1	Withdrawal of the product from the market
A12/01767/21	Austria	<b>Children's Gardening Set</b>  (Country of Origin: <b>Hungary</b> )		<b>Chemical</b> The material of the shovel contains an excessive amount of chromium VI (measured value: 208 mg/kg). It is sensitising and can trigger allergic reactions. It can also cause cancer. The product does not comply with the requirements of the Toy Safety Directive.	Marking the product with appropriate warnings on the risks
A12/01768/21	Cyprus	<b>Plastic Doll</b>  (Country of Origin: <b>China</b> )		<b>Choking</b> Small parts (hands) may easily detach. A child can put them in the mouth and choke. The product does not comply with the requirements of the Toy Safety Directive and the European standard EN 71-1.	Withdrawal of the product from the market
A12/01769/21	Cyprus	<b>Multi-functional Toy</b>  (Country of Origin: <b>China</b> )		<b>Choking</b> The yellow rattle may easily break, releasing small balls. A child can put them in the mouth and choke. The product does not comply with the requirements of the Toy Safety Directive and the European standard EN 71-1.	Withdrawal of the product from the market
A12/01771/21	Lithuania	<b>Yoyo Ball</b>  (Country of Origin: <b>China</b> )		<b>Suffocation</b> The toy could cover the nose and mouth of small children, leading to suffocation. The product does not comply with the requirements of the Toy Safety Directive and the European standard EN 71-1.	Withdrawal of the product from the market

A small child may put them in the mouth and choke on them. The inadequate holes in the garment fastening (lion clip) could cause the child to suffocate. The product does not comply with the relevant European Standard EN 12586.</p>	<p>Recall of the product from end users</p>
A12/01797/21	Hungary	<p><b>Toy Cooking Set</b></p> <p>(Country of Origin: <b>China</b>)</p>		<p><b>Choking</b></p> <p>Small plastic parts (switches of the cooker) may easily detach from the toy. A small child may put them in the mouth and choke. The product does not comply with the requirements of the Toy Safety Directive and the European standard EN 71-1.</p>	<p>Withdrawal of the product from the market</p>

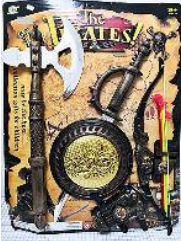

The information contained in this newsletter is obtained from sources believed to be accurate to the best knowledge of STC and its subsidiaries. It is distributed without warranty, representation, inducement or license of any kinds and STC and its subsidiaries do not assume any legal responsibility for use or reliance upon the information.

A12/01798/21	Poland	<b>Toy Xylophone</b>  (Country of Origin: <b>China</b> )		<b>Choking</b> Small parts (xylophone foot and balls at the top of the mallet) may easily detach from the toy. A small child may put these small parts in the mouth and choke. The product does not comply with the Toy Safety Directive and the European standard EN 71-1.	Withdrawal of the product from the market
A12/01800/21	Sweden	<b>Toy Robot</b>  (Country of Origin: <b>China</b> )		<b>Chemical</b> The plastic in the black-grey cord contains an excessive amount of bis(2-ethylhexyl) phthalate (DEHP) (measured value: up to 0.3% by weight). This phthalate may harm the health of children, causing possible damage to their reproductive system. The product does not comply with the REACH Regulation.	Withdrawal of the product from the market
A12/01803/21	Sweden	<b>Electrical Toy Gun</b>  (Country of Origin: <b>China</b> )		<b>Environment</b> The solder in the toy contains an excessive amount of lead (measured value: up to 37.5% by weight). Lead poses a risk to the environment. The product does not comply with the requirements of the Directive on the restriction of the use of certain hazardous substances in electrical and electronic equipment (RoHS 2 Directive).	Withdrawal of the product from the market
A12/01809/21	Lithuania	<b>Toy Set</b>  (Country of Origin: <b>China</b> )		<b>Choking, Injury</b> Small parts (frog shirt, mounting bracket bolt, plastic box ring for music box) may easily detach. A small child may put them in the mouth and choke. Moreover, the crates of the music box and the frog can easily crack, posing a risk of injury. The product does not comply with the requirements of the Toy Safety Directive and the European standard EN 71-1.	Withdrawal of the product from the market

A12/01810/21	Sweden	<b>Plastic Doll</b>  (Country of Origin: <b>China</b> )		<b>Chemical, Environment</b> The plastics in the hands and head of the doll and in the snowman contain an excessive amount of bis(2-ethylhexyl) phthalate (DEHP) and dibutyl phthalate (DBP) (measured value: up to 12.2% and 0.52% by weight, respectively). These phthalates may harm the health of children, causing possible damage to their reproductive system. The solder in the toy contains an excessive amount of lead and cadmium (measured value: up to 37.2% and 0.15 % by weight, respectively). Lead and cadmium pose a risk to the environment. The product does not comply with the REACH Regulation and the requirements of the Directive on the restriction of the use of certain hazardous substances in electrical and electronic equipment (RoHS 2 Directive).	The product was sold out when the test result was presented to the economic operator.
A12/01812/21	Hungary	<b>Costume Beard with Moustache</b>  (Country of Origin: <b>China</b> )		<b>Burn</b> The product poses a risk of burn due to the high flammability of the material of the beard. If the child wears the beard and it catches fire, the child may burn mostly on the face. The product does not comply with the Toy Safety Directive and the European standard EN 71-2.	Withdrawal of the product from the market
A12/01813/21	Finland	<b>Children's Cutlery Set</b>  (Country of Origin: <b>Sweden</b> )		<b>Choking, Suffocation</b> The fork can break and small parts (prongs) may detach from it. These plastic fragments can be swallowed, without being observed, along with the food consumed, producing a risk of choking and injury, particularly by a small child. The product does not comply with the European standard EN 14372.	Recall of the product from end users
A12/01814/21	Hungary	<b>Plastic Strings</b>  (Country of Origin: <b>Hungary</b> )		<b>Chemical</b> The product contains an excessive amount of diisononyl phthalate (DINP) (measured value: 29% by weight) and diizodecyl phthalate (DIDP) (measured value: 3.9% by weight). These phthalates may harm the health of children, causing possible damage to their reproductive system. The product does not comply with the REACH Regulation.	Withdrawal of the product from the market

The information contained in this newsletter is obtained from sources believed to be accurate to the best knowledge of STC and its subsidiaries. It is distributed without warranty, representation, inducement or license of any kinds and STC and its subsidiaries do not assume any legal responsibility for use or reliance upon the information.

A12/01817/21	Sweden	<p><b>Skip Rope</b></p> <p>(Country of Origin: <b>Unknown</b>)</p>		<p><b>Chemical, Environment</b></p> <p>The plastic material of the rope contains an excessive amount of dibutyl phthalate (DBP), diisobutyl phthalate (DIBP) and short chain chlorinated paraffins (SCCPs) (measured value: up to 0.5%, 0.2% and 7.0% by weight, respectively). These phthalates may harm the health of children, causing possible damage to the reproductive system. SCCPs persist in the environment, are toxic to aquatic organisms at low concentrations and bioaccumulate in wildlife and humans, posing a risk to human health and the environment. The product does not comply with the REACH Regulation and the Regulation on persistent organic pollutants (POP Regulation).</p>	<p>Withdrawal of the product from the market</p>
A12/01819/21	Cyprus	<p><b>Toy Bow and Arrow Set</b></p> <p>(Country of Origin: <b>China</b>)</p>		<p><b>Choking</b></p> <p>The suction cups of the projectile can easily detach. If a child puts the projectile in the mouth, the suction cups can obstruct the airways and lead to choking. The product does not comply with the requirements of the Toy Safety Directive and the European standard EN 71-1.</p>	<p>Withdrawal of the product from the market</p>
A12/01821/21	Cyprus	<p><b>Toy Police Set</b></p> <p>(Country of Origin: <b>China</b>)</p>		<p><b>Choking</b></p> <p>The suction cups can be easily detached. If a child puts the projectile in the mouth, the suction cup could detach and obstruct the airways. The product does not comply with the requirements of the Toy Safety Directive and the European standard EN 71-1.</p>	<p>Withdrawal of the product from the market</p>
A12/01822/21	Cyprus	<p><b>Teething Toy</b></p> <p>(Country of Origin: <b>China</b>)</p>		<p><b>Choking</b></p> <p>The toy may break and generate small parts. A small child may put them in the mouth and choke. The product does not comply with the Toy Safety Directive and the European standard EN 71 -1.</p>	<p>Recall of the product from end users</p>
A12/01823/21	Belgium	<p><b>Inflatable Toy</b></p> <p>(Country of Origin: <b>China</b>)</p>		<p><b>Choking</b></p> <p>Small parts detach easily from the toy. A small child may put them in the mouth and choke. The product does not comply with the requirements of the Toy Safety Directive and the European standard EN 71-1.</p>	<p>Removal of this product listing by the online marketplace</p>

The information contained in this newsletter is obtained from sources believed to be accurate to the best knowledge of STC and its subsidiaries. It is distributed without warranty, representation, inducement or license of any kinds and STC and its subsidiaries do not assume any legal responsibility for use or reliance upon the information.

A12/01824/21	Belgium	<b>Toy Rattle</b>  (Country of Origin: <b>China</b> )		<b>Choking</b> The product can easily break, resulting in small parts as well as long protruding parts. A small child may put them in the mouth and choke. The product does not comply with the requirements of the Toy Safety Directive and the European standard EN 71-1.	Removal of this product listing by the online marketplace
A12/01825/21	Belgium	<b>Pull-along Toy</b>  (Country of Origin: <b>China</b> )		<b>Choking, Strangulation</b> Small parts (knobs) may detach from the toy. A small child may put them in the mouth and choke. Furthermore, the cord of the toy is too long. It may get wrapped around the child's neck and lead to strangulation. The product does not comply with the requirements of the Toy Safety Directive and the European standard EN 71-1.	Removal of this product listing by the online marketplace
A12/01826/21	Belgium	<b>Toy Musical Instruments</b>  (Country of Origin: <b>China</b> )		<b>Choking, Damage to hearing, Strangulation</b> The various instruments have detachable small parts and protruding parts, and can easily break creating other small parts. A small child may put them in the mouth and choke. Furthermore, if the toy is used improperly, it may cause damage to hearing. Finally, one of the instruments (toy drum) has a long cord that should be placed around the neck; this cord can become trapped during various activities of a child, leading to strangulation. The product does not comply with the requirements of the Toy Safety Directive and the European standard EN 71-1.	Removal of this product listing by the online marketplace
A12/01827/21	Belgium	<b>Toy Rattle</b>  (Country of Origin: <b>China</b> )		<b>Choking, Suffocation</b> The product can easily break, resulting in small parts. A small child may put them in the mouth and choke. Furthermore, the product's packaging is too thin. If a child plays with the bag, the plastic can cover the mouth and nose, causing the child to suffocate. The product does not comply with the requirements of the Toy Safety Directive and the European standard EN 71-1.	Removal of this product listing by the online marketplace

The information contained in this newsletter is obtained from sources believed to be accurate to the best knowledge of STC and its subsidiaries. It is distributed without warranty, representation, inducement or license of any kinds and STC and its subsidiaries do not assume any legal responsibility for use or reliance upon the information.

A12/01828/21	Belgium	<b>Toy Bow and Arrows</b>  (Country of Origin: <b>China</b> )		<b>Choking</b> The suction cups may detach from the arrows. A small child may put them in the mouth and choke. The product does not comply with the requirements of the Toy Safety Directive and the European standard EN 71-1.	Removal of this product listing by the online marketplace
A12/01839/21	Sweden	<b>Electrical Toy Squirrel</b>  (Country of Origin: <b>China</b> )		<b>Environment</b> A solder in the toy contains an excessive amount of lead (measured value: up to 58.1%). Lead poses a risk to the environment. The product does not comply with the requirements of the Directive on the restriction of the use of certain hazardous substances in electrical and electronic equipment (RoHS 2 Directive).	Withdrawal of the product from the market
A12/01841/21	Sweden	<b>Toy Light Saber</b>  (Country of Origin: <b>China</b> )		<b>Environment</b> A solder in the toy contains an excessive amount of lead and cadmium (measured value: up to 64.3% and 0.13 % by weight, respectively). Lead and cadmium pose a risk to the environment. The product does not comply with the requirements of the Directive on the restriction of the use of certain hazardous substances in electrical and electronic equipment (RoHS 2 Directive).	Withdrawal of the product from the market
A12/01852/21	Denmark	<b>Soother</b>  (Country of Origin: <b>Denmark</b> )		<b>Choking</b> The product breaks easily, generating small parts. A small child may put them in the mouth and choke. The product does not comply with the requirements of the Product Safety Directive and the European standard EN 1400.	Recall of the product from end users
A12/01854/21	Germany	<b>Plastic Straw</b>  (Country of Origin: <b>The Netherlands</b> )		<b>Chemical</b> The plastic material of the product contains an excessive amount of bis(2-ethylhexyl) phthalate (DEHP) (measured value: up to 28.9%by weight). This phthalate may harm the health of children, causing possible damage to their reproductive system. The product does not comply with the REACH Regulation.	Recall of the product from end users

A12/01856/21	Poland	<b>Bath Toy</b>  (Country of Origin: <b>China</b> )		<b>Chemical</b> The foam in the product contains an excessive amount of tris(2-chloro-1-methylethyl) phosphate (TCPP) (measured value: up to 63.4 mg/kg.) TCPP can be harmful to children due to its carcinogenic properties and acute toxicity. The product does not comply with the requirements of the Toy Safety Directive.	Withdrawal of the product from the market
A12/01881/21	Italy	<b>Toy Slime</b>  (Country of Origin: <b>China</b> )		<b>Chemical</b> The migration of boron from the toy slime is too high (measured value: up to 463 mg/kg). Ingestion or contact with an excessive quantity of boron may harm the health of children by damaging the reproductive system. The product does not comply with the requirements of the Toy Safety Directive and the European standard EN 71-3.	Ban on the marketing of the product and any accompanying measures

### Safety Gate: the EU rapid alert system for dangerous non-food products

“Safety Gate”, the EU rapid alert system (formerly known as ‘RAPEX’), enables the rapid exchange of information between 31 European countries and the European Commission on non- food dangerous products found on the market posing a risk to health and safety of consumers.

A weekly overview of the alerts on those products is published in English for free on <https://ec.europa.eu/safety-gate-alerts/screen/webReport#weeklyReports>. The measures taken in the notifying country in order to restrict their marketing or use can be ordered by national authorities ("compulsory measures") or be taken directly by producers and distributors ("voluntary measures").

The official contact points of the Member and EFTA-EEA States provide the information published in these weekly overviews. Under the terms of Annex II.10 of the General Product Safety Directive (2001/95/EC) responsibility for the information provided lies with the notifying party. The Commission does not take any responsibility for the accuracy of the information provided.

## Recall Summary – US Toys / Children’s Products

*CPSC Recall List (Dec 2021)*

Recall No.	Notifying Country	Product	Product Photo	Hazard/ Risk	Remedy
22-024	USA	<b>Projector Flashlights (included as part of a care package)</b>  (Country of Origin: <b>China</b> )		<b>Ingestion and Choking Hazard</b> A child can disassemble the projector flashlight and access the button cell batteries, posing ingestion and choking hazard.	Consumers should immediately take the recalled projector flashlight away from children, stop using it, and contact Halo for a full refund and a pre-paid shipping label to return the projector flashlight. Upon return, Halo will send the consumer a \$5 gift card redeemable at a major national retailer.
22-027	USA	<b>Children’s Robes</b>  (Country of Origin: <b>China</b> )		<b>Risk of Burn Injury</b> The children’s robes fail to meet the federal flammability standards for children’s sleepwear, posing a risk of burn injury to children.	Consumers should immediately take the recalled children’s robes away from children and contact Mark of Fifth Avenue. Consumers can receive a full refund of the purchase price of the garment by cutting the robes in half, taking a photo of the cut garment, sending an email to <a href="mailto:mofaproductsafety@gmail.com">mofaproductsafety@gmail.com</a> with the photos. All known purchasers will be contacted.
22-036	USA	<b>Angel Line Bunk Beds with Angled Ladders</b>  (Country of Origin: <b>Vietnam</b> )		<b>Strangulation Hazard</b> The metal hook fastening the ladder to the top bunk bed frame can move away or detach from the bed frame when the ladder is lifted, causing the gap between the ladder step and bed frame to open wider than 3.5 inches, posing serious entrapment and strangulation hazard.	Consumers should immediately stop using the recalled bunk beds, block children’s access to the bunk beds and contact Angel Line to receive a free repair kit with reinforcement brackets for the ladder. Consumers who paid for the bunk beds to be assembled when purchased will receive reimbursement for help with installing the repair kit if needed.

### CPSC

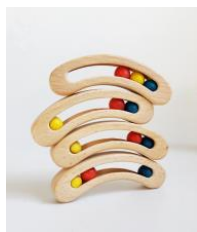

The United States Consumer Product Safety Commission (CPSC) is an independent agency of the United States government. To provide better service in alerting the American people to unsafe, hazardous or defective products, a “one stop shop” for U.S. Government recalls, [www.recalls.gov](http://www.recalls.gov), has been created. Publics can report unsafe products to CPSC by using the platform.

The recall list is divided into seven categories: Consumer Products, Motor Vehicles, Boats, Food, Medicine, Cosmetics and Environmental Products. Generally, the recall was conducted, voluntarily by the company, under CPSC’s Fast Track Recall program. Fast Track recalls are initiated by firms who commit to work with CPSC to quickly announce the recall and remedy to protect consumers.

The information contained in this newsletter is obtained from sources believed to be accurate to the best knowledge of STC and its subsidiaries. It is distributed without warranty, representation, inducement or license of any kinds and STC and its subsidiaries do not assume any legal responsibility for use or reliance upon the information.

## Recall Summary – Australia Toys / Children’s Products

*ACCC Recall List (Dec 2021)*

PRA No.	Notifying Country	Product	Product Photo	Hazard/ Risk	Remedy
2021/19251	Australia	<b>Montessori Baby Rattle</b>		<b>Choking or Suffocation Hazard</b> The product may not comply with the size and shape requirements of the mandatory safety standard for toys for children up to and including 36 months of age. The product may pose a choking or suffocation hazard for young children, which can lead to severe injury or death.	Consumers should immediately stop using the product. Consumers should contact UniqueDesignByJason to arrange a return of the product for a full refund.
2021/19275	Australia	<b>Montessori Infant Wooden Hands Bell Rattle</b>		<b>Choking or Suffocation Hazard</b> The rattle does not comply with the size and shape requirements of the mandatory safety standard for toys for children up to and including 36 months of age. The rattle or small parts may pose a choking or suffocation hazard for young children, which can lead to severe injury or death.	Consumers should immediately stop using the rattle, dispose of it and contact Raising Little Genius for a full refund.
2021/19276	Australia	<b>Montessori Infant Wooden Molar Rattle Teether Play Set</b>		<b>Choking or Suffocation Hazard</b> The rattle does not comply with the size and shape requirements of the mandatory safety standard for toys for children up to and including 36 months of age. The rattle or small parts may pose a choking or suffocation hazard for young children, which can lead to severe injury or death.	Consumers should immediately stop using the rattle, dispose of it and contact Raising Little Genius for a full refund.

The information contained in this newsletter is obtained from sources believed to be accurate to the best knowledge of STC and its subsidiaries. It is distributed without warranty, representation, inducement or license of any kinds and STC and its subsidiaries do not assume any legal responsibility for use or reliance upon the information.

2021/19277	Australia	<p><b>Animal-shaped Rattle Sold as Part of the Montessori Infant Wooden Molar Rattle Play Set</b></p>		<p><b>Choking or Suffocation Hazard</b> The rattle does not comply with the size and shape requirements of the mandatory safety standard for toys for children up to and including 36 months of age. The rattle or small parts may pose a choking or suffocation hazard for young children, which can lead to severe injury or death.</p>	<p>Consumers should immediately stop using the rattle, dispose of the product and contact Raising Little Genius for a full refund.</p>
2021/19300	Australia	<p><b>Le Toy Van Petilou Activity Table</b></p> <p><b>An Activity Table that Features a Shape Sorter, Rainbow Xylophone and Other Fine Motor Building Activities</b></p>		<p><b>Choking or Suffocation Hazard</b> The product does not comply with the mandatory safety standard for toys for children up to and including 36 months of age. If the ball comes off it may pose a choking or suffocation hazard for young children, which may cause serious injury or death.</p>	<p>Consumers should cut the striker cord at the level of the top of the table and return the striker and cord to the place of purchase for a full refund.</p>
2021/19305	Australia	<p><b>Bounga the Squig Limited Edition Plush</b></p>		<p><b>Choking or Suffocation Hazard</b> The product may not comply with the size and shape requirements of the mandatory safety standard for toys for children up to and including 36 months of age. The product may pose a choking or suffocation hazard for young children, which can lead to severe injury or death.</p>	<p>Consumers should immediately stop using the toy and contact their nearest Games Workshop or Warhammer store for a full refund.</p>

The information contained in this newsletter is obtained from sources believed to be accurate to the best knowledge of STC and its subsidiaries. It is distributed without warranty, representation, inducement or license of any kinds and STC and its subsidiaries do not assume any legal responsibility for use or reliance upon the information.

2021/19308	Australia	<p><b>Success Abounds Pty Ltd t/as Sensory Tools — Critter Puffs</b></p> <p><b>A Toy with an Elasticised cord with a Loop on One End to Wear Around the Finger, and a Soft Spikey Ball with 4 Different Printed Faces.</b></p>		<p><b>Strangulation Hazard</b></p> <p>The cord can stretch and may wind around a child’s neck, especially if swung around the head, and pose a risk of strangulation.</p>	<p>Consumers should immediately stop using the toy, dispose of the product and contact Sensory Tools for a full refund.</p>
2021/19331	Australia	<p><b>FRIGG Classic Silicone Dummy</b></p> <p><b>FRIGG Daisy Silicone Dummy</b></p>		<p><b>Choking Hazard</b></p> <p>The teat may partly detach from the shield. A broken teat may pose a choking hazard for young children, which can lead to severe injury or death.</p>	<p>Consumers should stop using the dummies and contact the place of purchase to receive a refund or replacement.</p>

### Australian Product Safety System

The Australian product safety system is to maximize the safety of goods by the cooperation of consumers, businesses and agencies. This policy sets out the principles adopted by the Australian Competition and Consumer Commission (ACCC) for prioritizing and addressing product safety risks.

Under the Australian Consumer Law, a responsible Minister can order a compulsory recall when there are hazards on the products. A voluntary recall could be conducted to remove the product from the marketplace when the suppliers become aware of unsafe or defective products.

The ACCC administers a national recalls system for recalls of specific and general consumer products, and publishes all product recalls on the website <https://www.productsafety.gov.au/recalls>.

STC (Hong Kong Standards and Testing Centre) is a not-for-profit, independent testing, inspection and certification organization. With a global network of ISO/IEC 17025 accredited testing laboratories and over 50 years of experience in consumer product testing, we can meet your conformity assessment needs with highly efficient and reliable service. Our testing scope and capabilities related to toys and children's products include but not limited to:

### EU Requirements

- EN 71
- Phthalates (EC) no. 1907/2006
- Nickel Release (EC) no. 1907/2006
- Total Cadmium (EEC) no. 91/338
- Lead in Jewellery product (EC) no. 836/2012
- Azo-dye (EC) no. 1907/2006
- Bisphenol-A (2014/81/EU)
- DMF (Dimethylfumarate) (EU) no. 2011/135
- Flame retardants TCEP, TCPP, TDCP (2014/79/EU)
- Package Waste Directive (94/62/EC)

### US & Canada Requirements

- ASTM F963
- CPSIA
- California Proposition 65
- 16 CFR 1501
- ASTM F2923 (Children's jewellery)
- ASTM F2999 (Adult's jewellery)
- US Toxic in Packaging Clearinghouse (TPCH)
- CCPSA - Toys Regulations (SOR/2011-17)

### Japan Requirements

- Japan Toy Safety Standard (ST)
- Japan Food Sanitation Law (JFSL)

### Australia Requirements

- AS/NZS 8124
- Consumer Protection Notice No. 6 of 2010 - DEHP
