

Recall Summary – European Toys

EU Safety Gate Alerts (Feb 2022)

Alert No.	Notifying Country	Product	Product Photo	Hazard/ Risk	Measures Adopted
A11/00020/22	Hungary	Toy Piano (Country of Origin: China)		Chemical The battery compartment can be easily opened without the aid of a tool, leaving batteries accessible. A small child might put them in the mouth and the acid content may cause damage to the gastrointestinal tract if they are ingested. The product does not comply with the requirements of the Toy Safety Directive and the European standard EN 71-1.	Withdrawal of the product from the market
A11/00022/22	Hungary	Balloon with LED Lights (Country of Origin: The Netherlands)		Chemical The battery compartment is easily broken, leaving the batteries accessible. A child may put the batteries in the mouth, which could cause damage to the child's gastrointestinal tract if swallowed. The product does not comply with the requirements of the Toy Safety Directive and the European standard EN 71-1.	Withdrawal of the product from the market
A11/00024/22	Poland	Children's High Chair (Country of Origin: Unknown)		Choking, Entrapment, Injury Due to presence of the openings, the stuffing material of the sheathing is accessible. A child could detach the stuffing material and swallow it, which may cause choking. Moreover, presence of the openings poses a risk of finger or body entrapment. The product does not comply with the requirements of the General Product Safety Directive and the European standard EN 14988.	Withdrawal of the product from the market
A11/00028/22	Hungary	Toy Panda with Battery (Country of Origin: China)		Chemical The battery compartment of the toy can be easily opened, leaving batteries accessible. A child may put them in the mouth and ingest them, which may lead to choking if they enter the airways, or could cause injuries to the gastrointestinal tract. The product does not comply with the requirements of the Toy Safety Directive and the European standard EN 62115.	Recall of the product from end users

A11/00029/22	Malta	Electric Swing for Babies (Country of Origin: Bulgaria)		Injury The swing is not stable enough. As a result, it can tip over and fall, leading injury to a child. The product does not comply with the requirements of the General Product Safety Directive and the European standard EN 1273.	Withdrawal of the product from the market
A11/00036/22	France	Toy Gun (Country of Origin: Hong Kong)		Damage to Sight The LED laser sight on the top of the toy gun is too powerful (measured value: 1.23 mW). Direct viewing of the laser beam could cause damage to sight. The product does not comply with the requirements of the Toy Safety Directive and the European standard EN 62115.	Recall of the product from end users
A12/00194/22	Sweden	Inflatable Beach Ball (Country of Origin: China)		Chemical According to the REACH regulation, DEHP is prohibited in articles. The product does not comply with the REACH Regulation 1907/2006 Annex XVII entry 51.3.	Removal of this product listing by the online marketplace
A12/00195/22	Sweden	Swim Ring (Country of Origin: China)		Chemical The product contains an excessive amount of bis(2-ethylhexyl) phthalate (DEHP) (measured value: up to 30% by weight). This phthalate may harm the health of children, causing possible damage to their reproductive system. The product does not comply with the REACH Regulation.	Removal of this product listing by the online marketplace
A12/00199/22	Hungary	Plastic Toy (Country of Origin: China)		Chemical, Choking The small flashing unit and the button cell batteries are easily accessible. A child could put them in the mouth, which could cause damage to the child's gastrointestinal tract or choking. The product does not comply with the requirements of the Toy Safety Directive and the European standard EN 62115.	Recall of the product from end users
A12/00211/22	Hungary	Flashing LED Toy (Country of Origin: China)		Chemical, Choking The small flashing unit and button cell batteries may become accessible. A child may put them in the mouth and ingest them, which may lead to choking if they enter the airways. The button cell batteries could cause damages to the gastrointestinal tract if they are ingested. The product does not comply with the requirements of the Toy Safety Directive and the European standard EN 62115.	Withdrawal of the product from the market

A12/00228/22	Sweden	Plastic Toy (Country of Origin: China)		Chemical, Environment The blue and green plastic contains an excessive amount of bis(2-ethylhexyl) phthalate (DEHP) and di-isobutyl phthalate (DIBP) (measured values: up to 15.0% and 13.7% by weight respectively). These phthalates may harm the health of children, causing possible damage to their reproductive system. The solders in the toy contain lead (measured value: up to 50.7% by weight). Lead poses a risk to the environment. The product does not comply with the REACH Regulation and the requirements of the Directive on the restriction of the use of certain hazardous substances in electrical and electronic equipment (RoHS 2 Directive).	Removal of this product listing by the online marketplace
A12/00230/22	Germany	Baby Walker (Country of Origin: Germany)		Injury The baby walker does not provide protection against falls and could fall down a flight of stairs, causing injury to a child. In addition, there are openings on the tray edge. A small child may put the fingers inside and become trapped. The product does not comply with the requirements of the General Product Safety Directive and the European standard EN 1273.	Ban on the marketing of the product and any accompanying measures
A12/00233/22	Luxembourg	Set of Inflatable Beach Balls (Country of Origin: China)		Chemical, Choking The plastic material of the product contains an excessive amount of bis(2-ethylhexyl) phthalate (DEHP) and diisobutyl phthalate (DIBP) (measured value: up to 26% and 0.12% by weight respectively). These phthalates may harm the health of children, causing possible damage to their reproductive system. Furthermore, the balls' stopper can easily detach; a young child may put it into its mouth and choke. The product does not comply with the REACH Regulation, the requirements of the Toy Safety Directive and the European standard EN 71-1.	Removal of this product listing by the online marketplace
A12/00234/22	Austria	Plastic Toy (Country of Origin: China)		Choking The toy can easily break, generating small parts. A child may put them in the mouth and choke. The product does not comply with the requirements of the Toy Safety Directive and the European standard EN 71-1.	Destruction of the product

The information contained in this newsletter is obtained from sources believed to be accurate to the best knowledge of STC and its subsidiaries. It is distributed without warranty, representation, inducement or license of any kinds and STC and its subsidiaries do not assume any legal responsibility for use or reliance upon the information.

A12/00235/22	The Netherlands	Toy Tambourine (Country of Origin: China)		Choking The bell may get loose from the tambourine's wooden frame and liberate a small part (axe of the bell). A child may put it in the mouth and choke. The product does not comply with the requirements of the Toy Safety Directive and the European standard EN 71-1.	Recall of the product from end users
A12/00241/22	Luxembourg	Baby Maracas (Country of Origin: United States)		Choking, Injury If a child puts the toy in the mouth and falls face down, the protruding parts could obstruct the airways, causing choking and injury around the pharynx or trachea area. The product does not comply with the requirements of the General Product Safety Directive and the European standard EN 71-1.	Removal of this product listing by the online marketplace
A12/00244/22	Czechia	Plastic Doll (Country of Origin: China)		Chemical Some plastic parts (heads of the dolls) contain di-(2-ethylhexyl) phthalate (DEHP) (measured value: up to 21.48% by weight). This phthalate is toxic and harmful for the health of children and may cause damages to their reproductive system. The product does not comply with the REACH Regulation.	Withdrawal of the product from the market
A12/00247/22	Slovakia	Plush Toy (Country of Origin: China)		Choking Small parts (the nose, the jingle bell and the suction cup) may be easily detached from the toy. A small child may put the detached elements in the mouth and choke. The product does not comply with the requirements of the Toy Safety Directive and the European standard EN 71-1.	Withdrawal of the product from the market
A12/00250/22	Sweden	Toy Pool (Country of Origin: China)		Injury The corner pins can detach from their brackets and may hurt the child seriously if the pin hits the face or the eye of the child. The product does not comply with the requirements of the Toy Safety Directive and European standard EN 71-1.	Recall of the product from end users
A12/00252/22	Slovakia	Plush Toy (Country of Origin: China)		Choking Due to the weakness of the seam on the bottom of the toy, the filling material and small parts (lockable zip bag with small balls) may become accessible to children. A child may put them in the mouth and choke. The product does not comply with the requirements of the Toy Safety	Warning consumers of the risks

				Directive and the European standard EN 71-1.	
A12/00259/22	Sweden	Toy Fire Fighter Helmet (Country of Origin: China)		Environment The solders of the product contain an excessive amount of lead and cadmium (measured value: up to 64.1% and 0.11% by weight, respectively). Lead and cadmium pose a risk to the environment. The product does not comply with the requirements of the Directive on the restriction of the use of certain hazardous substances in electrical and electronic equipment (RoHS 2 Directive).	Withdrawal of the product from the market
A12/00263/22	Sweden	Puffer Ball with Light (Country of Origin: China)		Environment The solders of the toy contain an excessive amount of lead (measured value: up to 13.8% by weight). Lead poses a risk to the environment. The product does not comply with the requirements of the Directive on the restriction of the use of certain hazardous substances in electrical and electronic equipment (RoHS 2 Directive).	Withdrawal of the product from the market
A12/00264/22	Sweden	Flying Disk Toy (Country of Origin: Unknown)		Environment The solders of the toy contain an excessive amount of lead (measured value: up to 0.19% by weight). Lead poses a risk to the environment. The product does not comply with the requirements of the Directive on the restriction of the use of certain hazardous substances in electrical and electronic equipment (RoHS 2 Directive).	Withdrawal of the product from the market
A12/00266/22	Luxembourg	Stacking Cups (Country of Origin: China)		Suffocation The cups are large enough to cover a young child's mouth and nose, and some of the cups lack the necessary openings to allow an inflow of air. A young child may suffocate when placing the product on the mouth and nose. The product does not comply with the requirements of the Toy Safety Directive and the European standard EN 71-1.	Removal of this product listing by the online marketplace
A12/00267/22	Luxembourg	Toy Set (Country of Origin: China)		Choking, Suffocation The plastic foil packaging bag is too thin and poses a suffocation risk. In addition, the toy contains small parts (surprise toys). The product lacks the appropriate age warning, therefore a small child could be given the toy, put it in the mouth and choke. The product does not	Removal of this product listing by the online marketplace

				comply with the requirements of the Toy Safety Directive and the European standard EN 71-1.	
A12/00269/22	Croatia	Soft Toy (Country of Origin: China)		Choking Small parts may detach. In addition, the fibrous stuffing material of the toy is easily accessible due to the weakness of certain seams. A small child may put the small parts or the stuffing material in the mouth and choke. The product does not comply with the requirements of the Toy Safety Directive and the European standard EN 71-1.	Import rejected at border
A12/00271/22	The Netherlands	Soother Holder (Country of Origin: The Netherlands)		Strangulation The strap is too long and may lead to strangulation of a child. The product does not comply with the relevant European standard EN 12586.	Ban on the marketing of the product and any accompanying measures
A12/00273/22	The Netherlands	Soother Holder (Country of Origin: United States)		Choking The soother holder breaks easily and generates small parts. A small child could put them in the mouth and choke. In addition, the strap is too long and may lead to strangulation of the child. The product does not comply with the relevant European standard EN 12586.	Ban on the marketing of the product and any accompanying measures
A12/00277/22	Sweden	Electrical Soccer Game (Country of Origin: China)		Chemical The plastic material of the product contains an excessive amount of bis(2-ethylhexyl) phthalate (DEHP) (measured value: 27%). This phthalate may harm the health of children, causing possible damage to their reproductive system. The product does not comply with the REACH Regulation.	Removal of this product listing by the online marketplace
A12/00289/22	Slovakia	Plush Toy (Country of Origin: China)		Choking A small part (the suction cup) may be easily detached from the toy. A small child may put it in the mouth and choke. The product does not comply with the requirements of the Toy Safety Directive and the European standard EN 71-1.	Withdrawal of the product from the market
A12/00297/22	Poland	Toy telephone (Country of Origin: China)		Damage to Hearing The sound level pressure is too high (measured value: up to 75.0 dB). This could lead to permanent or temporary hearing loss. The product does not comply with the requirements of the Toy Safety Directive and the European standard EN 71-1.	Withdrawal of the product from the market

The information contained in this newsletter is obtained from sources believed to be accurate to the best knowledge of STC and its subsidiaries. It is distributed without warranty, representation, inducement or license of any kinds and STC and its subsidiaries do not assume any legal responsibility for use or reliance upon the information.

A12/00298/22	Poland	Plastic Toy (Country of Origin: China)		Choking, Cuts The product has small plastic parts (tentacle, wheels) that can be easily detached. A child may put them in the mouth and choke. The toy has accessible sharp elements (metal axle), which could cause cuts. The product does not comply with the requirements of the Toy Safety Directive and the European standard EN 71-1.	Withdrawal of the product from the market
A12/00300/22	Poland	Plastic Ball (Country of Origin: China)		Chemical The toy contains an excessive amount of diisobutyl phthalate (DIBP) (measured value: up to 39.3%). This phthalate may harm the health of children, causing possible damage to their reproductive system. The product does not comply with the REACH Regulation.	Withdrawal of the product from the market
A12/00301/22	Slovakia	Pull Toy (Country of Origin: China)		Strangulation The cord of the toy is too long. It may get wrapped around a child's neck and lead to strangulation. The product does not comply with the requirements of the Toy Safety Directive and the European standard EN 71-1.	Recall of the product from end users
A12/00302/22	Slovakia	Toy Slime (Country of Origin: Hong Kong)		Chemical The migration of boron from the toy slime is too high (measured value: up to 2044 mg/kg). Ingestion or contact with an excessive quantity of boron may harm the health of children by damaging the reproductive system. The product does not comply with the requirements of the Toy Safety Directive and the European standard EN 71-3.	Recall of the product from end users
A12/00309/22	Czechia	Swim Ring (Country of Origin: China)		Chemical The plastic material of the product (swim ring and inflation valve) contains an excessive amount of bis(2-ethylhexyl) phthalate (DEHP), (measured values: up to 14.62% by weight). This phthalate may harm the health of children, causing possible damage to their reproductive system. The product does not comply with the REACH Regulation.	Withdrawal of the product from the market
A12/00313/22	Latvia	Toy Slime (Country of Origin: China)		Chemical The migration of boron from the toy slime is too high (measured value: up to 1026 mg/kg). Ingestion or contact with an excessive quantity of boron may harm the health of children by damaging the	Removal of this product listing by the online marketplace

				reproductive system. The product does not comply with the requirements of the Toy Safety Directive and the European standard EN 71-3.	
A12/00318/22	Germany	Toy Car Set (Country of Origin: China)		Chemical The product releases an excessive amount of nickel (measured value: up to 31 µg/cm ² /week). Nickel is a strong sensitiser and can cause allergic reactions if present in articles that come into direct and prolonged contact with the skin. The product does not comply with the REACH Regulation.	Withdrawal of the product from the market
A12/00325/22	Latvia	Magnetic Building Set (Country of Origin: China)		Injury The magnetic toy is made of small parts (balls) with a high magnetic flux. If a child swallows them, they could attract one another causing intestinal blockage or perforation. The product does not comply with the requirements of the Toy Safety Directive and the European standard EN 71-1.	Removal of this product listing by the online marketplace
A12/00326/22	Sweden	Activity Toy (Country of Origin: China)		Entrapment, Injury, Strangulation The distance between the rods of the climbing arch is too small. A child's head can consequently become trapped between the rods of the toy, causing risks for entrapment, injury and strangulation. The toy does not comply with the requirements of the Toy Safety Directive and the European standard EN 71-8.	Recall of the product from end users
A12/00337/22	Germany	Water Wiggler (Country of Origin: China)		Microbiological The liquid in the product is contaminated with Burkholderia cepacia (measured value: 2,080,000 CFU/g). The product can be damaged during play and fluid may leak out; if a person using the toy has skin injuries, germs may enter the body. Burkholderia cepacia may cause pneumonia, wound infections and sepsis, especially in immunocompromised people. The product does not comply with the requirements of the Toy Safety Directive and the European standard EN 71-5.	Stop of sales
A12/00343/22	Latvia	Plastic Doll with Accessories		Chemical The plastic material of the doll contains an excessive amount of bis(2-ethylhexyl) phthalate (DEHP), dibutyl phthalate (DBP), butylbenzyl phthalate (BBP) and	Removal of this product listing by the online marketplace

		(Country of Origin: China)		diisobutyl phthalate (DIBP) (total measured value: up to 15.8% by weight). These phthalates may harm the health of children, causing possible damage to their reproductive system. The product does not comply with the REACH Regulation.	
A12/00344/22	Latvia	Baby Rattle (Country of Origin: China)		Choking The rattle has a small bell and a protruding part (the handle). The child can put either of them in the mouth and choke. The product does not comply with the requirements of the Toy Safety Directive and with the European standard EN-71.	Removal of this product listing by the online marketplace
A12/00345/22	France	Plush Toy (Country of Origin: China)		Choking Small parts (eyes) may easily detach from the toy. A small child may put them in the mouth and choke. The product does not comply with the requirements of the Toy Safety Directive and the European standard EN 71-1.	Removal of this product listing by the online marketplace
A12/00346/22	France	Plush Toy (Country of Origin: China)		Choking Small parts (eyes) can easily detach from the toy. A small child may put them in the mouth and choke on them. The product does not comply with the requirements of the Toy Safety Directive.	Removal of this product listing by the online marketplace

Safety Gate: the EU rapid alert system for dangerous non-food products

“Safety Gate”, the EU rapid alert system (formerly known as ‘RAPEX’), enables the rapid exchange of information between 31 European countries and the European Commission on non- food dangerous products found on the market posing a risk to health and safety of consumers.

A weekly overview of the alerts on those products is published in English for free on <https://ec.europa.eu/safety-gate-alerts/screen/webReport#weeklyReports>. The measures taken in the notifying country in order to restrict their marketing or use can be ordered by national authorities ("compulsory measures") or be taken directly by producers and distributors ("voluntary measures").

The official contact points of the Member and EFTA-EEA States provide the information published in these weekly overviews. Under the terms of Annex II.10 of the General Product Safety Directive (2001/95/EC) responsibility for the information provided lies with the notifying party. The Commission does not take any responsibility for the accuracy of the information provided.

Recall Summary – US Toys / Children’s Products

CPSC Recall List (Feb 2022)

Recall No.	Notifying Country	Product	Product Photo	Hazard/ Risk	Remedy
22-066	USA	Children’s Robes (Country of Origin: China)		Burn Hazard The children’s robes fail to meet the federal flammability standards for children’s sleepwear, posing a risk of burn injury to children.	Consumers should immediately take the recalled robes away from children and stop using them. Consumers who purchased the robes from Amazon will be contacted through Amazon’s messaging platform and provided prepaid mailers to return the robes for a full refund. Consumers can also contact BAOPTEIL to request a postage prepaid mailer to return the robes for a full refund.
22-067	USA	KOYO Bounca the Squig Limited Edition Plush Toys (Country of Origin: China)		Choking Hazard The pom-poms can detach from the toy, posing a choking hazard to young children.	Consumers should immediately take the recalled plush toy away from young children and return the toy to any Games Workshop or Warhammer store for a full refund, or destroy the product by cutting off the tail with scissors and provide photographic proof of destruction by email.
22-071	USA	Children’s Nightgowns (Country of Origin: China)		Burn Hazard The children’s nightgowns fail to meet federal flammability standards for children’s sleepwear, posing a risk of burn injury to children.	Consumers should immediately take the recalled nightgowns away from children and stop using them. CPSC

The United States Consumer Product Safety Commission (CPSC) is an independent agency of the United States government. To provide better service in alerting the American people to unsafe, hazardous or defective products, a "one stop shop" for U.S. Government recalls, www.recalls.gov, has been created. Publics can report unsafe products to CPSC by using the platform.

The recall list is divided into seven categories: Consumer Products, Motor Vehicles, Boats, Food, Medicine, Cosmetics and Environmental Products. Generally, the recall was conducted, voluntarily by the company, under CPSC's Fast Track Recall program. Fast Track recalls are initiated by firms who commit to work with CPSC to quickly announce the recall and remedy to protect consumers.

Recall Summary – Australia Toys / Children’s Products

ACCC Recall List (Feb 2022)

PRA No.	Notifying Country	Product	Product Photo	Hazard/ Risk	Remedy
2021/19298	Australia	A Wooden Bell Rattle		Choking or Suffocation Hazard The product may not comply with the size and shape requirements of the mandatory safety standard for toys for children up to and including 36 months of age. The product may pose a choking or suffocation hazard for young children, which can lead to severe injury or death.	Consumers should immediately stop using the product. Consumers should dispose of or destroy the product and contact Inspired Mumma to arrange for a full refund.
2021/19313	Australia	Grotime Essentials Birch High-Low Chair Model number: 38100 Available in Sky Blue, Desert Grey and Coral Red		Risk of Injury to Small Children The rear chair legs may develop cracks or breaks, which may lead to the chair legs twisting and can impact the strength and stability of the chairs legs. If the chair legs become unstable, the chair may collapse, increasing the risk of injury to small children.	Consumers should immediately stop using the product. A supportive cross brace repair kit designed to strengthen the structure of the high chair and prevent twisting of the chair legs will be sent to consumers, with installation instructions, at no cost. Consumers should visit www.grotime.link/recall to register their product.
2021/19319	Australia	Voice Changer which, when spoken into, changes the tone of a voice.		Choking Hazard The product’s button battery compartment is not adequately secured, and the button batteries are accessible. If young children gain access to the button batteries and ingest them, they are likely to suffer severe internal burn injury, which can result in serious illness or death. Button batteries also pose a choking hazard to young children.	Consumers should stop using the product and store it out of the reach of children. Consumers should return the product to the place of purchase for a full refund.
2021/19348	Australia	EVA Foam Puzzle Mat Consisting of 26 Interlocking		Missing of Warnings The product does not comply with the labelling requirements of the mandatory standard for toys for children up to and	Consumers should immediately stop using the puzzle mat and should return them to

		Tiles each Piece Approximately 29cm x 29cm with Letters		including 36 months of age. The puzzle mat may be used incorrectly without the required safety warning label. If foam pieces break off, they could cause a choking or suffocation hazard for young children, which can lead to severe injury or death.	the place of purchase for a full refund.
2021/19350	Australia	A Set of Small, Coloured Magnetic Balls		Choking Hazard The product contains small, high-powered magnets that exceed the maximum allowable magnetic flux set by the permanent ban on small high-powered magnets. If a child swallows more than one small high powered magnet, the magnets can stick together across the walls of the child's intestine or other digestive tissue, which can lead to internal injury and even death. The magnets may pose a choking hazard to young children (small parts).	Consumers should immediately stop using the product and return the product to the place of purchase to receive a full refund.
2022/19406	Australia	Cotton On Kids Baby Swim Ring Inflatable Ring Available in Multiple Colours		Risk of Drowning The product does not comply with the mandatory safety standard for swimming and flotation aids. There is an increased risk of drowning if the product deflates during use or is not used correctly.	Consumers should immediately stop using the product and return it to any Cotton On or Cotton On Kids store for a full refund.

Australian Product Safety System

The Australian product safety system is to maximize the safety of good by the cooperation of consumers, businesses and agencies. This policy sets out the principles adopted by the Australian Competition and Consumer Commission (ACCC) for prioritizing and addressing product safety risks.

Under the Australian Consumer Law, a responsible Minister can order a compulsory recall when there are hazards on the products. A voluntary recall could be conducted to remove the product from the marketplace when the suppliers become aware of unsafe or defective products.

The ACCC administers a national recalls system for recalls of specific and general consumer products, and publishes all product recalls on the website <https://www.productsafety.gov.au/recalls>.

STC (Hong Kong Standards and Testing Centre) is a not-for-profit, independent testing, inspection and certification organization. With a global network of ISO/IEC 17025 accredited testing laboratories and over 50 years of experience in consumer product testing, we can meet your conformity assessment needs with highly efficient and reliable service. Our testing scope and capabilities related to toys and children's products include but not limited to:
