

Recall Summary – European Toys

EU Safety Gate Alerts (Jan 2022)

Alert No.	Notifying Country	Product	Product Photo	Hazard/ Risk	Measures Adopted
A11/00001/22	Croatia	Soft Toy (Country of Origin: China)		Choking Small parts can easily detach (filings). Consequently, a small child may put them in the mouth and choke. The product does not comply with the requirements of the Toy Safety Directive and the European standard EN 71-1.	Destruction of the product
A11/00003/22	Lithuania	Toy Rattle (Country of Origin: China)		Injury Some parts of the product protrude. If a child puts the toy in the mouth and falls face down, the protruding parts could obstruct the airways, causing choking and injury around the pharynx or trachea area. The product does not comply with the requirements of the Toy Safety Directive and the European standard EN 71-1.	Withdrawal of the product from the market
A11/00007/22	Malta	Battery Operated Toy Car (Country of Origin: The Netherlands)		Environment The solder contains an excessive amount of lead and cadmium (measured value: up to 40.98% and 0.12% by weight respectively). Lead and cadmium pose a risk to the environment. The product does not comply with the requirements of the Toys Directive and the Directive on the restriction of the use of certain hazardous substances in electrical and electronic equipment (RoHS 2 Directive).	Withdrawal of the product from the market
A11/00008/22	Malta	Electric Ride On Tricycle (Country of Origin: China)		Environment The solder contains an excessive amount of lead (measured value: up to 35.49% by weight). Lead poses a risk to the environment. The product does not comply with the requirements of the Toys Safety Directive and the Directive on the restriction of the use of certain hazardous substances in electrical and electronic equipment (RoHS 2 Directive).	Withdrawal of the product from the market

A11/00009/22	Malta	Remote Controlled Car (Country of Origin: China)		Environment The solder contains an excessive amount of lead (measured value: up to 44.3% by weight). Lead poses a risk to the environment. The product does not comply with the requirements of the Toys Safety Directive and the Directive on the restriction of the use of certain hazardous substances in electrical and electronic equipment (RoHS 2 Directive).	Withdrawal of the product from the market
A11/00010/22	Croatia	Soft Toy (Country of Origin: China)		Choking Due to the weakness of certain seams, the fibrous stuffing material of the toy is easily accessible. A child may put the stuffing in the mouth and choke. The product does not comply with the requirements of the Toy Safety Directive and the European standard EN 71-1.	Import rejected at border
A11/00013/22	France	Children's Bath Thermometer (Country of Origin: China)		Microbiological Water remains in the thermometer and is not drained away. Since the product is attractive to children; during play, as the water is not properly drained, there is a risk of the spread of bacteria and of contamination if a child puts the product in the mouth. The product does not comply with the requirements of the General Product Safety Directive and the European standards EN 62115 and EN 71-3.	Removal of this product listing by the online marketplace
A11/00015/22	Croatia	Soft Toy (Country of Origin: China)		Choking Small parts (filings) may detach. A small child may put them in the mouth and choke. The product does not comply with the requirements of the Toy Safety Directive and the European standard EN 71-1.	Import rejected at border
A11/00017/22	Poland	Plastic Toy (Country of Origin: China)		Cut The toy has a sharp edge. This could cause cuts to users. The product does not comply with the requirements of the Toy Safety Directive and the European standard EN 71-1.	Withdrawal of the product from the market

A11/00018/22	Hungary	Plastic Doll (Country of Origin: China)		Chemical, Choking The hard-plastic upper body containing the button cells can be easily broken, leaving batteries accessible. A child may put them in the mouth and swallow them, which may lead to choking if they enter the airways, or could cause damages to the gastrointestinal tract if they are ingested. The product does not comply with the requirements of the Toy Safety Directive and the European standard EN 62115.	Withdrawal of the product from the market
A12/00001/22	France	Soft Toy (Country of Origin: China)		Chemical, Choking The toy has small parts (the eyes) that can detach easily. A child can put them in the mouth and choke. The suction cup contains an excessive amount of dibutyl phthalate (DBP) (measured value: up to 5.43% by weight). These phthalates may harm the health of children, causing possible damage to their reproductive system. The eyes of the toy contain an excessive amount of lead (measured value: 15 mg/kg). Lead is harmful to human health, accumulates in the body can cause developmental neurotoxicity and may affect breast-fed or unborn children. The product does not comply with the requirements of the Toy Safety Directive, REACH and the European standards EN 71-1 and EN 71-3.	Removal of this product listing by the online marketplace
A12/00019/22	Belgium	Bath Toy (Country of Origin: China)		Choking, Damage to Hearing, Suffocation The instruments can easily break into small parts. A small child may put them in the mouth and choke. The sound pressure level is too high. Consequently, it can cause damage to hearing. The plastic bag of the packaging is too thin. If a child plays with the packaging, the plastic can cover the mouth and nose, causing the child to suffocate. The product does not comply with the requirements of the Toy Safety Directive and the European standard EN 71-1.	Removal of this product listing by the online marketplace

A12/00025/22	Sweden	Plastic Doll (Country of Origin: China)		Chemical The plastic material of the doll contains an excessive amount of bis(2-ethylhexyl) phthalate (DEHP) and dibutyl phthalate (DBP) (measured value: up to 25% and 18% by weight respectively). These phthalates may harm the health of children, causing possible damage to their reproductive system. The product does not comply with the REACH Regulation.	Withdrawal of the product from the market
A12/00035/22	Croatia	Soft Toy (Country of Origin: China)		Choking Small parts (filings and hard plastic parts) may detach. A small child may put them in the mouth and choke. The product does not comply with the requirements of the Toy Safety Directive and the European standard EN 71-1.	Destruction of the product
A12/00036/22	Croatia	Rubber toy (Country of Origin: China)		Chemical, Choking Small parts (hard plastics) may detach. A small child may put them in the mouth and choke. The plastic material of the toy contains an excessive amount of bis(2-ethylhexyl) phthalate (DEHP) and diisobutyl phthalate (DIBP) (measured value: 28% and 0.18% by weight respectively). These phthalates may harm the health of children, causing possible damage to their reproductive system. The product does not comply with the REACH Regulation.	Import rejected at border
A12/00037/22	Finland	Children's Trousers (Country of Origin: Bangladesh)		Chemical The plastic material of the black print "Score" on the front of the pants contains an excessive amount of bis(2-ethylhexyl) phthalate (DEHP) (measured value: 27%). This phthalate may harm the health of children, causing possible damage to the reproductive system. The product does not comply with the REACH Regulation.	Import rejected at border
A12/00039/22	France	Toy Rattle (Country of Origin: China)		Choking, Injury The small beads in the plastic tubes of the toy can easily come out of the tubes. A small child can put them in the mouth and choke. The small beads, once swallowed, can also cause internal injury to the esophagus. The product does not comply with the requirements of the Toy Safety Directive and the European standard EN 71-1.	Recall of the product from end users

A12/00052/22	Sweden	Inflatable Toy (Country of Origin: China)		Chemical, Environment The valve, made of transparent PVC plastic, of the product contains an excessive amount of bis(2-ethylhexyl) phthalate (DEHP) and diisononyl phthalate (DINP) (measured value: 21% and 1.8% by weight respectively). In addition, the migration of organotin compounds of the valve is too high (measured value: up to 31 mg/kg). These phthalates may harm the health of children, causing possible damage to their reproductive system and liver. Organotin compounds are potentially persistent, bioaccumulative and toxic for the environment. The product does not comply with the REACH Regulation, the Toy Safety Directive and the European standard EN 71-3.	Withdrawal of the product from the market
A12/00058/22	Malta	Baby Rattles (Country of Origin: Unknown)		Damage to Hearing The sound pressure level produced by the toy is too high (measured value: up to 111.2 dB). This could lead to damage to hearing. The product does not comply with the Toy Safety Directive and the European standard EN 71-1.	Recall of the product from end users
A12/00059/22	Malta	Toy Bow with Sucker (Country of Origin: China)		Suffocation The plastic bag of the packaging is too thin. If a child plays with the packaging, the plastic can cover the mouth and nose, causing the child to suffocate. The product does not comply with the requirements of the Toy Safety Directive and the European standard EN 71-1.	Recall of the product from end users
A12/00060/22	Poland	Plush Toy (Country of Origin: China)		Chemical The foam in the product contains an excessive amount of the flame-retardant tris(2-chloro-1-methylethyl) phosphate (TCCP) (measured value: up to 10.7 mg/kg). TCCP might cause cancer. The product does not comply with the requirements of the Toy Safety Directive.	Destruction of the product

A12/00061/22	Poland	Child Bicycle Seat (Country of Origin: Italy)		Choking, Cut, Injury Small parts (metal rivets, plastic belt adjusters and stickers) may easily detach from the seat. A small child may put them in the mouth and choke. The seat has unprotected edges which may cause cuts. The attachment of the seat to the bicycle and the restraint system are inadequate. The seat could get disconnected from the bicycle or child could fall out of the seat when the cyclist brakes sharply. The product does not comply with the requirements of the General Product Safety Directive and the European standard EN 14344.	Withdrawal of the product from the market
A12/00062/22	Poland	Magnetic Balls (Country of Origin: China)		Injury The toy is made of small parts (balls) with a high magnetic flux. If a child swallows them, they could attract one another causing intestinal blockage or perforation. The product does not comply with the requirements of the Toy Safety Directive and the European standard EN 71-1.	Withdrawal of the product from the market
A12/00063/22	Malta	Bath Toy (Country of Origin: Unknown)		Choking Small plastic parts (the wings) may easily detach from the toy. A small child may put them in the mouth and choke. The product does not comply with the requirements of the Toy Safety Directive and the European standard EN 71-1.	Recall of the product from end users
A12/00070/22	Malta	Remote Control Car (Country of Origin: China)		Chemical The plastic material of the toy contains an excessive amount of bis (2-ethylhexyl) phthalate (DEHP) and diisobutyl phthalate (DIBP) (measured value: 13.7% and 0.32% by weight respectively). These phthalates may harm the health of children, causing possible damage to their reproductive system. The product does not comply with the REACH Regulation.	Recall of the product from end users
A12/00071/22	Malta	Toy Plane (Country of Origin: China)		Chemical The plastic material of the product contains an excessive amount of bis(2-ethylhexyl) phthalate (DEHP) and dibutyl phthalate (DBP) (measured value: 3.81% and 1.48% by weight respectively). These phthalates may harm the health of children, causing possible damage to their reproductive system. The product does not comply with the REACH Regulation.	Recall of the product from end users

The information contained in this newsletter is obtained from sources believed to be accurate to the best knowledge of STC and its subsidiaries. It is distributed without warranty, representation, inducement or license of any kinds and STC and its subsidiaries do not assume any legal responsibility for use or reliance upon the information.

A12/00072/22	Malta	Plastic Toy (Country of Origin: Unknown)		Chemical The plastic material of the product contains an excessive amount of bis(2-ethylhexyl) phthalate (DEHP) and dibutyl phthalate (DBP) (measured value: up to 17% and 0.19% by weight respectively). These phthalates may harm the health of children, causing possible damage to their reproductive system. The product does not comply with the REACH Regulation.	Recall of the product from end users
A12/00073/22	Malta	Plastic Ball (Country of Origin: Unknown)		Chemical The plastic material of the product contains an excessive amount of bis(2-ethylhexyl) phthalate (DEHP) and Diisononyl phthalate (DINP) (measured value: up to 27% and 0.18% by weight respectively). These phthalates may harm the health of children, causing possible damage to their reproductive system and liver. The product does not comply with the REACH Regulation.	Recall of the product from end users
A12/00074/22	Malta	Toy Robot (Country of Origin: Unknown)		Suffocation The plastic bag of the packaging is too thin. If a child plays with the packaging, the plastic could cover the mouth and nose, causing the child to suffocate. The product does not comply with the requirements of the Toy Safety Directive and the European standard EN 71-1.	Recall of the product from end users
A12/00075/22	Malta	Remote Control Car (Country of Origin: China)		Chemical, Environment The solder contains an excessive amount of lead and cadmium (measured value: 42.7 % and 0.2% by weight respectively). Lead poses a risk to the environment. Cadmium is harmful to human health because it accumulates in the body, causing damage the kidneys and bones, and cancer. The plastic material of the protective tube contains an excessive amount of bis(2-ethylhexyl) phthalate (DEHP) and benzyl butyl phthalata (BBP) (measured value: 1.81% and 6.35% by weight respectively). These phthalates may harm the health of children, causing possible damage to their reproductive system. The product does not comply with the REACH Regulation and with the requirements of the Commission Directive on the restriction of the use of certain hazardous substances in electrical and electronic equipment (RoHS 2 Directive).	Recall of the product from end users

The information contained in this newsletter is obtained from sources believed to be accurate to the best knowledge of STC and its subsidiaries. It is distributed without warranty, representation, inducement or license of any kinds and STC and its subsidiaries do not assume any legal responsibility for use or reliance upon the information.

A12/00076/22	Malta	Plastic Doll (Country of Origin: China)		Chemical, Environment The plastic material of the product contains an excessive amount of bis(2-ethylhexyl) phthalate (DEHP) (measured value: up to 2.89% by weight). This phthalate may harm the health of children, causing possible damage to their reproductive system. The metal (solder) in the product contains an excessive amount of lead (measured value: 52.56% by weight). Lead poses a risk to the environment. The product does not comply with the REACH Regulation and with the requirements of the Commission Directive on the restriction of the use of certain hazardous substances in electrical and electronic equipment (RoHS 2 Directive).	Recall of the product from end users
A12/00077/22	Sweden	Mini Dolls (Country of Origin: China)		Chemical The dolls contain an excessive amount of bis(2-ethylhexyl) phthalate (DEHP) and di-isononyl phthalate (DINP) (measured value: up to 27% and 0.11% respectively). These phthalates may harm the health of children, causing possible damage to their reproductive system and liver. The product does not comply with the REACH Regulation.	Removal of this product listing by the online marketplace
A12/00078/22	Sweden	Inflatable Unicorn (Country of Origin: China)		Chemical The plastic material of the product contains an excessive amount of bis(2-ethylhexyl) phthalate (DEHP) (measured value: up to 2% by weight). This phthalate may harm the health of children, causing possible damage to the reproductive system. The product also contains cadmium (measured value: up to 5.1% by weight). Cadmium causes damage to organs if swallowed or inhaled and may cause cancer. The product does not comply with the REACH Regulation.	Removal of this product listing by the online marketplace
A12/00079/22	Sweden	Inflatable Dolphin (Country of Origin: China)		Chemical The plastic of the dolphin contains an excessive amount of bis(2-ethylhexyl) phthalate (DEHP) and di-isononyl phthalate (DINP) (measured value: up to 18% and 0.17% by weight respectively). These phthalates may harm the health of children, causing possible damage to their reproductive system and liver. The product does not comply with the REACH Regulation.	Removal of this product listing by the online marketplace

The information contained in this newsletter is obtained from sources believed to be accurate to the best knowledge of STC and its subsidiaries. It is distributed without warranty, representation, inducement or license of any kinds and STC and its subsidiaries do not assume any legal responsibility for use or reliance upon the information.

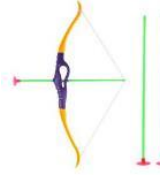

A12/00080/22	Sweden	Children's High Chair (Country of Origin: Unknown)		Entrapment, Injury, Strangulation The product has only a crotch restraint on the belt, not between the seat and the bar. Consequently, if the belt is not used, a child might slip through the opening between the bar and the seat and fall, resulting in injury, or become trapped with the chest, head or neck between the tray and the seat, resulting in strangulation or entrapment. The product does not comply with the requirements of the General Product Safety Directive and the European standard EN 14988.	Recall of the product from end users
A12/00090/22	Malta	Bath Toy Set (Country of Origin: Unknown)		Choking, Suffocation Small plastic parts (squeaking element) may easily detach from the toy. A small child may put them in the mouth and choke. Furthermore, the geometric shapes of the toys protrude too much. A child could easily insert the toys in the mouth, risking to block the air ways. Also, the plastic bag of the packaging is too thin. If a child plays with the packaging, the plastic can cover the mouth and nose, causing the child to suffocate. The product does not comply with the requirements of the Toy Safety Directive and the European standard EN 71-1.	Recall of the product from end users
A12/00095/22	Malta	Plastic Toy (Country of Origin: Unknown)		Suffocation The plastic bag of the packaging is too thin. If a child plays with the packaging, the plastic could cover the mouth and nose, causing the child to suffocate. The product does not comply with the requirements of the Toy Safety Directive and the European standard EN 71-1.	Recall of the product from end users
A12/00096/22	Malta	Baby Rattles (Country of Origin: Unknown)		Damage to hearing The sound pressure level produced by the toy is too high (measured value: 115 dB), This could lead to damage to hearing. The product does not comply with the Toy Safety Directive and the European standard EN 71-1.	Recall of the product from end users
A12/00097/22	Malta	Plastic Doll Set (Country of Origin: Unknown)		Suffocation The plastic bag of the packaging is too thin. If a child plays with the packaging, the plastic can cover the mouth and nose, causing the child to suffocate. The product does not comply with the requirements of the Toy Safety Directive and the European standard EN 71-1.	Recall of the product from end users

The information contained in this newsletter is obtained from sources believed to be accurate to the best knowledge of STC and its subsidiaries. It is distributed without warranty, representation, inducement or license of any kinds and STC and its subsidiaries do not assume any legal responsibility for use or reliance upon the information.

A12/00098/22	Malta	Toy Car (Country of Origin: Unknown)		Chemical The product contains an excessive amount of polycyclic aromatic hydrocarbons (PAHs) (measured value: up to 0.7 mg/kg). PAHs may cause cancer and are also mutagenic and toxic for reproduction. The product does not comply with the REACH Regulation.	Recall of the product from end users
A12/00099/22	Malta	Plastic Doll (Country of Origin: Unknown)		Suffocation The plastic of the packaging is too thin. If a child plays with the packaging, the plastic can cover the mouth and nose, causing the child to suffocate. The product does not comply with the requirements of the Toy Safety Directive and the European standard EN 71-1.	Recall of the product from end users
A12/00100/22	Malta	Plastic Doll Set (Country of Origin: Unknown)		Chemical, Suffocation The plastic of the product contains an excessive amount of bis(2-ethylhexyl) phthalate (DEHP) (measured value: up to 28% by weight). This phthalate may harm the health of children, causing possible damage to their reproductive system and liver. Moreover, the plastic of the packaging is too thin. If a child plays with the packaging, the plastic can cover the mouth and nose, causing the child to suffocate. The product does not comply with the REACH Regulation, the requirements of the Toy Safety Directive and the European standard EN 71-1.	Recall of the product from end users
A12/00102/22	Lithuania	Radio-controlled (Remote) Bee (Country of Origin: China)		Environment Concentrations of lead (48.70%) in solders of the toy exceed the limit values. Lead poses a risk to the environment. The product does not comply with the requirements of the Directive on the restriction of the use of certain hazardous substances in electrical and electronic equipment (RoHS 2 Directive).	Withdrawal of the product from the market
A12/00105/22	Luxembourg	Plastic Doll (Country of Origin: China)		Suffocation The plastic bag of the packaging is too thin. If a child plays with the packaging, the plastic can cover the mouth and nose, causing the child to suffocate. The product does not comply with the requirements of the Toy Safety Directive and the European standard EN 71-1.	Removal of this product listing by the online marketplace

The information contained in this newsletter is obtained from sources believed to be accurate to the best knowledge of STC and its subsidiaries. It is distributed without warranty, representation, inducement or license of any kinds and STC and its subsidiaries do not assume any legal responsibility for use or reliance upon the information.

A12/00107/22	Luxembourg	Wooden Toy (Country of Origin: China)		Strangulation The product has a long cord. This cord can become trapped in the neck area during various activities of a child, leading to strangulation. The product does not comply with the requirements of the Toy Safety Directive and the European standard EN 71-1.	Removal of this product listing by the online marketplace
A12/00108/22	Malta	Toy bow and arrows (Country of Origin: Unknown)		Chemical, Suffocation The plastic material of the product contains an excessive amount of bis(2-ethylhexyl) phthalate (DEHP), diisobutyl phthalate (DIBP) and dibutyl phthalate (DBP) (measured value: up to 0.97%, 0.27% and 5.7% by weight respectively). These phthalates may harm the health of children, causing possible damage to their reproductive system. Furthermore, the plastic bag of the packaging is too thin. If a child plays with the packaging, the plastic could cover the mouth and nose, causing the child to suffocate. The product does not comply with the REACH Regulation, the requirements of the Toy Safety Directive and the European standard EN 71-1.	Recall of the product from end users
A12/00109/22	Malta	Bath Toy (Country of Origin: Unknown)		Choking, Suffocation Some parts of the toy protrude. If a child puts the toy in the mouth, the protruding parts could obstruct the airways and cause choking. Furthermore, the plastic bag of the packaging is too thin. If a child plays with the packaging, the plastic can cover the mouth and nose, causing the child to suffocate. The product does not comply with the requirements of the Toy Safety Directive and the European standard EN 71-1.	Recall of the product from end users
A12/00110/22	Malta	Plastic Toy (Country of Origin: Unknown)		Choking, Damage to hearing The sound pressure level produced by the toy is too high (measured value: 112.6 dB). This could lead to damage to hearing. Furthermore, some parts of the toy protrude. If a child puts the toy in the mouth, the protruding parts could obstruct the airways and cause choking. The product does not comply with the requirements of the Toy Safety Directive and the European standard EN 71-1.	Recall of the product from end users

A12/00113/22	Luxembourg	Bath Toy (Country of Origin: China)		Choking, Damage to hearing The sound pressure level is too high (measured value: 115.7 dB). This could lead to temporary loss of hearing when the product is used. Furthermore, some parts of the toy protrude. If a child puts the toy in the mouth, the protruding parts could obstruct the airways and cause choking. The product does not comply with the requirements of the Toy Safety Directive and the European standard EN 71-1.	Ebay has requested sellers to warn all buyers who bought the toy more than 90 days ago.
A12/00114/22	Malta	Toy Gun (Country of Origin: China)		Chemical, Environment The product contains an excessive amount of organic tin (TBT) (measured value: up to 71 mg/kg). The product also contains an excessive amount of bis(2-ethylhexyl) phthalate (DEHP), dibutyl phthalate (DBP), diisobutyl phthalate (DIBP) and Diisononyl phthalate (DINP) (measured value: up to 2.1%, 11%, 0.58% and 1.3% by weight respectively). TBT is potentially persistent, bioaccumulative and toxic for the environment. These phthalates may harm the health of children, causing possible damage to their reproductive system and liver. The product does not comply with the REACH Regulation and the European standard EN 71-3.	Recall of the product from end users
A12/00115/22	Malta	Toy Bow and Arrows (Country of Origin: Unknown)		Chemical, Environment The plastic material of the product contains an excessive amount of organic tin (TBT) (measured value: up to 36.06 mg/kg). The product also contains an excessive amount of bis(2-ethylhexyl) phthalate (DEHP), dibutyl phthalate (DBP), diisobutyl phthalate (DIPB), and Diisononyl phthalate (DINP) (measured value: up to 0.61%, 9.8%, 0.13% and 1.5% by weight respectively). TBT is potentially persistent, bioaccumulative and toxic for the environment. These phthalates may harm the health of children, causing possible damage to their reproductive system and liver. The product does not comply with the REACH Regulation and the European standard EN 71-3.	Recall of the product from end users

A12/00119/22	France	Children's Bath Thermometer (Country of Origin: Unknown)		Choking The thermometer has a protruding part. A child can put it in the mouth and choke. The product does not comply with the requirements of the General Product Safety Directive.	Removal of this product listing by the online marketplace
A12/00120/22	France	Children's Bath Thermometer (Country of Origin: Unknown)		Choking The thermometer has a protruding part. A child can put it in the mouth and choke. The product does not comply with the requirements of the General Product Safety Directive.	Removal of this product listing by the online marketplace
A12/00121/22	France	Children's Bath Thermometer (Country of Origin: China)		Choking The thermometer has a protruding part. A child can put it in the mouth and choke. The product does not comply with the requirements of the General Product Safety Directive.	Removal of this product listing by the online marketplace
A12/00122/22	Austria	Toy Car (Country of Origin: China)		Choking Small parts (light bar) can easily detach. A small child may put them in the mouth and choke. The product does not comply with the requirements of the Toy Safety Directive.	No investigations can be carried out at present, owing to lockdown.
A12/00129/22	Luxembourg	Plastic Toy Duck (Country of Origin: China)		Suffocation The plastic bag of the packaging is too thin. If a child plays with it, the plastic can cover the mouth and nose, causing the child to suffocate. The product does not comply with the requirements of the Toy Safety Directive and with the European standard EN 71-1.	Removal of this product listing by the online marketplace
A12/00130/22	Luxembourg	Bath Toy (Country of Origin: China)		Choking, Damage to hearing The sound pressure level is too high (measured value: 111.5 dB). This could lead to temporary loss of hearing when the product is used. Furthermore, some parts of the toy protrude. If a child puts the toy in the mouth, the protruding parts could obstruct the airways and cause choking. The product does not comply with the requirements of the Toy Safety Directive and the European standard EN 71-1.	Ebay has requested sellers to warn all buyers who bought the toy more than 90 days ago.

A12/00132/22	Luxembourg	Plastic Doll (Country of Origin: China)		Choking The arms of the doll can easily detach. A child may put them in the mouth and choke. The product does not comply with the requirements of the Toy Safety Directive and the European standard EN71-1.	Removal of this product listing by the online marketplace
A12/00133/22	Malta	Toy Mini Cars (Country of Origin: Unknown)		Choking The toy cars are too small. A small child may put them in the mouth and choke. The product does not comply with the requirements of the Toy Safety Directive and the European standard EN71-1.	Recall of the product from end users
A12/00134/22	Norway	Pineapple Blast (Country of Origin: China)		Chemical The soft yellow plastic material contains an excessive amount of diisobutylphthalate (DIBP) (measured value: 0.57 %). These phthalates may harm the health of children, causing possible damage to their reproductive system. The product does not comply with the requirements of the REACH Regulation.	Removal of this product listing by the online marketplace
A12/00139/22	Norway	Child Watch (Country of Origin: China)		Environment The solder contains an excessive amount of lead (measured value: up to 87% by weight). Lead poses a risk to the environment. The product does not comply with the requirements of the Directive on the restriction of the use of certain hazardous substances in electrical and electronic equipment (RoHS 2 Directive).	Withdrawal of the product from the market
A12/00140/22	Norway	Water Mercury Pumping Water Jet (Country of Origin: China)		Environment The solder contains an excessive amount of lead (measured value: up to 66% by weight). Lead poses a risk to the environment. The product does not comply with the requirements of the Directive on the restriction of the use of certain hazardous substances in electrical and electronic equipment (RoHS 2 Directive).	Stop of sales

A12/00141/22	Norway	<p>Animal Figure, LED Night Lamp with Projector</p> <p>(Country of Origin: China)</p>		<p>Environment</p> <p>The solder contains an excessive amount of lead and cadmium (measured value: up to 19.3% and 0.51% by weight respectively). Lead and cadmium pose a risk to the environment. The product does not comply with the requirements of the Directive on the restriction of the use of certain hazardous substances in electrical and electronic equipment (RoHS 2 Directive).</p>	Stop of sales
A12/00142/22	Norway	<p>Children Headphone</p> <p>(Country of Origin: Unknown)</p>		<p>Chemical</p> <p>The white plastic material on the cable of the product contains an excessive amount of bis(2-ethylhexyl) phthalate (DEHP) (measured value: 10.72 %). These phthalates may harm the health of children, causing possible damage to their reproductive system. The product does not comply with the requirements of REACH Regulation.</p>	Removal of this product listing by the online marketplace
A12/00156/22	Poland	<p>Plastic Toy</p> <p>(Country of Origin: China)</p>		<p>Choking, Injury</p> <p>Small plastic parts (ring, wheels and wing) may easily detach from the toy. A small child may put them in the mouth and choke. Moreover, the metal axis may become accessible, which may cause injury. The product does not comply with the regulations on the safety of toys and the European standard EN 71-1.</p>	Withdrawal of the product from the market
A12/00161/22	Norway	<p>Plastic Doll Set</p> <p>(Country of Origin: China)</p>		<p>Chemical</p> <p>The soft yellow plastic material contains an excessive amount of Diisononylphthalate (DINP) (measured value: 25.01% by weight). These phthalates may harm the health of children, causing possible damage to their reproductive system. The product does not comply with the REACH Regulation.</p>	Removal of this product listing by the online marketplace
A12/00163/22	Norway	<p>Plastic Doll Set</p> <p>(Country of Origin: China)</p>		<p>Chemical</p> <p>The plastic material of the figure contains an excessive amount of bis(2-ethylhexyl) phthalate (DEHP) (measured value: 17.61%). This phthalate may harm the health of children, causing possible damage to their reproductive system. The product does not comply with the REACH Regulation.</p>	Removal of this product listing by the online marketplace

The information contained in this newsletter is obtained from sources believed to be accurate to the best knowledge of STC and its subsidiaries. It is distributed without warranty, representation, inducement or license of any kinds and STC and its subsidiaries do not assume any legal responsibility for use or reliance upon the information.

A12/00164/22	Norway	Plastic Toy (Country of Origin: China)		Chemical, Environment The plastic material of the toy contains an excessive amount of bis(2-ethylhexyl) phthalate (DEHP) and diisobutyl phthalate (DIBP) (measured value: 14.9% and 2.1% by weight respectively). These phthalates may harm the health of children, causing possible damage to their reproductive system. In addition, the product contains short-chain chlorinated paraffins (SCCPs) (measured value: 0.45%). SCCPs persist in the environment, are toxic to aquatic organisms at low concentrations and bioaccumulate in wildlife and humans, posing a risk to human health and the environment. The product does not comply with the REACH Regulation and the Regulation on persistent organic pollutants (POP Regulation).	Withdrawal of the product from the market
A12/00170/22	Luxembourg	Toy Rattle (Country of Origin: China)		Choking, Damage to hearing, Injury, Suffocation The sound pressure level is too high (measured value: up to 118.6 dB). This could lead to partial loss of hearing when the product is used. Furthermore, the toy releases small parts; a child may put them in the mouth and choke. The protruding shape of the toy keys is not compliant for children unable to sit unaided; they could lose balance and choke or suffer from injury. Finally, the plastic foil bag is too thin and poses a suffocation risk. The product does not comply with the requirements of the Toy Safety Directive and the European standard EN 71-1.	Warning consumers of the risks
A12/00181/22	Luxembourg	Toy Set (Country of Origin: China)		Choking Due to their characteristic form, colour and size, the products may be mistaken for foodstuff. This may lead children to put them in the mouth and ingest them. The product does not comply with the requirements of the Food Imitating Products Directive, the Toy Safety Directive and the European standard EN 71-1.	Removal of this product listing by the online marketplace

A12/00185/22	Germany	Baby's Shoes (Country of Origin: India)		Chemical The leather in the product contains chromium (VI) (measured value: 12.7 mg/kg). Chromium (VI) has a sensitising effect and can trigger allergic reactions in contact with the skin. The product does not comply with the REACH Regulation.	Warning consumers of the risks
A12/00189/22	Hungary	Plastic Toy (Country of Origin: China)		Chemical, Choking The small flashing unit and the button cell batteries are easily accessible. A child might put them in the mouth and swallow them, which may lead to choking if they enter the airways, or could cause damages to the gastrointestinal tract if they are ingested. The product does not comply with the requirements of the Toy Safety Directive and the European standard EN 62115.	Withdrawal of the product from the market
A12/00190/22	Hungary	Plastic Toy (Country of Origin: China)		Chemical, Choking The small flashing unit and the button cell batteries are easily accessible. A child might put them in the mouth and swallow them, which may lead to choking if they enter the airways, or could cause damages to the gastrointestinal tract if they are ingested. The product does not comply with the requirements of the Toy Safety Directive and the European standard EN 62115.	Withdrawal of the product from the market

Safety Gate: the EU rapid alert system for dangerous non-food products

“Safety Gate”, the EU rapid alert system (formerly known as “RAPEX”), enables the rapid exchange of information between 31 European countries and the European Commission on non- food dangerous products found on the market posing a risk to health and safety of consumers.

A weekly overview of the alerts on those products is published in English for free on <https://ec.europa.eu/safety-gate-alerts/screen/webReport#weeklyReports>. The measures taken in the notifying country in order to restrict their marketing or use can be ordered by national authorities ("compulsory measures") or be taken directly by producers and distributors ("voluntary measures").

The official contact points of the Member and EFTA-EEA States provide the information published in these weekly overviews. Under the terms of Annex II.10 of the General Product Safety Directive (2001/95/EC) responsibility for the information provided lies with the notifying party. The Commission does not take any responsibility for the accuracy of the information provided.

Recall Summary – US Toys / Children’s Products

CPSC Recall List (Jan 2022)

Recall No.	Notifying Country	Product	Product Photo	Hazard/ Risk	Remedy
22-044	USA	Native Creation Small Wool Sweaters (Country of Origin: Ecuador)		Violation of the Federal Lead Paint Ban Paint on the zipper pull contains levels of lead that exceed the maximums allowed.	Consumers should immediately take the recalled sweater away from children and contact Native Creation for a full refund.
22-051	USA	2021 Model Year Giant and Liv Adult Bicycles (Country of Origin: Philippines)		Fall and Injury Hazards The adjustable handlebar stem on the bicycles can become loose, posing fall and injury hazards.	Consumers should immediately stop using the recalled bicycles and contact Giant Bicycle. Consumers will be instructed to schedule an inspection and free repair at the authorized Giant Bicycles retailer where the consumer purchased the bicycle or any other authorized Giant Bicycle retailer.
22-053	USA	Children’s Robes (Country of Origin: China)		Burn Hazard The recalled robes fail to meet flammability standards for children’s sleepwear, posing a risk of burn injury to children.	Consumers should immediately take the recalled robes away from children and stop using them. Consumers who purchased the garments from Amazon.com will be contacted through Amazon’s messaging platform and provided prepaid mailers to return the products for a refund. Consumers can also contact HulovoX to request a postage prepaid mailer to return the products for a full refund.
22-054	USA	FRIGG Silicone Pacifiers (Country of Origin: Denmark)		Choking Hazard The base of the silicone nipple has a fine slit that can cause the nipple to detach from the plastic shield, posing a choking hazard.	Consumers should immediately stop using the recalled pacifiers and contact the firm for a full refund or credit. To obtain a full refund or credit, consumers should cut the silicone nipple from the base of the pacifier and send a photograph of both the detached silicone nipple and the base of the pacifier to Mushie.

CPSC

The United States Consumer Product Safety Commission (CPSC) is an independent agency of the United States government. To provide better service in alerting the American people to unsafe, hazardous or defective products, a “one stop shop” for U.S. Government recalls, www.recalls.gov, has been created. Publics can report unsafe products to CPSC by using the platform.

The recall list is divided into seven categories: Consumer Products, Motor Vehicles, Boats, Food, Medicine, Cosmetics and Environmental Products. Generally, the recall was conducted, voluntarily by the company, under CPSC’s Fast Track Recall program. Fast Track recalls are initiated by firms who commit to work with CPSC to quickly announce the recall and remedy to protect consumers.

The information contained in this newsletter is obtained from sources believed to be accurate to the best knowledge of STC and its subsidiaries. Recall Summary – Australia Toys / Children’s Products

ACCC Recall List (Jan 2022)

PRA No.	Notifying Country	Product	Product Photo	Hazard/ Risk	Remedy
2021/19278	Australia	Barbell Ring Rattle		Choking or Suffocation Hazard The rattle does not comply with the size and shape requirements of the mandatory safety standard for toys for children up to and including 36 months of age. The product may pose a choking or suffocation hazard for young children, which can lead to severe injury or death.	Consumers should immediately stop using the rattle and destroy or dispose of it. Consumers will need to provide evidence that the product has been destroyed or disposed of. Nested Nurseries will provide a refund for the value of the rattle once this has been provided.
2021/19279	Australia	Silicone Koala Rattle		Choking or Suffocation Hazard The product does not comply with the size and shape requirements of the mandatory safety standard for toys for children up to and including 36 months of age. The product may pose a choking or suffocation hazard for young children, which can lead to severe injury or death.	Consumers should immediately stop using the product. Consumers will be contacted to arrange return and refund of the product.
2021/19286	Australia	Barbell Ring Rattle and Bell Rattle Sold as a Part of the Wooden Montessori Rattle Interlock Beads Ring Set of 5 with Bag Natural Finish Bundle		Choking or Suffocation Hazard The products may not comply with the size and shape requirements of the mandatory safety standard for toys for children up to and including 36 months of age. The products may pose a choking or suffocation hazard for young children, which can lead to severe injury or death.	Consumers should immediately stop using the products. HappyGumnut will contact affected consumers. Consumers will need to provide evidence that the product has been disposed of. HappyGumnut will issue a full refund once this has been provided.

2021/19290	Australia	Silicone Koala Rattle		<p>Choking or Suffocation Hazard</p> <p>The product does not comply with the size and shape requirements of the mandatory safety standard for toys for children up to and including 36 months of age. The product may pose a choking or suffocation hazard for young children, which can lead to severe injury or death.</p>	Consumers should immediately stop using the product. Consumers will be contacted to arrange return and refund of the product.
2021/19314	Australia	Baby Wooden Rattle with Wood Rings and Hand Grip		<p>Choking or Suffocation Hazard</p> <p>The product may not comply with the size and shape requirements of the mandatory safety standard for toys for children up to and including 36 months of age. The product may pose a choking or suffocation hazard for young children, which can lead to severe injury or death.</p>	Consumers should immediately stop using the product. Consumers should dispose of or destroy the product and contact Sunny Jacks to arrange for a full refund.
2021/19315	Australia	Wooden Rattle Gift Set Containing a Wooden Rattle, Rattle Ring and Pacifier Chain		<p>Choking or Suffocation Hazard</p> <p>The rattles do not comply with the size and shape requirements of the mandatory safety standard for toys for children up to and including 36 months of age. The rattles may pose a choking or suffocation hazard for young children, which can lead to severe injury or death.</p>	Consumers should immediately stop using the rattles, dispose of them and contact Inspire Baby Wear to receive a refund for the value of the rattles. Consumers will be asked to provide evidence to Inspire Baby Wear that the rattles have been disposed of.
2021/19333	Australia	Hooded Towels with Sleeves or Arm Openings		<p>Fire Hazard</p> <p>The products do not comply with the fire hazard labelling requirements of the mandatory safety standard for nightwear for children. The products do not have the required fire hazard labelling. The products may pose a potential fire risk to the wearer.</p>	Consumers should stop using the product and contact Ozsale to request a refund. Consumers will be asked to provide evidence that the towel has been destroyed. If the towel has already been disposed of, consumers are asked to notify Ozsale so that the safe disposal of the products can be monitored.

The information contained in this newsletter is obtained from sources believed to be accurate to the best knowledge of STC and its subsidiaries. It is distributed without warranty, representation, inducement or license of any kinds and STC and its subsidiaries do not assume any legal responsibility for use or reliance upon the information.

2021/19335	Australia	<p>Bestway Aqua Bone Assorted Characters Pool Noodles</p>		<p>Missing of Warnings The product does not meet the labelling requirements of the mandatory safety standard for aquatic toys. The product's warning label is removable. If the warning sticker is removed, users may not be aware of important safety information about the use of the product (for example, only use under supervision). There is potentially an increased risk of drowning if the product is not used as intended.</p>	<p>Consumers should stop using the product and contact Bestway Australia to receive a refund. As not all batches of this product are affected, consumers will be asked to provide a photograph of both sides of the product's head to help identify whether their product is included in the recall. Consumers will be asked to dispose of or destroy affected products.</p>
2021/19349	Australia	<p>The Sun Print Romper</p> <p>Unisex Sizes 0-3 Months to 2 Years</p> <p>Style Number AOSD07</p>		<p>Choking Hazard The snap buttons have not been attached securely and may become loose or detach. If the snap buttons fall off, they may pose a choking hazard for young children.</p>	<p>Consumers should stop using the product, dispose of it safely and contact Aster & Oak to receive a replacement product or full refund. Consumers will be asked to provide evidence to Aster & Oak that the product has been disposed of.</p>
2021/19360	Australia	<p>HUGGIES Thick Baby Wipes, Fragrance Free - Limited Edition Tropical - The Little Mermaid and Toy Story's Rex Dinosaur Designs</p>		<p>Infections Hazard The affected batches are contaminated with Burkholderia cepacia bacteria. Burkholderia cepacia may cause serious infections or health complications in people with weakened immune systems.</p>	<p>Consumers should immediately stop using the product. Consumers should take a photo showing the affected batch codes, then dispose of or destroy the product and contact Kimberly-Clark Australia to arrange for a replacement, gift card or refund.</p>

The information contained in this newsletter is obtained from sources believed to be accurate to the best knowledge of STC and its subsidiaries. It is distributed without warranty, representation, inducement or license of any kinds and STC and its subsidiaries do not assume any legal responsibility for use or reliance upon the information.

2022/19370	Australia	Soft Plastic Tentacled Toys, with a Loop or Tether to Stretch or Bounce the Toy Using a Finger or to Hang the Toys		Risk of Strangulation The product has an elastic cord capable of extending at least 600mm in length. These types of products are banned under the permanent ban for yo-yo water balls and similar products. The cord can stretch and may wind around a child's neck, especially if swung around the head, and pose a risk of strangulation.	Consumers should immediately stop using the toy, and either cut off the loop/ tether, or return the toy to the place of purchase for a full refund.

Australian Product Safety System

The Australian product safety system is to maximize the safety of good by the cooperation of consumers, businesses and agencies. This policy sets out the principles adopted by the Australian Competition and Consumer Commission (ACCC) for prioritizing and addressing product safety risks.

Under the Australian Consumer Law, a responsible Minister can order a compulsory recall when there are hazards on the products. A voluntary recall could be conducted to remove the product from the marketplace when the suppliers become aware of unsafe or defective products.

The ACCC administers a national recalls system for recalls of specific and general consumer products, and publishes all product recalls on the website <https://www.productsafety.gov.au/recalls>.

STC (Hong Kong Standards and Testing Centre) is a not-for-profit, independent testing, inspection and certification organization. With a global network of ISO/IEC 17025 accredited testing laboratories and over 50 years of experience in consumer product testing, we can meet your conformity assessment needs with highly efficient and reliable service. Our testing scope and capabilities related to toys and children's products include but not limited to:

EU Requirements

- EN 71
- Phthalates (EC) no. 1907/2006
- Nickel Release (EC) no. 1907/2006
- Total Cadmium (EEC) no. 91/338
- Lead in Jewellery product (EC) no. 836/2012
- Azo-dye (EC) no. 1907/2006
- Bisphenol-A (2014/81/EU)
- DMF (Dimethylfumarate) (EU) no. 2011/135
- Flame retardants TCEP, TCPP, TDCP (2014/79/EU)
- Package Waste Directive (94/62/EC)

US & Canada Requirements

- ASTM F963
- CPSIA
- California Proposition 65
- 16 CFR 1501
- ASTM F2923 (Children's jewellery)
- ASTM F2999 (Adult's jewellery)
- US Toxic in Packaging Clearinghouse (TPCH)
- CCPSA - Toys Regulations (SOR/2011-17)

Japan Requirements

- Japan Toy Safety Standard (ST)
- Japan Food Sanitation Law (JFSL)

Australia Requirements

- AS/NZS 8124
- Consumer Protection Notice No. 6 of 2010 - DEHP
