

Recall Summary – European Toys

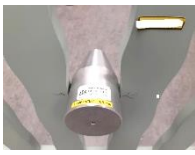

EU Safety Gate Alerts (Mar 2022)

Alert No.	Notifying Country	Product	Product Photo	Hazard/ Risk	Measures Adopted
A11/00035/22	Ireland	Folding Bath Stand (Country of Origin: China)		Injury Due to a faulty construction of the stand, a baby bath may fall through or tip over while in use, causing a baby falls to the ground and suffers from injury. The product does not comply with the requirements of the General Product Safety Directive.	Offer free safety strap to consumers to be added for a safer use to sold products
A11/00039/22	Luxembourg	Inflatable Activity Mat (Country of Origin: China)		Suffocation The plastic bag of the packaging is too thin. If a child plays with the packaging, the plastic could cover the mouth and nose, causing the child to suffocate. The product does not comply with the requirements of the Toy Safety Directive and the European standard EN 71-1.	Removal of this product listing by the online marketplace
A11/00041/22	Croatia	Soft Toy (Country of Origin: China)		Choking The fibrous stuffing material of the toy is easily accessible due to the weakness of certain seams. A child may put the stuffing material in the mouth and choke. The product does not comply with the requirements of the Toy Safety Directive and the European standard EN 71-1.	Ban on the marketing of the product and any accompanying measures
A11/00042/22	Croatia	Soft Toy (Country of Origin: China)		Choking The fibrous stuffing material of the toy is easily accessible due to the weakness of certain seams. A child may put the stuffing material in the mouth and choke. The product does not comply with the requirements of the Toy Safety Directive and the European standard EN 71-1.	Import rejected at border
A11/00044/22	Croatia	Soft Toy (Country of Origin: China)		Choking The fibrous stuffing material of the toy is easily accessible due to the weakness of certain seams. A child may put the stuffing material in the mouth and choke. The product does not comply with the requirements of the Toy Safety Directive and the European standard EN 71-1.	Import rejected at border

The information contained in this newsletter is obtained from sources believed to be accurate to the best knowledge of STC and its subsidiaries. It is distributed without warranty, representation, inducement or license of any kinds and STC and its subsidiaries do not assume any legal responsibility for use or reliance upon the information.

A11/00047/22	Ireland	Toy Bow Set (Country of Origin: China)		Damage to Sight The kinetic energy of the plastic balls shot from the bow is too high, which can lead to eye injury. The product does not comply with the requirements of the Toy Safety Directive and the European standard EN 71-1.	Removal of this product listing by the online marketplace
A11/00049/22	Lithuania	Electric Swing for Babies (Country of Origin: China)		Injury The swing is not stable enough. As a result, it can tip over and fall, causing injury to a child. The product does not comply with the requirements of the General Product Safety Directive and the European standard EN 1273.	Withdrawal of the product from the market
A11/00050/22	Poland	Toy Guns Set (Country of Origin: China)		Choking The foam projectiles are too small; a child playing with the toy may put the projectiles in the mouth and choke. The product does not comply with the requirements of the Toy Safety Directive and the European standard EN 71-1.	Withdrawal of the product from the market
A12/00352/22	Poland	Plastic Doll (Country of Origin: China)		Chemical The plastic material of the toy contains an excessive amount of bis (2-ethylhexyl) phthalate (DEHP) (measured value: up to 19.3% by weight). This phthalate may harm the health of children, causing possible damage to their reproductive system. The product does not comply with the REACH Regulation.	Withdrawal of the product from the market
A12/00353/22	France	Soft Toy (Country of Origin: China)		Choking, Suffocation Small parts (eyes) can easily detach. A small child may put them in the mouth and choke. The packaging, a plastic bag, is too thin and poses a suffocation risk. The product does not comply with the requirements of the Toy Safety Directive and the European standard EN 71-1.	Removal of this product listing by the online marketplace
A12/00354/22	The Netherlands	Wooden Toy (Country of Origin: China)		Choking Small parts (the legs of the stop sign and traffic light) can easily detach. A small child may put them in the mouth and choke on them. The product does not comply with the requirements of the Toy Safety Directive and the European standard EN 71-1.	Warn consumers of the risks

The information contained in this newsletter is obtained from sources believed to be accurate to the best knowledge of STC and its subsidiaries. It is distributed without warranty, representation, inducement or license of any kinds and STC and its subsidiaries do not assume any legal responsibility for use or reliance upon the information.

A12/00359/22	The Netherlands	Cot (Country of Origin: The Netherlands)		Entrapment, Injury, Strangulation, Suffocation The distance between the side slats is inadequate. A child may get trapped in between and suffer from injury or strangulation. The product does not comply with the European standard EN 716.	Withdrawal of the product from the market
A12/00362/22	Latvia	Modeling Clay (Country of Origin: China)		Chemical The migration of boron from the toy clay is too high (measured value: up to 1785 mg/kg). Ingestion or contact with an excessive quantity of boron may damage the reproductive system of children. The product does not comply with the requirements of the Toy Safety Directive and the European standard EN 71-3.	Removal of this product listing by the online marketplace
A12/00367/22	France	Soft Toy (Country of Origin: Unknown)		Choking Small parts (metal fastener) may easily detach from the product. Furthermore, the seam on the front right foot easily breaks, allowing access to the stuffing material. A small child may put them in the mouth and choke. The product does not comply with the requirements of the Toy Safety Directive and the European standard EN 71-1.	Removal of this product listing by the online marketplace
A12/00371/22	Luxembourg	Plastic Bath Toy (Country of Origin: China)		Chemical, Choking Small parts (the cap on the tube) can easily detach from the toy. A small child may put them in the mouth and choke. The plastic material of the product contains an excessive amount of bis (2-ethylhexyl) phthalate (DEHP) and dibutyl phthalate (DBP) (measured value: 0.58% and 10% by weight respectively). These phthalates may harm the health of children, causing possible damage to their reproductive system. The product does not comply with the REACH Regulation.	Removal of this product listing by the online marketplace
A12/00383/22	Poland	Plastic Doll (Country of Origin: China)		Chemical The plastic material of the toy contains bis (2-ethylhexyl) phthalate (DEHP) (measured value: up to 13.5% by weight). This phthalate may harm the health of children, causing possible damage to the reproductive system. The product does not comply with the REACH Regulation.	Withdrawal of the product from the market

The information contained in this newsletter is obtained from sources believed to be accurate to the best knowledge of STC and its subsidiaries. It is distributed without warranty, representation, inducement or license of any kinds and STC and its subsidiaries do not assume any legal responsibility for use or reliance upon the information.

A12/00387/22	Poland	Rattle Toy (Country of Origin: Czechia)		Choking Some parts of the toy protrude. If a child puts the toy in the mouth, the protruding parts could obstruct the airways and cause choking. The product does not comply with the requirements of the Toy Safety Directive and the European standard EN-71-1.	Withdrawal of the product from the market
A12/00389/22	Poland	Expandable Toy (Country of Origin: China)		Choking, Injury The duck figurine can be put into the mouth and swallowed by children. As this figurine expands, it can cause fatal occlusion of the respiratory tract or intestinal blockage of the children. The product does not comply with the requirements of the Toy Safety Directive and the European standard EN 71-1.	Withdrawal of the product from the market
A12/00390/22	France	Fancy Dress (Country of Origin: China)		Strangulation, Suffocation The product has long non-detachable functional cords in the neck area, in which a child can become trapped during various activities, leading to strangulation. Moreover, the plastic bag is too thin, which could lead to suffocation if a child play with it. The product does not comply with the requirements of the Toy Safety Directive and the European standard EN 71-1.	Removal of this product listing by the online marketplace
A12/00391/22	Sweden	Inflatable Swimming Pool (Country of Origin: China)		Chemical The plastic material of the product contains an excessive amount of bis (2-ethylhexyl) phthalate (DEHP) (measured value: up to 22% by weight). This phthalate may harm the health of children, causing possible damage to their reproductive system. The product does not comply with the REACH Regulation.	Removal of this product listing by the online marketplace

A12/00402/22	Germany	Plastic Doll Set (Country of Origin: China)		Chemical The plastic material of the doll contains an excessive amount of bis (2-ethylhexyl) phthalate (DEHP) and dibutyl phthalate (DBP) (measured value: up to 7.45% and 5.95% by weight respectively). These phthalates may harm the health of children, causing possible damage to their reproductive system. The product does not comply with the REACH Regulation.	Ban on the marketing of the product and any accompanying measures
A12/00406/22	Italy	Plastic Doll (Country of Origin: China)		Chemical The plastic material of the product contains an excessive amount of diisononyl phthalate (DINP), dibutyl phthalate (DBP) and bis (2-ethylhexyl) phthalate (DEHP) (total measured value: up to 7.5% by weight). These phthalates may harm the health of children, causing possible damage to their reproductive system and liver. The product does not comply with the REACH Regulation.	Import rejected at border
A12/00427/22	The Netherlands	Soother Holder (Country of Origin: Germany)		Choking The soother holder breaks easily and generates small parts. A small child could put them in the mouth and choke. The product does not comply with the requirements of the General Product Safety Directive and the European standard EN 12586.	Withdrawal of the product from the market
A12/00428/22	Poland	Rattle Toy (Country of Origin: China)		Choking The handle of the rattle is too long and if a child puts it in the mouth it can block the airways and cause choking. The product does not comply with the requirements of the Toy Safety Directive and the European standard EN 71-1.	Withdrawal of the product from the market
A12/00429/22	Poland	Soft Toy (Country of Origin: China)		Choking Small parts (eye, zipper, sequins) may easily detach from the toy. The fibrous stuffing material of the toy is easily accessible. A child may put small parts and the stuffing in the mouth and choke on them. The product does not comply with the requirements of the Toy Safety Directive and the European standard EN 71-1.	Withdrawal of the product from the market

The information contained in this newsletter is obtained from sources believed to be accurate to the best knowledge of STC and its subsidiaries. It is distributed without warranty, representation, inducement or license of any kinds and STC and its subsidiaries do not assume any legal responsibility for use or reliance upon the information.

A12/00438/22	The Netherlands	Soother Holder (Country of Origin: The Netherlands)		Choking The product can easily break releasing small parts. A small child may put them in the mouth and choke. The product does not comply with the requirements of the General Product Safety Directive.	Withdrawal of the product from the market
A12/00441/22	Ireland	Toy Car (Country of Origin: China)		Suffocation The plastic bag is too thin, which could lead to suffocation if a child play with it. The product does not comply with the requirements of the Toy Safety Directive and the European standard EN 71-1.	Removal of this product listing by the online marketplace
A12/00443/22	Ireland	Plastic Toy (Country of Origin: China)		Suffocation The plastic of the packaging is too thin. If a child play with it, the plastic can cover the mouth and nose, causing the child to suffocate. The product does not comply with the requirements of the Toy Safety Directive and the European standard EN 71-1.	Removal of this product listing by the online marketplace
A12/00444/22	Ireland	Toy Set (Country of Origin: China)		Choking The product has small detachable parts (balls) which a small child can easily access, put in the mouth and choke. The product does not comply with the requirements of the Toy Safety Directive and the European standard EN 71-1.	Stop of sales
A12/00449/22	France	Finger Paint Set (Country of Origin: China)		Chemical There is an excessive migration for aluminium and copper (measured value: up to 2612 mg/kg and 296 mg/kg respectively). Aluminium is toxic for children if ingested. Exposure to excessive levels of copper can induce nausea, vomiting and/or abdominal pain and kidney and liver damage. The product does not comply with the requirements of the Toy Safety Directive and the European standards EN 71-1, 71-3 and 71-7.	Removal of this product listing by the online marketplace

The information contained in this newsletter is obtained from sources believed to be accurate to the best knowledge of STC and its subsidiaries. It is distributed without warranty, representation, inducement or license of any kinds and STC and its subsidiaries do not assume any legal responsibility for use or reliance upon the information.

A12/00453/22	Poland	Plastic Toy (Country of Origin: China)		Choking, Damage to hearing The sound pressure level is too high (measured value: up to 112.5 dB). This could lead to permanent or partial hearing loss, when the product is used. Small parts (squeaking elements) may easily detach from the toy. A small child may put them or the stuffing in the mouth and choke. The product does not comply with the requirements of the Toy Safety Directive and the European standard EN 71-1.	Withdrawal of the product from the market
A12/00454/22	Luxembourg	Soft Toy (Country of Origin: China)		Choking The product has small parts (eye and nose) that can easily detach. A small child may put them in the mouth and choke. The product does not comply with the requirements of the Toy Safety Directive and the European standard EN 71-1.	Ban on the marketing of the product and any accompanying measures
A12/00468/22	Luxembourg	Soft Toy (Country of Origin: China)		Choking Small parts can easily detach (eyes). A small child may put them in the mouth and choke. The product does not comply with the requirements of the Toy Safety Directive and the European standard EN71-1.	Ban on the marketing of the product and any accompanying measures
A12/00477/22	Ireland	Toy Gun (Country of Origin: China)		Chemical, Choking, Environment The plastic material of the product contains an excessive amount of organic tin (TBT) (measured value: 23 mg/kg). TBT is potentially persistent, bioaccumulative and toxic for the environment. The product also contains an excessive amount of bis (2-ethylhexyl) phthalate (DEHP), diisobutyl phthalate (DIBP) and dibutyl phthalate (DBP) (measured value: up to 1.3%, 0.13% and 7.7% by weight respectively). These phthalates may harm the health of children, possibly causing damage to their reproductive system. In addition, small parts can easily detach (suction cups). A child may put them in the mouth and choke. The product does not comply with the REACH regulation and the European standards EN 71-1 and EN 71-3.	Removal of this product listing by the online marketplace

The information contained in this newsletter is obtained from sources believed to be accurate to the best knowledge of STC and its subsidiaries. It is distributed without warranty, representation, inducement or license of any kinds and STC and its subsidiaries do not assume any legal responsibility for use or reliance upon the information.

A12/00478/22	Ireland	Inflatable Toy Set (Country of Origin: Unknown)		Choking, Suffocation Small parts can easily detach (stoppers). Consequently, a child may put them in the mouth and choke. In addition, the plastic of the packaging is too thin. If a child play with it, the plastic can cover the mouth and nose, causing the child to suffocate. The product does not comply with the requirements of the Toy Safety Directive and the European standard EN 71-1.	Removal of this product listing by the online marketplace
INFO/00019/22	Ireland	Toy Water Pistol (Country of Origin: China)		Warning Failure The toy is not accompanied by the required information from the economic operator and the warning texts are too small to read. Consequently, consumers are not informed about the safe use of the product. The product does not comply with the requirements of the Toy Safety Directive and the European standard EN 71-1.	Removal of this product listing by the online marketplace

Safety Gate: the EU rapid alert system for dangerous non-food products

“Safety Gate”, the EU rapid alert system (formerly known as ‘RAPEX’), enables the rapid exchange of information between 31 European countries and the European Commission on non- food dangerous products found on the market posing a risk to health and safety of consumers.

A weekly overview of the alerts on those products is published in English for free on <https://ec.europa.eu/safety-gate-alerts/screen/webReport#weeklyReports>. The measures taken in the notifying country in order to restrict their marketing or use can be ordered by national authorities (“compulsory measures”) or be taken directly by producers and distributors (“voluntary measures”).

The official contact points of the Member and EFTA-EEA States provide the information published in these weekly overviews. Under the terms of Annex II.10 of the General Product Safety Directive (2001/95/EC) responsibility for the information provided lies with the notifying party. The Commission does not take any responsibility for the accuracy of the information provided.

Recall Summary – US Toys / Children’s Products

CPSA Recall List (Mar 2022)

Recall No.	Notifying Country	Product	Product Photo	Hazard/ Risk	Remedy
22-090	USA	Bee Happy 12 Days of Craft Advent Calendars (Country of Origin: China)		Poisoning Hazard Surface paint on the brown bell found in “Day 10” of the advent calendar contains levels of lead that exceed the federal lead paint ban, posing a risk of lead poisoning.	Consumers should immediately take the recalled advent calendars away from children and contact ALDI for a full refund
22-095	USA	Be the Band Music Sets (Country of Origin: China)		Choking and Suffocation Hazards The maracas can break or become unscrewed and release the metal beads inside, posing choking and suffocation hazards to young children.	Consumers should immediately stop using the recalled Be the Band Music Sets and contact Crate and Barrel for instructions on how to receive a refund in the form of a \$20 store credit for the maracas. Crate and Barrel is contacting all known purchasers directly.
22-100	USA	Sirrus, Sirrus X and Sirrus Sport Bicycles with Alloy Cranks (Country of Origin: Taiwan)		Fall and Injury Hazards The crank arm can disengage and cause the bicycle’s rider to lose control, posing fall and injury hazards.	Consumers should stop using the recalled bicycles immediately and contact their nearest authorized Specialized retailer for a free repair. Specialized Bicycle Components is contacting all known purchasers directly.
22-101	USA	DigitDots 3mm and 5mm Magnetic Balls (Country of Origin: China)		Ingestion Hazard When two or more high-powered magnets are swallowed, the ingested magnets can attract to each other, or to another metal object, and become lodged in the digestive system. This can result in perforations, twisting and/or blockage of the intestines, infection, blood poisoning and death.	Consumers should stop using the recalled magnets immediately, take them away from children and contact HD Premier to receive a pre-paid label to return the recalled products. Upon receipt of the products, consumers will receive a refund.

The information contained in this newsletter is obtained from sources believed to be accurate to the best knowledge of STC and its subsidiaries. It is distributed without warranty, representation, inducement or license of any kinds and STC and its subsidiaries do not assume any legal responsibility for use or reliance upon the information.

22-103	USA	<p>Toys Wooden Activity Walker – Walk ‘n’ Learn</p> <p>(Country of Origin: China)</p>		<p>Choking Hazard</p> <p>The wheels and wheel attachment hardware can detach from the walker in small pieces, posing a choking hazard to young children.</p>	<p>Consumers should immediately take the recalled toddler walkers away from young children and contact Battat for a free repair kit with replacement wheels, attachment hardware and installation instructions. Known purchasers are being contacted directly.</p>
22-107	USA	<p>Ninebot Children’s Bicycle Helmets</p> <p>(Country of Origin: China)</p>		<p>Risk of Head Injury</p> <p>The bicycle helmets do not comply with the positional stability and retention system requirements of the U.S. CPSC federal safety standard for bicycle helmets. The helmets can fail to protect in the event of a crash, posing a risk of head injury.</p>	<p>Consumers should immediately stop using the recalled helmets and return them to Segway for a full refund. Segway is contacting all known purchasers to facilitate returns using prepaid postage.</p>
22-735	USA	<p>Commencal Ramones 14-Inch Bicycles</p> <p>(Country of Origin: Thailand)</p>		<p>Crash Hazard</p> <p>Federal regulations require bicycles with seat heights that measure at or below 25 inches to be equipped with foot brakes. These bicycles are equipped only with hand brakes and can pose a crash hazard or a risk of injury to young children who might not be able to stop the bicycles using handbrakes only.</p>	<p>Consumers should immediately take the recalled bikes away from children, stop using them, and contact the firm for a free repair kit. Commencal Corp. is contacting all purchasers directly by email.</p>
22-736	USA	<p>tonies® Blocks</p> <p>(Country of Origin: Germany)</p>		<p>Ingestion Hazard</p> <p>When two or more high-powered magnets are swallowed, the ingested magnets can attract to each other, or to another metal object, and become lodged in the digestive system. This can result in perforations, twisting and/or blockage of the intestines, infection, blood poisoning and death.</p>	<p>Consumers should stop using the recalled blocks with magnets immediately, take them away from children, and contact tonies for instructions on returning the recalled blocks for a full refund.</p>

CPSC

The United States Consumer Product Safety Commission (CPSC) is an independent agency of the United States government. To provide better service in alerting the American people to unsafe, hazardous or defective products, a “one stop shop” for U.S. Government recalls, www.recalls.gov, has been created. Publics can report unsafe products to CPSC by using the platform.

The recall list is divided into seven categories: Consumer Products, Motor Vehicles, Boats, Food, Medicine, Cosmetics and Environmental Products. Generally, the recall was conducted, voluntarily by the company, under CPSC’s Fast Track Recall program. Fast Track recalls are initiated by firms who commit to work with CPSC to quickly announce the recall and remedy to protect consumers.

The information contained in this newsletter is obtained from sources believed to be accurate to the best knowledge of STC and its subsidiaries. It is distributed without warranty, representation, inducement or license of any kinds and STC and its subsidiaries do not assume any legal responsibility for use or reliance upon the information.

Recall Summary – Australia Toys / Children’s Products

ACCC Recall List (Mar 2022)

PRA No.	Notifying Country	Product	Product Photo	Hazard/ Risk	Remedy
2022/19371	Australia	Kangaroo Soft Toy with Cork Hat Accessory 7 Inches Tall SKU HS4617C-7”		Choking or Suffocation Hazard The product does not comply with the mandatory safety standard for toys for children up to and including 36 months of age. The corks are small parts that may pose a choking or suffocation hazard for young children.	Consumers should stop using the product immediately. Consumers should return the product to the place of purchase for a full refund, or completely remove the corks for safe use.
2022/19373	Australia	Wooden 3 Ball Boomerang Rattle Natural Finish with Rainbow Balls		Choking or Suffocation Hazard The rattle does not comply with the size and shape requirements of the mandatory safety standard for toys for children up to and including 36 months of age. The rattle or small parts may pose a choking or suffocation hazard for young children, which can lead to severe injury or death.	Consumers should stop using the product immediately. HappyGumnut will contact affected consumers. Consumers will need to provide evidence that the product has been disposed of. HappyGumnut will issue a full refund once this has been provided.
2022/19374	Australia	Montessori Wooden 3 Rings Baby Infant Rattle Natural Finish		Choking or Suffocation Hazard The rattle does not comply with the size and shape requirements of the mandatory safety standard for toys for children up to and including 36 months of age. The rattle may pose a choking or suffocation hazard for young children, which can lead to severe injury or death.	Consumers should stop using the product immediately. HappyGumnut will contact affected consumers. Consumers will need to provide evidence that the product has been disposed of. HappyGumnut will issue a full refund once this has been provided.

The information contained in this newsletter is obtained from sources believed to be accurate to the best knowledge of STC and its subsidiaries. It is distributed without warranty, representation, inducement or license of any kinds and STC and its subsidiaries do not assume any legal responsibility for use or reliance upon the information.

2022/19384	Australia	<p>Organic Wooden Baby Rattle</p> <p>Wooden Maraca</p> <p>Baby Rattle Ring Wooden</p>		<p>Choking or Suffocation Hazard The rattles do not comply with the size and shape requirements of the mandatory safety standard for toys for children up to and including 36 months of age. The rattles may pose a choking or suffocation hazard for young children, which can lead to severe injury or death.</p>	<p>Consumers should stop using the products immediately, dispose of the product and contact Two Little Seedlings for a full refund.</p>
2022/19387	Australia	<p>Wooden Crochet 3-Piece Set</p>		<p>Choking or Suffocation Hazard The rattles do not comply with the size and shape requirements of the mandatory safety standard for toys for children up to and including 36 months of age. The rattles may pose a choking or suffocation hazard for young children, which can lead to severe injury or death.</p>	<p>Consumers should immediately stop using the rattles, dispose of them and contact Trapz and Co to receive a refund for the value of the rattles. Consumers will be asked to provide evidence to Trapz and Co that the rattles have been disposed of.</p>
2022/19418	Australia	<p>Smiggle Fun Character Slapband Watch</p>		<p>Choking Hazard The product's button battery compartment is not adequately secured, and the button battery is accessible. If young children gain access to the button batteries and ingest them, they may suffer severe internal burn injury, which can cause serious illness or death. Button batteries also pose a choking hazard to young children.</p>	<p>Consumers should immediately stop using the product and store it in a safe place out of reach of children.</p>
2022/19422	Australia	<p>Squeeze Bead Plush Animal Toy</p> <p>A Sensory Plush Toy with Water Expanding Polymer Beads inside the Inner Casing</p> <p>Product code: 15058</p>		<p>Gastrointestinal Blockage Hazard The toy's inner bubble casing may burst and release water-absorbing polymer balls. When exposed to liquid, the balls expand. If swallowed, the polymer beads can become large enough to create a gastrointestinal blockage, causing vomiting, severe discomfort and dehydration and may need to be surgically removed.</p>	<p>Consumers should stop using the toy and keep it out of reach of children. Any consumer who has purchased the products from Australia Post or received the products as a gift should return the product to an Australia Post outlet for a full refund.</p>

Australian Product Safety System

The Australian product safety system is to maximize the safety of goods by the cooperation of consumers, businesses and agencies. This policy sets out the principles adopted by the Australian Competition and Consumer Commission (ACCC) for prioritizing and addressing product safety risks.

Under the Australian Consumer Law, a responsible Minister can order a compulsory recall when there are hazards on the products. A voluntary recall could be conducted to remove the product from the marketplace when the suppliers become aware of unsafe or defective products.

The ACCC administers a national recalls system for recalls of specific and general consumer products, and publishes all product recalls on the website <https://www.productsafety.gov.au/recalls>.

STC (Hong Kong Standards and Testing Centre) is a not-for-profit, independent testing, inspection and certification organization. With a global network of ISO/IEC 17025 accredited testing laboratories and nearly 60 years of experience in consumer product testing, we can meet your conformity assessment needs with highly efficient and reliable service. Our testing scope and capabilities related to toys and children's products include but not limited to:

EU Requirements

- EN 71
- Phthalates (EC) no. 1907/2006
- Nickel Release (EC) no. 1907/2006
- Total Cadmium (EEC) no. 91/338
- Lead in Jewellery product (EC) no. 836/2012
- Azo-dye (EC) no. 1907/2006
- Bisphenol-A (2014/81/EU)
- DMF (Dimethylfumarate) (EU) no. 2011/135
- Flame retardants TCEP, TCPP, TDCP (2014/79/EU)
- Package Waste Directive (94/62/EC)

US & Canada Requirements

- ASTM F963
- CPSIA
- California Proposition 65
- 16 CFR 1501
- ASTM F2923 (Children's jewellery)
- ASTM F2999 (Adult's jewellery)
- US Toxic in Packaging Clearinghouse (TPCH)
- CCPSA - Toys Regulations (SOR/2011-17)

Japan Requirements

- Japan Toy Safety Standard (ST)
- Japan Food Sanitation Law (JFSL)

Australia Requirements

- AS/NZS 8124
- Consumer Protection Notice No. 6 of 2010 - DEHP
