

Recall Summary – European Toys

EU Safety Gate Alerts (Apr 2022)

Alert No.	Notifying Country	Product	Product Photo	Hazard/ Risk	Measures Adopted
A11/00053/22	Bulgaria	Reclined Cradle (Country of Origin: China)		Suffocation The plastic of the packaging is too thin. If a child plays with it, the plastic can cover the mouth and nose causing the child to suffocate. The product does not comply with the requirements of the General Product Safety Directive and the European standard EN 12790.	Marking the product with appropriate warnings on the risks
A11/00054/22	Bulgaria	Baby Swing (Country of Origin: The Netherlands)		Injury The product is not accompanied by all required marking and instructions for safe use in the national language. Consumers therefore do not have all necessary information about appropriate and safe use of the product and children may be injured. The product does not comply with the requirements of the General Product Safety Directive and the European standard EN 16232.	Marking the product with appropriate warnings on the risks
A11/00060/22	Croatia	Baby Swing (Country of Origin: China)		Injury The locking mechanism may disengage too easily. As a result, a child can fall from the baby swing and suffer injury. The product does not comply with the requirements of the General Product Safety Directive and the European standard EN 16232.	Ban on the marketing of the product and any accompanying measures

A12/00488/22	Finland	Hobby Horse (Country of Origin: China)		Choking Small parts can easily detach (eyes). Consequently, a child may put them in the mouth and choke. The product does not comply with the requirements of the Toy Safety Directive and the European standard EN 71-1.	Import rejected at border
A12/00492/22	Poland	Toy Musical Instrument Set (Country of Origin: China)		Choking, Damage to Hearing The sound pressure level is too high (measured value: up to 119.5 dB). This could lead to permanent or partial hearing loss, when the product is used. The toy maracas can easily break into small parts. A child may put them in the mouth and choke. The product does not comply with the requirements of the Toy Safety Directive and the European standard EN 71-1.	Withdrawal of the product from the market
A12/00493/22	Poland	Toy Trumpet (Country of Origin: China)		Choking, Damage to Hearing The sound pressure level is too high (measured value: up to 120.4 dB). This could lead to permanent or partial hearing loss, when the product is used. Moreover, small plastic parts may easily detach from the toy. A child may put them in the mouth and choke. The product does not comply with the requirements of the Toy Safety Directive and the European standard EN 71-1.	Warning consumers of the risks
A12/00494/22	Poland	Plastic Toy (Country of Origin: China)		Chemical The product contains an excessive amount of bis (2-ethylhexyl) phthalate (DEHP) (measured value: up to 10% by weight). This phthalate may harm the health of children, causing possible damage to the reproductive system. The product does not comply with the REACH Regulation.	Warning consumers of the risks

A12/00498/22	Bulgaria	Baby Swing (Country of Origin: China)		Injury The product has completely bounded openings on each side within the protected volume. As a result, a baby's fingers can become trapped in the openings and cause injury. The product does not comply with the requirements of the General Product Safety Directive and the European standard EN 16232.	Withdrawal of the product from the market
A12/00520/22	Poland	Rattle Toy (Country of Origin: Czechia)		Choking The toy has protruding parts. A child could put it in the mouth, which could block the airways and cause choking. The product does not comply with the requirements of the Toy Safety Directive and the European standard EN 71-1.	Withdrawal of the product from the market
A12/00522/22	Bulgaria	Reclined Cradle (Country of Origin: United States)		Injury The product is not accompanied by all required marking and instructions for safe use in the national language. Consumers therefore do not have the necessary information about the appropriate and safe use of the product and children may be injured. The product does not comply with the requirements of the General Product Safety Directive and the European standard EN 12790.	Withdrawal of the product from the market

A12/00523/22	Bulgaria	Baby Swing (Country of Origin: China)		Damage to Hearing, Injury The restraint system of the product does not have shoulder straps. Furthermore, the crotch strap of the waist belt may easily break. As a result, a child can fall from the baby swing and suffer injury. Moreover, the sound pressure level is too high (measured value: up to 81.4 dB). This could lead to permanent or partial hearing loss, when the product is used. The product does not comply with the requirements of the General Product Safety Directive and the European standard EN 16232.	Withdrawal of the product from the market
A12/00524/22	Bulgaria	Reclined Cradle (Country of Origin: China)		Injury The locking mechanism on the product does not engage automatically. Consequently, the product may fold and lose stability, causing the baby to fall and hit its head and suffer injury. The product does not comply with the requirements of the General Product Safety Directive and the European standard EN 12790.	Withdrawal of the product from the market
A12/00526/22	Bulgaria	Baby Swing (Country of Origin: China)		Injury, Suffocation The angle between the backrest and the horizontal surface is too small. Consequently, with the backrest in the most reclined position, the swing may tilt close to the horizontal surface, causing the baby to hit its head. Furthermore, the plastic of the packaging is too thin. If a child plays with it, the plastic can cover the mouth and nose, causing the child to suffocate. The product does not comply with the requirements of the General Product Safety Directive and the European standard EN 16232.	Withdrawal of the product from the market

A12/00527/22	Finland	Plush Toy (Country of Origin: China)		Choking Small parts (eyes) can easily detach from the toy. A small child may put them in the mouth and choke. The product does not comply with the requirements of the Toy Safety Directive and the European standard EN 71-1.	Import rejected at border
A12/00529/22	Iceland	Reclined Cradle (Country of Origin: New Zealand)		Injury, Strangulation The restraint system of the product is not adjustable to the size of the baby. As a result, the baby can slide down and remain trapped with the strap around the neck suffering strangulation. Furthermore, since the angle between the backrest and the horizontal surface is too small, if the baby kicks the legs vigorously, the cradle can bounce too much and the head of the baby may hit the floor. The product does not comply with the requirements of the General Product Safety Directive and the European standard EN 12790.	Recall of the product from end users
A12/00535/22	Poland	Toy Mobile Phone (Country of Origin: China)		Damage to Hearing The sound level produced by the toy is too high (measured value: up to 71.6 dB), which could lead to permanent or partial hearing loss. The product does not comply with the requirements of the Toy Safety Directive and the European standard EN 71-1.	Warning consumers of the risks
A12/00544/22	Finland	Bath Toy (Country of Origin: China)		Choking Small parts (propellers) may easily detach from the toy. A child may put them in the mouth and choke. The product does not comply with the requirements of the Toy Safety Directive and the European standard EN 71-1.	Import rejected at border

A12/00559/22	Poland	Plastic Ball (Country of Origin: China)		Chemical The toy contains an excessive amount of diisobutyl phthalate (DIBP) (measured value: up to 18.5%). This phthalate may harm the health of children, causing possible damage to their reproductive system. The product does not comply with the REACH Regulation.	Withdrawal of the product from the market
A12/00560/22	Poland	Plastic Doll (Country of Origin: China)		Chemical The toy contains bis (2-ethylhexyl) phthalate (DEHP) (measured value: up to 28.6% by weight). This phthalate may harm the health of children, causing possible damage to their reproductive system. The product does not comply with the REACH Regulation.	Withdrawal of the product from the market
A12/00576/22	Poland	Toy Slime (Country of Origin: China)		Chemical The migration of boron from the toy is too high (measured value: up to 1,177 mg/kg). Ingestion or contact with an excessive quantity of boron may harm the health of children by damaging their reproductive system. The product does not comply with the requirements of the Toy Safety Directive and the European standard EN 71-3.	Withdrawal of the product from the market
A12/00577/22	Poland	Toy Slime (Country of Origin: China)		Chemical The migration of boron from the toy is too high (measured value: up to 1,133 mg/kg). Ingestion or contact with an excessive quantity of boron may harm the health of children by damaging their reproductive system. The product does not comply with the requirements of the Toy Safety Directive and the European standard EN 71-3.	Warning consumers of the risks

A12/00581/22	Ireland	Children's Watch (Country of Origin: China)		Chemical, Choking The button battery compartment of the product may not be adequately secured and the button battery may be accessible by children. A child may put it in the mouth, which could cause damage to the child's gastrointestinal tract or a risk of choking. The product does not comply with the requirements of the Toy Safety Directive.	Recall of the product from end users
A12/00583/22	France	Toy Torch with Sweets (Country of Origin: China)		Burns, Chemical, Choking The toy can easily break, leaving the button batteries accessible. A child could put them in the mouth, which could cause damage to the child's gastrointestinal tract or choking. The product does not comply with the requirements of the Toy Safety Directive and the European standard EN 62115.	Recall of the product from end users
A12/00586/22	Poland	Toy Slime (Country of Origin: China)		Chemical The migration of boron from the toy is too high (measured value: up to 1,455 mg/kg). Ingestion or contact with an excessive quantity of boron may harm the health of children by damaging their reproductive system. The product does not comply with the requirements of the Toy Safety Directive and the European standard EN 71-3.	Destruction of the product

A12/00587/22	Poland	Toy Slime (Country of Origin: China)		Chemical The migration of boron from the toy is too high (measured value: up to 1,099 mg/kg). Ingestion or contact with an excessive quantity of boron may harm the health of children by damaging their reproductive system. The product does not comply with the requirements of the Toy Safety Directive and the European standard EN 71-3.	Warning consumers of the risks
A12/00594/22	Austria	Referee Toy Set (Country of Origin: Austria)		Damage to Hearing The sound pressure level is too high (measured value: up to 121.7 dB). This could lead to permanent or partial hearing loss when the product is used. The product does not comply with the requirements of the Toy Safety Directive and the European standard EN 71-1.	Recall of the product from end users
A12/00634/22	France	Soft Toy (Country of Origin: Philippines)		Choking, Strangulation The toy has a small part (metal ring) which can easily detach. A child could put it in the mouth and choke. Furthermore, there is a long cord attached to the toy, which may get wrapped around the child's neck and lead to strangulation. The product does not comply with the requirements of the Toy Safety Directive and the European standard EN 71-1.	Removal of this product listing by the online marketplace
A12/00639/22	Luxembourg	Key Ring with a Plush Toy (Country of Origin: China)		Choking Small parts can easily detach (key ring and right arm of the plush teddy bear). Consequently, a child may put them in the mouth and choke. The product does not comply with the requirements of the Toy Safety Directive and the European standard EN 71-1.	Withdrawal of the product from the market

A12/00645/22	Poland	Toy Slime (Country of Origin: China)		Chemical The migration of boron from the toy is too high (measured value: up to 1,225 mg/kg). Ingestion or contact with an excessive quantity of boron may harm the health of children by damaging their reproductive system. Moreover, the migration of cadmium from the toy is too high (measured value: up to 1.07 mg/kg) and lead (measured value: up to 0.88 mg/kg). Cadmium and lead are harmful to human health because they accumulate in the body, can damage the kidneys and bones, and may cause cancer. The product does not comply with the requirements of the Toy Safety Directive and the European standard EN 71-3.	Destruction of the product
A12/00646/22	Poland	Toy Slime (Country of Origin: China)		Chemical The migration of boron from the toy is too high (measured value: up to 1,278 mg/kg). Ingestion or contact with an excessive quantity of boron may harm the health of children by damaging their reproductive system. The product does not comply with the requirements of the Toy Safety Directive and the European standard EN 71-3.	Warning consumers of the risks

A12/00647/22	Poland	Toy Slime (Country of Origin: China)		Chemical The migration of boron from the toy is too high (measured value: up to 1,440 mg/kg). Ingestion or contact with an excessive quantity of boron may harm the health of children by damaging their reproductive system. Moreover, the migration of cadmium from the toy is too high (measured value: up to 3.16 mg/kg). Cadmium is harmful to human health because it accumulates in the body, can damage the kidneys and bones, and it may cause cancer. The product does not comply with the requirements of the Toy Safety Directive and the European standard EN 71-3.	Warning consumers of the risks
A12/00648/22	Poland	Toy Slime (Country of Origin: China)		Chemical The migration of boron from the toy is too high (measure value: up to 1,101 mg/kg). Ingestion or contact with an excessive quantity of boron may harm the health of children by damaging their reproductive system. The product does not comply with the requirements of the Toy Safety Directive and the European standard EN 71-3.	Withdrawal of the product from the market
A12/00649/22	Poland	Toy Slime (Country of Origin: China)		Chemical The migration of boron from the toy is too high (measured value: up to 1,239 mg/kg). Ingestion or contact with an excessive quantity of boron may harm the health of children by damaging their reproductive system. The product does not comply with the requirements of the Toy Safety Directive and the European standard EN 71-3.	Destruction of the product

A12/00650/22	Finland	Puffer Toy (Country of Origin: China)		Choking The product can easily release small parts (eyes). A child may put them in the mouth and choke. The product does not comply with the requirements of the Toy Safety Directive and the European standard EN 71-1.	Withdrawal of the product from the market
A12/00652/22	Austria	Toy Flute (Country of Origin: Hong Kong)		Choking, Damage to Hearing The mouthpiece of the flute detaches easily, generating a small part. A child may put it in the mouth and choke. The sound pressure level is too high (measured value: up to 117 dB) which could lead to permanent or temporary hearing loss. The product does not comply with the requirements of the Toy Safety Directive and the European standard EN 71-1.	Destruction of the product
A12/00653/22	Austria	Toy Clarinet (Country of Origin: Italy)		Choking The keys of the instrument detach too easily, resulting in small parts. A child playing with the instrument could put them in the mouth and choke. The product does not comply with the requirements of the Toy Safety Directive and the European standard EN 71-1.	Withdrawal of the product from the market

A12/00654/22	Belgium	Double Tip Felt Pens (Country of Origin: China)		Chemical The felt pens' inks contain a mixture of the preservatives methylchloroisothiazolinone and methylisothiazolinone (MCI/MI, measured values: up to 5.2 mg/kg and 7.3 mg/kg, respectively). Dermal contact with MCI and MI containing products can provoke allergic contact dermatitis to sensitive persons. The product does not comply with the requirements of the Toy Safety Directive and the European standard EN 71-10 and EN 71-11.	Recall of the product from end users
INFO/00088/2	Croatia	Baby Swing (Country of Origin: China)		Injury The lateral swing angle is too large, and there is no protection from a restraining system. The baby can therefore fall from the swing and be injured. The product does not comply with the requirements of the General Product Safety Directive and the European standard EN 16232.	Withdrawal of the product from the market

Safety Gate: the EU rapid alert system for dangerous non-food products

“Safety Gate”, the EU rapid alert system (formerly known as ‘RAPEX’), enables the rapid exchange of information between **31 European countries** and the European Commission on non- food dangerous products found on the market posing a risk to health and safety of consumers.

A weekly overview of the alerts on those products is published in English for free on <https://ec.europa.eu/safety-gate-alerts/screen/webReport#weeklyReports>. The measures taken in the notifying country in order to restrict their marketing or use can be ordered by national authorities ("compulsory measures") or be taken directly by producers and distributors ("voluntary measures").

The official contact points of the Member and EFTA-EEA States provide the information published in these weekly overviews. Under the terms of Annex II.10 of the General Product Safety Directive (**2001/95/EC**) responsibility for the information provided lies with the notifying party. The Commission does not take any responsibility for the accuracy of the information provided.

Recall Summary – US Toys / Children’s Products

CPSC Recall List (Apr 2022)

Recall No.	Notifying Country	Product	Product Photo	Hazard/ Risk	Remedy
22-113	USA	Clikk High Chairs (Country of Origin: The Netherlands)		Fall and Injury Hazards The white plastic seat can break, posing fall and injury hazards to children. The recalled high chair has a white molded plastic seat and foot rest with wooden legs. Only Clikk high chairs that are white in color, have item number 552104 and within the following serial number range (135AA0057070 to 135AA0057908) are included in this recall.	Consumers should immediately stop using the recalled white high chairs and contact Stokke for a free replacement. Consumers will receive the free replacement Clikk high chair in white after visiting Stokke’s website to confirm their product is included in the recall and registering the product online.
22-116	USA	FAO Schwarz Toy Wood Play Smart Robot Buddy(s) and FAO Schwarz Toy Wood Sensory Boards (Country of Origin: China)		Choking Hazard Due to a manufacturing issue, small parts from the products can come loose, posing a choking hazard to young children.	Consumers should immediately take the recalled toys away from children, stop using them and contact MerchSource to receive a pre-paid label to return the recalled toys and instructions on how to receive a full refund.
22-124	USA	Children’s Pajamas (Country of Origin: China)		Risk of Burn Injury The children’s pajamas fail to meet the federal flammability standards for children’s sleepwear, posing a risk of burn injury to children.	Consumers should immediately take the recalled pajamas away from children and contact The Red League to receive a pre-paid mailer and instructions on how to return the garment(s) for a full refund.

22-126	USA	H for Happy™ Woven Bunny Baskets (Country of Origin: China)		Choking Hazard The recalled baskets are white woven baskets with bunny faces that have either pink or blue cheeks and black plastic eyes. The bunny basket's eyes can detach, posing a choking hazard to young children.	Consumers should immediately take the recalled baskets away from children and return them to any Bed Bath & Beyond location for a full refund.
22-741	USA	Monti Kids Wooden Push Toys (Country of Origin: Vietnam)		Choking Hazard This recall involves Push Toys which are included with the Level 7 of the Monti Kids Program subscription box. The Push Toy consists of a wooden handle attached to a rolling cylinder, which contains wooden balls. The toy's rolling cylinder can separate, exposing the balls inside, posing a choking hazard to children.	Consumers should immediately take the recalled toy away from children, dispose of the toy by throwing it into the trash, and contact Monti Kids to receive a \$40 refund. The firm is contacting all known purchasers directly.
22-743	USA	AmazonBasics School Classroom Stack Chairs (Country of Origin: China)		Fall and Injury Hazards This recall involves AmazonBasics School Classroom Stack Chairs. The chairs are made of durable plastic and have chrome-plated metal legs. They are stackable and were sold as a set of six chairs in pink, lime green, yellow, blue, purple, and/or red colors. The weld on the chair's frame can fail, posing a fall hazard.	Consumers should immediately stop using the recalled chairs and contact Amazon for instructions on how to dispose of the chairs for a full refund. Amazon is contacting all known purchasers directly.

CPSC

The United States Consumer Product Safety Commission (CPSC) is an independent agency of the United States government. To provide better service in alerting the American people to unsafe, hazardous or defective products, a “one stop shop” for U.S. Government recalls, www.recalls.gov, has been created. Publics can report unsafe products to CPSC by using the platform.

The recall list is divided into seven categories: Consumer Products, Motor Vehicles, Boats, Food, Medicine, Cosmetics and Environmental Products. Generally, the recall was conducted, voluntarily by the company, under CPSC’s Fast Track Recall program. Fast Track recalls are initiated by firms who commit to work with CPSC to quickly announce the recall and remedy to protect consumers.

Recall Summary – Australia Toys / Children’s Products

ACCC Recall List (Apr 2022)

PRA No.	Notifying Country	Product	Product Photo	Hazard/ Risk	Remedy
2022/19449	Australia	<p>Roly Poly Hard Plastic Cockatoo-Shaped Toy with Tinkling Bell Sound</p> <p>Batch Number on Packaging near Barcode #21180</p>		<p>Choking or Suffocation Hazard</p> <p>The product does not comply with the size and shape requirements of the mandatory safety standard for toys for children up to and including 36 months of age. The yellow component of the wing may detach, creating small parts. Small parts may pose a choking or suffocation hazard for young children, which can lead to severe injury or death.</p>	<p>Consumers should immediately stop using the item and return it to the place of purchase for a full refund.</p>

Australian Product Safety System

The Australian product safety system is to maximize the safety of good by the cooperation of consumers, businesses and agencies. This policy sets out the principles adopted by the Australian Competition and Consumer Commission (ACCC) for prioritizing and addressing product safety risks.

Under the Australian Consumer Law, a responsible Minister can order a compulsory recall when there are hazards on the products. A voluntary recall could be conducted to remove the product from the marketplace when the suppliers become aware of unsafe or defective products.

The ACCC administers a national recalls system for recalls of specific and general consumer products, and publishes all product recalls on the website <https://www.productsafety.gov.au/recalls>.

STC (Hong Kong Standards and Testing Centre) is a not-for-profit, independent testing, inspection and certification organization. With a global network of ISO/IEC 17025 accredited testing laboratories and nearly 60 years of experience in consumer product testing, we can meet your conformity assessment needs with highly efficient and reliable service. Our testing scope and capabilities related to toys and children's products include but not limited to:

EU Requirements

- EN 71
- Phthalates (EC) no. 1907/2006
- Nickel Release (EC) no. 1907/2006
- Total Cadmium (EEC) no. 91/338
- Lead in Jewellery product (EC) no. 836/2012
- Azo-dye (EC) no. 1907/2006
- Bisphenol-A (2014/81/EU)
- DMF (Dimethylfumarate) (EU) no. 2011/135
- Flame retardants TCEP, TCPP, TDCP (2014/79/EU)
- Package Waste Directive (94/62/EC)

US & Canada Requirements

- ASTM F963
- CPSIA
- California Proposition 65
- 16 CFR 1501
- ASTM F2923 (Children's jewellery)
- ASTM F2999 (Adult's jewellery)
- US Toxic in Packaging Clearinghouse (TPCH)
- CCPSA - Toys Regulations (SOR/2011-17)

Japan Requirements

- Japan Toy Safety Standard (ST)
- Japan Food Sanitation Law (JFSL)

Australia Requirements

- AS/NZS 8124
- Consumer Protection Notice No. 6 of 2010 - DEHP
