

Recall Summary – European Toys

EU Safety Gate Alerts (Sep 2022)

Alert No.	Notifying Country	Product	Product Photo	Hazard/ Risk	Measures Adopted
A11/00100/22	Cyprus	Baby swing (Country of Origin: China)		Injuries The lateral swing angle of the swing is too large, and there is no protection from a restraint system. The baby can therefore fall from the swing and be injured. The product does not comply with the requirements of the General Product Safety Directive nor with the European standard EN 16232.	Withdrawal of the product from the market
A11/00101/22	Cyprus	Reclined cradle (Country of Origin: Unknown)		Injuries The angle between the backrest and the horizontal surface is too small. As a consequence, the swing is not stable enough, it can tip over and fall, leading to injuries to a child. The product does not comply with the requirements of the General Product Safety Directive nor with the European standard EN 12790.	Withdrawal of the product from the market
A11/00102/22	Poland	Toy gun (Country of Origin: China)		Damage to sight, Injuries The kinetic energy of the arrows ejected is too high, exceeding the permitted levels. This can cause injuries to a child, in particular to the eyes. The product does not comply with the requirements of the Toy Safety Directive nor with the European standard EN 71-1.	Withdrawal of the product from the market
A11/00103/22	Hungary	Wooden swing (Country of Origin: Hungary)		Injuries The ropes of the swing seat are fixed with knots which may easily loosen. A child may fall and suffer injuries. The product does not comply with the requirements of the Toy Safety Directive nor with the European standard EN 71-8.	Recall of the product from end users

A11/00104/22	Hungary	Wooden swing (Country of Origin: Romania)		Injuries The ropes are fixed to the swing seat with knots that may easily loosen. A child may fall down and suffer injuries. The product does not comply with the requirements of the Toy Safety Directive nor with the relevant European standard EN 71-8.	Withdrawal of the product from the market
A11/00105/22	Germany	Rattle toy (Country of Origin: China)		Choking The handle of the rattle is too long and if a child puts it in the mouth, it can block the airways and cause choking. The product does not comply with the requirements of the Toy Safety Directive nor with the European standard EN 71-1.	Removal of this product listing by the online marketplace
A11/00106/22	Germany	Rattle toy (Country of Origin: Ukraine)		Choking The handle of the rattle toy is too long and if a child puts it in the mouth, it can block the airways and cause choking. The product does not comply with the requirements of the Toy Safety Directive nor with the European standard EN 71-1.	Removal of this product listing by the online marketplace
A11/00107/22	Germany	Rattle toy (Country of Origin: Russian Federation)		Choking The handle of the rattle toy is too long and if a child puts it in the mouth, it can block the airways and cause choking. The toy does not comply with the requirements of the Toy Safety Directive, nor with the European standard EN 71-1.	Ban on the marketing of the product and any accompanying measures
A12/01233/22	France	Wooden puzzle (Country of Origin: China)		Choking Small parts of the puzzle pieces can easily detach (white plastic knobs). As a consequence, a child may put them in the mouth and cause choking. The product does not comply with the requirements of the Toy Safety Directive nor with the European standard EN 71-1.	Recall of the product from end users
A12/01235/22	Austria	Plastic toy (Country of Origin: China)		Choking The toy can easily break, generating small parts. A child may put them in the mouth and cause choking. The product does not comply with the requirements of the Toy Safety Directive nor with the European standard EN 71-1.	Marking the product with appropriate warnings on the risks

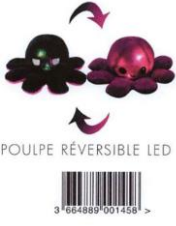

A12/01241/22	Poland	Plastic swing (Country of Origin: China)		Entrapment, Injuries, Strangulation The rope of the swing has no pre-fixed hangers. As a result, the swing can be assembled improperly and the knots may easily get loose. A child may fall down and suffer injuries. The product has accessible openings and accessible holes, in which children can be trapped or suffer injuries. The product does not comply with the requirements of the Toy Safety Directive nor with the European standard EN 71-8.	Import rejected at border
A12/01242/22	Poland	Plastic swing (Country of Origin: China)		Entrapment, Injuries, Strangulation The rope of the swing has no pre-fixed hangers, and the product has accessible openings and accessible holes/ As a result, the swing can be assembled improperly and the knots may easily get loose. A child may fall and suffer injuries. The product does not comply with the requirements of the Toy Safety Directive nor with the European standard EN 71-8.	Import rejected at border
A12/01243/22	Poland	Plastic toy (Country of Origin: China)		Choking The product can easily break, resulting in small parts. A child may put them in the mouth and cause choking. The product does not comply with the requirements of the Toy Safety Directive nor with the European standard EN 71-1.	Withdrawal of the product from the market
A12/01248/22	Cyprus	Baby swing (Country of Origin: China)		Injuries The width of the straps of the restraint system is too short. The crotch straps can therefore tear away easily, causing the baby to fall and be injured. The product does not comply with the requirements of the General Product Safety Directive nor with the European standard EN 12790.	Withdrawal of the product from the market

A12/01249/22	Cyprus	Baby swing (Country of Origin: Unknown)		Injuries The angle between the backrest and the horizontal surface of the swing is too small. As a consequence, with the backrest in the most reclined position, the swing may tilt close to the horizontal surface, causing the baby to hit its head. Also, the locking mechanism on the product does not engage automatically. As a consequence, the product may fold and lose stability, causing the baby to fall down and hit its head and suffer injuries. The product does not comply with the requirements of the General Product Safety Directive nor with the European standard EN 16232.	Withdrawal of the product from the market
A12/01260/22	Austria	Wooden rattle (Country of Origin: Germany)		Choking The product can easily break and generate to small parts. A child may put them in the mouth and cause choking. The product does not comply with the requirements of the Toy Safety Directive nor with the European standard EN 71.	Destruction of the product
A12/01261/22	Austria	Soft toy (Country of Origin: China)		Choking Small parts (beads) can easily detach. A child may put them in the mouth and cause choking. The product does not comply with the requirements of the Toy Safety Directive nor with the European standard EN 71-1.	Withdrawal of the product from the market
A12/01262/22	Austria	Pull-along toy (Country of Origin: Czechia)		Choking Small parts (horns) can easily detach. A child may put them in the mouth and cause choking. The product does not comply with the requirements of the Toy Safety Directive nor with European standard EN 71-1.	Withdrawal of the product from the market

A12/01263/22	Germany	Baby carrier (Country of Origin: China)		Injuries The carrier does not secure a baby sufficiently from falling to the ground. The carrier bends sideways or forwards and a baby may slip out and suffer fatal injuries. The product does not comply with the requirements of General Product Safety Directive nor with the European standard EN 13209-2.	Recall of the product from end users
A12/01264/22	Austria	Puffer toy (Country of Origin: China)		Choking Small parts (eyes) can easily detach. A child may put them in the mouth and cause choking. The product does not comply with the requirements of the Toy Safety Directive nor with the European standard EN 71-1.	Destruction of the product
A12/01267/22	Germany	Soother holder (Country of Origin: China)		Choking The wooden beads break easily and generate small parts. A child could put them in the mouth and cause choking. The product does not comply with the requirements of the General Product Safety Directive nor with the European standard EN 12586.	Ban on the marketing of the product and any accompanying measures
A12/01268/22	Germany	Soother holder (Country of Origin: China)		Choking The product can easily break, generate to small parts. A child may put them in the mouth and cause choking. The product does not comply with the requirements of the General Product Safety Directive nor with European standard EN 12586.	Ban on the marketing of the product and any accompanying measures
A12/01270/22	Hungary	Plastic doll with accessories (Country of Origin: China)		Chemical The product contains an excessive concentration of di-2-ethylhexyl phthalate (DEHP) (measured value: 35% by weight). This phthalate may harm the health of children, possibly causing damage to their reproductive system. The product does not comply with the REACH Regulation.	Recall of the product from end users

A12/01273/22	Hungary	Plastic doll (Country of Origin: China)		Chemical The product contains an excessive concentration of di-2-ethylhexyl phthalate (DEHP) (measured value 33% by weight). This phthalate may harm the health of children, possibly causing damage to their reproductive system. The product does not comply with the REACH Regulation.	Recall of the product from end users
A12/01274/22	Hungary	Plastic doll with accessories (Country of Origin: China)		Chemical The doll's head contains an excessive concentration of di- (2-ethylhexyl) phthalate (DEHP) and dibutyl phthalate (DBP) (measured values up to 28% and 0,54% by weight, respectively). These phthalates may harm the health of children, possibly causing damage to their reproductive system. The product does not comply with the REACH Regulation.	Recall of the product from end users
A12/01275/22	Hungary	Plastic doll set (Country of Origin: China)		Chemical The product contains an excessive concentration of di-2-ethylhexyl phthalate (DEHP) (measured value: 25% by weight). This phthalate may harm the health of children, possibly causing damage to their reproductive system. The product does not comply with the REACH Regulation.	Withdrawal of the product from the market
A12/01276/22	Czechia	Plastic doll (Country of Origin: China)		Chemical The plastic material of the head of the doll contains an excessive concentration of di-(2-ethylhexyl) phthalate (DEHP) (measured value up to 4.84 % by weight). This phthalate may harm the health of children, possibly causing damage to the reproductive system. The product does not comply with the REACH Regulation.	Withdrawal of the product from the market

A12/01281/22	Austria	Puzzle (Country of Origin: China)		Choking Small parts can easily detach (plastic buttons). A child may put them in the mouth and cause choking. The product does not comply with the requirements of the Toy Safety Directive nor with the European standard EN 71-1.	Withdrawal of the product from the market
A12/01282/22	Austria	Puzzle (Country of Origin: Czechia)		Choking Small parts can easily detach (wooden buttons). A child may put them in the mouth and cause choking. The product does not comply with the requirements of the Toy Safety Directive nor with the European standard EN 71-1.	Withdrawal of the product from the market
A12/01290/22	Belgium	Plastic doll (Country of Origin: China)		Chemical, Environment The plastic material of the product contains an excessive amount of organic tin (TBT) (measured value up to 26 mg/kg). TBT is potentially persistent, bioaccumulative and toxic for the environment. The product does not comply with the REACH Regulation nor with the European standard EN 71-3.	Recall of the product from end users
A12/01292/22	Norway	Electric ride-on tricycle (Country of Origin: China)		Choking The plastic cover of the charging connector can easily detach from the toy. A child may put it in the mouth and cause choking. The product does not comply with the requirements of Toy Safety Directive nor with the European standard EN 71-1.	Recall of the product from end users
A12/01297/22	Austria	Wooden toy (Country of Origin: China)		Choking Small parts (seahorse) can easily detach. As a consequence, a child may put them in the mouth and cause choking. The product does not comply with the requirements of the Toy Safety Directive nor with the European standard EN 71-1.	Marking the product with appropriate warnings on the risks

A12/01301/22	France	Soft toy (Country of Origin: China)	 <p>POULPE RÉVERSIBLE LED</p> <p>3 664889 001458 ></p>	Damage to sight, Injuries The LEDs of the toy are too powerful and may cause eye damage. The seams come easily apart, making the LEDs and the filling accessible. Sharp edges of the LEDs may cause injury while the ingestion of the filling may cause choking. The product does not comply with the requirements of the Toy Safety Directive, nor with the European standards EN 71-1 and EN 62115.	Recall of the product from end users
A12/01302/22	Hungary	Plastic doll with accessories (Country of Origin: China)		Chemical The product contains an excessive concentration of di-2-ethylhexyl phthalate (DEHP) (measured value: 31% by weight). This phthalate may harm the health of children, causing possible damage to their reproductive system. The product does not comply with the REACH Regulation.	Withdrawal of the product from the market
A12/01318/22	The Netherlands	Baby gym (Country of Origin: China)		Choking Small parts can easily detach from the toy. A child could put them in the mouth and cause choking. The product does not comply with the requirements of the Toy Safety Directive and the European standard EN 71-1.	Withdrawal of the product from the market
A12/01321/22	Germany	Baby carrier (Country of Origin: China)		Injuries Due to the insufficient attachment options on the baby carrier, the support is inadequate and the baby may slip out of the carrier. The baby may fall and suffer from serious injuries. The product does not comply with the requirements of General Product Safety Directive nor with the European standard EN 13209-2	Recall of the product from end users
A12/01331/22	Hungary	Rattle toy set (Country of Origin: China)		Choking The rattles can easily break, generating small parts. A child may put them in the mouth and cause choking. The product does not comply with the requirements of the Toy Safety Directive nor with the European standard EN 71-1.	Recall of the product from end users

A12/01336/22	Czechia	Plastic doll (Country of Origin: China)		Chemical The plastic material of the head contains an excessive concentration of bis (2-ethylhexyl) phthalate (DEHP) (measured value up to 42.2% by weight). This phthalate may harm the health of children, causing possible damage to their reproductive system. The product does not comply with the REACH Regulation.	Withdrawal of the product from the market
A12/01337/22	Hungary	Mobile musical toy (Country of Origin: China)		Choking Small parts can easily detach (teddy bear's eyes) and the stuffing material is easily accessible. A small child may put these in the mouth and cause choking. The product does not comply with the requirements of the Toy Safety Directive nor with the relevant European standard EN 71-1.	Withdrawal of the product from the market
A12/01338/22	Hungary	Toy rattle set (Country of Origin: China)		Choking The rattles can easily break, generating small parts. A child may put them in the mouth and cause choking. The product does not comply with the requirements of the Toy Safety Directive nor with the European standard EN 71.	Withdrawal of the product from the market
A12/01355/22	Czechia	Plastic doll (Country of Origin: China)		Chemical The plastic material of the head of the doll contains an excessive concentration of bis(2-ethylhexyl) phthalate (DEHP) (measured value up to 13.18% by weight). This phthalate may harm the health of children, causing possible damage to their reproductive system. The product does not comply with the REACH Regulation.	Withdrawal of the product from the market

A12/01356/22	Czechia	Key ring (Country of Origin: Unknown)		Chemical The plastic material of the head of the doll contains an excessive concentration of bis(2-ethylhexyl) phthalate (DEHP) (measured value up to 22.79% by weight). This phthalate may harm the health of children, causing possible damage to their reproductive system. The product does not comply with the REACH Regulation.	Withdrawal of the product from the market
A12/01358/22	Hungary	Rattle toy (Country of Origin: China)		Choking The rattle can easily break, generating small parts. A child may put them in the mouth and cause choking. The product does not comply with the requirements of the Toy Safety Directive nor with the European standard EN 71-1.	Withdrawal of the product from the market
A12/01361/22	Hungary	Activity play mat (Country of Origin: China)		Choking One of the rattles of the activity play mat can easily break, generating small parts. A child may put them in the mouth and cause choking. The product does not comply with the requirements of the Toy Safety Directive nor with the European standard EN 71-1.	Withdrawal of the product from the market
A12/01362/22	Czechia	Plastic doll (Country of Origin: Unknown)		Chemical The plastic material of the head of the doll contains an excessive concentration of bis(2-ethylhexyl) phthalate (DEHP) (measured value up to 29.8% by weight). This phthalate may harm the health of children, causing possible damage to the reproductive system. The product does not comply with the REACH Regulation.	Withdrawal of the product from the market

INFO/00119/22	Germany	Baby blanket (Country of Origin: India)		Choking, Entrapment, Strangulation A child's fingers may be trapped in loops because of the threads that have become loose or unraveled from the product. The threads can twist around parts of the body, causing entrapment of the fingers and toes or can get wrapped around the neck of the child, causing strangulation. The child can also put these in the mouth and cause choking. The product does not comply with the requirements of the General Product Safety Directive (GPSD).	Recall of the product from end users
INFO/00121/22	Austria	Soft toy (Country of Origin: China)		Choking Small parts can easily detach (the eyes). A child may put them in the mouth and cause choking. The product does not comply with the requirements of the Toy Safety Directive nor with the European standard EN 71-1.	No enforcement action; wholesalers and retailers cannot be found

Safety Gate: the EU rapid alert system for dangerous non-food products

“Safety Gate”, the EU rapid alert system (formerly known as ‘RAPEX’), enables the rapid exchange of information between **31 European countries** and the European Commission on non- food dangerous products found on the market posing a risk to health and safety of consumers.

A weekly overview of the alerts on those products is published in English for free on <https://ec.europa.eu/safety-gate-alerts/screen/webReport#weeklyReports>. The measures taken in the notifying country in order to restrict their marketing or use can be ordered by national authorities ("compulsory measures") or be taken directly by producers and distributors ("voluntary measures").

The official contact points of the Member and EFTA-EEA States provide the information published in these weekly overviews. Under the terms of Annex II.10 of the General Product Safety Directive (**2001/95/EC**) responsibility for the information provided lies with the notifying party. The Commission does not take any responsibility for the accuracy of the information provided.

Recall Summary – US Toys / Children’s Products

CPSC Recall List (Sep 2022)

Recall No.	Notifying Country	Product	Product Photo	Hazard/ Risk	Remedy
22-215	USA	UPPAbaby All-Terrain RIDGE Jogging Strollers (Country of Origin: China)		Amputation Hazard UPPAbaby Recalls RIDGE Jogging Strollers Due to Fingertip Amputation Hazard; One Injury to Child Reported The stroller’s rear disc brakes have openings that can cause amputation or laceration if a non-occupant child’s fingertip gets caught in the openings while the stroller is in use.	Consumers should immediately stop using the recalled strollers and contact UPPAbaby to receive free replacement brake discs for both wheels.
22-217	USA	Children’s HearMuffs sound compression ear muffs (Country of Origin: China)		Burn And Injury Hazards Hearing Lab Technology/Lucid Audio Recalls Children’s HearMuffs Due to Burn and Injury Hazards from Rupturing Alkaline Batteries The AAA alkaline batteries included in the recalled HearMuffs can rupture, posing hearing, projectile and/or burn injury.	Consumers should immediately stop using the recalled HearMuffs and contact Hearing Lab Technology/Lucid Audio to receive two new replacement AAA batteries free of charge.

CPSC

The United States Consumer Product Safety Commission (CPSC) is an independent agency of the United States government. To provide better service in alerting the American people to unsafe, hazardous or defective products, a “one stop shop” for U.S. Government recalls, www.recalls.gov, has been created. Publics can report unsafe products to CPSC by using the platform.

The recall list is divided into seven categories: Consumer Products, Motor Vehicles, Boats, Food, Medicine, Cosmetics and Environmental Products. Generally, the recall was conducted, voluntarily by the company, under CPSC’s Fast Track Recall program. Fast Track recalls are initiated by firms who commit to work with CPSC to quickly announce the recall and remedy to protect consumers.

Recall Summary – Australia Toys / Children’s Products

ACCC Recall List (Sep 2022)

PRA No.	Notifying Country	Product	Product Photo	Hazard/ Risk	Remedy
2022/19548	Australia	Yatsal Distributors Pty Ltd - Shoot & Catch Set - 4 piece		<p>Risk of Serious Injury</p> <p>The product does not comply with the mandatory safety standard for projectile toys that warns consumers that the toy should not be aimed at the eyes or face.</p> <p>What are the hazards?</p> <p>If the product is aimed at the eyes or face during use, there is a risk of serious injury.</p>	Consumers should stop using the product and store it out of the reach of children. Australian Product Safety System

The Australian product safety system is to maximize the safety of good by the cooperation of consumers, businesses and agencies. This policy sets out the principles adopted by the Australian Competition and Consumer Commission (ACCC) for prioritizing and addressing product safety risks.

Under the Australian Consumer Law, a responsible Minister can order a compulsory recall when there are hazards on the products. A voluntary recall could be conducted to remove the product from the marketplace when the suppliers become aware of unsafe or defective products.

The ACCC administers a national recalls system for recalls of specific and general consumer products, and publishes all product recalls on the website <https://www.productsafety.gov.au/recalls>.

STC (Hong Kong Standards and Testing Centre) is a not-for-profit, independent testing, inspection and certification organization. With a global network of ISO/IEC 17025 accredited testing laboratories and nearly 60 years of experience in consumer product testing, we can meet your conformity assessment needs with highly efficient and reliable service. Our testing scope and capabilities related to toys and children's products include but not limited to:

EU Requirements

- EN 71
- Phthalates (EC) no. 1907/2006
- Nickel Release (EC) no. 1907/2006
- Total Cadmium (EEC) no. 91/338
- Lead in Jewellery product (EC) no. 836/2012
- Azo-dye (EC) no. 1907/2006
- Bisphenol-A (2014/81/EU)
- DMF (Dimethyl fumarate) (EU) no. 2011/135
- Flame retardants TCEP, TCPP, TDCP (2014/79/EU)
- Package Waste Directive (94/62/EC)

US & Canada Requirements

- ASTM F963
- CPSIA
- California Proposition 65
- 16 CFR 1501
