

## Recall Summary – European Toys

### EU Safety Gate Alerts (Nov 2022)

Alert No.	Notifying Country	Product	Product Photo	Hazard/ Risk	Measures Adopted
A11/00130/22	Croatia	<b>Soft toy</b>  (Country of Origin: <b>China</b> )		<b>Choking</b> The seams of the toy is too weak. A child can easily access the fibrous stuffing material, put it in the mouth, and choke. The product does not comply with the requirements of the Toy Safety Directive nor with the relevant European standard EN 71-1.	Ban on the marketing of the product and any accompanying measures
A12/01519/22	Czechia	<b>Plastic doll</b>  (Country of Origin: <b>China</b> )		<b>Chemical</b> The product contains an excessive concentration of bis(2-ethylhexyl) phthalate (DEHP) (measured value up to 58.4% by weight). This phthalate may harm the health of children, possibly causing damage to their reproductive system. The product does not comply with the REACH Regulation.	Withdrawal of the product from the market
A12/01526/22	Poland	<b>Plastic toy</b>  (Country of Origin: <b>China</b> )		<b>Choking</b> Small parts (wheel and wheel with axle) may be easily detached from the toy. A child may put the small parts in the mouth and choke. The product does not comply with the requirements of the Toy Safety Directive nor with the European standard EN 71-1.	Warning consumers of the risks

A12/01527/22	Hungary	<b>Toy gun set</b>  (Country of Origin: <b>China</b> )		<b>Chemical, Choking, Injuries</b>  The suction cups of the projectiles can be easily detached. A child can put them in the mouth and choke. The kinetic energy of the projectiles is too high which could cause injuries, especially to the eyes. In addition, the suction cups contain an excessive concentration of dibutyl phthalate (DBP) (measured up to 6.2% by weight). This phthalate may harm the health of children, possibly causing damage to their reproductive system. The product does not comply with the requirements of the Toy Safety Directive, neither with the REACH Regulation nor with the European standard EN 71-1.	A12/01527/22
A12/01529/22	Poland	<b>Rattle toy</b>  (Country of Origin: <b>China</b> )		<b>Choking</b>  The toy has protruding parts (legs of the elephant). A child could put these into the mouth, which could block the airways and cause choking. The product does not comply with the requirements of the Toy Safety Directive nor with the European standard EN 71-1.	Warning consumers of the risks
A12/01530/22	Sweden	<b>Water balloons</b>  (Country of Origin: <b>China</b> )		<b>Chemical</b>  The amount of nitrosamines released by the balloons is too high (measured values up to 2.4 mg/kg). Nitrosamines can cause cancer via inhalation, ingestion or dermal exposure. The product does not comply with the requirements of the Toy Safety Directive and European standard EN 71-12.	Withdrawal of the product from the market

A12/01531/22	Hungary	<b>Toy gun set</b>  (Country of Origin: <b>China</b> )		<b>Chemical, Choking, Injuries</b>  The suction cups of the projectiles can be easily detached. A child can put them in the mouth and choke. The kinetic energy of the projectiles is too high which could cause injuries, especially to the eyes. In addition, the suction cups contain an excessive concentration of bis(2-ethylhexyl) phthalate (DEHP) and dibutyl phthalate (DBP) (measured values: up to 6.9% and 11.5%, respectively). These phthalates may harm the health of children, possibly causing damage to their reproductive system. The product does not comply with the requirements of the Toy Safety Directive, neither with the REACH Regulation nor with the European standard EN 71-1.	Import rejected at border
A12/01534/22	Finland	<b>Doll stroller</b>  (Country of Origin: <b>China</b> )		<b>Injuries</b>  The product is not sufficiently resistant to load and can easily collapse. A child playing with the pushchair may fall to the ground and be injured. The product does not comply with the requirements of the Toy Safety Directive nor with the European standard EN 71-1.	Destruction of the product
A12/01535/22	Denmark	<b>Soother holder</b>  (Country of Origin: <b>France</b> )		<b>Choking</b>  The clips on the soother holder can release small parts. A child can put them in the mouth and choke. The product does not comply with the requirements of the General Product Safety Directive.	Recall of the product from end users
A12/01536/22	Lithuania	<b>Toy tricycle</b>  (Country of Origin: <b>Ukraine</b> )		<b>Injuries</b>  There are accessible gaps between moving parts of the tricycle. A leg of a child may become trapped there and be injured. The product does not comply with the requirements of the Toy Safety Directive nor with the European standard EN 71-1.	Withdrawal of the product from the market

A12/01537/22	Lithuania	<b>Plastic doll</b>  (Country of Origin: <b>China</b> )		<b>Chemical</b>  The plastic material of the doll contains an excessive concentration of bis(2-ethylhexyl) phthalate (DEHP) and dibutyl phthalate (DBP) (measured values up to 33% and 0.15% by weight, respectively). These phthalates may harm the health of children, possibly causing damage to their reproductive system. The product does not comply with the REACH Regulation	Withdrawal of the product from the market
A12/01539/22	Lithuania	<b>Plastic doll</b>  (Country of Origin: <b>China</b> )		<b>Chemical</b>  The plastic material of the doll contains an excessive concentration of bis(2-ethylhexyl) phthalate (DEHP) and dibutyl phthalate (DBP) (measured values up to 19% by weight). These phthalates may harm the health of children, possibly causing damage to their reproductive system. The product does not comply with the REACH Regulation	Withdrawal of the product from the market
A12/01541/22	Finland	<b>Doll's feeding bottle</b>  (Country of Origin: <b>China</b> )		<b>Microbiological</b>  The total count of aerobic bacteria in the feeding bottle with white liquid is too high (measured value: 220 000 cfu/ml). If the bottle breaks, or a child otherwise manages to open it, there is a risk that a child contracts infections as the solution may come in contact with the mouth, hands and eyes. The product does not comply with the requirements of the Toy Safety Directive.	Import rejected at border
A12/01550/22	The Netherlands	<b>Toy slime</b>  (Country of Origin: <b>China</b> )		<b>Chemical</b>  The toy material contains an excessive concentration of the preservatives Methylisothiazolinone (MI) and Methylchlorisothiazolinone (MCI) (measured value: 293 mg/kg). Dermal contact with MCI and MI containing products can provoke allergic contact dermatitis to sensitized persons. The product does not comply with the requirements of the Toy Safety Directive nor with the European standard EN 71-9.	Recall of the product from end users

A12/01552/22	Cyprus	<p><b>Dolls set</b></p> <p>(Country of Origin: <b>China</b>)</p>		<p><b>Chemical</b></p> <p>The head and the arms of the dolls contain bis(2-ethylhexyl) phthalate (DEHP) (measured values up to 29,61% by weight). This phthalate may harm the health of children, causing possible damage to the reproductive system. The product does not comply with the REACH Regulation.</p>	Withdrawal of the product from the market
A12/01553/22	Cyprus	<p><b>Doll with accessories</b></p> <p>(Country of Origin: <b>China</b>)</p>		<p><b>Chemical</b></p> <p>The head and the arms of the doll contain bis(2-ethylhexyl) phthalate (DEHP) (measured values up to 19.9% by weight). This phthalate may harm the health of children, causing possible damage to the reproductive system. The product does not comply with the REACH Regulation.</p>	Withdrawal of the product from the market
A12/01554/22	Cyprus	<p><b>Doll with accessories</b></p> <p>(Country of Origin: <b>China</b>)</p>		<p><b>Chemical</b></p> <p>The head and the arms of the doll contain bis(2-ethylhexyl) phthalate (DEHP) (measured values up to 20.54% by weight). This phthalate may harm the health of children, causing possible damage to the reproductive system. The product does not comply with the REACH Regulation.</p>	Withdrawal of the product from the market
A12/01555/22	Lithuania	<p><b>Plastic doll</b></p> <p>(Country of Origin: <b>China</b>)</p>		<p><b>Chemical</b></p> <p>The plastic material of the doll contains an excessive concentration of bis(2-ethylhexyl) phthalate (DEHP) (measured values up to 32% by weight). This phthalate may harm the health of children, causing possible damage to their reproductive system. The product does not comply with the REACH Regulation.</p>	Withdrawal of the product from the market
A12/01563/22	France	<p><b>Soft toy</b></p> <p>(Country of Origin: <b>China</b>)</p>		<p><b>Choking</b></p> <p>The nose of the toy may easily detach. A child may put it in the mouth and choke. The product does not comply with the requirements of the Toy Safety Directive nor with the European standard EN 71-1.</p>	Withdrawal of the product from the market

A12/01564/22	Poland	<b>Toy gun</b>  (Country of Origin: <b>China</b> )		<b>Choking</b>  The product has small parts (foam projectiles). A child may put them in the mouth and choke. The product does not comply with the requirements of the Toy Safety Directive nor with the European standard EN 71-1.	Warning consumers of the risks
A12/01567/22	Poland	<b>Push along toy</b>  (Country of Origin: <b>China</b> )		<b>Damage to hearing</b>  The sound pressure level is too high (measured value: up to 89.6 dB). This could lead to permanent or partial hearing loss. The product does not comply with the requirements of the Toy Safety Directive nor with the European standard EN 71-1.	Warning consumers of the risks
A12/01571/22	France	<b>Soother holder</b>  (Country of Origin: <b>China</b> )		<b>Choking, Strangulation</b>  Small parts (clip and plastic ring) may easily detach. A small child may put them in the mouth and choke. In addition, the soother holder is too long and may lead to strangulation of a child. The product does neither comply with the requirements of the General Product Safety Directive nor with those of the Toy Safety Directive, nor with the European standards EN 12586, EN 71-1 and EN 71-3.	Recall of the product from end users
A12/01581/22	Slovakia	<b>Plastic doll with accessories</b>  (Country of Origin: <b>China</b> )		<b>Chemical</b>  The swimming wheel and transparent plastic contain an excessive concentration of bis(2-ethylhexyl) phthalate (DEHP) (measured value: 0.58 % by weight). This phthalate may harm the health of children by causing possible damage to the reproductive system. The product does not comply with the REACH Regulation.	Warning consumers of the risks

A12/01586/22	Finland	<b>Plush toy</b>  (Country of Origin: <b>China</b> )		<b>Strangulation</b> The plush toy's hands have long strings. They can become trapped during various activities of a child, leading to strangulation. The product does not comply with the requirements of the General Product Safety Directive nor with the European standard EN 71-1.	Import rejected at border
A12/01591/22	Poland	<b>Children's high chair</b>  (Country of Origin: <b>China</b> )		<b>Choking</b> A child could detach small parts (label and belt adjusters) as well as stuffing material which is accessible, and swallow it, which may cause choking. The product does not comply with the requirements of the General Product Safety Directive nor with the European standard EN 14988.	Withdrawal of the product from the market
A12/01592/22	Lithuania	<b>Plastic doll</b>  (Country of Origin: <b>China</b> )		<b>Chemical</b> The product contains an excessive concentration of bis(2-ethylhexyl) phthalate (DEHP) and dibutyl phthalate (DBP) (measured values up to 32% by weight, respectively). These phthalates may harm the health of children, causing possible damage to their reproductive system. The product does not comply with the REACH Regulation	Withdrawal of the product from the market
A12/01598/22	Germany	<b>Music box</b>  (Country of Origin: <b>China</b> )		<b>Choking</b> Small parts can easily detach from the toy. Small children may put them in the mouth and choke. The product does not comply with the requirements of the Toy Safety Directive nor with the European standard EN 71-1.	Withdrawal of the product from the market
A12/01599/22	Germany	<b>Music box</b>  (Country of Origin: <b>China</b> )		<b>Choking</b> Small parts can easily detach from the toy. Small children may put them in the mouth and choke. The product does not comply with the requirements of the Toy Safety Directive nor with the European standard EN 71-1.	Ban on the marketing of the product and any accompanying measures

A12/01601/22	France	<b>Fancy dress</b>  (Country of Origin: <b>China</b> )		<b>Chemical</b> The product contains an excessive concentration of bis(2-ethylhexyl) phthalate (DEHP) and di-isononyl phthalate (DINP) (measured values up to 2.32% and 0.17% by weight, respectively). These phthalates may harm the health of children by causing possible damage to their reproductive system and liver. The product does not comply with the REACH Regulation.	Recall of the product from end users
A12/01602/22	Poland	<b>Plastic toy</b>  (Country of Origin: <b>China</b> )		<b>Choking</b> The toy (blocks) may break creating small parts. A child may put the small parts in the mouth and choke. The product does not comply with the requirements of the Toy Safety Directive nor with the European standard EN 71-1.	Withdrawal of the product from the market
A12/01608/22	Italy	<b>Musical toy set</b>  (Country of Origin: <b>United Kingdom</b> )		<b>Chemical</b> The toy metallic part contains an excessive concentration of chromium III (measured value: 0.13 mg/kg). Chromium III can provoke allergic contact dermatitis in sensitized persons. The product does not comply with the requirements of the Toy Safety Directive nor with the European standard 71-3.	Ban on the marketing of the product and any accompanying measures
A12/01615/22	Italy	<b>Squeezable toy</b>  (Country of Origin: <b>China</b> )		<b>Suffocation</b> The plastic bag of the packaging is too thin. If a child plays with the packaging, the plastic could cover the mouth and nose, causing a risk of suffocation. The product does not comply with the requirements of the Toy Safety Directive nor with the European standard EN 71-1.	Withdrawal of the product from the market
A12/01616/22	Italy	<b>Squeezable toy</b>  (Country of Origin: <b>China</b> )		<b>Suffocation</b> The plastic bag of the packaging is too thin. If a child plays with the packaging, the plastic could cover the mouth and nose, causing a risk of suffocation. The product does not comply with the requirements of the Toy Safety Directive nor with the European standard EN 71-1.	Withdrawal of the product from the market

A12/01618/22	Italy	<b>Soft toy</b>  (Country of Origin: <b>China</b> )		<b>Chemical</b>  The product contains an excessive concentration of bis(2-ethylhexyl) phthalate (DEHP) (measured value up to: 37% by weight). This phthalate may harm the health of children, possibly causing damage to their reproductive system. The product does not comply with the REACH Regulation.	Ban on the marketing of the product and any accompanying measures
A12/01622/22	Germany	<b>Plastic doll</b>  (Country of Origin: <b>China</b> )		<b>Chemical</b>  The head of the doll contains an excessive concentration of bis(2-ethylhexyl) phthalate (measured value up to 23% by weight). This phthalate may harm the health of children, possibly causing damage to their reproductive system. The product does not comply with the REACH Regulation.	Recall of the product from end users
A12/01625/22	Spain	<b>Baby carrier</b>  (Country of Origin: <b>Unknown</b> )		<b>Choking, Injuries, Strangulation</b>  The product label comes off easily. A child may put it in the mouth and choke. Additionally, the straps of the head rests are too long and the child's neck could become entangled in them. The straps to adjust the bridge width for the baby's legs are longer than prescribed, which cause injuries to the child. The product is sold with a textile bag with drawstrings. If a child puts the head inside the bag and pulls the drawstring to close it, a child may get strangled by it. The product does not comply with the requirements of the General Product Safety Directive nor with European standard 16512.	Withdrawal of the product from the market

A12/01626/22	Czechia	<b>Plastic doll</b>  (Country of Origin: <b>China</b> )		<b>Chemical</b>  The plastic material of the head of the doll contains an excessive concentration of bis(2-ethylhexyl) phthalate (DEHP) (measured value 13.3% by weight). This phthalate may harm the health of children, possibly causing damage to their reproductive system. The product does not comply with the REACH Regulation.	Withdrawal of the product from the market
A12/01628/22	Czechia	<b>Plastic doll</b>  (Country of Origin: <b>China</b> )		<b>Chemical</b>  The plastic material of the head of the doll contains an excessive concentration of bis(2-ethylhexyl) phthalate (DEHP) (measured value: 4.52% by weight). This phthalate may harm the health of children by possibly causing damage to the reproductive system. The product does not comply with the REACH Regulation.	Withdrawal of the product from the market
A12/01629/22	Czechia	<b>Plastic doll</b>  (Country of Origin: <b>China</b> )		<b>Chemical</b>  The plastic material of the head of the doll contains an excessive concentration of bis(2-ethylhexyl) phthalate (DEHP) (measured value: 11.2% by weight). This phthalate may harm the health of children by possibly causing damage to the reproductive system. The product does not comply with the REACH Regulation.	Withdrawal of the product from the market

A12/01630/22	Italy	<b>Toy slime</b>  (Country of Origin: <b>China</b> )		<b>Chemical</b>  The migration of boron from the toy is too high (measured value: up to 937 mg/kg). Ingestion or contact with an excessive quantity of boron may harm the health of children by damaging their reproductive system. The product does not comply with the requirements of the Toy Safety Directive nor with the European standard EN 71-3	Withdrawal of the product from the market
A12/01631/22	Italy	<b>Toy slime</b>  (Country of Origin: <b>China</b> )		<b>Chemical</b>  The migration of boron from the toy is too high (measured value up to 952 mg/kg). Ingestion or contact with an excessive quantity of boron may harm the health of children by damaging their reproductive system. The product does not comply with the requirements of the Toy Safety Directive nor with the European standard EN 71-3.	Withdrawal of the product from the market
A12/01501/22	Bulgaria	<b>Soother holder</b>  (Country of Origin: <b>Bulgaria</b> )		<b>Strangulation</b>  The soother holder is too long and may lead to strangulation of a child. The product does not comply with the requirements of the General Product Safety Directive nor with the European standard EN 12586	Withdrawal of the product from the market
A12/01637/22	Hungary	<b>Spiky ball</b>  (Country of Origin: <b>China</b> )		<b>Chemical, Choking</b>  The battery compartment is easily opened / broken, leaving the button batteries accessible. A child may put them in the mouth and ingest them, which may lead to choking if they enter the airways. The button cell batteries could cause injury to the gastrointestinal tract if they are ingested. The product does not comply with the requirements of the Toy Safety Directive nor with the European standard EN 71-1.	Withdrawal of the product from the market

A12/01641/22	Poland	<b>Skipping rope</b>  (Country of Origin: <b>China</b> )		<b>Chemical</b> The product contains an excessive concentration of bis(2-ethylhexyl) phthalate (DEHP) (measured value up to: 37.5 % by weight). This phthalate may harm the health of children, causing possible damage to their reproductive system. The product does not comply with the REACH Regulation.	Destruction of the product
A12/01642/22	Poland	<b>Rattle toy</b>  (Country of Origin: <b>China</b> )		<b>Choking</b> The product can easily break, releasing small parts. A child may put the small parts in the mouth and choke. The product does not comply with the requirements of the Toy Safety Directive nor with the European standard EN 71-1.	Warning consumers of the risks
A12/01646/22	Czechia	<b>Battery operated toy</b>  (Country of Origin: <b>China</b> )		<b>Environment</b> The solder joint contains excessive concentrations of lead and cadmium (measured values: up to 44.5% and 0.0225% by weight, respectively). Lead and cadmium pose a risk to the environment. The product does not comply with the Directive on the restriction of the use of certain hazardous substances in electrical and electronic equipment (ROHS2 Directive).	Withdrawal of the product from the market
<a href="#">A12/01648/22</a>	Sweden	<b>Balloons</b>  (Country of Origin: <b>Unknown</b> )		<b>Chemical</b> The product releases an excessive amount of nitrosatable substances (measured value up to 2.6 mg/kg). Nitrosatable compounds can be converted into nitrosamines, which are genotoxic carcinogens via inhalation, ingestion or dermal exposure. A child can get exposed to them by putting the product in the mouth. The product does not comply with the requirements of the Toy Safety Directive nor with the European standard EN 71-12.	Removal of this product listing by the online marketplace

A12/01649/2 2	Sweden	<b>Toy slime</b>  (Country of Origin: <b>Unknown</b> )		<b>Chemical</b> The migration of boron from the toy slime is too high (measured value up to 700 mg/kg). Ingestion of boron or contact with an excessive quantity of boron may harm the health of children by damaging the reproductive system. The product does not comply with the requirements of the Toy Safety Directive, nor with the European standard EN 71-3.	Removal of this product listing by the online marketplace
A12/01659/2 2	France	<b>Plastic toy</b>  (Country of Origin: <b>Belarus</b> )		<b>Choking</b> Small parts may detach from the product. A child may put the small parts in the mouth and choke. The product does not comply with the requirements of the Toy Safety Directive nor with the European standard EN 71-1.	Withdrawal of the product from the market
A12/01660/2 2	Germany	<b>Toy bow and arrow set</b>  (Country of Origin: <b>China</b> )		<b>Choking, Injuries</b> The suction cups may easily become detached from the arrows. A child may put the small parts in the mouth and choke. Furthermore, the arrows could be shot without the suction cup on the end, with very high kinetic energy. This could cause injuries, especially to the eyes. The product does not comply with the requirements of the Toy Safety Directive nor with the European standard EN 71-1.	Recall of the product from end users
<a href="#">INFO/00134/22</a>	Ireland	<b>Fancy dress</b>  (Country of Origin: <b>China</b> )		<b>Strangulation</b> The cape bears long functional cords in the neck area. The cords may become trapped during various activities of a child, leading to strangulation. The product does not comply with the requirements of the Toy Safety Directive nor with the European standard EN 71-1.	Withdrawal of the product from the market

INFO/00135/22	Hungary	<b>Plastic doll</b>  (Country of Origin: <b>China</b> )		<b>Chemical, Choking</b> The battery compartment is easily opened / broken, leaving the button batteries accessible. A child could put them in the mouth, which could cause choking or damage to a child's gastrointestinal tract. The product does not comply with the requirements of the Toy Safety Directive nor with the European standard EN 62115.	Import rejected at border
INFO/00136/22	Hungary	<b>Plastic dolls</b>  (Country of Origin: <b>China</b> )		<b>Chemical</b> The product contains an excessive amount of bis(2-ethylhexyl) phthalate (DEHP) (measured value: 34% by weight). This phthalate may harm the health of children, possibly causing damage to their reproductive system. The product does not comply with the REACH Regulation.	Import rejected at border
INFO/00137/22	Sweden	<b>Toy slime</b>  (Country of Origin: <b>China</b> )		<b>Chemical</b> The migration of boron from the toy slime is too high (measured value up to 910 mg/kg). Ingestion of boron or contact with an excessive quantity of boron may harm the health of children by damaging the reproductive system. The product does not comply with the requirements of the Toy Safety Directive, nor with the European standard EN 71-3.	The marketplace has been informed about the test result but has not responded.
INFO/00139/22	Bulgaria	<b>Soother</b>  (Country of Origin: <b>Germany</b> )		<b>Injuries</b> This product does not have a leaflet providing the consumer with information about safe and correct use of the product. The product does not comply with the requirements of the Toy Safety Directive.	Marking the product with appropriate warnings on the risks

## Safety Gate: the EU rapid alert system for dangerous non-food products

“Safety Gate”, the EU rapid alert system (formerly known as ‘RAPEX’), enables the rapid exchange of information between **31 European countries** and the European Commission on non- food dangerous products found on the market posing a risk to health and safety of consumers.

A weekly overview of the alerts on those products is published in English for free on <https://ec.europa.eu/safety-gate-alerts/screen/webReport#weeklyReports>. The measures taken in the notifying country in order to restrict their marketing or use can be ordered by national authorities ("compulsory measures") or be taken directly by producers and distributors ("voluntary measures").

The official contact points of the Member and EFTA-EEA States provide the information published in these weekly overviews. Under the terms of Annex II.10 of the General Product Safety Directive (**2001/95/EC**) responsibility for the information provided lies with the notifying party. The Commission does not take any responsibility for the accuracy of the information provided.

## Recall Summary – US Toys / Children’s Products

**CPSC Recall List (Nov 2022)**

Recall No.	Notifying Country	Product	Product Photo	Hazard/ Risk	Remedy
23-031	USA	<b>Bolt Foldable Children’s Scooters</b>  (Country of Origin: <b>China</b> )		<b>Poisoning Hazard</b> Anker Play Products Recalls Bolt Foldable Children’s Scooters Due to Violation of Federal Lead Paint Ban; Lead Poisoning Hazard  The paint on the recalled scooters contains levels of lead that exceed the federal lead paint ban, posing a lead poisoning hazard. Lead is toxic if ingested by young children and can cause adverse health issues.	Consumers should immediately take the recalled scooters away from children, stop using them and contact Anker Play Products for a full refund.
23-033	USA	<b>Tangame Busy Houses</b>  (Country of Origin: <b>China</b> )		<b>Poisoning Hazard</b> Tangame Busy Toy Houses Recalled Due to Violation of Federal Lead Paint, Lead Content, and Phthalate Content Bans; Lead Poisoning Hazard and Risk of Phthalate Exposure; Imported by Tangame Toys; Sold Exclusively at Amazon.com  The yellow-painted metal zipper contains levels of lead that exceed the federal lead paint ban, posing a lead poisoning hazard; the orange plastic phone cord contains levels of lead that exceed the federal lead content ban; and the horn’s blue plastic bulb contains a regulated phthalate that exceed the prohibition of specific phthalates. Phthalates and lead are toxic if ingested by young children and can cause adverse health issues.	Consumers should take these recalled toys away from young children immediately and contact Tangame Toys for information on how to dispose the product or components for a full refund.

23-042	USA	<p><b>Mockingbird Single-to-Double Strollers</b></p> <p>(Country of Origin: <b>China</b>)</p>		<p><b>Fall Hazard</b></p> <p>Mockingbird Recalls Single-to-Double Strollers Due to Fall Hazard</p> <p>The lower side of the stroller frame can crack, posing a fall risk to children in the stroller.</p>	<p>Consumers should immediately stop using the recalled Single-to-Double strollers and contact Mockingbird to receive a free frame reinforcement kit, which includes two frame clamps that attach to the sides of the stroller to reinforce the frame. Mockingbird is contacting all known purchasers directly.</p>
23-048	USA	<p><b>Infant's Yellow Footed Fleece Pajamas with Animal Graphic</b></p> <p>(Country of Origin: <b>Cambodia</b>)</p>		<p><b>Puncture And Laceration Hazards</b></p> <p>The William Carter Company Recalls Infant's Yellow Footed Fleece Pajamas with Animal Graphic Due to Puncture and Laceration Hazards</p> <p>Small metal wire pieces can be found in the pajamas, posing puncture and laceration hazards to young children.</p>	<p>Consumers should immediately take the recalled infant footed fleece pajamas away from children and return them to a Carter's store location for a full refund in the form of a gift card. Consumers can also contact Carter's to request a free return label and envelope to return the pajamas for a refund in the form of an electronic gift card.</p>
23-049	USA	<p><b>Rainbow Stacking Toys</b></p> <p>(Country of Origin: <b>China</b>)</p>		<p><b>Choking Hazard</b></p> <p>Children's Rainbow Stacking Toys Recalled Due to Choking Hazard; Manufactured by Professor Puzzle</p> <p>The toy's information sticker can become exposed and detach, posing a choking hazard to young children.</p>	<p>Consumers should immediately take the recalled stacking toys away from children, stop using them and contact Professor Puzzle for instructions on how to remove and dispose of the sticker or to receive a refund of \$20 for the 11-inch toy and \$15 for the 7-inch toy. Consumers will be asked to return the product in a prepaid mailer. Consumers can also return the product to the retail store for a full refund of the purchase price.</p>

23-052	USA	<p><b>Children's clothing sets</b></p> <p>(Country of Origin: <b>Egypt</b>)</p>		<p><b>Poisoning Hazard</b></p> <p>Bentex Recalls Children's Clothing Sets Due to Violation of the Federal Lead Paint and Lead Content Ban; Lead Poisoning Hazard</p> <p>The textile ink painted on the recalled clothing sets contains levels of lead that exceed either the federal lead paint ban or the federal lead content ban, posing a lead poisoning hazard. Lead is toxic if ingested by young children and can cause adverse health issues.</p>	<p>Consumers should immediately take the recalled children's clothing sets away from children and contact Bentex for instructions on how to return or dispose of the recalled clothing to receive a full refund.</p>
23-707	USA	<p><b>Stashables Finger Skateboard Ramp Sets</b></p> <p>(Country of Origin: <b>China</b>)</p>		<p><b>Poisoning Hazard</b></p> <p>BS Interactive Recalls Stashables Children's Ramp Sets Due to Violation of the Federal Lead Paint and Lead Content Ban; Lead Poisoning Hazard (Recall Alert)</p> <p>Surface paint on the miniature skateboard and scooter toys in the ramp sets contain levels of lead that exceed the federal lead paint ban, posing a risk of lead poisoning. The miniature scooter toy also fails to comply with the federal lead content ban. Lead is toxic if ingested by young children and can cause adverse health effects.</p>	<p>Consumers should immediately take the recalled miniature scooters and skateboards away from children and contact BS Interactive to receive free replacement scooters and skateboards, including free shipping. Consumers will be asked to submit a photo of the disposed recalled scooters and skateboards. BS Interactive is contacting all known purchasers directly.</p>

23-711	USA	<p><b>Green Sprouts Stainless Steel Straw Bottles, Sippy Cups and Sip &amp; Straw Cups</b></p> <p>(Country of Origin: <b>China</b>)</p>		<p><b>Poisoning Hazard</b></p> <p>The recalled stainless-steel bottles and cups bottom base can break off, exposing a solder dot that contains lead, posing a lead poisoning hazard to a child. Lead is toxic if ingested by young children, and can cause adverse health effects.</p>	<p>Consumers should immediately take the recalled stainless steel bottles and cups away from children and discard the bottles and cups. Contact Green Sprouts for a full refund in the form of store credit or your money back. Green Sprouts is contacting all known purchasers directly.</p>

## CPSC

The United States Consumer Product Safety Commission (CPSC) is an independent agency of the United States government. To provide better service in alerting the American people to unsafe, hazardous or defective products, a “one stop shop” for U.S. Government recalls, <http://www.recalls.gov>, has been created. Publics can report unsafe products to CPSC by using the platform.

The recall list is divided into seven categories: Consumer Products, Motor Vehicles, Boats, Food, Medicine, Cosmetics and Environmental Products. Generally, the recall was conducted, voluntarily by the company, under CPSC’s Fast Track Recall program. Fast Track recalls are initiated by firms who commit to work with CPSC to quickly announce the recall and remedy to protect consumers.

## Recall Summary – Australia Toys / Children’s Products

**ACCC Recall List (Nov 2022)**

PRA No.	Notifying Country	Product	Product Photo	Hazard/ Risk	Remedy
2022/19612	Australia	<b>4moms mamaRoo Multi-motion Baby Swing 4.0 and rockaRoo Baby Rocker. mamaRoo Models: • 4M-005 • 1026 • 1037 rockaRoo Model 4M-012</b>		<p><b>Strangling Hazard</b></p> <p>When not in use and an infant is not secured in the swing or rocker, the restraint straps may dangle below the seat. This may lead to children becoming tangled in the strap.</p> <p>If a child becomes tangled in the strap, they may be strangled.</p> <p>The defect led to the fatality of a child overseas.</p>	<p>Consumers should register their details with The Amazing Baby Company to receive a free strap fastener that will prevent the straps from extending under the swing or rocker when not in use.</p>
2022/19633	Australia	<b>Tender Leaf Toys Sailaway Boat A solid wood sailboat with two characters</b>		<p><b>Choking Or Suffocation Hazard</b></p> <p>The product does not comply with the mandatory safety standard for toys for children up to and including 36 months of age.</p> <p>The ears may detach from the bunny and create a small part.</p> <p>If the ears come off they may pose a choking or suffocation hazard for young children.</p>	<p>Consumers should immediately remove the bunny only and dispose of it and contact Kaleidoscope to organize a replacement character to be sent to them.</p>

2022/19639	Australia	<p><b>Flavoured juice drinks with speciality designed bottle containing a toy that has unsecured button batteries.</b></p>		<p><b>Choking Hazard</b></p> <p>The product does not comply with the mandatory safety standard for products containing button / coin batteries.</p> <p>The toy watch that comes with the drink does not have a secure button battery compartment that is resistant to being opened by children.</p> <p>If swallowed, a button / coin battery can become stuck in a child's throat and result in catastrophic injuries or death. Inserting button batteries into ears or noses can also lead to significant injuries.</p> <p>Button batteries also pose a choking hazard to young children.</p>	<p>Consumers should immediately stop using the product and keep it out of reach of children. Contact Steel City Beverage Company for a replacement or refund.</p>
2022/19643	Australia	<p><b>Kids Hooded towels with arm openings</b></p>		<p><b>Fire Hazard</b></p> <p>The product does not comply with the labelling requirements of the mandatory safety standard for nightwear for children. The product does not have the required fire hazard label.</p> <p>Due to the loose-fitting nature of the towel, this could pose a fire risk to the wearer if exposed to a heat or flame source.</p>	<p>Consumers should stop using the product and return the product to Kathmandu for a replacement or refund.</p>

2022/19645	Australia	<p><b>3 in 1 Pram Bassinet with Push Chair Set</b> <b>Model number 739</b></p> <p><b>Available in black or grey</b></p>		<p><b>Risk Of Injury To The Child</b></p> <p>The product does not comply with the mandatory safety standard for prams and strollers.</p> <p>The wording of the safety warning label on the tether strap and harness does not meet the requirements of the standard.</p> <p>The product does not have the required safety features, the product may not be used correctly, posing a risk of injury to a child.</p>	-
2022/19648	Australia	<p><b>Wooden baby rattle</b></p>		<p><b>Choking Or Suffocation Hazard</b></p> <p>The rattle does not comply with the size and shape requirements of the mandatory safety standard for toys for children up to and including 36 months of age.</p> <p>The rattle may pose a choking or suffocation hazard for young children, which can lead to severe injury or death.</p>	<p>Consumers should immediately stop using the rattle. Consumers should destroy the product and contact Laser Luxe to arrange a full refund of the rattle.</p>

## Australian Product Safety System

The Australian product safety system is to maximize the safety of good by the cooperation of consumers, businesses and agencies. This policy sets out the principles adopted by the Australian Competition and Consumer Commission (ACCC) for prioritizing and addressing product safety risks.

Under the Australian Consumer Law, a responsible Minister can order a compulsory recall when there are hazards on the products. A voluntary recall could be conducted to remove the product from the marketplace when the suppliers become aware of unsafe or defective products.

The ACCC administers a national recalls system for recalls of specific and general consumer products, and publishes all product recalls on the website <https://www.productsafety.gov.au/recalls>.

STC (Hong Kong Standards and Testing Centre) is a not-for-profit, independent testing, inspection and certification organization. With a global network of ISO/IEC 17025 accredited testing laboratories and nearly 60 years of experience in consumer product testing, we can meet your conformity assessment needs with highly efficient and reliable service. Our testing scope and capabilities related to toys and children's products include but not limited to:
