

Recall Summary – European Toys

EU Safety Gate Alerts (Oct 2023)

Alert No.	Notifying Country	Product	Product Photo	Hazard / Risk	Measures Adopted
A11/00104/23	Ireland	Roller skates as toy (Country of Origin: Vietnam)		Cuts, Injuries The bottom bolt of the skate has a sharp / rough edge which may cause injuries to the user such as lacerations and cuts. The product does not comply with the requirements of the Toy Safety Directive.	Recall of the product from end users
A11/00108/23	Hungary	Toy musical instrument (Country of Origin: China)		Chemical The battery packaging can easily be opened without the use of a tool, making the batteries accessible. A child could swallow the batteries, which can cause damage to their digestive tract. The product does not comply with the requirements of the Toy Safety Directive nor with the European Standard EN 71-1.	Ban on the marketing of the product and any accompanying measures
A11/00109/23	Hungary	Magnetic toy (Country of Origin: China)		Injuries The product can easily break into small parts with a high magnetic flux. If a child swallows them, they could attract one another causing intestinal blockage or perforation. The product does not comply with the requirements of the Toy Safety Directive nor with the European Standard EN 71-1.	Destruction of the product
A11/00111/23	France	Soft toy (Country of Origin: China)		Choking The fibrous stuffing material of the toy is easily accessible due to the weakness of certain seams. A small child may put this stuffing material in their mouth and choke. The product does not comply with the requirements of the Toy Safety Directive nor with the European Standard EN 71-1.	Withdrawal of the product from the market

A11/00112/23	France	Soft toy (Country of Origin: China)		Choking The seams under the arms of the doll are too weak, making the fibrous stuffing material of the toy easily accessible. A small child may put this stuffing material in their mouth and choke on it. The product does not comply with the requirements of the Toy Safety Directive nor with the European Standard EN 71-1.	Withdrawal of the product from the market
A12/02343/23	Poland	Plastic doll (Country of Origin: China)		Chemical The head of the doll has an excessive concentration of di-2-ethylhexyl phthalate (DEHP) (measured value up to 6.6% by weight). This phthalate may harm the health of children, possibly causing damage to their reproductive system. The product does not comply with the REACH Regulation.	Warning consumers of the risks
A12/02349/23	France	Fancy dress (Country of Origin: China)		Burns The product is highly flammable. Children may wear the costume close to an ignition source and the costume may catch fire, resulting in burns. The product does not comply with the requirements of the Toy Safety Directive nor with the European Standards EN 71-1 and EN 71-2.	Removal of this product listing by the online marketplace
A12/02350/23	Ireland	Skateboard as toy (Country of Origin: Vietnam)		Choking The wheel and axle rod can detach, creating small parts. A young child may put them in their mouth and choke. The product does not comply with the requirements of the Toy Safety Directive.	Recall of the product from end users
A12/02351/23	France	Modelling clay (Country of Origin: China)		Chemical The product contains a mixture of the preservatives methylisothiazolinone (MI) and methylchloroisothiazolinone (MCI). Dermal contact with MCI and MI containing products can provoke allergic contact dermatitis to sensitised persons. The product does not comply with the requirements of the Toy Safety Directive nor with the European Standards EN 71-10 and EN 71-11.	Removal of this product listing by the online marketplace

A12/02352/23	The Netherlands	Wooden puzzle (Country of Origin: The Netherlands)		Choking The product can easily break, resulting in small parts. A small child may put them in their mouth and choke. The product does not comply with the requirements of the Toy Safety Directive nor with the European Standard EN 71-1.	Recall of the product from end users
A12/02353/23	France	Finger paint (Country of Origin: China)		Chemical The paint contains a mixture of the preservatives methylisothiazolinone (MI) and methylchloroisothiazolinone (MCI). Dermal contact with MCI and MI containing products can provoke allergic contact dermatitis in sensitised persons. The product does not comply with the requirements of the Toy Safety Directive nor with the European Standards EN 71-10 and EN 71-11.	Removal of this product listing by the online marketplace
A12/02361/23	France	Set of toy vehicles (Country of Origin: China)		Choking Small parts (yellow wheels of the red vehicle) can easily detach. A small child may put them in their mouth and choke. The product does not comply with the requirements of the Toy Safety Directive nor with the European Standard EN 71-1.	Withdrawal of the product from the market
A12/02366/23	France	Balloons (Country of Origin: Spain)		Chemical The rubber of the balloons releases an excessive amount of 4-nitrosomorpholine (NMOR)(measured value up to 0.16 mg/kg). NMOR is a nitrosamine, which may cause cancer through ingestion or dermal exposure. A child could be exposed to it when touching or putting the product in their mouth. The product does not comply with the requirements of the Toy Safety Directive nor with the European Standard EN 71-12.	Withdrawal of the product from the market
A12/02372/23	Slovenia	Plastic toy gun (Country of Origin: China)		Choking The product has small detachable parts (foam projectiles). A child may put them in their mouth and choke. The product does not comply with the requirements of the Toy Safety Directive nor with the European Standard EN 71-1.	Recall of the product from end users

A12/02396/23	France	Soother holder (Country of Origin: France)		Strangulation The soother holder is too long (260 mm), which may lead to strangulation of a child. The product does not comply with the requirements of the General Product Safety Directive nor with the European Standard EN 12586.	Recall of the product from end users
A12/02397/23	France	Toy figurines (Country of Origin: China)		Choking, Suffocation The toy has small parts (attachment of the barrier) which can easily detach. A small child may put them in their mouth and choke. Moreover, the plastic of the packaging is too thin. If a child plays with the packaging, it can cover their mouth and nose, causing the child to suffocate. The product does not comply with the requirements of the Toy Safety Directive nor with the European Standard EN 71-1.	Recall of the product from end users
A12/02405/23	Slovenia	Rattle toy (Country of Origin: China)		Choking Small rubber parts of the rattle can easily detach. A child may put them in their mouth and choke. The product does not comply with the requirements of the Toy Safety Directive nor with the European Standard EN 71-1.	Recall of the product from end users
A12/02407/23	Lithuania	Soft plastic toy (Country of Origin: China)		Chemical The plastic material of the product has an excessive concentration of di-'isononyl' phthalate (DINP), di-'isodecyl' phthalate (DIDP) and di-n-octyl phthalate (DNOP) (measured values up to 0.2% and 10.9% by weight, respectively). These phthalates may harm the health of children, possibly causing damage to their reproductive system and liver. The product does not comply with the REACH Regulation.	Withdrawal of the product from the market

A12/02419/23	France	Plastic rings toy (Country of Origin: China)		Cuts, Injuries The accessible sharp point on the edge of one of the green rings may cause injuries to the user, such as lacerations and cuts. The product does not comply with the requirements of the Toy Safety Directive nor with the European Standard EN 71-1.	Recall of the product from end users
A12/02426/23	Sweden	Plastic ball (Country of Origin: China)		Environment The solders in the product have an excessive concentration of lead (measured value up to 81.1% by weight). Lead poses a risk to the environment. The product does not comply with the requirements of the Directive on the restriction of the use of certain hazardous substances in electrical and electronic equipment (RoHS 2 Directive).	Withdrawal of the product from the market
A12/02434/23	Malta	Play dough (Country of Origin: Malta)		Choking The product can easily break, resulting in small parts. A small child may put them in their mouth and choke. The product does not comply with the requirements of the Toy Safety Directive nor with the European Standard EN 71-1.	Withdrawal of the product from the market
A12/02442/23	Slovenia	Soft toy with suction cup (Country of Origin: China)		Choking The suction cup of the soft toy detaches easily. A child can put it in their mouth and choke. The product does not comply with the Toy Safety Directive nor with the European Standard EN 71-1.	Recall of the product from end users
A12/02476/23	Sweden	Remote controlled car (Country of Origin: China)		Environment The solders in the product have an excessive concentration of lead (measured value up to 86.4% by weight). Lead poses a risk to the environment. The product does not comply with the requirements of the Directive on the restriction of the use of certain hazardous substances in electrical and electronic equipment (RoHS 2 Directive).	Withdrawal of the product from the market

A12/02495/23	Ireland	Rattle toy (Country of Origin: Ireland)		Choking The bottom part of the handle of the rattle may become detached and release small parts which a child may put in their mouth and choke on. The product does not comply with the requirements of the Toy Safety Directive nor with the European Standard EN 71-1.	Recall of the product from end users
A12/02496/23	Ireland	Rattle toy (Country of Origin: China)		Choking The bottom part of the handle of the rattle can become detached, releasing small parts which a small child may put in their mouth and choke on. The product does not comply with the requirements of the Toy Safety Directive nor with the European Standard EN 71-1.	Withdrawal of the product from the market
A12/02497/23	Lithuania	Rattle toy (Country of Origin: China)		Choking The toy has small parts (swan beak, button, cover). A small child may put them in their mouth and choke. The product does not comply with the requirements of the Toy Safety Directive nor with the European Standard EN 71-1.	Withdrawal of the product from the market
A12/02498/23	Poland	Plastic doll (Country of Origin: China)		Chemical The head of the doll has an excessive concentration of di-2-ethylhexyl phthalate (DEHP) (measured value up to 20.6% by weight). This phthalate may harm the health of children, possibly causing damage to their reproductive system. The product does not comply with the REACH Regulation.	Warning consumers of the risks
A12/02499/23	Finland	Key ring with soft toy (Country of Origin: China)		Choking Small parts (metal keyrings and the plastic nose of the plush toy) detach too easily. A small child may put them in their mouth and choke. The product does not comply with the requirements of the Toy Safety Directive nor with the European Standard EN 71-1.	Import rejected at border

A12/02501/23	Lithuania	Toy slime (Country of Origin: China)		Chemical The migration of boron from the toy slime is too high (measured value up to 922 mg/kg). Ingestion or contact with an excessive quantity of boron may harm the health of children by damaging their reproductive system. The product does not comply with the requirements of the Toy Safety Directive nor with the European Standard EN 71-3.	Withdrawal of the product from the market
A12/02511/23	Slovenia	Soft toy (Country of Origin: China)		Chemical, Choking, Strangulation Small parts (nose and suction cup) can easily detach. A small child may put them in their mouth and choke. The product also poses a risk of strangulation due to the presence of a ribbon intended to be tied at the neck area. Moreover the product has an excessive concentration of di-2-ethylhexyl phthalate (DEHP) (measured value up to 26.6% by weight). This phthalate may harm the health of children, possibly causing damage to their reproductive system. The product neither complies with the REACH Regulation, nor with the requirements of the Toy Safety Directive nor with the European Standard EN 71-1.	Recall of the product from end users
A12/02517/23	Lithuania	Plastic doll (Country of Origin: China)		Chemical The product has an excessive concentration of di-2-ethylhexyl phthalate (DEHP) (measured value up to 17.6% by weight). This phthalate may harm the health of children, possibly causing damage to their reproductive system. The product does not comply with the REACH Regulation.	Withdrawal of the product from the market
A12/02518/23	Lithuania	Plastic doll (Country of Origin: China)		Chemical The product has an excessive concentration of di-2-ethylhexyl phthalate (DEHP) (measured value up to 26.1% by weight). This phthalate may harm the health of children, possibly causing damage to their reproductive system. The product does not comply with the REACH Regulation	Withdrawal of the product from the market

A12/02519/23	Lithuania	Wooden car toy (Country of Origin: China)		Choking The toy has small parts (clown's nose, head, collar and the metal ball of the hat) which can easily detach. A small child may put them in their mouth and choke. The product does not comply with the requirements of the Toy Safety Directive nor with the European Standard EN 71-1.	Withdrawal of the product from the market
A12/02520/23	Lithuania	Plastic doll (Country of Origin: China)		Chemical The plastic material of the doll contains an excessive concentration of di-n-octyl phthalate (DNOP) (measured value up to 6.1% by weight), di-'isononyl' phthalate (DINP) (measured value up to 0.02% by weight). These phthalates may harm the health of children, possibly causing damage to their reproductive system. The product does not comply with the REACH Regulation	Withdrawal of the product from the market
A12/02521/23	Lithuania	Plastic doll (Country of Origin: China)		Chemical The plastic material of the doll contains an excessive concentration of bis(2-ethylhexyl) phthalate (DEHP) (measured value up to 20.2% by weight) and dibutyl phthalate (DBP) (measured value up to 0.01% by weight). These phthalates may harm the health of children, possibly causing damage to their reproductive system. The product does not comply with the REACH Regulation	Withdrawal of the product from the market
A12/02535/23	Finland	Soother holder (Country of Origin: China)		Choking The soother holders have silicone parts which can break and create small parts. A small child may put them in their mouth and choke. The product does not comply with the requirements of the General Product Safety Directive nor with European Standard EN 12586.	Recall of the product from end users

A12/02555/23	Romania	Yoyo puffer ball (Country of Origin: China)		Strangulation The toy can stretch too long. A child could swing the toy around their head and twist it around their neck, causing strangulation. The product does not comply with the requirements of the Toy Safety Directive nor with the European Standard EN 71-1.	Ban on the marketing of the product and any accompanying measures
A12/02562/23	Ireland	Sleeping bag (Country of Origin: China)		Overheating This infant sleeping bag has an insulation rate corresponding to 5 TOG and can cause a baby to overheat, resulting in a fatality. The product does not comply with the requirements of the General Product Safety Directive nor with the European Standard EN 16781.	Removal of this product listing by the online marketplace
A12/02564/23	Romania	Yoyo puffer ball (Country of Origin: China)		Strangulation The toy can stretch too long. A child could swing the toy around their head and twist it around their neck, causing strangulation. The product does not comply with the requirements of the Toy Safety Directive nor with the European Standard EN 71-1.	Ban on the marketing of the product and any accompanying measures
A12/02570/23	France	Finger paint kit (Country of Origin: Estonia)		Chemical The orange paint contains formaldehyde (measured value up to 0.25% by weight). Formaldehyde is a skin sensitizer and can trigger allergic reactions and may cause cancer. The product does not comply with the requirements of the Toy Safety Directive nor with the European Standard EN-71-1.	Removal of this product listing by the online marketplace
A12/02579/23	Ireland	Sleeping bag (Country of Origin: China)		Overheating This infant sleeping bag has an insulation rate corresponding to 5 TOG and can cause a baby to overheat, resulting in a fatality. The product does not comply with the requirements of the General Product Safety Directive nor with the European Standard EN 16781.	Removal of this product listing by the online marketplace

A12/02585/23	The Netherlands	Toy birthday cake (Country of Origin: Unknown)		Choking The toy has small parts (imitation flame of the candles) which can easily detach. A small child may put them in their mouth and choke. The product does not comply with the requirements of the Toy Safety Directive and the relevant European Standard EN 71-1.	Recall of the product from end users
A12/02594/23	France	Fancy-dress costume (Country of Origin: China)		Chemical The blue tulle fabric has an excessive concentration of formaldehyde (measured value up to 0.013%). Formaldehyde is a skin sensitiser and can trigger allergic reactions and may cause cancer. The product does not comply with the REACH Regulation.	Recall of the product from end users
A12/02600/23	France	Teething ring (Country of Origin: China)		Choking The blue plastic loop can easily break generating small parts. A small child may put them in their mouth and choke. The product does not comply with the requirements of the Toy Safety Directive nor with the European Standard EN 71-1.	Withdrawal of the product from the market
A12/02601/23	France	Toy car (Country of Origin: China)		Chemical, Choking The battery compartment is easily opened without the use of tools and the bodywork breaks easily, making the button cell batteries accessible. A child could put the batteries in their mouth and choke and the batteries can also cause damage to their digestive tract if they are swallowed. The product does not comply with the requirements of the Toy Safety Directive nor with the European Standard EN 62115.	Removal of this product listing by the online marketplace
A12/02602/23	France	Toy rattle (Country of Origin: Vietnam)		Choking The handle of the rattle toy is too long and if a child puts it in the mouth, it can obstruct their airway and cause choking. The product does not comply with the requirements of the Toy Safety Directive nor with the European Standard EN 71-1.	Withdrawal of the product from the market

INFO/00124/23	Malta	Baby stroller (Country of Origin: China)		Injuries Due to breakage of the rivet, a child's fingers can be crushed between the bars, and the stroller can collapse while conveying the child, which may cause injuries. The product does not comply with the requirements of the General Product Safety Directive nor with the European Standard EN 1888-1.	Withdrawal of the product from the market

Safety Gate: the EU rapid alert system for dangerous non-food products

“Safety Gate”, the EU rapid alert system (formerly known as ‘RAPEX’), enables the rapid exchange of information between **31 European countries** and the European Commission on non- food dangerous products found on the market posing a risk to the health and safety of consumers.

A weekly overview of the alerts on those products is published in English for free on <https://ec.europa.eu/safety-gate-alerts/screen/webReport#weeklyReports>. The measures taken in the notifying country in order to restrict such products’ marketing or use can be ordered by national authorities ("compulsory measures") or be taken directly by producers and distributors ("voluntary measures").

The official contact points of the Member and EFTA-EEA States provide the information published in these weekly overviews. Under the terms of Annex II.10 of the General Product Safety Directive (**2001/95/EC**) responsibility for the information provided lies with the notifying party. The Commission does not take any responsibility for the accuracy of the information provided.

Recall Summary – US Toys / Children’s Products

CPSC Recall List (Oct 2023)

Recall No.	Notifying Country	Product	Product Photo	Hazard / Risk	Remedy
24-001	USA	Slime Licker Sour Rolling Liquid Candy (Country of Origin: Spain, Colombia)		Choking Hazard Candy Dynamics Recalls 70 Million Slime Licker Sour Rolling Liquid Candies Due to Choking Hazard The candy’s rolling ball can detach from the product’s container into a child’s mouth, posing a choking hazard for consumers.	Consumers should immediately stop using the recalled Slime Licker Sour Rolling Liquid Candy, take it away from children and contact Candy Dynamics for a full refund of the product that is not empty of liquid candy. CPSC

The United States Consumer Product Safety Commission (CPSC) is an independent agency of the United States government. To provide better service in alerting the American people to unsafe, hazardous or defective products, a "one stop shop" for U.S. Government recalls, <http://www.recalls.gov>, has been created. Members of the public may report unsafe products to CPSC by using the platform.

The recall list is divided into seven categories: Consumer Products, Motor Vehicles, Boats, Food, Medicine, Cosmetics and Environmental Products. Generally, the recall is conducted voluntarily by the company under CPSC's Fast Track Recall program. Fast Track recalls are initiated by firms who are committed to working with CPSC to quickly announce the recall and remedy to protect consumers.

Recall Summary – Australia Toys / Children’s Products

ACCC Recall List (Oct 2023)

PRA No.	Notifying Country	Product / Description	Product Photo	Hazard / Risk	Remedy
2023/19892	Australia	Wooden activity play table SKU: J04402 Batch numbers: 10615, 10799, 10887, 11107		Choking Hazard Recalled batches of this product do not comply with the mandatory standard for toys for children up to and including 36 months of age. A bell may detach from the product while it is in use. There is a risk of choking, suffocation or death to young children if the bell detaches from the table while in use.	Consumers should stop using the activity table immediately and check if they have a product from one of the recalled batches. Consumers with recalled products should contact Bright Wonders on 08 7425 1406 or send an email to recall@janod.com.au to request a free replacement bell kit.
2023/19935	Australia	The affected products are children’s books bound together with plastic rings. The front of the affected products displays the Rainbow Road logo.		Choking Hazard The circular binding rings for the books can be torn free. If the binding rings are torn free, they can become small parts which can cause a choking hazard.	Consumers should check the ISBN numbers listed above. The ISBN numbers are printed on the back cover, just above the barcode, and on the back of the Book Box (gift box). If their product is affected, immediately stop using it and visit https://www.recallrtr.com/rr to register for a refund or email rr@realtimeresults.net for more information.

Australian Product Safety System

The Australian product safety system is set up to maximize the safety of good by the cooperation of consumers, businesses and agencies. This policy sets out the principles adopted by the Australian Competition and Consumer Commission (ACCC) for prioritizing and addressing product safety risks.

Under the Australian Consumer Law, a responsible Minister can order a compulsory recall when there are hazards on the products. A voluntary recall could be conducted to remove the product from the marketplace when the suppliers become aware of unsafe or defective products.

The ACCC administers a national recalls system for recalls of specific and general consumer products, and publishes all product recalls on the website <https://www.productsafety.gov.au/recalls>.

STC (Hong Kong Standards and Testing Centre) is a not-for-profit, independent testing, inspection and certification organization. With a global network of ISO/IEC 17025 accredited testing laboratories and 60 years of experience in consumer product testing, we can meet your conformity assessment needs with our highly efficient and reliable service. Our testing scope and capabilities related to toys and children's products include inter alia the following:

EU Requirements

- EN 71
- Phthalates (EC) no. 1907/2006
- Nickel Release (EC) no. 1907/2006
- Total Cadmium (EEC) no. 91/338
- Lead in Jewellery product (EC) no. 836/2012
- Azo-dye (EC) no. 1907/2006
- Bisphenol-A (2014/81/EU)
- DMF (Dimethyl fumarate) (EU) no. 2011/135
- Flame retardants TCEP, TCPP, TDCP (2014/79/EU)
- Package Waste Directive (94/62/EC)

US & Canada Requirements

- ASTM F963
- CPSIA
- California Proposition 65
- 16 CFR 1501
- ASTM F2923 (Children's jewellery)
- ASTM F2999 (Adult's jewellery)
- US Toxic in Packaging Clearinghouse (TPCH)
- CCPSA - Toys Regulations (SOR/2011-17)

Japan Requirements

- Japan Toy Safety Standard (ST)
- Japan Food Sanitation Law (JFSL)

Australia Requirements

- AS/NZS 8124
- Consumer Protection Notice No. 6 of 2010 - DEHP
