

Recall Summary – European Toys

EU Safety Gate Alerts (Mar 2024)

Alert No.	Notifying Country	Product	Product Photo	Hazard / Risk	Measures Adopted
A11/00019/24	Lithuania	Plastic toy (Country of Origin: China)		Suffocation The plastic bag of the packaging is too thin. If a child plays with the packaging, the plastic could cover their mouth and nose, causing the child to suffocate. The product does not comply with the requirements of the Toy Safety Directive.	Withdrawal of the product from the market
A11/00025/24	France	Soft toy (Country of Origin: Unknown)		Burns, Fire The product is easily flammable and may catch fire. The product does not comply with the requirements of the Toy Safety Directive nor with the European standard EN 71-2.	Recall of the product from end users
A11/00026/24	France	Soft toy (Country of Origin: China)		Choking The seam on the hat allows access to the stuffing material. A child may put it in their mouth and choke. The product does not comply with the requirements of the Toy Safety Directive nor with the European standard EN 71-1.	Recall of the product from end users
A11/00031/24	Poland	Soft toy (Country of Origin: China)		Choking The fibrous stuffing material of the toy is easily accessible due to the zipper. A small child may put the filling material in their mouth and choke. The product does not comply with the requirements of the Toy Safety Directive and the relevant European standard EN 71-1.	Withdrawal of the product from the market
A11/00037/24	France	Toy gun (Country of Origin: China)		Damage to sight The presence of burrs or protuberances on the plastic bullets increases the risk of eye injury if a child is struck in the eye by one. The product does not comply with the requirements of the Toy Safety Directive nor with the European standard EN 71-1.	Recall of the product from end users

A11/00040/24	Poland	Soft toy (Country of Origin: China)		Choking The fibrous stuffing material of the toy is easily accessible due to the zipper. A small child may put the filling material in their mouth and choke. The product does not comply with the requirements of the Toy Safety Directive nor with the European standard EN 71-1.	Withdrawal of the product from the market
A12/00471/24	France	Soother (Country of Origin: China)		Chemical The soother releases bisphenol A. Bisphenol A has endocrine disrupting properties and affects the mammary glands, reproductive and immune systems and may impair the brain's development and behaviour. This product does not comply with the requirements of the General Product Safety Directive.	Removal of this product listing by the online marketplace
A12/00481/24	Poland	Toy remote control (Country of Origin: China)		Environment The product has an excessive concentration of lead (measured value up to 51.3% by weight). Lead poses a risk to the environment. The product does not comply with the requirements of the Directive on the restriction of the use of certain hazardous substances in electrical and electronic equipment (RoHS 2 Directive).	Withdrawal of the product from the market
A12/00482/24	Poland	Duck toy (Country of Origin: China)		Environment The product has an excessive concentration of lead (measured value up to 67.54% by weight). Lead poses a risk to the environment. The product does not comply with the requirements of the Directive on the restriction of the use of certain hazardous substances in electrical and electronic equipment (RoHS 2 Directive).	Warning consumers of the risks
A12/00489/24	Poland	Toy make-up set (Country of Origin: China)		Chemical The toy has an excessive amount of aluminium (measured value up to 9172 mg/kg) and copper (measured value up to 960 mg/kg). Aluminium is toxic to children if ingested. Copper can cause liver and kidney damage and might affect fertility. The product does not comply with the requirements of the Toy Safety Directive nor with the European standard EN 71-3.	Warning consumers of the risks

A12/00490/24	France	Plastic doll (Country of Origin: France)		Chemical, Choking The button batteries are directly accessible, which means that a child can put them in their mouth and choke. In addition, ingested batteries can damage the digestive tract. The product does not comply with the requirements of the Toy Safety Directive nor with the European standard EN 62115.	Withdrawal of the product from the market
A12/00493/24	France	Soft toy (Country of Origin: China)		Choking The left eye of the toy may detach. A child could put it in their mouth and choke. The product does not comply with the requirements of the Toy Safety Directive nor with European standard 71-1.	Recall of the product from end users
A12/00495/24	The Netherlands	Plastic playpen (Country of Origin: China)		Injuries, Strangulation The presence of holes in the panels may allow children to climb on top of the fence and fall over the edge, leading to a risk of injury. Clothes or objects, especially if they are attached to cords, can be caught in the protruding parts of the product, increasing the risk of strangulation. The product does not comply with the requirements of the General Product Safety Directive nor with the European standards EN 12227 and EN 1930.	Recall of the product from end users
A12/00512/24	France	Finger-paint inkpad (Country of Origin: Unknown)		Chemical, Choking The product has excessive concentrations of methylisothiazolinone (MI) and methylchloroisothiazolinone (MCI) (measured values up to 0.25 mg/kg and 0.75 mg/kg, respectively). MI and MCI are strong sensitizers and can provoke allergic contact dermatitis in sensitised persons. Moreover, the foam of the ink pad tears easily; a small child may put the foam in their mouth and choke. The product does not comply with the requirements of the Toy Safety Directive nor with the European standard EN 71-7.	Removal of this product listing by the online marketplace

A12/00513/24	Hungary	Plastic doll (Country of Origin: China)		Chemical The doll contains an excessive amount of di-2-ethylhexyl phthalate (DEHP), dibutyl phthalate (DBP) and diisobutyl phthalate (DIBP) (measured values up to 32%, 1.8% and 0.38% by weight, respectively). These phthalates may harm the health of children, causing possible damage to their reproductive system. The product does not comply with the REACH Regulation.	Withdrawal of the product from the market
A12/00514/24	Hungary	Plastic doll (Country of Origin: China)		Chemical The plastic material of the product has an excessive concentration of bis(2-ethylhexyl) phthalate (DEHP) (measured value up to 34% by weight). This phthalate may harm the health of children, causing possible damage to their reproductive system. The product does not comply with the REACH Regulation.	Withdrawal of the product from the market
A12/00516/24	France	Balloons (Country of Origin: China)		Chemical The rubber of both the dark and light pink balloons releases an excessive amount of nitrosatable substances (NDMA) (measured value up to 4.65 mg/kg and 6.48mg/kg respectively). This nitrosamine may cause cancer through ingestion or dermal exposure. A child could be exposed to it when touching or putting the product in their mouth. The product does not comply with the requirements of the Toy Safety Directive nor with the European standard EN 71-12.	Recall of the product from end users
A12/00517/24	France	Balloons (Country of Origin: China)		Chemical The rubber of the balloons releases an excessive amount of nitrosatable substances (NDMA) (measured value up to 6.63 mg/kg). This nitrosamine may cause cancer through ingestion or dermal exposure. A child could be exposed to it when touching or putting the product in their mouth. The product does not comply with the requirements of the Toy Safety Directive nor with the European standard EN 71-12.	Recall of the product from end users

A12/00518/24	Poland	Toy fishing game (Country of Origin: China)		Choking, Injuries The product contains an easy detachable small part (rod hook) with a high magnetic flux. Small children may put it in their mouth and choke. Additionally, if a child swallows the small magnet and other metallic objects, they could attract one another causing intestinal blockage or perforation. The product does not comply with the requirements of the Toy Safety Directive nor with the European standard EN 71-1.	Destruction of the product
A12/00519/24	Czechia	Toy tank (Country of Origin: Unknown)		Environment The solders in the product have an excessive concentration of lead (measured value up to 72% by weight). Lead poses a risk to the environment. The product does not comply with the requirements of the Directive on the restriction of the use of certain hazardous substances in electrical and electronic equipment (RoHS 2 Directive).	Withdrawal of the product from the market
A12/00522/24	Estonia	Toy train (Country of Origin: China)		Choking The toy fishes and worms are small parts. Small children may put them in their mouth and choke. The product does not comply with the requirements of the Toy Safety Directive nor with the European standard EN 71-1.	Recall of the product from end users
A12/00535/24	Latvia	Magnetic toy (Country of Origin: China)		Choking, Injuries The toy is made of small parts (balls) with a high magnetic flux. A child may put them in their mouth, which may lead to choking, or if swallowed, they could attract one another, causing intestinal blockage or perforation. The product does not comply with the requirements of the Toy Safety Directive nor with the European standard EN 71-1.	Destruction of the product

A12/00557/24	Italy	Slime toy (Country of Origin: China)		Chemical The migration of boron from the toy slime is too high (measured value up to 440 mg/kg). Ingestion or contact with an excessive quantity of boron may harm the health of children by damaging their reproductive system. The product does not comply with the requirements of the Toy Safety Directive nor with the European standard EN 71-3.	Ban on the marketing of the product and any accompanying measures
A12/00569/24	France	Fishing toy (Country of Origin: China)		Choking, Injuries The toy has small parts (magnets) that can easily detach. A child may put them in their mouth and ingest them, which may lead to choking if they enter the airways. If several magnets are swallowed, they could attract one another causing intestinal blockage or perforation. The product does not comply with the requirements of the Toy Safety Directive nor with the European standard EN 71-1.	Removal of this product listing by the online marketplace
A12/00570/24	France	Soft toy with keyring (Country of Origin: Unknown)		Choking A small part (metal ring) may easily detach from the product. The seam allows access to the stuffing material. A small child may put them in their mouth and choke. The product does not comply with the requirements of the Toy Safety Directive nor with the European standard EN 71-1.	Withdrawal of the product from the market
A12/00576/24	Poland	Remote controlled toy (Country of Origin: China)		Burns, Fire The toy may overheat and could cause burns or a fire. The product does not comply with the requirements of the Toy Safety Directive nor with the European standard EN 71-1.	Withdrawal of the product from the market
A12/00577/24	Poland	Toy car (Country of Origin: China)		Environment The product has an excessive concentration of lead (measured value up to 72.4% by weight). Lead poses a risk to the environment. The product does not comply with the requirements of the Directive on the restriction of the use of certain hazardous substances in electrical and electronic equipment (RoHS 2 Directive).	Withdrawal of the product from the market

A12/00581/24	Germany	Ball (Country of Origin: China)		Chemical The plastic material of the product has an excessive concentration of diisobutyl phthalate (DIBP) (measured value up to 46g / 100g). This phthalate may harm the health of children, causing possible damage to their reproductive system. The product does not comply with the REACH Regulation.	Stopping of sales
A12/00582/24	France	LED mask (Country of Origin: China)		Chemical, Choking The battery compartment can easily be opened without the use of tools, which make the button cells inside accessible to children. A child could put the batteries in their mouth, which could cause choking and damage to the digestive tract if they are swallowed. The product does not comply with the requirements of the Toy Safety Directive nor with the European standard EN 62115.	Recall of the product from end users
A12/00584/24	France	Caterpillar toy (Country of Origin: China)		Choking The product has small parts (caterpillar's tail). A small child may put them in their mouth and choke. The product does not comply with the requirements of the Toy Safety Directive nor with the European standard EN 71-1.	Withdrawal of the product from the market
A12/00585/24	France	Finger painting kit (Country of Origin: China)		Chemical, Choking The product contains methylisothiazolinone (MI) and methylchloroisothiazolinone (MCI). MI and MCI are strong sensitizers and can provoke allergic contact dermatitis in sensitized persons. Moreover, the foam of the ink pads and the plastic covers tears easily. A small child may put them in their mouth and choke. The product does not comply with the requirements of the Toy Safety Directive nor with the European standard EN 71-7.	Removal of this product listing by the online marketplace
A12/00599/24	The Netherlands	Activity panel toy (Country of Origin: China)		Choking Small parts of the toy (wooden antenna) can easily detach. A small child can put it in their mouth and choke. The product does not comply with the requirements of the Toy Safety Directive nor with the European standard EN 71-1.	Recall of the product from end users

A12/00600/24	Poland	Plastic doll (Country of Origin: China)		Chemical The plastic material of the product has an excessive concentration of bis(2-ethylhexyl) phthalate (DEHP) (measured value up to 32.2% by weight). This phthalate may harm the health of children, causing possible damage to their reproductive system. The product does not comply with the REACH Regulation.	Warning consumers of the risks
A12/00601/24	Poland	Toy gun set (Country of Origin: China)		Choking The suction cups of the projectiles can easily detach. A small child could put them in their mouth and choke. The product does not comply with the requirements of the Toy Safety Directive nor with the European standard EN 71-1.	Withdrawal of the product from the market
A12/00610/24	France	Soft toy (Country of Origin: China)		Chemical, Choking The material of the toy has an excessive concentration of Chromium (VI) (measured value up to 0.59 mg/kg). Chromium (VI) is sensitising, can trigger allergic reactions and can cause cancer. The product releases an excessive amount of formaldehyde (measured value up to 47 mg/kg). Formaldehyde is a skin sensitizer and can trigger allergic reactions and may cause cancer. The zipper allows access to the stuffing material. A child may put it in their mouth and choke. The product does not comply with the requirements of the Toy Safety Directive nor with the European standards EN 71-1 and EN 71-3.	Recall of the product from end users
A12/00616/24	France	Toy pushchair (Country of Origin: China)		Entrapment, Injuries, Suffocation The tubes of the toy pushchair's structure are not strong enough. If a child sits in the pushchair, it can collapse, leading to a risk of entrapment and/or injuries to the child's fingers. The non-permeable plastic bag is not thick enough, and if a child puts their head inside, they can suffocate. The product does not comply with the requirements of the Toy Safety Directive nor with the European standard EN 71-1.	Recall of the product from end users

A12/00651/24	Ireland	Toy tractor and trailer (Country of Origin: China)		Choking The toy has small parts (hay bale and front wheels of the trailer) that are easily detachable. Small children may put them in their mouth and choke. The product does not comply with the requirements of the Toy Safety Directive nor with the European standard EN 71-1.	Recall of the product from end users
A12/00669/24	France	LED torch projector (Country of Origin: China)		Chemical, Choking, Damage to sight The button batteries may fall out of the compartment and be swallowed by a child, which could cause choking. The white LED emits excessive light and may damage a child's eyesight. The product does not comply with the requirements of the Toy Safety Directive nor with the European standard EN 6215.	Recall of the product from end users
A12/00678/24	Poland	Toy police set (Country of Origin: China)		Choking, Damage to sight, Injuries The suction cups of the projectiles can easily detach. A child could put one in their mouth and choke. Shooting the projectile without the suction cup can cause injuries to eyes. The product does not comply with the requirements of the Toy Safety Directive nor with the European standard EN 71-1.	Withdrawal of the product from the market
A12/00688/24	Czechia	Plastic doll (Country of Origin: China)		Chemical, Choking The toy contains an excessive amount of bis (2-ethylhexyl) phthalate (DEHP) (measured value up to 36.3% by weight). This phthalate may harm the health of children, possibly causing damage to their reproductive system. Small parts (glasses, clips) can easily detach from the toy. A small child may put them in their mouth and choke. The product does not comply with the REACH Regulation. The product does not comply with the requirements of the Toy Safety Directive nor with the European standard EN 71-1.	Withdrawal of the product from the market

A12/00689/24	France	<p>Keyring with soft toy</p> <p>(Country of Origin: China)</p>		<p>Choking</p> <p>Small parts (stitches at the back) may easily detach from the product. The seam allows access to the stuffing material. A small child may put them in their mouth and choke. The product does not comply with the requirements of the Toy Safety Directive nor with the European standard EN 71-1.</p>	<p>Withdrawal of the product from the market</p>
A12/00691/24	Poland	<p>Electric toy</p> <p>(Country of Origin: China)</p>		<p>Environment</p> <p>The electronic components of the product have an excessive concentration of lead (measured value up to 11.06% by weight). Lead poses a risk to the environment. The product does not comply with the requirements of the Directive on the restriction of the use of certain hazardous substances in electrical and electronic equipment (RoHS 2 Directive).</p>	<p>Withdrawal of the product from the market</p>
A12/00693/24	Poland	<p>Electric toy</p> <p>(Country of Origin: China)</p>		<p>Environment</p> <p>The electronic components of the product have an excessive concentration of lead (measured value up to 81.3% by weight). Lead poses a risk to the environment. The product does not comply with the requirements of the Directive on the restriction of the use of certain hazardous substances in electrical and electronic equipment (RoHS 2 Directive).</p>	<p>Withdrawal of the product from the market</p>
A12/00699/24	France	<p>Toy elephant</p> <p>(Country of Origin: India)</p>		<p>Chemical</p> <p>The white plastic of the outer blue foam releases an excessive amount of N-nitrosatable substances (measured value up to 6.47 mg/kg). Nitrosatable compounds can be converted into nitrosamines, which may cause cancer through ingestion or dermal exposure. A child could be exposed to them when touching or putting their product in the mouth. The product does not comply with the requirements of the Toy Safety Directive nor with the European standard EN 71-12.</p>	<p>Withdrawal of the product from the market</p>

A12/00700/24	Denmark	<p>Hammer bench toy</p> <p>(Country of Origin: China)</p>		<p>Choking</p> <p>Certain parts of the toy (pieces of wood) can detach from the toy when dropped. Small children may put them in their mouth and choke. The product does not comply with the requirements of the Toy Safety Directive nor with the European standard EN 71-1.</p>	Recall of the product from end users
A12/00702/24	Germany	<p>Climbing tower with slide</p> <p>(Country of Origin: Slovenia)</p>		<p>Entrapment, Injuries, Strangulation</p> <p>Children's fingers can be entrapped in the holes drilled into the frame, and their head and neck can be entrapped in the climbing-net mesh and they may fall. This increases the risk of strangulation. Moreover, the climbing frame is not stable, a child can fall and suffer injuries. The product does not comply with the requirements of the General Product Safety Directive nor with the European standards EN 71-8.</p>	Removal of this product listing by the online marketplace
A12/00714/24	Ireland	<p>Baby soother holder</p> <p>(Country of Origin: Unknown)</p>		<p>Choking, Strangulation</p> <p>The product has small detachable parts (beads and poppers), which the child can easily access, put in their mouth and choke on. In addition, the soother holder is too long and may lead to strangulation of a child. The product does not comply with the requirements of the General Product Safety Directive and the Toy Safety Directive, nor with the European standards EN 12586 and EN 71-1.</p>	Withdrawal of the product from the market
A12/00715/24	Ireland	<p>Baby soother holder</p> <p>(Country of Origin: Ireland)</p>		<p>Choking, Strangulation</p> <p>The product has protruding detachable parts without any ventilation holes, which the child can easily access, put in their mouth and choke on. In addition, the soother holder is too long and may lead to strangulation of a child. The product does not comply with the requirements of the General Product Safety Directive nor with the European standard EN 12586.</p>	Recall of the product from end users

A12/00716/24	Denmark	Toy sword with battery (Country of Origin: China)		Choking The toy has small parts (plastic handle surrounding the batteries) that are easily detachable. Small children may put them in their mouth and choke. The product does not comply with the requirements of the Toy Safety Directive nor with the European standard EN 71-1.	Recall of the product from end users
A12/00718/24	France	Magnetic building set toy (Country of Origin: China)		Choking The toy has small parts (small metal balls). Small children may put them in their mouth and choke. The product does not comply with the requirements of the Toy Safety Directive nor with the European standard EN 71-1.	Removal of this product listing by the online marketplace
A12/00723/24	France	Toy crossbow (Country of Origin: China)		Choking, Injuries The suction cups of the arrows can easily detach. A small child could put them in their mouth and choke. The projectiles have unrounded edges once their resilient parts (suction cups) have become detached, which may cause injury. The product does not comply with the requirements of the Toy Safety Directive, nor with standard EN 71-1.	Withdrawal of the product from the market
A12/00730/24	Czechia	Toy car (Country of Origin: China)		Environment The solders in the product have an excessive concentration of lead (measured value up to 68.9% by weight). Lead poses a risk to the environment. The product does not comply with the requirements of the Directive on the restriction of the use of certain hazardous substances in electrical and electronic equipment (RoHS 2 Directive).	Withdrawal of the product from the market
A12/00731/24	Czechia	Toy microphone with stand (Country of Origin: China)		Environment The solders in the product have an excessive concentration of lead and cadmium (measured value up to 71.3% and 0.25% by weight respectively). Lead and Cadmium pose a risk to the environment. The product does not comply with the requirements of the Directive on the restriction of the use of certain hazardous substances in electrical and electronic equipment (RoHS 2 Directive).	Withdrawal of the product from the market

A12/00736/24	Poland	Toy gun (Country of Origin: China)		Environment The electronic components of the product contain an excessive amount of lead and cadmium (measured values up to 25% and 18.5% by weight respectively). Lead and cadmium pose a risk to the environment. The product does not comply with the requirements of the Directive on the restriction of the use of certain hazardous substances in electrical and electronic equipment (RoHS 2 Directive).	Withdrawal of the product from the market
A12/00739/24	Poland	Electric toy (Country of Origin: China)		Environment The electronic components of the product have an excessive concentration of lead (measured value up to 84.9% by weight). Lead poses a risk to the environment. The product does not comply with the requirements of the Directive on the restriction of the use of certain hazardous substances in electrical and electronic equipment (RoHS 2 Directive).	Warning consumers of the risks
A12/00741/24	France	Fancy-dress hat (Country of Origin: China)		Burns, Fire The loose element of the hat is easily flammable, creating a risk of fire and burns. The product does not comply with the requirements of the Toy Safety Directive nor with European standard 71-1.	Recall of the product from end users
A12/00743/24	France	Plastic doll (Country of Origin: Spain)		Choking The dummy and/or chain link releases small components if it breaks. A child may put them in their mouth and choke. The product does not comply with the requirements of the Toy Safety Directive nor with European standard 71-1.	Recall of the product from end users
A12/00748/24	Germany	Picture book (Country of Origin: Poland)		Chemical The printed book pages release Benzophenone, which may cause cancer, damage to organs through prolonged or repeated exposure and is harmful to aquatic life with long lasting effects. The product also contains Bisphenol A, which has endocrine disrupting properties and affects the mammary glands, reproductive and immune systems and may impair the brain's development and behaviour. The product does not comply with the requirements of the Toy Safety Directive.	Withdrawal of the product from the market

A12/00767/24	Czechia	Inflatable toy (Country of Origin: China)		Chemical The toy has an excessive amount of bis (2-ethylhexyl) phthalate (DEHP) (measured value up to 18.7% by weight). This phthalate may harm the health of children, possibly causing damage to their reproductive system. The product does not comply with the REACH Regulation.	Withdrawal of the product from the market
A12/00770/24	Czechia	Plastic doll (Country of Origin: China)		Chemical The toy contains an excessive amount of bis (2-ethylhexyl) phthalate (DEHP) (measured value up to 14.7% by weight). This phthalate may harm the health of children, possibly causing damage to their reproductive system. The product does not comply with the REACH Regulation.	Withdrawal of the product from the market
A12/00775/24	France	Soother (Country of Origin: China)		Chemical The soother releases an excessive amount of bisphenol A (measured value up to 0.38 mg/kg). Bisphenol A has endocrine disrupting properties and affects the mammary glands, reproductive and immune systems and may impair the brain's development and behaviour. This product does not comply with the requirements of the General Product Safety Directive.	Removal of this product listing by the online marketplace
A12/00779/24	Czechia	Doll (Country of Origin: China)		Chemical The plastic material of the product has an excessive concentration of bis(2-ethylhexyl) phthalate (DEHP) (measured value up to 21.4% by weight). This phthalate may harm the health of children, causing possible damage to their reproductive system. The product does not comply with the REACH Regulation.	Withdrawal of the product from the market
A12/00780/24	Czechia	Doll (Country of Origin: China)		Chemical The plastic material of the product has an excessive concentration of bis(2-ethylhexyl) phthalate (DEHP) (measured value up to 13.6% by weight). This phthalate may harm the health of children, causing possible damage to their reproductive system. The product does not comply with the REACH Regulation.	Withdrawal of the product from the market

A12/00800/24	Croatia	Balloons (Country of Origin: China)		Chemical The rubber of the balloons releases an excessive amount of N-nitrosatable substances (NDMA and NDEA, total measured value up to 1.54 mg/kg). These nitrosamines may cause cancer through ingestion or dermal exposure. A child could be exposed to it when touching or putting the product in their mouth. The product does not comply with the requirements of the Toy Safety Directive nor with the European standard EN 71-12.	Ban on the marketing of the product and any accompanying measures
A12/00808/24	Hungary	Toy mask (Country of Origin: China)		Burns The hair of the mask is highly flammable. A child/user risks burns to the head if it catches fire. The product does not comply with the requirements of the Toy Safety Directive nor with the European standard EN 71-2.	Recall of the product from end users
A12/00812/24	Hungary	Fancy-dress costume (Country of Origin: China)		Burns The wig of the costume is highly flammable. A child/user risks burns to the head if it catches fire. The product does not comply with the requirements of the Toy Safety Directive nor with the European standard EN 71-2.	Withdrawal of the product from the market
A12/00817/24	The Netherlands	Playpen (Country of Origin: China)		Injuries, Strangulation The presence of holes in the panels may allow children to climb on top of the fence and fall over the edge, leading to a risk of injury. Clothes or objects, especially if they are attached to cords, can be caught in protruding parts of the product, increasing the risk of strangulation. The product does not comply with the requirements of the General Product Safety Directive nor with the European standards EN 12227 and EN 1930.	Withdrawal of the product from the market

A12/00832/24	Ireland	Soother holder (Country of Origin: Unknown)		Choking, Strangulation The product contains easily detachable small parts that a child can put in their mouth and choke on. Moreover, the garment fastener and attached lion head component of the soother holder contain no ventilation holes. A child can put this component into their mouth and as there would not be enough air to pass around it, the child may choke. The soother holder has also a long string which can cause a strangulation risk. The product does not comply with the requirements of the General Product Safety Directive nor with the European standards EN 12586 and EN 71-1.	Removal of this product listing by the online marketplace
A12/00835/24	Czechia	Inflatable ball (Country of Origin: China)		Chemical The toy has an excessive concentration of bis(2-ethylhexyl) phthalate (DEHP) (measured value up to 11.2% by weight). This phthalate may harm the health of children, causing possible damage to their reproductive system. The product does not comply with the REACH Regulation.	Withdrawal of the product from the market
A12/00839/24	Poland	Fishing toy (Country of Origin: China)		Choking, Injuries The product has small parts (magnets) that can easily detach. A child may put them in the mouth and ingest them, which may lead to choking if they enter the airways. If several magnets are swallowed, they could attract one another causing intestinal blockage or perforation. The product does not comply with the requirements of the Toy Safety Directive nor with the European standard EN 71-1.	Withdrawal of the product from the market
A12/00840/24	Poland	Magnetic toy (Country of Origin: China)		Choking, Injuries The toy is made of small parts with a high magnetic flux. A child may put them in their mouth, which may lead to choking, or if swallowed, they could attract one another, causing intestinal blockage or perforation. The product does not comply with the requirements of the Toy Safety Directive nor with the relevant European standard EN 71-1.	Withdrawal of the product from the market

INFO/00057/24	Cyprus	Plastic doll (Country of Origin: Cyprus)		Chemical The plastic material of the product has an excessive concentration of bis(2-ethylhexyl) phthalate (DEHP) (measured value: up to 35.72% by weight). This phthalate may harm the health of children, causing possible damage to their reproductive system. The product does not comply with the REACH Regulation. The national authorities have ordered all the necessary measures to withdraw the product.	Written advice
INFO/00058/24	Finland	Bath toy (Country of Origin: China)		Cuts, Injuries The back fin of the shark toy is made of hard plastic, which can cause cuts or injuries to a child. The product does not comply with the requirements of the Toy Safety Directive.	Recall of the product from end users
INFO/00059/24	Finland	Bath toy (Country of Origin: China)		Cuts, Injuries The back fin of the shark toy is made of hard plastic, which can cause cuts or injuries to a child. The product does not comply with the requirements of the Toy Safety Directive.	Recall of the product from end users

Safety Gate: the EU rapid alert system for dangerous non-food products

“Safety Gate”, the EU rapid alert system (formerly known as “RAPEX”), enables the rapid exchange of information between **31 European countries** and the European Commission on non-food dangerous products found on the market posing a risk to the health and safety of consumers.

A weekly overview of the alerts on those products is published in English for free on <https://ec.europa.eu/safety-gate-alerts/screen/webReport#weeklyReports>. The measures taken in the notifying country in order to restrict such products’ marketing or use can be ordered by national authorities (“compulsory measures”) or be taken directly by producers and distributors (“voluntary measures”).

The official contact points of the Member and EFTA-EEA States provide the information published in these weekly overviews. Under the terms of Annex II.10 of the General Product Safety Directive (**2001/95/EC**) responsibility for the information provided lies with the notifying party. The Commission does not take any responsibility for the accuracy of the information provided.

Recall Summary – US Toys / Children’s Products

CPSC Recall List (Mar 2024)

Recall No.	Notifying Country	Product	Product Photo	Hazard / Risk	Remedy
24-144	USA	<p>Magnetic Stones Toy Creativity Development DIY Magnetic Beads, 5 mm (.2 inch)</p> <p>(Country of Origin: China)</p>	 <p>Colorful Magnetic Beads Cube</p>	<p>Ingestion Hazard</p> <p>High-Powered Magnetic Ball Sets Recalled Due to Ingestion Hazard; Violation of the Federal Safety Regulation for Toy Magnet Sets; Sold Exclusively on Walmart.com through Joybuy</p> <p>The recalled 5mm magnetic ball sets violate the mandatory federal toy magnet regulation because they contain one or more magnets that fit within CPSC’s small parts cylinder and the magnets are stronger than permitted. When high-powered magnets are swallowed, the ingested magnets can attract each other, or another metal object, and become lodged in the digestive system. This can result in perforations, twisting and/or blockage of the intestines, infection, blood poisoning and death.</p>	<p>Consumers should stop using the recalled magnetic ball sets immediately, take them away from children, and contact Joybuy Marketplace Express to receive a pre-paid label to return them for a full refund. Joybuy Marketplace Express is notifying all known purchasers directly.</p>

24-145	USA	<p>Jool Baby Nova Baby Infant Swings</p> <p>(Country of Origin: China)</p>		<p>Suffocation Hazard</p> <p>Jool Baby Recalls Nova Baby Infant Swings Due to Suffocation Hazard; Violation of the Federal Safety Regulations</p> <p>The swings pose a suffocation risk because they were marketed, intended, or designed for infant sleep, and they have an incline angle greater than 10 degrees in violation of the CPSC's Infant Sleep Products Regulation and the Safe Sleep for Babies Act. In addition, the swing fails to meet mandatory warning requirements regarding sleep under the swing standard.</p>	<p>Consumers should immediately stop using the recalled swings for sleep, and contact Jool Baby to receive a free repair kit, including shipping.</p> <p>Consumers should upload a photo of the warning label to the firm's online registration page at www.JoolBaby.com/recall.</p> <p>Once registered, Jool Baby will send consumers a repair kit consisting of a new seat with updated on-product warnings, updated plush toys and an updated remote control.</p>
--------	-----	--	---	--	---

24-147	USA	<p>216-Piece 5 mm Magnet Balls</p> <p>(Country of Origin: China)</p>		<p>Ingestion Hazard</p> <p>Getallfun Recalls High-Powered Magnetic Ball Sets Due to Ingestion Hazard; Failure to Meet Federal Safety Regulation for Toy Magnet Sets</p> <p>CPSC testing determined the magnetic ball sets do not comply with the requirements of the mandatory federal toy regulation because they contain one or more magnets that fit within CPSC's small parts cylinder and the magnets are stronger than permitted. When high-powered magnets are swallowed, the ingested magnets can attract each other, or another metal object, and become lodged in the digestive system. This can result in perforations, twisting and/or blockage of the intestines, infection, blood poisoning and death.</p>	<p>Consumers should stop using the recalled magnets immediately, take them away from children and contact Getallfun.com to receive a pre-paid label to return the recalled products. Upon receipt of the products, consumers will receive a full refund. Getallfun is notifying all known purchasers directly.</p>
24-148	USA	<p>GT LaBomba Bicycles</p> <p>(Country of Origin: Taiwan)</p>		<p>Fall and Injury Hazards</p> <p>GT Recalls LaBomba Bicycles Due to Fall and Injury Hazards</p> <p>The bicycle headtube/downtube weld can become damaged and separate from the bicycle frame, posing fall and injury hazards.</p>	<p>Consumers should immediately stop using the recalled bicycles and contact an authorized GT dealer for a free replacement frame.</p>

24-151	USA	<p>Bracelet Sold with Skechers Watch and Jewelry Gift Sets</p> <p>(Country of Origin: China)</p>		<p>Toxicity Hazard</p> <p>Fossil Group Recalls Bracelet Sold with Skechers Jewelry Gift Sets Due to High Levels of Lead and Cadmium</p> <p>The clasp on the braided black bracelet sold as part of the gift set contains high levels of lead and cadmium. Lead and cadmium are toxic and can cause adverse health effects in children.</p>	<p>Consumers should immediately stop using the recalled bracelet in the gift set, dispose of it in the trash and contact the website or store where purchased for a full refund of the gift set's purchase price.</p>
24-152	USA	<p>Tommy Bahama Brand Children's Pants Sets</p> <p>(Country of Origin: China)</p>		<p>Choking Hazard</p> <p>TJX Recalls Children's Brown Stretch Twill Pants Sets Due to Choking Hazard; Sold Exclusively at Marshalls</p> <p>The plastic pieces on the end of the pants' faux drawstrings can come loose and fall off, posing a choking hazard.</p>	<p>Consumers should immediately take the recalled pants away from children and cut off the faux drawstrings to eliminate the hazard.</p> <p>Consumers can also contact TJX for instructions on how to destroy the pants and obtain a full refund. Consumers can also return the pants to any Marshalls store for a full refund.</p>

24-153	USA	<p>SINGES 3-in-1 Baby High Chairs and Booster Seats</p> <p>(Country of Origin: China)</p>		<p>Fall Hazard</p> <p>SINGES 3-in-1 High Chair and Booster Seats Recalled Due to Fall Hazard; Violations of the Federal Safety Regulations for High Chairs and Booster Seats; Sold Exclusively at Walmart.com; Imported and Sold by Shenzhen Yingjieshang Trade</p> <p>The recalled high chair, which converts into a booster seat, violates the safety regulations for both high chairs and booster seats. Multiple failures were identified including, but not limited to, insufficient restraint system, stability, static load, latching and locking mechanisms, leg openings, warnings, labels, and literature. The product can tip over or collapse and present a fall hazard to children.</p>	<p>Consumers should immediately stop using the recalled high chairs and return them to Walmart for a full refund. Shenzhen Yingjieshang Trade and Walmart are contacting all known purchasers directly.</p>
24-155	USA	<p>Bubble Bear Crib Mattresses</p> <p>(Country of Origin: China)</p>		<p>Fire Hazard</p> <p>Bubble Bear Crib Mattresses Recalled Due to Fire Hazard; Violations of the Federal Safety Regulation for Mattresses; Sold Exclusively on Amazon.com by Coral Island</p> <p>The recalled crib mattresses violate the federal safety regulation for mattresses by failing to meet the flammability and labeling requirements, posing a fire hazard to children.</p>	<p>Consumers should immediately stop using the recalled crib mattresses and contact the firm by email to receive a full refund and for directions on how to dispose of the mattresses. Shenzhen Coral Island Furniture and Amazon are contacting all known purchasers directly by email. Consumers should use scissors to cut out the top fabric on both sleep surfaces, and submit photos of each side to coralisland2020@outlook.com to receive a refund and instructions on how to dispose of the mattress.</p>

24-167	USA	<p>Fisher-Price Little People Mickey and Friends Figures</p> <p>(Country of Origin: China)</p>		<p>Choking Hazard</p> <p>Fisher-Price Recalls Little People Mickey and Friends Figures Due to Choking Hazard</p> <p>The heads of the Donald Duck and Daisy Duck figures can detach, posing a choking hazard to young children.</p>	<p>Consumers should immediately stop using the Donald Duck and Daisy Duck figures, take them away from children, and contact Fisher-Price to receive a pre-paid return label to return the two figures and receive a \$10 refund. This recall only involves the Donald Duck and Daisy Duck figures that are part of the figure pack.</p>
24-169	USA	<p>Happiness USA Liquid Rolling Candy</p> <p>(Country of Origin: China)</p>		<p>Choking Hazards</p> <p>Twenty Four Six Foods Recalls Happiness USA Roller Ball Candy Due to Choking Hazards</p> <p>The candy's rolling ball can dislodge from the product into a child's mouth, posing a choking hazard and risk of death.</p>	<p>Consumers should immediately stop using the candy, take it from children, and contact Twenty Four Six Foods for a full refund. Twenty Four Six Foods is contacting known purchasers directly.</p>
24-172	USA	<p>BRS and BUL in Liquid Fuel Bottles</p> <p>(Country of Origin: China)</p>		<p>Risk of Burn and Poisoning</p> <p>BRS and BUL in Liquid Fuel Bottles Recalled Due to Risk of Burn and Poisoning; Violation of the Children's Burn Prevention Safety Act; Sold Exclusively on Amazon.com by Tentock</p> <p>The portable fuel containers violate the child-resistant requirements for closures under the Children's Gasoline Burn Prevention Act (CGBPA). The closure for the products is not child resistant, posing a risk of burns and poisoning to children.</p>	<p>Consumers should immediately stop using the recalled fuel bottles, place them out of reach of children, and contact Tentock for instructions on how to dispose of the product to receive a full refund.</p>

24-175	USA	<p>Magnetic Beads HIGH POWER 5 mm</p> <p>(Country of Origin: China)</p>		<p>Ingestion Hazard</p> <p>Stateside Bead Supply Recalls High-Powered Magnetic Beads Due to Ingestion Hazard; Violation of the Federal Safety Regulation for Magnets</p> <p>The magnetic beads violate the requirements of the mandatory federal magnet regulation because they contain one or more magnets that fit within CPSC's small parts cylinder, and the magnets are stronger than permitted. When high-powered magnets are swallowed, the ingested magnets can attract each other, or another metal object and become lodged in the digestive system. This can result in perforations, twisting and/or blockage of the intestines, infection, blood poisoning and death.</p>	<p>Consumers should stop using the recalled magnetic beads immediately, take them away from children and contact Stateside Bead Supply to receive a pre-paid label to return the recalled products for a full refund. Stateside Bead Supply is notifying all known purchasers directly.</p>
--------	-----	--	---	--	---

24-742	USA	Forias Pack and Play Mattresses (Country of Origin: China)		Suffocation Hazard Forias Pack and Play Mattresses Recalled Due to Suffocation Hazard for Infants; Violations of the Federal Safety Regulation for Crib Mattresses; Sold Exclusively on Amazon.com by Forias Direct (Recall Alert) The recalled mattress violates multiple provisions of the Safety Standard for Crib Mattresses, including the thickness test, and is missing the required warnings and labels. The product poses a suffocation hazard to infants.	Consumers should immediately stop using the recalled pack and play mattresses and discard them by cutting them in half, then send a photo of destroyed mattress to customer.care@forias.com to receive a full refund. Amazon and Forias Direct are contacting all known purchasers directly.

CPSC

The United States Consumer Product Safety Commission (CPSC) is an independent agency of the United States Government. To provide better service in alerting the American people to unsafe, hazardous or defective products, a “one stop shop” for U.S. Government recalls, <http://www.recalls.gov>, has been created. Members of the public may report unsafe products to CPSC by using the platform.

The recall list is divided into seven categories: Consumer Products, Motor Vehicles, Boats, Food, Medicine, Cosmetics and Environmental Products. Generally, the recall is conducted voluntarily by the company under CPSC’s Fast Track Recall program. Fast Track recalls are initiated by firms who are committed to working with CPSC to quickly announce the recall and remedy to protect consumers.

Recall Summary – Australia Toys / Children’s Products

ACCC Recall List (Mar 2024)

PRA No.	Notifying Country	Product / Description	Product Photo	Hazard / Risk	Remedy

Australian Product Safety System

The Australian product safety system is set up to maximize the safety of goods through the cooperation of consumers, businesses and agencies. This policy sets out the principles adopted by the Australian Competition and Consumer Commission (ACCC) for prioritizing and addressing product safety risks.

Under the Australian Consumer Law, a responsible Minister can order a compulsory recall when there are hazards on the products. A voluntary recall could be conducted to remove the product from the marketplace when the suppliers become aware of unsafe or defective products.

The ACCC administers a national recalls system for recalls of specific and general consumer products, and publishes all product recalls on the website <https://www.productsafety.gov.au/recalls>.

STC (Hong Kong Standards and Testing Centre) is a not-for-profit, independent testing, inspection and certification organization. With a global network of ISO/IEC 17025 accredited testing laboratories and over 60 years of experience in consumer product testing, we can meet your conformity assessment needs with highly efficient and reliable service. Our testing scope and capabilities related to toys and children's products include but are not limited to:

EU Requirements

- EN 71
- Phthalates (EC) no. 1907/2006
- Nickel Release (EC) no. 1907/2006
