

Recall Summary – European Toys

EU Safety Gate Alerts (Apr 2024)

Alert No.	Notifying Country	Product	Product Photo	Hazard / Risk	Measures Adopted
A11/00048/24	Croatia	Soft toy (Country of Origin: China)		Choking The seams on the toy allow access to the stuffing material. A child may put it in their mouth and choke. The product does not comply with the requirements of the Toy Safety Directive nor with the European standard EN 71-1.	Ban on the marketing of the product and any accompanying measures
A11/00051/24	France	Soft toy (Country of Origin: China)		Choking The fibrous stuffing material of the toy is easily accessible due to the weakness of certain seams. A small child may put the filling material in their mouth and choke. The product does not comply with the requirements of the Toy Safety Directive nor with the European standard EN 71-1.	Recall of the product from end users
A12/00844/24	Poland	Toy iron (Country of Origin: China)		Environment The electronic components of the product have an excessive concentration of lead and cadmium (measured values up to 83.5% and 0.83% by weight, respectively). Lead and cadmium pose a risk to the environment. The product does not comply with the requirements of the Directive on the restriction of the use of certain hazardous substances in electrical and electronic equipment (RoHS 2 Directive).	Warning consumers of the risks
A12/00846/24	Poland	Toy car (Country of Origin: China)		Environment The electronic components of the product have an excessive concentration of lead and cadmium (measured values up to 68.20% and 0.048% by weight respectively). Lead and cadmium pose a risk to the environment. The product does not comply with the requirements of the Directive on the restriction of the use of certain hazardous substances in electrical and electronic equipment (RoHS 2 Directive).	Withdrawal of the product from the market

A12/00853/24	Lithuania	Toy telephone (Country of Origin: China)		Choking The toy has small parts (doll's head, hands). Small children may put them in their mouth and choke. The product does not comply with the requirements of the Toy Safety Directive nor with the standard EN 71-1.	Withdrawal of the product from the market
A12/00854/24	France	Toy make-up set (Country of Origin: France)		Chemical The toy has an excessive amount of aluminium (measured value up to 1837 mg/kg). Aluminium is toxic for children if ingested. The product does not comply with the requirements of the Toy Safety Directive nor with the European standard EN 71-3.	Recall of the product from end users
A12/00855/24	Poland	Plastic ball (Country of Origin: China)		Chemical The toy has an excessive amount of diisobutyl phthalate (DIBP) (measured value up to 29.2% by weight). This phthalate may harm the health of children, causing possible damage to their reproductive system. The product does not comply with the REACH Regulation.	Destruction of the product
A12/00865/24	Lithuania	Plastic toy (Country of Origin: Unknown)		Strangulation The elastic cord of the toy can tangle and form a loop around the neck of a child, leading to strangulation. The product does not comply with the requirements of the Toy Safety Directive nor with European standard EN 71-1.	Withdrawal of the product from the market
A12/00871/24	Ireland	Soother holder (Country of Origin: China)		Choking The product has small detachable parts (beads), which the child can easily access, put in their mouth and choke on. The product does not comply with the requirements of the General Product Safety Directive nor with the European standard EN 12586.	Recall of the product from end users
A12/00879/24	The Netherlands	Children's backpack (Country of Origin: China)		Chemical The plastic material of the product has an excessive concentration of bis(2-ethylhexyl) phthalate (DEHP) (measured value up to 12.3% by weight). This phthalate may harm the health of children, possibly causing damage to their reproductive system. The product does not comply with the REACH Regulation.	Withdrawal of the product from the market

A12/00880/24	The Netherlands	Children's backpack (Country of Origin: China)		Chemical The plastic material of the product has an excessive concentration of bis(2-ethylhexyl) phthalate (DEHP) (measured value up to 23.1% by weight). This phthalate may harm the health of children, possibly causing damage to their reproductive system. The product does not comply with the REACH Regulation.	Withdrawal of the product from the market
A12/00881/24	France	Soft toy (Country of Origin: United Kingdom)		Choking Certain small parts of the toy (eyes) can easily detach. Small children may put them in their mouth and choke. The product does not comply with the requirements of the Toy Safety Directive nor with the European standard EN 71-1.	Recall of the product from end users
A12/00886/24	France	Magnetic toy (Country of Origin: China)		Choking The product has small parts (the magnets) that can easily detach. A child may put them in their mouth and ingest them, which may lead to choking if they enter the airways. The product does not comply with the requirements of the Toy Safety Directive nor with the relevant European standard EN 71-1.	Recall of the product from end users
A12/00888/24	The Netherlands	Backpack (Country of Origin: China)		Chemical The plastic material of the product has an excessive concentration of bis(2-ethylhexyl) phthalate (DEHP) (measured value up to 15.1% by weight). This phthalate may harm the health of children, causing possible damage to their reproductive system. The product does not comply with the REACH Regulation.	Withdrawal of the product from the market
A12/00889/24	The Netherlands	Backpack (Country of Origin: China)		Chemical The plastic material of the product has an excessive concentration of bis(2-ethylhexyl) phthalate (DEHP) (measured value up to 16.4% by weight). This phthalate may harm the health of children, causing possible damage to their reproductive system. The product does not comply with the REACH Regulation.	Withdrawal of the product from the market

A12/00890/24	The Netherlands	Backpack (Country of Origin: China)		Chemical The plastic material of the product has an excessive concentration of bis(2-ethylhexyl) phthalate (DEHP) (measured value up to 19.2% by weight). This phthalate may harm the health of children, causing possible damage to their reproductive system. The product does not comply with the REACH Regulation.	Withdrawal of the product from the market
A12/00895/24	France	Toy set (Country of Origin: China)		Damage to sight The presence of burrs and pointed elements (noses of the cockpits and missiles of the plane with green markings and plane with blue markings) increases the risk of eye injury. The product does not comply with the requirements of the Toy Safety Directive nor with the European standard EN 71-1.	Recall of the product from end users
A12/00908/24	France	Magnetic toy (Country of Origin: Unknown)		Choking The product has small parts (the magnets) that can easily detach. A child may put them in their mouth and ingest them, which may lead to choking if they enter the airways. The product does not comply with the requirements of the Toy Safety Directive nor with the European standard EN 71-1.	Removal of this product listing by the online marketplace
A12/00909/24	France	Toy sword with battery (Country of Origin: China)		Chemical, Choking The battery compartment breaks easily, leaving button batteries accessible. A child may put them in their mouth and choke. The button batteries could cause damage to the child's gastrointestinal tract if they are ingested. The product does not comply with the requirements of the Toy Safety Directive or those of the applicable European Standard EN 62115.	Recall of the product from end users
A12/00910/24	France	Children's bath thermometer (Country of Origin: China)		Choking A very young child might put the dinosaur's head in their mouth. Risk of choking by regurgitation. The product does not comply with the requirements of the Toy Safety Directive nor with the standard EN 71-1.	Stopping of sales

A12/00914/24	Germany	Children's wireless headphone (Country of Origin: China)		Chemical The additional jack cable has an excessive concentration of bis(2-ethylhexyl) phthalate (DEHP) (measured value up to 5.1% by weight). This phthalate may harm children's health by causing possible damage to their reproductive system. Moreover, part of the product has an excessive concentration of short chain chlorinated paraffins (SCCPs) (18 g/kg). SCCPs persist in the environment, are toxic to aquatic organisms at low concentrations and bio-accumulate in wildlife and humans, posing a risk to human health and the environment. The product does not comply with the requirements of the Toy Safety Directive nor with the Persistent Organic Pollutants (POP) Regulation.	Ban on the marketing of the product and any accompanying measures
A12/00915/24	Germany	Squeezable toy (Country of Origin: China)		Microbiological Due to material fatigue, the stress ball may become damaged and leak gel. The gel is microbiologically contaminated with <i>Pseudomonas aeruginosa</i> (4.0×10^3 CFU/g), which can cause purulent inflammation of pre-damaged skin and other more general infections. The product does not comply with the requirements of the Toy Safety Directive.	Recall of the product from end users
A12/00916/24	Sweden	Climbing arch (Country of Origin: China)		Injuries The product poses a risk of pinching if the arch is turned to the "rocking chair" position. A child can get pinching or crushing injuries if they get their fingers or toes between the floor and the runner when sitting in the "rocking chair" position. The product does not comply with the requirements of the Toy Safety Directive.	Recall of the product from end users
A12/00917/24	Poland	Toy telephone (Country of Origin: China)		Damage to hearing The sound pressure level of the toy is too high (measured value up to 66.2 dB). This could lead to permanent or partial hearing loss. The product does not comply with the requirements of the Toy Safety Directive nor with the European standard EN 71-1.	Warning consumers of the risks

A12/00922/24	Poland	Toy boat (Country of Origin: China)		Environment The electronic components of the product contain an excessive amount of lead and cadmium (measured values up to 51.72% and 0.07% by weight, respectively). Lead and cadmium pose a risk to the environment. The product does not comply with the requirements of the Directive on the restriction of the use of certain hazardous substances in electrical and electronic equipment (RoHS 2 Directive).	Destruction of the product
A12/00926/24	Czechia	Plastic doll (Country of Origin: China)		Chemical The plastic material of the product has an excessive concentration of bis(2-ethylhexyl) phthalate (DEHP) (measured value up to 26.74% by weight). This phthalate may harm the health of children, possibly causing damage to their reproductive system. The product does not comply with the REACH Regulation.	Withdrawal of the product from the market
A12/00929/24	Poland	Set of toy musical instruments (Country of Origin: China)		Choking, Strangulation The toy instruments have detachable small parts or can easily break creating further small parts. A small child may put them in their mouth and choke. Furthermore, one of the toy instruments (toy drum) has a long cord that should be placed around the neck; this cord can become trapped during various activities of a child, leading to strangulation. The product does not comply with the requirements of the Toy Safety Directive nor with the European standard EN 71-1.	Withdrawal of the product from the market
A12/00930/24	Hungary	Plastic doll (Country of Origin: China)		Chemical The doll's head contains excessive concentrations of bis(2-ethylhexyl) phthalate (DEHP) (measured value up to 33% by weight). This phthalate may harm the health of children, causing possible damage to their reproductive system. The product does not comply with the REACH Regulation.	Recall of the product from end users

A12/00931/24	Hungary	Plastic doll (Country of Origin: China)		Chemical The doll's head contains excessive concentrations of bis(2-ethylhexyl) phthalate (DEHP) (measured value up to 23% by weight), dibutyl phthalate (DBP) (measured value up to 0.23% by weight). These phthalates may harm the health of children, causing possible damage to their reproductive system. The product does not comply with the REACH Regulation.	Withdrawal of the product from the market
A12/00932/24	Hungary	Plastic doll set (Country of Origin: China)		Chemical The dolls' heads contain excessive concentrations of bis(2-ethylhexyl) phthalate (DEHP) (measured value up to 32% by weight). This phthalate may harm the health of children, causing possible damage to their reproductive system. The product does not comply with the REACH Regulation.	Ban on the marketing of the product and any accompanying measures
A12/00937/24	Finland	Water balloons (Country of Origin: China)		Choking, Injuries The toy has small parts (magnets) with a high magnetic flux. The magnets can be easily detached from the balloon halves by pushing them through the silicone layer. A child may put the magnets in their mouth, which may lead to choking, or if swallowed, they could attract one another, causing intestinal blockage or perforation. The product does not comply with the requirements of the Toy Safety Directive nor with the European standard EN 71-1.	Import rejected at border
A12/00943/24	Hungary	Plastic doll (Country of Origin: China)		Chemical The toy has an excessive concentration of bis(2-ethylhexyl) phthalate (DEHP) and dibutyl phthalate (DBP) (measured values up to 2.3% and 0.25% by weight). These phthalates may harm the health of children, causing possible damage to their reproductive system. The product does not comply with the REACH Regulation.	Recall of the product from end users

A12/00958/24	France	Toy tambourine (Country of Origin: China)		Choking, Injuries The product can easily break into small parts. A child can put them in their mouth and choke. Moreover, the metal rod holding the jingles can detach and cause injuries to a child. The product does not comply with the requirements of the Toy Safety Directive nor with the European standard EN 71-1.	Destruction of the product
A12/00961/24	Hungary	Toy scooter (Country of Origin: China)		Injuries The dynamic load of the user may cause the seat to break or the steering column to collapse. Consequently, the user may lose their balance, fall, and suffer injuries. The product does not comply with the requirements of the Toy Safety Directive nor with the European standard EN 71-1.	Import rejected at border
A12/00970/24	Poland	Plastic toy (Country of Origin: China)		Chemical The toy contains an excessive concentration of bis (2-ethylhexyl) phthalate (DEHP) (measured value up to 18.5%). This phthalate may harm the health of children, possibly by causing damage to their reproductive system. The product does not comply with the REACH Regulation.	Withdrawal of the product from the market
A12/00972/24	Cyprus	Toy gun set (Country of Origin: China)		Choking The suction cups of the projectiles can easily detach. A small child could put them in their mouth and choke. The product does not comply with the requirements of the Toy Safety Directive nor with the European standard EN 71-1.	Withdrawal of the product from the market
A12/00975/24	Germany	Plastic ball set (Country of Origin: Italy)		Chemical The product has an excessive concentration of the aromatic amine 4-methyl-m-phenylenediamine (measured value up to 0.0197% by weight). 4-methyl-m-phenylenediamine is a skin sensitizer, which may cause cancer and might induce mutations and/or affect fertility. The product does not comply with the requirements of the Toy Safety Directive.	Recall of the product from end users

A12/00981/24	Poland	Plastic ball (Country of Origin: China)		Chemical The toy has an excessive concentration of diisobutyl phthalate (DIBP) (measured value up to 9.4% by weight). This phthalate may harm the health of children, causing possible damage to their reproductive system. The product does not comply with the REACH Regulation.	Withdrawal of the product from the market
A12/00985/24	Poland	Plastic ball (Country of Origin: China)		Chemical The toy has an excessive concentration of diisobutyl phthalate (DIBP) (measured value up to 19.2% by weight). This phthalate may harm the health of children, possibly causing damage to their reproductive system. The product does not comply with the REACH Regulation.	Destruction of the product
A12/00986/24	Poland	Plastic ball (Country of Origin: China)		Chemical The toy has an excessive concentration of bis(2-ethylhexyl) phthalate (DEHP), dibutyl phthalate (DBP) and diisobutyl phthalate (DIBP) (measured values up to 0.19%, 11.7% and 2% by weight, respectively). These phthalates may harm the health of children, causing possibly damage to their reproductive system. The product does not comply with the REACH Regulation.	Warning consumers of the risks
A12/01001/24	Lithuania	Wooden toy (Country of Origin: Greece)		Choking Small wooden parts of the giraffe's tail can easily detach. A small child may put them in their mouth and choke on them. The product does not comply with the requirements of the Toy Safety Directive nor with the European standard EN 71-1.	Withdrawal of the product from the market
A12/01002/24	France	Plastic bath toy set (Country of Origin: China)		Choking Parts of the toy set (the crocodile) have long protruding parts. A small child may put this part in their mouth and choke. The product does not comply with the requirements of the Toy Safety Directive nor with the European standard EN 71-1.	Destruction of the product

A12/01004/24	France	LED balloons (Country of Origin: China)		Chemical, Choking The battery compartment can easily be opened without a tool, making the button batteries accessible. A child may put them in their mouth and ingest them, which may lead to choking if they enter the airways, or could cause injury to the gastrointestinal tract. The product does not comply with the requirements of the Toy Safety Directive nor with the European standard EN 62115.	Recall of the product from end users
INFO/00063/24	Ireland	Soft toys (Country of Origin: China)		Choking The toy has fibrous material inside that is easily accessible. A child may put it in their mouth and choke. The product does not comply with the requirements of the Toy Safety Directive nor with the European standard EN 71-1.	Withdrawal of the product from the market
INFO/00066/24	Hungary	Soft toy set (Country of Origin: China)		Chemical The plastic material of the suction cup has an excessive concentration of bis(2-ethylhexyl) phthalate (DEHP) and dibutyl phthalate (DBP) (measured values up to 19% and up to 11% by weight, respectively). These phthalates may harm the health of children, possibly causing damage to their reproductive systems. The product does not comply with the REACH Regulation.	Import rejected at border

Safety Gate: the EU rapid alert system for dangerous non-food products

“Safety Gate”, the EU rapid alert system (formerly known as “RAPEX”), enables the rapid exchange of information between **31 European countries** and the European Commission on non-food dangerous products found on the market posing a risk to the health and safety of consumers.

A weekly overview of the alerts on those products is published in English for free on <https://ec.europa.eu/safety-gate-alerts/screen/webReport#weeklyReports>. The measures taken in the notifying country in order to restrict such products’ marketing or use can be ordered by national authorities (“compulsory measures”) or be taken directly by producers and distributors (“voluntary measures”).

The official contact points of the Member and EFTA-EEA States provide the information published in these weekly overviews. Under the terms of Annex II.10 of the General Product Safety Directive (**2001/95/EC**) responsibility for the information provided lies with the notifying party. The Commission does not take any responsibility for the accuracy of the information provided.

Recall Summary – US Toys / Children’s Products

CPSC Recall List (Apr 2024)

Recall No.	Notifying Country	Product	Product Photo	Hazard / Risk	Remedy
24-182	USA	Thule RideAlong Rear-Mounted Child Bike Seats (Country of Origin: Poland)		Chemical Ingestion Hazard Thule Recalls RideAlong Rear-Mounted Child Bike Seats Due to Chemical Ingestion Hazard. The harness padding of Thule RideAlong bike seats can contain flame-retardant DecaBDE in excess of regulatory limits, posing a chemical hazard. DecaBDE can be toxic if it is ingested or comes into contact with skin or eyes.	Consumers should immediately stop using the recalled RideAlong seat and contact Thule Group to register for free replacement harness padding and to receive instructions on how to return the recalled padding. Thule is contacting all known consumers.

24-184	USA	<p>Grão de Gente Baby Nests</p> <p>(Country of Origin: Brazil)</p>		<p>Fall and Entrapment Hazards</p> <p>Zazaba International Recalls Grão de Gente Baby Nests Due to Suffocation Risk and Fall and Entrapment Hazards; Violation of the Federal Safety Regulations; Sold Exclusively on Zazaba.com</p> <p>The recalled baby nests violate the safety requirements of CPSC’s Safety Standard for Infant Sleep Products, posing a suffocation risk and fall and entrapment hazards to infants. The failures include not having a stand and not meeting the requirements for side height, sleeping pad thickness, and fabric-sided openings. The product’s sides are shorter than the minimum side height limit; the sleeping pad’s thickness exceeds the maximum limit; and an infant could fall out of an enclosed opening at the foot of the lounger or become entrapped.</p> <p>Additionally, the baby nest designs with head pillows violate the Safe Sleep for Babies Act of 2021’s ban on inclined sleepers for infants because their sleep surfaces are inclined greater than ten degrees. Infant fatalities have occurred in inclined sleepers, after the infants rolled from their back to their stomach or side while unrestrained, or under other circumstances.</p>	<p>Consumers should immediately stop using the recalled Grão de Gente baby nests and contact Zazaba International Inc. for instructions on how to properly dispose of the product and receive a full refund. Zazaba International Inc. is contacting all known consumers directly.</p>
--------	-----	--	---	--	--

24-185	USA	<p>Grão de Gente Crib Bumper Bedding Sets</p> <p>(Country of Origin: Brazil)</p>		<p>Suffocation Hazard</p> <p>Zazaba International Recalls Grão de Gente Crib Bumpers Due to Suffocation Hazard; Violation of Federal Crib Bumper Ban; Sold Exclusively on Zazaba.com</p> <p>Infants can suffocate if they roll or move on the crib bumper in a position that obstructs breathing. Padded crib bumpers are banned under the Safe Sleep for Babies Act of 2021.</p>	<p>Consumers should immediately stop using the recalled Grão de Gente crib bumpers and contact Zazaba International Inc. for instructions on how to properly dispose of the product and receive a full refund. Zazaba International Inc. is contacting all known consumers directly.</p> <p>The crib sheets, quilts, mosquito nets, and other non-crib-bumper items included in the bedding sets are not banned under the Safe Sleep for Babies Act of 2021. However, parents and caregivers are reminded to use a fitted sheet only, and never add blankets, pillows, padded crib bumpers, or other items to an infant's sleeping environment.</p>
24-191	USA	<p>Fischer RC4 Junior Ski Boots</p> <p>(Country of Origin: Romania)</p>		<p>Fall Hazard</p> <p>Fischer Sports Recalls Junior Ski Boots Due to Fall Hazard</p> <p>The ski boot cuff can rotate, causing the lock mechanism to malfunction, posing a fall hazard and risk of injury to the consumer.</p>	<p>Consumers should immediately stop using the recalled RC4 Junior Ski Boots and contact Fischer Sports for instructions on how to receive a refund, a free replacement, or a free repair.</p>

24-201	USA	<p>Gasaciods Children's Multi-Purpose Helmets</p> <p>(Country of Origin: China)</p>		<p>Risk of Head Injury</p> <p>Gasaciods Children's Helmets Recalled Due to Risk of Head Injury; Violation of Federal Safety Regulation for Bicycle Helmets; Imported by Fengwang Sports; Sold Exclusively on Temu.com</p> <p>The helmets do not comply with the positional stability, dynamic strength of retention system, impact attenuation, and certification requirements in violation of the CPSC federal safety regulation for bicycle helmets. The helmets can fail to protect in the event of a crash, posing a risk of head injury.</p>	<p>Consumers should immediately stop using the recalled Gasaciods helmets, and contact Fengwang Sports for a refund. To receive a refund, consumers should destroy the helmet by cutting off the straps, take a photo, and send it to the recalling firm either by email at george66305@163.com, or by sending onsite messages to Fengwang Sports on Temu.com. After submitting proof of destruction, consumers should dispose of the recalled helmets.</p>
24-207	USA	<p>Sant and Abel Children's Two-Piece Pajama Sets</p> <p>(Country of Origin: China)</p>		<p>Burn Hazard</p> <p>Sant and Abel Recalls Children's Pajamas Due to Burn Hazard; Violation of Federal Regulations for Children's Sleepwear</p> <p>The children's pajamas fail to meet the flammability standards for children's sleepwear, posing a burn hazard to children.</p>	<p>Consumers should immediately take the recalled pajamas away from children, stop using them, and contact Sant and Abel for a full refund. Consumers should destroy the garments by cutting them in half and disposing of them in accordance with local and state recycling laws. Consumers should send the recalling firm a photo of the destroyed garment at returns@santandabel.com to receive a refund. Sant and Abel is contacting all known purchasers directly.</p>

24-209	USA	<p>Crate & Barrel Hampshire Cribs</p> <p>(Country of Origin: China)</p>		<p>Fall Hazard</p> <p>Crate & Barrel Recalls Hampshire Cribs Due to Fall Hazard</p> <p>The mattress support pins can become loose and allow the mattress to fall, posing a fall hazard to children.</p>	<p>Consumers should immediately stop using the recalled cribs and contact Crate & Barrel for a free repair or full refund. Crate & Barrel is contacting all known purchasers directly.</p>
24-210	USA	<p>Mario Kart™ 24V Ride-On Racer Cars</p> <p>(Country of Origin: China)</p>		<p>Crash Hazard</p> <p>JAKKS Pacific Recalls Children's Mario Kart Ride-On Racer Car Toys Due to Crash Hazard</p> <p>If the acceleration pedal on the battery-operated ride-on toy becomes clogged with debris, they can stick after the user's foot is removed from the pedal, posing a crash hazard.</p>	<p>Consumers should immediately stop using the 24V Ride-On cars and contact JAKKS Pacific to receive a free repair kit. The repair kit includes a free replacement pedal with installation instructions.</p>
24-211	USA	<p>Kids' Bike Helmets</p> <p>(Country of Origin: China)</p>		<p>Risk of Head Injury</p> <p>Multi-Purpose Kids' Bike Helmets Recalled Due to Risk of Head Injury; Violation of Federal Safety Regulation for Bicycle Helmets; Sold Exclusively on Temu.com; Imported by Chau River Sports Outdoors</p> <p>The helmets do not comply with the dynamic strength of retention system, impact attenuation and certification requirements of the CPSC federal safety regulation for bicycle helmets. The helmets can fail to protect in the event of a crash, posing a risk of head injury.</p>	<p>Consumers should immediately stop using the recalled helmets and contact Chau River Sports Outdoors for a full refund. To receive a refund, consumers should destroy the helmet by cutting off the straps, and send photos of the helmet with the straps cut through the onsite messaging system by clicking on the "message" icon on Temu.com at Chau River Sports Outdoors store page as proof of destruction, then dispose of the recalled helmet.</p>

CPSC

The United States Consumer Product Safety Commission (CPSC) is an independent agency of the United States Government. To provide better service in alerting the American people to unsafe, hazardous or defective products, a “one stop shop” for U.S. Government recalls, <http://www.recalls.gov>, has been created. Members of the public may report unsafe products to CPSC by using the platform.

The recall list is divided into seven categories: Consumer Products, Motor Vehicles, Boats, Food, Medicine, Cosmetics and Environmental Products. Generally, the recall is conducted voluntarily by the company under CPSC’s Fast Track Recall program. Fast Track recalls are initiated by firms who are committed to working with CPSC to quickly announce the recall and remedy to protect consumers.

Recall Summary – Australia Toys / Children’s Products

ACCC Recall List (Apr 2024)

PRA No.	Notifying Country	Product / Description	Product Photo	Hazard / Risk	Remedy
2024/20099	Australia	<p>HAPE Dinosaur Train Bucket Set.</p> <p>Item number: E3828 (or HE3828)</p> <p>Batch Number: P2322400795NBCN 05/2023</p> <p>Note that only this batch number is affected. The batch number can be found on the packaging and product where shown.</p> <p>Set includes:</p> <p>10 rail tracks, 6 dinosaurs, 2 scenes, 3 caves, 3 trunks, 1 lid, 1 bottom box, and 1 plastic interaction rail.</p> <p>The button battery does not come installed and is supplied in a plastic bag with the interaction rail.</p>		<p>Risk of Choking and Internal Burn Injuries</p> <p>The product does not comply with the mandatory standards for products containing button/coin batteries.</p> <p>The battery packaging has not been tested as required by the mandatory safety standard and may not be child resistant.</p> <p>The product and included battery do not include the required warning information.</p> <p>Risk of choking, severe internal burn injuries or death to young children if they gain access to the button/coin batteries and swallow them or place them inside their body.</p> <p>Severe or fatal injuries can happen in 2 hours or less.</p> <p>Consumers may be unaware that the product contains button/coin batteries.</p>	<p>Consumers should stop using the set immediately and place it out of reach of children.</p>

2024/20103	Australia	<p>Lightweight jump rope that lights up.</p> <p>Sold in various colours.</p>		<p>Risk of Choking and Serious Injury</p> <p>The product does not comply with the mandatory information standard for products containing button/coin batteries.</p> <p>The product does not include the required warning information.</p> <p>There is a risk of choking, serious injury or death to young children if they gain access to the button/coin batteries and swallow or place them inside their body.</p> <p>Consumers may not be aware that the product contains a button battery.</p>	<p>Consumers should keep the product out of reach of children.</p>

Australian Product Safety System

The Australian product safety system is set up to maximize the safety of goods through the cooperation of consumers, businesses and agencies. This policy sets out the principles adopted by the Australian Competition and Consumer Commission (ACCC) for prioritizing and addressing product safety risks.

Under the Australian Consumer Law, a responsible Minister can order a compulsory recall when there are hazards on the products. A voluntary recall could be conducted to remove the product from the marketplace when the suppliers become aware of unsafe or defective products.

The ACCC administers a national recalls system for recalls of specific and general consumer products, and publishes all product recalls on the website <https://www.productsafety.gov.au/recalls>.

STC (Hong Kong Standards and Testing Centre) is a not-for-profit, independent testing, inspection and certification organization. With a global network of ISO/IEC 17025 accredited testing laboratories and over 60 years of experience in consumer product testing, we can meet your conformity assessment needs with highly efficient and reliable service. Our testing scope and capabilities related to toys and children's products include but are not limited to:
