

Part 3 Added to EN for Child Care Articles – Wheeled Child Conveyances

The European Standard EN 1888 series consisted originally of 2 parts, specifying the safety requirements and test methods for pushchairs designed for the carriage of one or more children.

On 10 July 2024, European Committee for Standardization (CEN) published a Part 3 to this series referenced: EN 1888-3:2024, titled: “Child care articles - Wheeled child conveyances - Part 3: Pushchairs intended for leisure sport activities”.

This new part specifies the safety requirements of pushchairs when used for running / jogging or skating (excluding ice skating), intended for the transport of one or two children up to 15 or 22 kg each.

The Updated Series

The series of EN 1888 is now updated as per the following list, and the documents are to be used in conjunction, not separately.

If a product has several functions or can be converted into another function, the relevant European standards apply to it.

Normative reference	Title
EN 1888-1:2018+A1:2022	Child care articles - Wheeled child conveyances - Part 1: Pushchairs and prams
EN 1888-2:2018+A1:2022	Child care articles - Wheeled child conveyances - Part 2: Pushchairs for children above 15 kg up to 22 kg
EN 1888-3:2024	Child care articles - Wheeled child conveyances - Part 3: Pushchairs intended for leisure sport activities

Effective Date

Date of	Latest date by which	Deadline
Announcement (DOA)	the existence of this EN has to be announced at national level	31 October 2024
Publication (DOP)	this EN has to be implemented at national level by publication of an identical national standard or by endorsement	31 January 2025
