

Recall Summary – European Toys

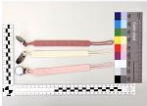

EU Safety Gate Alerts (Oct 2024)

Alert No.	Notifying Country	Product	Product Photo	Hazard / Risk	Measures Adopted
A11/00130/24	Finland	Baby gym play mat (Country of Origin: China)		Choking The fibrous filling material of the toy is easily accessible due to the weakness of the seam. A small child may put the filling material in their mouth and choke. The product does not comply with the requirements of the Toy Safety Directive nor with the European standard EN 71-1.	Import rejected at border
A11/00132/24	Poland	Soft toy (Country of Origin: China)		Choking The fibrous stuffing material of the toy is easily accessible due to weakness of certain seams. A small child may put the filling material in their mouth and choke. The product does not comply with the requirements of the Toy Safety Directive nor with the European standard EN 71-1.	Warning consumers of the risks
A11/00135/24	Poland	Soft toy (Country of Origin: China)		Choking The fibrous stuffing material of the toy is easily accessible due to a zipper. A small child may put the filling material in their mouth and choke. The product does not comply with the requirements of the Toy Safety Directive nor with the European standard EN 71-1.	Warning consumers of the risks
A12/02741/24	Lithuania	Fishing toy (Country of Origin: China)		Choking The fishing toy set has small parts (hook). Small children may put it in their mouth and choke. The product does not comply with the requirements of the Toy Safety Directive nor with the European standard EN 71-1.	Withdrawal of the product from the market
A12/02742/24	Romania	Toy jewellery set (Country of Origin: China)		Choking Due to its characteristic appearance, form, colour and size, the product may be mistaken for foodstuff. The product contains small parts. A small child may put them in their mouth and choke. The product does not comply with the requirements of the Toy Safety Directive, nor with the European standard EN 71-1.	Ban on the marketing of the product and any accompanying measures

A12/02744/24	Finland	Soft toy (Country of Origin: China)		Choking The soft toy has small parts that can easily detach (pigtail). Small children may put it in their mouth and choke. The product does not comply with the requirements of the Toy Safety Directive nor with the European standard EN 71-1.	Destruction of the product
A12/02746/24	Germany	Toy slime (Country of Origin: China)		Chemical The migration of boron from the toy slime is too high (measured value up to 826 mg/kg). Ingestion or contact with an excessive quantity of boron may harm the health of children by damaging their reproductive system. The product does not comply with the requirements of the Toy Safety Directive nor with the European standard EN 71-3.	Import rejected at border
A12/02748/24	France	Teething necklace (Country of Origin: China)		Choking The product can easily break, resulting in small parts (beads). A small child may put them in their mouth and choke. The product does not comply with the requirements of the General Product Safety Directive nor with the European standard EN 71-1.	Warning consumers of the risks
A12/02752/24	Spain	Children's car seat (Country of Origin: China)		Injuries The child restraint system does not sufficiently prevent vertical displacement of the head in case of an accident. The product does not comply with the requirements of the General Product Safety Directive nor with the Regulation UNECE No 44.	Destruction of the product
A12/02754/24	Lithuania	Toy rattle (Country of Origin: China)		Choking Small parts can easily detach (rattling balls). As a consequence, a small child may put them in their mouth and choke. The product does not comply with the requirements of the Toy Safety Directive nor with the European standard EN 71-1.	Withdrawal of the product from the market

A12/02756/24	Cyprus	Plastic toy (Country of Origin: China)		Choking The toy snail has small parts that can easily detach (part of the front wheel). Small children may put them in their mouth and choke. The product does not comply with requirements of the Toy Safety Directive nor with the European standard EN 71-1.	Withdrawal of the product from the market
A12/02757/24	France	Teething bracelet (Country of Origin: China)		Choking The bracelet is not sufficiently strong: the cord can break, generating small parts as the beads release. A small child may put them in their mouth and choke. The product does not comply with the requirements of the General Product Safety Directive nor with the European standard EN 71-1.	Warning consumers of the risks
A12/02758/24	France	Teething bracelet (Country of Origin: China)		Choking The necklace is not sufficiently strong: the cord can break, generating small parts as the beads release. A small child may put them in their mouth and choke. The product does not comply with the requirements of the General Product Safety Directive nor with the European standard EN 71-1.	Warning consumers of the risks
A12/02759/24	France	Toys (Country of Origin: India)		Chemical The toys release an excessive amount of nitrosatable substances (measured total value up to 4.44 mg/kg), which generate nitrosamines notably N-Nitrosodimethylamine (NDMA), N-Nitrosodibutylamine (NDBA), and N-Nitrosodiethylamine (NDEA). Nitrosamines may cause cancer through ingestion or dermal exposure. A child could be exposed to them when touching or putting the product in their mouth. The product does not comply with the requirements of the Toy Safety Directive nor with the European standard EN 71-12.	Recall of the product from end users

A12/02774/24	France	Ball (Country of Origin: China)		Burns, Chemical, Choking, Damage to sight The toy has small parts that can easily detach (a piece of yellow casing). Small children may put them in their mouth and choke. In addition, the toy material contains methylisothiazolinone (MI) and methylchloroisothiazolinone (MCI) (measured values up to 4.4 mg/kg and 10.2 mg/kg, respectively). MCI and MI cause severe skin burns and eye damage (if in contact with the eyes), and may cause an allergic skin reaction. The product does not comply with the requirements of the Toy Safety Directive nor with the European standard EN 71-1.	Recall of the product from end users
A12/02775/24	Cyprus	Beach ball (Country of Origin: China)		Chemical The plastic material of the product has an excessive concentration of diisobutyl phthalate (DIBP) (measured value up to 50.56% by weight). This phthalate may harm the health of children, causing possible damage to their reproductive system. The product does not comply with the REACH Regulation.	Withdrawal of the product from the market
A12/02777/24	Germany	Soft toy (Country of Origin: China)		Choking Small parts (suction cup) can easily detach from the toy. A small child may put it in their mouth and choke. Moreover, the stuffing material of the toy is easily accessible due to the weakness of the seams of the toy. A small child may put the filling material in their mouth and choke. The product does not comply with the requirements of the Toy Safety Directive, nor with European standard EN 71-1.	Stopping of sales
A12/02792/24	Romania	Fishing toy set (Country of Origin: China)		Choking The product contains small parts. A small child may put them in their mouth and choke. The product does not comply with the requirements of the Toy Safety Directive, nor with the European standard EN 71-1.	Ban on the marketing of the product and any accompanying measures

A12/02793/24	France	Plastic toy (Country of Origin: China)		Burns, Chemical, Strangulation The brown textile lead has a slipknot. Children can easily wrap it around their necks and strangle themselves. Additionally, the batteries can overheat and cause burns if the toy is blocked. Moreover, the batteries are easily accessible. A chemical hazard could arise if they were to be damaged and placed in the mouth. The product does not comply with the requirements of the Toy Safety Directive and the relevant European standard EN 71-1.	Withdrawal of the product from the market
A12/02794/24	Germany	Bath toys (Country of Origin: China)		Choking The bath toys set has a small part in the inside that if filled with water and squeezed can come out of the toy. Small children may put it in their mouth and choke. The product does not comply with the requirements of the Toy Safety Directive.	Recall of the product from end users
A12/02795/24	Germany	Bath toys (Country of Origin: China)		Choking The bath toys set has a small part in the inside that if filled with water and squeezed can come out of the toy. Small children may put it in their mouth and choke. The product does not comply with the requirements of the Toy Safety Directive.	Recall of the product from end users
A12/02798/24	Romania	Plastic toy (Country of Origin: China)		Choking The toy has small parts (balls). A small child may put them in their mouth and choke. The product does not comply with the requirements of the Toy Safety Directive nor with the European standard EN 71-1.	Ban on the marketing of the product and any accompanying measures
A12/02800/24	Germany	Soother holder (Country of Origin: China)		Strangulation The soother holder is too long, which may lead to strangulation of a child. The product does not comply with the requirements of the General Product Safety Directive, nor with the European standard EN 12586.	Recall of the product from end users
A12/02801/24	Germany	Soother holder (Country of Origin: China)		Strangulation The soother holder is too long, which may lead to strangulation of a child. The product does not comply with the requirements of the General Product Safety Directive nor with the European standard EN 12586.	Recall of the product from end users

A12/02803/24	Cyprus	Push along toy (Country of Origin: China)		Choking The product can easily break, releasing small parts. A small child may put them in their mouth and choke. The product does not comply with the requirements of the Toy Safety Directive nor with the European standard EN 71-1.	Withdrawal of the product from the market
A12/02805/24	Germany	Soother holder (Country of Origin: Germany)		Strangulation The soother holder is too long, which may lead to strangulation of a child. The product does not comply with the requirements of the General Product Safety Directive nor with the European standard EN 12586.	Recall of the product from end users
A12/02806/24	Germany	Soother holder (Country of Origin: Denmark)		Strangulation The soother holder is too long, which may lead to strangulation of a child. The product does not comply with the requirements of the General Product Safety Directive nor with the European standard EN 12586.	Stopping of sales
A12/02807/24	France	Toy slime (Country of Origin: China)		Chemical The migration of boron from the toy slime is too high (measured value up to 3600 mg/kg). Ingestion or contact with an excessive quantity of boron may harm the health of children by damaging their reproductive system. The product does not comply with the REACH Regulation and the Toy Safety Directive.	Withdrawal of the product from the market
A12/02821/24	France	Teething necklace (Country of Origin: Lithuania)		Choking The product can easily break, resulting in small parts (beads). A small child may put them in their mouth and choke. The product does not comply with the requirements of the General Product Safety Directive nor with the European standard EN 71-1.	Removal of this product listing by the online marketplace
A12/02840/24	Lithuania	Toy slime (Country of Origin: China)		Chemical The migration of boron from the toy slime is too high (measured value up to 620 mg/kg). Ingestion or contact with an excessive quantity of boron may harm the health of children by damaging their reproductive system. The product does not comply with the requirements of the Toy Safety Directive nor with the European standard EN 71-3.	Withdrawal of the product from the market

A12/02843/24	Poland	Plastic doll (Country of Origin: China)		Chemical The doll has an excessive concentration of bis(2-ethylhexyl) phthalate (DEHP) and dibutyl phthalate (DBP) (measured values up to 0.84% and 0.94% by weight, respectively). These phthalates may harm the health of children by causing possible damage to their reproductive system. The product does not comply with the REACH Regulation.	Destruction of the product
A12/02844/24	Poland	Inflatable toy (Country of Origin: China)		Chemical The toy contains an excessive amount of dibutyl phthalate (DBP) and diisobutyl phthalate (DIBP) (measured values up to 11.2% and 2.1% by weight, respectively). These phthalates may harm the health of children, possibly by causing damage to the reproductive system. The product does not comply with the REACH Regulation.	Destruction of the product
A12/02845/24	Poland	Inflatable toy (Country of Origin: China)		Chemical The toy contains an excessive amount of dibutyl phthalate (DBP) and diisobutyl phthalate (DIBP) (measured values up to 1.41% and 11.1% by weight, respectively). These phthalates may harm the health of children, possibly by causing damage to their reproductive system. The product does not comply with the REACH Regulation.	Withdrawal of the product from the market
A12/02871/24	Ireland	Car seat cushion (Country of Origin: China)		Injuries When the product is placed on the car seat, it forces the car seat belt into an incorrect position. In the event of a collision, this could cause serious injuries to the child. The product does not comply with the requirements of the General Product Safety Directive.	Withdrawal of the product from the market

A12/02873/24	Poland	Swing (Country of Origin: China)		Injuries The product has accessible openings and holes, in which children can become trapped and suffer injuries. The swing seat is attached to the rope by knots, which can easily loosen and cause a child to fall off the swing. The product does not comply with the requirements of the Toy Safety Directive nor with the European standard EN 71-8.	Withdrawal of the product from the market
A12/02878/24	Finland	Toy telephone (Country of Origin: China)		Choking Small parts can easily detach (sound-generating component, soft plastic parts). A small child may put them in their mouth and choke. The product does not comply with the requirements of the Toy Safety Directive nor with the European standard EN 71-1.	Import rejected at border
A12/02882/24	Austria	Toy pistol set (Country of Origin: China)		Choking The suction cups of the projectiles can easily detach. If a child puts them in their mouth, they may block the airways and the child can choke. The product does not comply with the requirements of the Toy Safety Directive nor with the European standard EN 71-1.	Recall of the product from end users
A12/02896/24	Lithuania	Toy slime (Country of Origin: China)		Chemical The migration of boron from the toy slime is too high (measured value up to 300 mg/kg). Ingestion or contact with an excessive quantity of boron may harm the health of children by damaging their reproductive system. The product does not comply with the requirements of the Toy Safety Directive nor with the European standard EN 71-3.	Withdrawal of the product from the market

A12/02900/24	Finland	Toy dinosaur (Country of Origin: China)		Chemical, Choking Small parts (the sound producing part in the dinosaur mouth) are easily detached from the toy. Small children may put it in their mouth and choke. The button batteries inside the sound producing part can also detach at the same time. A child could put them in their mouth, which could cause damage to the child's gastrointestinal tract or choking. The product does not comply with the requirements of the Toy Safety Directive nor with the European standard EN 71-1.	Import rejected at border
A12/02901/24	Lithuania	Toy slime (Country of Origin: China)		Chemical The migration of boron from the toy slime is too high (measured value up to 670 mg/kg). Ingestion or contact with an excessive quantity of boron may harm the health of children by damaging their reproductive system. The product does not comply with the requirements of the Toy Safety Directive nor with the European standard EN 71-3.	Withdrawal of the product from the market
A12/02903/24	Sweden	Toy robot (Country of Origin: China)		Chemical, Environment The plastic material of the cable has an excessive concentration of bis(2-ethylhexyl) phthalate (DEHP), dibutyl phthalate (DBP), short chain chlorinated paraffins (SCCPs) and lead (measured values up to 1.5%, 0.92%, 3.9% and 0.24% by weight, respectively). The solders in the product have an excessive concentration of lead (measured value up to 63.6% by weight). DEHP and DBP pose a risk to human health and the environment. SCCPs persist in the environment, are toxic to aquatic organisms at low concentrations and bio-accumulate in wildlife and humans, posing a risk to human health and the environment. Prolonged exposure to them through the skin may cause cancer. Lead poses a risk to the environment. The product does not comply with the requirements of the Directive on the restriction of the use of certain hazardous substances in electrical and electronic equipment (RoHS Directive) nor with the Persistent Organic Pollutants (POP) Regulation.	Withdrawal of the product from the market

A12/02928/24	Lithuania	Toy slime (Country of Origin: China)		Chemical The migration of boron from the toy slime is too high (measured value up to 960 mg/kg). Ingestion or contact with an excessive quantity of boron may harm the health of children by damaging their reproductive system. The product does not comply with the requirements of the Toy Safety Directive nor with the European standard EN 71-3.	Withdrawal of the product from the market
A12/02935/24	France	Toy crossbow (Country of Origin: Spain)		Damage to sight, Injuries The toy can launch the projectile or an improvised projectile with excessive kinetic energy, causing injury to a person in the path of that projectile, with a particular risk of eye damage. The product does not comply with the Toy Safety Directive nor with the European standard EN 71-1.	Recall of the product from end users
A12/02938/24	Lithuania	Toy slime (Country of Origin: China)		Chemical The migration of boron from the toy slime is too high (measured value up to 750 mg/kg). Ingestion or contact with an excessive quantity of boron may harm the health of children by damaging their reproductive system. The product does not comply with the requirements of the Toy Safety Directive nor with the European standard EN 71-3.	Withdrawal of the product from the market
A12/02947/24	Estonia	Toy slime (Country of Origin: China)		Chemical The migration of boron from the toy slime is too high (measured value up to 690 mg/kg). Ingestion or contact with an excessive quantity of boron may harm the health of children by damaging their reproductive system. The product does not comply with the requirements of the Toy Safety Directive nor with the European standard EN 71-3.	Recall of the product from end users
A12/02949/24	Cyprus	Plastic toy (Country of Origin: China)		Choking The product has small parts (wheels) that can be easily detached. A small child may put them in their mouth and choke. The product does not comply with the requirements of the Toy Safety Directive nor with the European standard EN 71-1.	Withdrawal of the product from the market

A12/02950/24	Germany	Toy gun set (Country of Origin: China)		Choking The suction cups of the projectiles can easily detach. A small child could put them in their mouth and choke. The product does not comply with the requirements of the Toy Safety Directive nor with the European standard EN 71-1.	Withdrawal of the product from the market
A12/02951/24	Lithuania	Toy slime (Country of Origin: China)		Chemical The migration of boron from the toy slime is too high (measured value up to 710 mg/kg). Ingestion or contact with an excessive quantity of boron may harm the health of children by damaging their reproductive system. The product does not comply with the requirements of the Toy Safety Directive nor with the European standard EN 71-3.	Withdrawal of the product from the market
A12/02954/24	Cyprus	Toy doll on tricycle (Country of Origin: China)		Choking Small parts can easily detach (the doll's arms). As a consequence, a small child may put them in their mouth and choke. The product does not comply with the requirements of the Toy Safety Directive and the European standard EN 71-1.	Withdrawal of the product from the market
A12/02956/24	France	Keyring with soft toy (Country of Origin: China)		Choking Small parts can easily detach (eyes). As a consequence, a small child may put them in their mouth and choke on them. The product does not comply with the requirements of the Toy Safety Directive nor with the European standard EN 71-1.	Recall of the product from end users
A12/02965/24	France	Fancy-dress costume (Country of Origin: Unknown)		Burns, Fire The tulle skirt and hood of the costume is highly flammable and the flame propagation is too high. The costume may catch fire if worn close to an ignition source, resulting in burns. The product does not comply with the requirements of the Toy Safety Directive nor with the European standard EN 71-2.	Recall of the product from end users

A12/02977/24	Lithuania	Toy gun set (Country of Origin: China)		Choking The suction cups of the projectiles can easily detach. If a child puts them in their mouth, it may block the airways and the child can choke. The product does not comply with the requirements of the Toy Safety Directive nor with the European standard EN 71-1.	Withdrawal of the product from the market
A12/02981/24	France	Pencil case (Country of Origin: China)		Choking Small parts (zipper slider) can easily detach. A small child may put it in their mouth and choke. The product does not comply with the requirements of the Toy Safety Directive nor with the European standard EN 71-1.	Withdrawal of the product from the market
A12/02986/24	France	Teething necklace (Country of Origin: Lithuania)		Choking, Strangulation The necklace does not open and could therefore wind around the neck of the child, leading to strangulation. Furthermore, the necklace can easily break, resulting in small parts (beads). A small child may put them in their mouth and choke. The product does not comply with the requirements of the General Product Safety Directive nor with the European standard EN 71-1.	Removal of this product listing by the online marketplace
A12/02990/24	Lithuania	Toy airplane (Country of Origin: China)		Choking The toy plane has small parts that can easily detach (sticker, wheels, pilot). Small children may put them in their mouth and choke. The product does not comply with the requirements of the Toy Safety Directive nor with the European standard EN 71-1.	Withdrawal of the product from the market
A12/02995/24	Poland	Plastic ball (Country of Origin: China)		Chemical The plastic material of the toy contains an excessive amount of diisobutyl phthalate (DIBP) (measured value up to 30.2% by weight). This phthalate may harm the health of children by causing possible damage to their reproductive system. The product does not comply with the REACH Regulation.	Withdrawal of the product from the market

INFO/00116/24	Lithuania	Doll (Country of Origin: China)		Chemical The plastic material of the doll contains an excessive concentration of bis(2-ethylhexyl) phthalate (DEHP) and diisononyl phthalate/diisodecyl phthalate (measured values up to 7.4% and 0.17% by weight, respectively). These phthalates may harm the health of children by causing possible damage to their reproductive system. The product does not comply with the requirements of the Toy Safety Directive.	Withdrawal of the product from the market

Safety Gate: the EU rapid alert system for dangerous non-food products

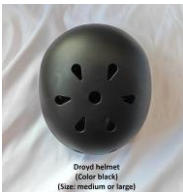

“Safety Gate”, the EU rapid alert system (formerly known as “RAPEX”), enables the rapid exchange of information between **31 European countries** and the European Commission on non-food dangerous products found on the market posing a risk to the health and safety of consumers.

A weekly overview of the alerts on those products is published in English for free on <https://ec.europa.eu/safety-gate-alerts/screen/webReport#weeklyReports>. The measures taken in the notifying country in order to restrict such products’ marketing or use can be ordered by national authorities (“compulsory measures”) or be taken directly by producers and distributors (“voluntary measures”).

The official contact points of the Member and EFTA-EEA States provide the information published in these weekly overviews. Under the terms of Annex II.10 of the General Product Safety Directive (**2001/95/EC**) responsibility for the information provided lies with the notifying party. The Commission does not take any responsibility for the accuracy of the information provided.

Recall Summary – US Toys / Children’s Products

CPSC Recall List (Oct 2024)

Recall No.	Notifying Country	Product	Product Photo	Hazard / Risk	Remedy
25-007	USA	<p>Droyd multi-purpose helmets</p> <p>(Country of Origin: China)</p>	 <p style="font-size: small; text-align: center;">Droyd helmet (Color: black) (Size: medium or large)</p>	<p>Risk of Head Injury</p> <p>Reyhee Group Recalls Droyd Multi-Purpose Helmets Due to Risk of Head Injury; Violation of Federal Regulations for Bicycle Helmets</p> <p>The recalled helmets do not comply with the positional stability, retention system, impact, labeling and certification requirements of the mandatory federal safety regulations for bicycle helmets. The helmets can fail to protect the wearer in the event of a crash, posing a risk of head injury.</p>	<p>Consumers should stop using the recalled Droyd helmets immediately and contact Reyhee for a full refund. To receive a refund, consumers must cut the straps off the helmet and submit two photos: one photo of both straps cut off and one photo of the helmet and cut straps inside of a trash can. Send both photos along with name and address to Reyhee Group at support@droyd.com. Reyhee Group is contacting all known purchasers directly.</p>
25-008	USA	<p>Gimars Playpen with Mat</p> <p>(Country of Origin: China)</p>		<p>Entrapment and Suffocation Hazards</p> <p>Gimars Playpens Recalled Due to Entrapment and Suffocation Hazards; Violation of Federal Regulations for Play Yards; Imported by Shenzhen Jingdu Technology and Sold Exclusively on Amazon.com</p> <p>The recalled playpens violate the federal safety regulations for play yards. The included basketball hoop accessory can be a head entrapment hazard and children can become entrapped beneath the mattress, posing a suffocation hazard.</p>	<p>Consumers should immediately stop using and keep children away from the recalled playpens. Consumers should disassemble the playpen and cut the fabric floor, mattress pad and basketball hoop accessory each into two pieces. Then, consumers should upload photos of the cut product using the online submission form or email the photos to Gimars-Aftersales@outlook.com to obtain a full refund. Shenzhen Jingdu Technology and Amazon are contacting all known purchasers directly.</p>

25-009	USA	<p>All Models of Fisher-Price Snuga Swings</p> <p>(Country of Origin: China)</p>		<p>Suffocation Hazard</p> <p>Fisher-Price Recalls More than 2 Million Snuga Infant Swings Due to Suffocation Hazard After 5 Deaths Reported</p> <p>The swing should never be used for sleep and bedding materials should never be added to it. If the product is used for sleep or bedding material is added, the headrest and body support insert on the seat pad can increase the risk of suffocation.</p>	<p>Consumers should immediately remove both the headrest (by cutting the tether) and the body support insert from the seat pad before continuing to use the swing. Fisher-Price will provide a \$25 refund to consumers who remove and destroy the headrest and body support insert. Instructions can be found at www.service.mattel.com.</p>
25-010	USA	<p>Halloween Projector Flashlights</p> <p>(Country of Origin: China)</p>		<p>Fire and Burn Hazards</p> <p>NPW Group Recalls Halloween Projector Flashlights Due to Fire and Burn Hazards; Sold Exclusively at Target</p> <p>The flashlights can overheat and melt the outer casing, posing fire and burn hazards.</p>	<p>Consumers should immediately stop using the recalled flashlights and return them to any Target store for a full refund. Consumers should turn off the product, remove the batteries, mark the product with "recalled" in permanent marker prior to returning the flashlight to Target. Target is contacting all known purchasers directly.</p>

25-029	USA	<p>Vevor Baby Gates</p> <p>(Country of Origin: China)</p>		<p>Entrapment Hazard</p> <p>Sanven Technology Recalls Vevor Baby Gates Due to Entrapment Hazard; Violation of Federal Regulations for Gates and Enclosures</p> <p>The gates violate the federal safety regulations for expansion gates and expandable enclosures. A child's torso can fit through the opening between the gate slat and side wall, posing an entrapment hazard to children.</p>	<p>Consumers should immediately stop using the gates and contact Sanven Technology via email at csr@vevor.com for information on how to dispose of the product and submit a photograph to obtain a full refund. Sanven Technology is contacting all known purchasers directly.</p>

CPSC

The United States Consumer Product Safety Commission (CPSC) is an independent agency of the United States Government. To provide better service in alerting the American people to unsafe, hazardous or defective products, a “one stop shop” for U.S. Government recalls, <http://www.recalls.gov>, has been created. Members of the public may report unsafe products to CPSC by using the platform.

The recall list is divided into seven categories: Consumer Products, Motor Vehicles, Boats, Food, Medicine, Cosmetics and Environmental Products. Generally, the recall is conducted voluntarily by the company under CPSC’s Fast Track Recall program. Fast Track recalls are initiated by firms who are committed to working with CPSC to quickly announce the recall and remedy to protect consumers.

Recall Summary – Australia Toys / Children’s Products

ACCC Recall List (Oct 2024)

PRA No.	Notifying Country	Product / Description	Product Photo	Hazard / Risk	Remedy
2024/20270	Australia	2 pack of Crocs shoe headlights in 5 colours: black, white, green, blue and red.		<p>Risk of Choking</p> <p>There is a risk of choking, severe internal burn injuries or death to young children if they gain access to the button/coin batteries and swallow them or place them inside their body.</p> <p>Severe or fatal injuries can happen in 2 hours or less.</p>	Consumers should stop using the products immediately and place out of reach of children.

Australian Product Safety System

The Australian product safety system is set up to maximize the safety of goods through the cooperation of consumers, businesses and agencies. This policy sets out the principles adopted by the Australian Competition and Consumer Commission (ACCC) for prioritizing and addressing product safety risks.

Under the Australian Consumer Law, a responsible Minister can order a compulsory recall when there are hazards on the products. A voluntary recall could be conducted to remove the product from the marketplace when the suppliers become aware of unsafe or defective products.

The ACCC administers a national recalls system for recalls of specific and general consumer products, and publishes all product recalls on the website <https://www.productsafety.gov.au/recalls>.

STC (Hong Kong Standards and Testing Centre) is a not-for-profit, independent testing, inspection and certification organization. With a global network of ISO/IEC 17025 accredited testing laboratories and over 60 years of experience in consumer product testing, we can meet your conformity assessment needs with highly efficient and reliable service. Our testing scope and capabilities related to toys and children's products include but are not limited to:

EU Requirements

- EN 71
- Phthalates (EC) no. 1907/2006
