

Recall Summary – European Toys

EU Safety Gate Alerts (Jun 2025)

Alert No.	Notifying Country	Product	Product Photo	Hazard / Risk	Measures Adopted
OR/00081/25	Poland	Soft toy (Country of Origin: China)		Choking The fibrous stuffing material is easily accessible due to the weakness of certain seams. A child may put the filling material in their mouth and choke. The product does not comply with the requirements of the Toy Safety Directive nor with the European standard EN 71-1.	Import rejected at border
OR/00085/25	France	Soft toy (Country of Origin: China)		Choking The fibrous stuffing material of the toy is easily accessible due to the weakness of the seams on the back. A small child may put the filling material in their mouth and choke. The product does not comply with the requirements of the Toy Safety Directive nor with the European standard EN 71-1.	Removal of this product listing by the online marketplace
OR/00087/25	Poland	Toy scooter (Country of Origin: China)		Injuries The diameter of the front wheels of the scooter is too small, which can lead the scooter's wheel to become stuck on an uneven surface and the child falling, suffering injuries. The product does not comply with the requirements of the Toy Safety Directive nor with the European standard EN 71-1.	Warning consumers of the risks
OR/00095/25	Latvia	Plush toy (Country of Origin: China)		Choking The fibrous stuffing material of the toy is easily accessible due to the weakness of certain seams. A small child may put the filling material in their mouth and choke. The product does not comply with the requirements of the Toy Safety Directive.	Import rejected at border

OR/00102/25	Ireland	Balloon pumper (Country of Origin: China)		Cuts The bottle can be overfilled with water and over pressured. There was no recommendation on the amount of water or pumps which could lead to the bottle exploding. This can create a risk of cuts for the consumer. The product does not comply with the requirements of the Toy Safety Directive.	Recall of the product from end users
OR/00104/25	Ireland	Bath toy (Country of Origin: China)		Health Risk / Other Once the bath book is placed in bath water, the colour coating of the product can begin to come away from the surface, causing flaking. These soft ink flakes could be ingested and cause a stomach upset, nausea or vomiting to the child. The product does not comply with the requirements of the Toy Safety Directive.	Recall of the product from end users
SR/02038/25	Austria	Toothbrush learning set (Country of Origin: China)		Choking The toy has small parts (tooth crowns). A small child may put them in their mouth and choke. The product does not comply with the requirements of the Toy Safety Directive nor with the European standard EN 71-1.	Removal of this product listing by the online marketplace
SR/02041/25	UK	Radio-controlled toy car (Country of Origin: China)		Chemical, Environment According to the product markings, the product has batteries containing cadmium. Cadmium bio-accumulates and poses a risk to the environment. The product does not comply with the requirements of the Batteries and Accumulators Directive.	Import rejected at border
SR/02044/25	Sweden	Battery-operated toy dog (Country of Origin: China)		Environment The solders in the product have an excessive concentration of lead (measured value up to 65% by weight). Lead poses a risk to the environment. The product does not comply with the requirements of the Directive on the restriction of the use of certain hazardous substances in electrical and electronic equipment (RoHS 2 Directive).	Import rejected at border

SR/02053/25	Czechia	Plastic doll (Country of Origin: China)		Chemical The plastic material of the product has an excessive concentration of bis(2-ethylhexyl) phthalate (DEHP) (measured value up to 20.71% by weight). This phthalate may harm the health by causing possible damage to the reproductive system. The product does not comply with the REACH Regulation.	Withdrawal of the product from the market
SR/02060/25	France	Soft toy (Country of Origin: China)		Choking, Suffocation The toy's plastic button can easily detach. A small child may put it in their mouth and choke. The plastic of the packaging is too thin. If a child plays with it, the plastic can cover their mouth and nose, causing the child to suffocate. The product does not comply with the requirements of the Toy Safety Directive or with those of European standard EN 71-1.	Withdrawal of the product from the market
SR/02066/25	Lithuania	Plastic doll (Country of Origin: China)		Chemical The plastic material of the product has an excessive concentration of bis(2-ethylhexyl) phthalate (DEHP) and dibutyl phthalate (DBP) (measured values up to 3.9% and 0.23% by weight, respectively). These phthalates may harm health by causing possible damage to the reproductive system. The product does not comply with the REACH Regulation.	Withdrawal of the product from the market
SR/02074/25	France	Kazoo toy (Country of Origin: China)		Choking Small parts can detach easily (kazoo blue disc). A small child may put them in their mouth and choke. The product does not comply with the requirements of the Toy Safety Directive nor the European standard EN 71-1.	Withdrawal of the product from the market

SR/02079/25	Poland	Plastic doll set (Country of Origin: China)		Chemical The plastic material of the product has an excessive concentration of bis(2-ethylhexyl) phthalate (DEHP) (measured value up to 27.7% by weight). This phthalate may harm health by causing possible damage to the reproductive system. The product does not comply with the REACH Regulation.	Withdrawal of the product from the market
SR/02089/25	Poland	Crib toy (Country of Origin: China)		Choking Small parts (metal bell and its elements) may easily detach from the toy. Moreover, the fibrous stuffing material is accessible due to weakness of certain seams. A child may put small parts or the stuffing material into their mouth and choke. The product does not comply with the requirements of the Toy Safety Directive nor with the European standard EN 71-1.	Import rejected at border
SR/02094/25	France	Fancy-dress mask (Country of Origin: France)		Chemical, Choking, Injuries The masks have small parts (metallic bars) that can easily detach. A small child may put them in their mouth and choke. Moreover, the migration of chromium from the masks is too high (measured value up to 3960 mg/kg). Chromium is sensitising, can trigger allergic reactions and can cause cancer. Additionally, the metal bars in the mask can cause eye injuries to the child. The product does not comply with the requirements of the Toy Safety Directive nor with the European standard EN 71-3 and EN 71-1.	Withdrawal of the product from the market

SR/02100/25	Iceland	Children's bicycle (Country of Origin: China)		Chemical, Injuries The brake blocks of the bicycle contain asbestos fibres. Asbestos causes cancer. Moreover, the handlebar is too wide, not resistant enough and can misalign from the fork too easily, leading to a loss of the bicycle's control and increasing the risk of a fall and injuries to the rider. Additionally, the bicycle lacks all required reflectors - including front, rear, side, and pedal reflectors - which are crucial for visibility in low-light conditions. This increases the risk of an accident and injuries for the rider. The product does not comply with the REACH Regulation nor with the European standard EN 8098.	Recall of the product from end users
SR/02102/25	Poland	Toy rattle (Country of Origin: China)		Choking The toy has a small part (plastic ball with attached cord) that can easily detach. A small child may put it in their mouth and choke. The product does not comply with the requirements of the Toy Safety Directive nor with the European standard EN 71-1.	Import rejected at border
SR/02134/25	Poland	Magnetic toy (Country of Origin: China)		Injuries The toy contains small magnets with a high magnetic flux (measured value more than 50 kG ² mm ²). If a child swallows the small magnets, they could attract one another causing intestinal blockage or perforation. The product does not comply with the requirements of the Toy Safety Directive nor with the European standard EN 71-1.	Destruction of the product

SR/02141/25	Sweden	Baby hammock (Country of Origin: Denmark)		Injuries, Strangulation, Suffocation The baby hammock's excessive tilt angle and curved lying surface may cause the child to roll over, become stuck, and suffocate or have their airways obstructed. The product also lacks a safe design, with inadequate side walls that may allow the child to roll out and fall, as well as potentially accessible cords that could lead to strangulation due to imprecise assembly instructions. The product does not comply with the General Safety Product Regulation nor with the European Standard EN 1130.	Recall of the product from end users
SR/02145/25	Latvia	Plush toy (Country of Origin: Unknown)		Choking The metal chain of the toy can easily detach. As a result, a small child may put it in their mouth and choke on it. The product does not comply with the requirements of the Toy Safety Directive.	Import rejected at border
SR/02150/25	UK	Plush toy (Country of Origin: United Kingdom)		Choking The product has small parts (the toggles on the removable backpack) which may easily detach. A small child may put them into their mouth and choke. The product does not comply with the requirements of the Toy Safety Directive.	Withdrawal of the product from the market
SR/02193/25	Poland	Jumping rope (Country of Origin: China)		Chemical The plastic material of the product has an excessive concentration of bis(2-ethylhexyl) phthalate (DEHP) and diisobutyl phthalate (DIBP) (measured values up to 14.3% and 9.0% by weight, respectively). These phthalates may harm the health of children, causing possible damage to their reproductive system. The product does not comply with the REACH Regulation.	Warning consumers of the risks

SR/02199/25	France	Toy make-up set (Country of Origin: Germany)		Chemical The toy has an excessive amount of aluminium (measured value up to 18717 mg/kg) and chromium (measured value up to 7056 mg/kg). Aluminium is toxic for children if ingested. Chromium (VI) can cause cancer, is sensitising and can trigger allergic reactions. The product does not comply with the requirements of the Toy Safety Directive, the REACH Regulation nor with the European standard EN 71-3.	Withdrawal of the product from the market
SR/02203/25	France	Soft toy (Country of Origin: China)		Choking The product has small parts (the eyes) that can easily detach. A small child may put them in their mouth and choke. The product does not comply with the requirements of the Toy Safety Directive nor with the European standard EN 71-1.	Withdrawal of the product from the market
SR/02204/25	France	Plastic toy (Country of Origin: China)		Damage to sight The radiation from the LED located in the eye of the toy is too powerful and can cause damage to sight. The product does not comply with the requirements of the Toy Safety Directive nor with the European standard EN 62115.	Warning consumers of the risks
SR/02207/25	Malta	Bath toy set (Country of Origin: China)		Choking The product contains small parts that are easily accessible. A small child might put the small parts in their mouth and choke. The product does not comply with the requirements of the Toy Safety Directive nor with the European standard EN 71-1.	Import rejected at border
SR/02208/25	Malta	Fidget rings (Country of Origin: China)		Choking The ring is very small. A child may put it in their mouth and choke. The product does not comply with the requirements of the Toy Safety Directive nor with the European Standard EN 71-1.	Import rejected at border
SR/02209/25	France	Soft toy (Country of Origin: India)		Chemical The migration of chromium VI from the textile label of the toy is too high (measured value up to 0.48 mg/kg). Chromium (VI) is a sensitiser that can trigger allergic reactions and can cause cancer. The product does not comply with the requirements of the Toy Safety Directive nor with the European standard EN 71-3.	Withdrawal of the product from the market

SR/02211/25	Germany	Inflatable swim seat (Country of Origin: China)		Chemical The handholds of the swim seat have an excessive concentration of bis(2-ethylhexyl) phthalate (DEHP) and diisobutyl phthalate (DIBP) (measured values up to 20.3% and 0.8% by weight, respectively). These phthalates may harm the health by causing possible damage to the reproductive system. The product does not comply with the REACH Regulation.	Ban on the marketing of the product and any accompanying measures
SR/02214/25	Malta	Sticky hand toy (Country of Origin: China)		Choking The toy can easily generate small parts. A child may put them in their mouth and choke. The product does not comply with the requirements of the Toy Safety Directive nor with the European standard EN 71-1.	Import rejected at border
SR/02215/25	Malta	Acrylic gemstone toy set (Country of Origin: China)		Choking The toy contains small parts. A small child may put them in their mouth and choke. The product does not comply with the requirements of the Toy Safety Directive nor with the European standard EN 71-1.	Import rejected at border
SR/02223/25	France	Wooden toy (Country of Origin: China)		Choking Small parts (Velcro fastenings on the corn cob) may easily detach from the toy. A child may put them into their mouth and choke. The product does not comply with the requirements of the Toy Safety Directive nor with the European standard EN 71-1.	Recall of the product from end users
SR/02231/25	UK	Pushchair (Country of Origin: China)		Asphyxiation The product is not supplied with relevant safety warnings. Without these warnings, the child can be placed in the stroller to sleep in an upright position. This can cause the child's head to drop down, restricting the necessary airflow to their lungs and leading to asphyxiation. This product does not comply with the General Product Safety Regulation.	Import rejected at border

SR/02234/25	Malta	Toy slime (Country of Origin: China)		Choking The toy has small parts (the beads and figurines) which may easily detach. A small child may put them in their mouth and choke. The product does not comply with the requirements of the Toy Safety Directive nor with the European standard EN 71-3.	Import rejected at border
SR/02276/25	France	Fancy dress costume (Country of Origin: China)		Fire The costume has inflammable solid material (pink plush on the wings). The costume may catch fire if worn close to an ignition source. The product does not comply with the requirements of the Toy Safety Directive nor with the European standard EN 71-2.	Withdrawal of the product from the market
SR/02284/25	Germany	Toy furniture set (Country of Origin: China)		Choking The toy set contains small parts. Small children may put them in their mouth and choke. The product does not comply with the requirements of the Toy Safety Directive nor with the European standard EN 71-1.	Import rejected at border
SR/02288/25	Malta	Soft toy (Country of Origin: China)		Choking The product has small parts (small chain) which may easily detach. A small child may put them into their mouth and choke. The product does not comply with requirements with the Toy Safety Directive nor with the European standard EN 71-1	Import rejected at border
SR/02289/25	France	Playpen (Country of Origin: China)		Choking The product has small parts (the top tips of the plastic rods). A small child may put it in their mouth and choke. The product does not comply with the requirements of the Toy Safety Directive nor with the European standard EN 71-1.	Recall of the product from end users
SR/02293/25	Germany	Squeeze toy (Country of Origin: China)		Choking The toy contains small parts (beads). Small children may put them in their mouth and choke. The product does not comply with the requirements of the Toy Safety Directive nor with the European standard EN 71-1.	Import rejected at border

SR/02296/25	France	Soft toy (Country of Origin: China)		Choking The eyes of the toy can easily detach, generating small parts. A small child could put them in their mouth and choke on it. The product does not comply with the requirements of the Toy Safety Directive nor with the European standard EN 71-1.	Warning consumers of the risks
SR/02297/25	Poland	Plastic doll (Country of Origin: China)		Chemical The plastic material of the toy has an excessive concentration of bis(2-ethylhexyl) phthalate (DEHP) and dibutyl phthalate (DBP) (measured values up to 0.374% and 0.577% by weight, respectively). These phthalates may harm the health of children, causing possibly damage to the reproductive system. The product does not comply with the REACH Regulation.	Warning consumers of the risks
SR/02301/25	UK	LED balloon lights (Country of Origin: China)		Choking, Injuries The button batteries are easily accessible. A child may put them in their mouth and swallow them, which could cause damage to the child's gastrointestinal tract and/or choking. The product does not comply with the requirements of the Toy Safety Directive.	Import rejected at border
SR/02318/25	Croatia	Soft toy (Country of Origin: China)		Choking The fibrous stuffing material of the toy is easily accessible due to the weakness of the seams on the back. A small child may put the filling material in their mouth and choke. The product does not comply with the requirements of the Toy Safety Directive and the European standard EN 71-1.	Import rejected at border
SR/02320/25	Germany	Soft toy (Country of Origin: China)		Choking Small parts (eyes) can easily detach from the toy. Small children may put them in their mouth and choke. The product does not comply with the requirements of the Toy Safety Directive nor with the European standard EN 71-1.	Import rejected at border

SR/02321/25	France	Toy excavator (Country of Origin: China)		Injuries The toy has an accessible sharp tip, caused by screw tips at the level of the scraper at the front, which poses a risk of injury to the child. The product does not comply with the requirements of the Toy Safety Directive nor the European standard EN 71-1.	Withdrawal of the product from the market
SR/02323/25	Latvia	Plastic brick toy set (Country of Origin: China)		Choking This product consists of small parts and lacks required labelling. Therefore the user is not adequately informed about the risks involved in using the product. A child may put the small parts in their mouth and choke. The product does not comply with the requirements of the Toy Safety Directive.	Import rejected at border
SR/02324/25	Latvia	Plastic brick toy set (Country of Origin: China)		Choking This product consists of small parts and lacks required labelling. Therefore, the user is not adequately informed about the risks involved in using the product. A child may put the small parts in their mouth and choke. The product does not comply with the requirements of the Toy Safety Directive.	Import rejected at border
SR/02330/25	UK	Children's nail set (Country of Origin: China)		Suffocation The plastic of the packaging is too thin. If a child plays with it, the plastic can cover their mouth and nose, causing the child to suffocate. The product does not comply with the requirements of the Toy Safety Directive.	Import rejected at border
SR/02333/25	UK	Toy pillow (Country of Origin: China)		Entrapment, Suffocation The pillow, pillowcase and detachable moon toy include fabric loops sewn into the side of one of the seams. These loops are large enough for a small child to have a finger entrapped in it. Moreover, the plastic of the packaging is too thin. If a child plays with it, the plastic can cover their mouth and nose, causing the child to suffocate. This product does not comply with the requirements of the Toy Safety Directive.	Removal of this product listing by the online marketplace

SR/02339/25	Ireland	Balloons (Country of Origin: China)		Chemical The rubber of the balloons releases an excessive amount of nitrosatable substances(measured total value up to 2.63 mg/kg), which generate nitrosamines, including N-nitrosodiethanolamine (NDELA) and N-nitrosodimethylamine (NDMA). Nitrosamines may cause cancer through ingestion or dermal exposure. A child could be exposed to them when touching or putting the product in their mouth. The product does not comply with the requirements of the Toy Safety Directive nor with the European standard EN 71-12.	Recall of the product from end users
SR/02348/25	Czechia	Plastic doll (Country of Origin: China)		Chemical The plastic material of the product has an excessive concentration of bis(2-ethylhexyl) phthalate (DEHP) (measured value up to 55.86% by weight). This phthalate may harm the health by causing possible damage to the reproductive system. The product does not comply with the REACH Regulation.	Destruction of the product
SR/02355/25	Czechia	Plastic doll (Country of Origin: China)		Chemical The plastic material of the toy has an excessive concentration of bis(2-ethylhexyl) phthalate (DEHP) (measured value up to up to 32.9% by weight). This phthalate may harm the health by causing possible damage to the reproductive system. The product does not comply with the REACH Regulation.	Destruction of the product
SR/02375/25	Poland	Plastic toy (Country of Origin: China)		Choking, Cuts There are burrs on the toy's surface, which may cause cuts. Additionally, the product has small parts (green balls) that can be easily detached. A small child may put them in their mouth and choke. The product does not comply with the requirements of the Toy Safety Directive nor with the European standard EN 71-1.	Warning consumers of the risks

Safety Gate: the EU rapid alert system for dangerous non-food products

“Safety Gate”, the EU rapid alert system (formerly known as “RAPEX”), enables the rapid exchange of information between **31 European countries** and the European Commission on non-food dangerous products found on the market posing a risk to the health and safety of consumers.

A weekly overview of the alerts on those products is published in English for free on <https://ec.europa.eu/safety-gate-alerts/screen/search?resetSearch=true>. The measures taken in the notifying country in order to restrict such products’ marketing or use can be ordered by national authorities (“compulsory measures”) or be taken directly by producers and distributors (“voluntary measures”).

The official contact points of the Member and EFTA-EEA States provide the information published in these weekly overviews. Under the terms of Annex II.10 of the General Product Safety Directive (**2001/95/EC**) responsibility for the information provided lies with the notifying party. The Commission does not take any responsibility for the accuracy of the information provided.

Recall Summary – US Toys / Children’s Products

CPSC Recall List (May 2025)

Recall No.	Notifying Country	Product	Product Photo	Hazard / Risk	Remedy
25-312	USA	ZRWD Infant Swings (Country of Origin: China)		<p>Missing of Warnings</p> <p>ZRWD Infant Swings Recalled Due to Risk of Serious Injury or Death from Suffocation Hazard; Multiple Federal Safety Violations; Sold Exclusively on Amazon.com by ZRWD</p> <p>The swings pose a deadly suffocation risk because they were marketed for infant sleep and they have an incline angle greater than 10 degrees, in violation of the CPSC’s Infant Sleep Products Standard and Safe Sleep for Babies Act. The swings also fail to meet mandatory warning requirements under the swing standard. In addition, the remote control for the swing contains a lithium coin battery and the products are missing the required warnings and instructions for consumer products containing button cell and coin batteries under Reese’s Law. When button cell or coin batteries are swallowed, the ingested batteries can cause serious injuries, internal chemical burns and death.</p>	<p>Consumers should immediately stop using the recalled infant swings and contact ZRWD for a full refund. Consumers should send a photo of the swing cover cut in half and of the swing with “Recalled” written with permanent marker on its base to zrwrecall@163.com and then dispose of the swing. ZRWD and Amazon are contacting all known purchasers directly.</p> <p>Note: Button cell and coin batteries are hazardous. Batteries should be disposed of or recycled by following local procedures for hazardous household waste, not in the trash.</p>

25-314	USA	Hobby Toy Hammer Ball Sets (Country of Origin: China)		Choking Hazard Hobby Toy Hammer Ball Sets Recalled Due to Risk of Serious Injury or Death from Choking Hazard; Violation of Federal Regulation for Toys with Small Balls; Sold Exclusively on Amazon.com by Shantou Haochengheng Technology The toy sets contain small balls that violate regulations for toys intended for children under three years of age because they are a choking hazard and can cause serious injury or death.	Consumers should stop using the recalled toys immediately and contact Shantou Haochengheng Technology for information on how to destroy the product and obtain a full refund. Shantou Haochengheng Technology and Amazon are also contacting all known purchasers directly.
25-315	USA	ZHORANGE Portable Bassinets (Country of Origin: China)		Fall Hazard ZHORANGE Portable Bassinets Recalled Due to Risk of Serious Injury or Death from Fall Hazard; Violation of Federal Standard for Infant Sleep Products; Sold on Amazon.com by DFD Trading The recalled portable bassinets violate the federal safety standard for Infant Sleep Products because the sides are too low to contain the infant and the portable bassinets do not have a stand, posing a fall hazard. These violations create an unsafe sleeping environment for infants.	Consumers should immediately stop using the recalled portable bassinets and contact DFD Trading for a full refund. Consumers should remove the sleeping pad, cut the sides of the portable bassinets and the sleeping pad, and email a photo of the destroyed bassinet to zhorange8695@gmail.com to obtain a full refund. DFD Trading and Amazon are contacting all known purchasers directly.

25-316	USA	Portable Hook-On Chairs (Country of Origin: China)		Fall Hazard Portable Hook-On Chairs Recalled Due to Risk of Serious Injury or Death from Fall Hazard; Violation of the Federal Standard for Portable Hook-On Chairs; Sold Exclusively on Amazon.com by Ravmix The recalled portable hook-on chair poses a deadly fall hazard because the crotch restraint can be removed without the use of a tool and infants can fall through an opening, which is a violation of the federal standard for portable hook-on chairs.	Consumers should stop using the hook-on chair immediately and contact Ravmix for information on how to receive a refund. Consumers will be instructed on how to disassemble the product, cut the restraint straps and cloth seat, and email photos of the disassembled product and parts to Ravmix. Upon receipt of the photos, Ravmix will issue a full refund. Ravmix is contacting all known purchasers directly.
25-318	USA	2-in-1 Funlio Convertible Baby High Chairs (Country of Origin: China)		Fall and Entrapment Hazards Funlio Convertible High Chairs Recalled Due to Risk of Serious Injury or Death from Fall and Entrapment Hazards; Violation of Federal Standards for High Chairs; Sold by Ecogoods The recalled high chairs pose a deadly entrapment hazard because the opening between the seat and tray is large enough that a child can become entrapped in it. In addition, the child restraint system can fail, posing a fall hazard. These are violations of the federal standards for high chairs.	Consumers should stop using the recalled high chair immediately, disassemble it and contact Ecogoods for information on how to receive a full refund. Consumers will be instructed to cut the restraint straps and email photos of the disassembled and destroyed components to funlioproductrecall@outlook.com. Ecogoods is contacting all known purchasers directly.

25-335	USA	Skywalker Pro Via Ferrata Sets, Skywalker Pro Turn Via Ferrata Sets and Skywalker Pro Via Ferrata Packages (Country of Origin: Switzerland)		Fall Hazard Mammut Sports Group Recalls Skywalker Pro Via Ferrata Sets Due to Risk of Serious Injury or Death from Fall Hazard The carabiner can be opened without engaging the safety latch, posing a risk of serious injury or death due to fall hazard.	Consumers should immediately stop using the Via Ferrata Sets and contact Mammut Sports Group for a full refund. Mammut Sports Group will provide return labels for consumers to return their recalled products to receive their refund. Consumers should email warranty.usa@mammut.com to request the prepaid return labels.
25-336	USA	Giraffe Highchairs (Country of Origin: Czech Republic)		Fall Hazard Bugaboo North America Recalls Giraffe High Chairs Due to Risk of Serious Injury or Death from Fall Hazard The highchairs pose a fall hazard and risk of serious injury or death to babies because the legs of the chair can detach from the frame if the screws connecting the legs are not properly tightened during assembly.	Consumers should immediately stop using the recalled highchairs and contact Bugaboo to receive a free repair kit including an Allen key and new screws to install into the product's legs. Bugaboo is contacting all known purchasers directly.

25-339	USA	Manual Retractable Security Pool Covers (Country of Origin: United States)		Drowning and Entrapment Hazards Endless Pools Recalls Manual Retractable Pool Covers Due to Drowning and Entrapment Hazards; Risk of Serious Injury and Death The recalled pool covers can leave a gap of more than 4.5 inches between the cover roller and the pool surface, when installed incorrectly by the installer. An improper installation can result in the covers not conforming to the voluntary industry standard, ASTM F-1346, posing drowning and entrapment hazards to children that could result in serious injury or death.	Pool owners and operators should immediately contact Endless Pools for a free inspection and a free repair by an Endless Pools support services representative. Endless Pools will inspect the pool covers and send out a service representative to remedy any entrapment and drowning risks posed by improper installation. Pool owners and operators should not allow children to use or access the pool or pool cover unsupervised. Until the repair for the pool cover is completed, keep children away from the pool cover when closed. To prevent serious injury or death due to entrapment under the pool cover, do not allow anyone — especially children — to sit, stand, or jump on the pool cover at any time. Endless Pools is contacting all known purchasers directly.
--------	-----	--	---	--	--

25-345	USA	TADAKAZU Baby Loungers (Country of Origin: China)		Fall and Entrapment Hazards TADAKAZU Baby Loungers Recalled Due to Risk of Serious Injury or Death from Suffocation, Fall and Entrapment Hazards; Violations of Federal Standard for Infant Sleep Products; Sold on Amazon The recalled portable baby loungers violate the federal safety standards for Infant Sleep Products because the sides are shorter than the minimum side height limit to secure the infant; the sleeping pad's thickness exceeds the maximum limit, posing a suffocation hazard; and an infant could fall out of an enclosed opening at the foot of the lounger or become entrapped. The portable loungers do not have a stand, posing a fall hazard. These violations create an unsafe sleeping environment for infants, posing a risk of serious injury or death.	Consumers should immediately stop using the recalled baby loungers and contact TADAKAZU for a full refund. Consumers should remove the sleeping pad, cut up the sides of the baby loungers and the sleeping pad, and email a photo of the destroyed lounger to tadakazurecall@yeah.net to obtain a full refund. TADAKAZU and Amazon are contacting all known purchasers directly.
--------	-----	--	---	--	--

25-354	USA	<p>California Gold Nutrition Iron Supplements: Daily Prenatal Multi, Ultamins Women's Multivitamin, and Ultamins Women's 50+ Multivitamin</p> <p>(Country of Origin: United States)</p>		<p>Risk of Serious Injury or Death</p> <p>iHerb Recalls Bottles and Blister Packs of California Gold Nutrition Iron Supplements Due to Risk of Serious Injury or Death from Child Poisoning; Violation of Federal Standard for Child Resistant Packaging</p> <p>The recalled dietary supplements contain iron, which must be in child-resistant packaging, as required by the Poison Prevention Packaging Act. The iron-containing dietary supplement packages violate the federal standard for child-resistant packaging because the bottles and blister packs are not child-resistant, posing a risk of deadly poisoning, if the contents are swallowed by young children.</p>	<p>Consumers should immediately secure the recalled supplement bottles out of sight and reach of children and contact iHerb for a refund and information on how to safely discard the packaging and product. To receive a refund, consumers should email ProductRecall@iherb.com with the subject line: "Iron Supplement Refund" and provide the following information:</p> <p>Name</p> <p>Product(s) name & quantity ordered</p> <p>Evidence of destruction (initials and date for each product package; include a photo with your initials and the date visible)</p> <p>Optional (provide the order number associated with the purchase(s), which can be found by logging into consumer's account and viewing the "Order History")</p> <p>iHerb is contacting all known purchasers directly.</p>
--------	-----	---	---	---	---

25-359	USA	Bell Sports Bicycle Helmets (Country of Origin: United States)		Risk of Head Injury Bell Sports Recalls Bicycle Helmets Due to Risk of Head Injury; Violation of Federal Standard for Bicycle Helmets The recalled helmets do not comply with the impact requirements of the Consumer Product Safety Commission's (CPSC) mandatory federal safety standard for bicycle helmets. The helmets can fail to protect the user in the event of a crash, posing a risk of head injury.	Consumers should stop using the recalled helmets immediately and contact Bell Sports for a full refund. Consumers should destroy the recalled helmet by cutting the straps off the helmet. Consumers can upload photos of the helmet with the straps cut off to consumersupport-bell@bellhelmets.com to obtain a refund. Bell Sports is contacting all known purchasers directly.
25-706	USA	Peg Perego Tatamia 3-in-1 Recliner, Swings and High Chairs (Country of Origin: Italy)		Risk of Suffocation Peg Perego Recalls Tatamia 3-in-1 Recliners, Swings and High Chairs Due to Risk of Suffocation; Violations of Multiple Federal Standards (Recall Alert) The 3-in-1 products pose a suffocation risk because they were marketed for infant sleep, and they have an incline angle greater than 10 degrees, in violation of the Infant Sleep Products Rule and Safe Sleep for Babies Act. In addition, the products fail to meet mandatory warning requirements under the high chair standard.	Consumers should immediately stop using the recalled products and contact Peg Perego for a full refund. Consumers should contact Peg Perego for a prepaid shipping label and packaging to send the products back to Peg Perego. Peg Perego and Amazon are contacting all known purchasers directly.

CPSC

The United States Consumer Product Safety Commission (CPSC) is an independent agency of the United States Government. To provide better service in alerting the American people to unsafe, hazardous or defective products, a "one stop shop" for U.S. Government recalls, <http://www.recalls.gov>, has been created. Members of the public may report unsafe products to CPSC by using the platform.

The recall list is divided into seven categories: Consumer Products, Motor Vehicles, Boats, Food, Medicine, Cosmetics and Environmental Products. Generally, the recall is conducted voluntarily by the company under CPSC's Fast Track Recall programme. Fast Track recalls are initiated by firms who are committed to working with CPSC to quickly announce the recall and remedy to protect consumers.

Australian Product Safety System

The Australian product safety system is set up to maximise the safety of goods through the cooperation of consumers, businesses and agencies. This policy sets out the principles adopted by the Australian Competition and Consumer Commission (ACCC) for prioritising and addressing product safety risks.

Under the Australian Consumer Law, a responsible Minister can order a compulsory recall when there are hazards on the products. A voluntary recall could be conducted to remove the product from the marketplace when the suppliers become aware of unsafe or defective products.

The ACCC administers a national recalls system for recalls of specific and general consumer products, and publishes all product recalls on <https://www.productsafety.gov.au/recalls>.

Recall Summary – Japanese Toys / Children’s Products
