

## Recall Summary – European Toys / Children's Products

**EU Safety Gate Alerts (Dec 2025)**

Alert No.	Notifying Country	Product	Product Photo	Hazard/ Risk	Measures Adopted
OR/00166/25	France	<b>Plush toy</b>  (Country of Origin: <b>China</b> )		<b>Choking</b>  The fibrous stuffing material of the toy is easily accessible due to the weakness of the seams. A small child may put the filling material in the mouth and choke. The product does not comply with the requirements of the Toy Safety Directive nor with the European standard EN 71-1.	Removal of this product listing by the online marketplace
OR/00168/25	Ireland	<b>Baby sleeping bag</b>  (Country of Origin: <b>Sri Lanka</b> )		<b>Strangulation</b>  The neck opening measure of the sleeping bag is too narrow. This can lead to discomfort, rash, and irritation to the baby, as well as strangulation. The product does not comply with the General Product Safety Regulation nor with the European standard EN 16781.	Recall of the product from end users
SR/04203/25	France	<b>Children's harness</b>  (Country of Origin: <b>Germany</b> )		<b>Injuries</b>  The child can loosen the straps, which could lead to a small child falling off and getting injured. The product does not comply with the General Product Safety Regulation nor with the European standard EN 13210-1.	Warning consumers of the risks
SR/04205/25	Latvia	<b>Soother holder</b>  (Country of Origin: <b>China</b> )		<b>Strangulation</b>  The cord of the soother holder is too long. It can become trapped during various activities of a child, leading to strangulation. The product does not comply with the General Product Safety Regulation nor with the European standard EN 12586.	Removal of this product listing by the online marketplace
SR/04218/25	UK	<b>Plush toys</b>  (Country of Origin: <b>China</b> )		<b>Choking</b>  The product contains small parts (eyes of leopard and mouse toys) that can easily detach. A small child may put them in the mouth and choke. The product does not comply with the requirements of the Toy Safety Directive.	Import rejected at border

Alert No.	Notifying Country	Product	Product Photo	Hazard/ Risk	Measures Adopted
SR/04219/25	France	<b>Fancy-dress costume</b>  (Country of Origin: <b>China</b> )		<b>Injuries, Strangulation</b>  The product has long cords in the neck and waist area. These drawstrings can become trapped during various activities of a child, leading to strangulation and/or injuries. The product does not comply with the requirements of the Toy Safety Directive nor with the European standard EN 71-1.	Warning consumers of the risks
SR/04222/25	Ireland	<b>Soother holder</b>  (Country of Origin: <b>China</b> )		<b>Choking, Strangulation</b>  The soother holder does not have the required ventilation holes, leading to choking. Moreover, the cord of the soother holder is too long. It can become wrapped around the neck of the baby, leading to strangulation. The product does not comply with the General Product Safety Regulation nor with the European standard EN 12586.	Recall of the product from end users
SR/04223/25	Ireland	<b>Soother holder</b>  (Country of Origin: <b>China</b> )		<b>Choking, Strangulation</b>  The soother holder does not have the required ventilation holes, leading to choking. Moreover, the cord of the soother holder is too long. It can become wrapped around the neck of the baby, leading to strangulation. The product does not comply with the General Product Safety Regulation nor with the European standard EN 12586.	Withdrawal of the product from the market
SR/04227/25	France	<b>Soft toy with keyring</b>  (Country of Origin: <b>China</b> )		<b>Choking</b>  The product has small parts which can easily detach (metal half-ring). A small child could put them into the mouth and choke. The product does not comply with the requirements of the Toy Safety Directive nor with the European standard EN 71-1.	Removal of this product listing by the online marketplace
SR/04228/25	France	<b>Toy sword</b>  (Country of Origin: <b>China</b> )		<b>Chemical, Choking, Damage to Ssight</b>  The battery compartment of the toy opens easily without the use of tools, making the batteries inside easily accessible. A child may put them in the mouth and swallow them, which could cause damage to the child's gastrointestinal tract	Removal of this product listing by the online marketplace

Alert No.	Notifying Country	Product	Product Photo	Hazard/ Risk	Measures Adopted
				and/or choking. The laser beam in the toy is too powerful. Direct viewing of the laser beam could cause damage to sight. The product does not comply with the requirements of the Toy Safety Directive nor with the European standard EN 62115.	
SR/04229/25	Czechia	<b>Children's slippers</b>  (Country of Origin: <b>China</b> )		<b>Chemical</b>  The plastic material of the product has an excessive concentration of bis(2-ethylhexyl) phthalate (DEHP) (measured values: 28.6% by weight). This phthalate may harm the health of children, causing possible damage to their reproductive system. The product does not comply with the REACH Regulation nor with the General Product Safety Regulation.	Destruction of the product
SR/04232/25	France	<b>Soft toy</b>  (Country of Origin: <b>China</b> )		<b>Choking</b>  The toy has small parts (slider and zip pull) that can easily detach. Small children may put them in the mouth and choke. The product does not comply with the requirements of the Toy Safety Directive nor with the European standard EN 71-1.	Warning consumers of the risks
SR/04244/25	France	<b>Key ring</b>  (Country of Origin: <b>China</b> )		<b>Choking</b>  The product has small parts which can easily detach (plastic eye). A small child could put them into the mouth and choke. The product does not comply with the requirements of the Toy Safety Directive nor with the European standard EN 71-1.	Removal of this product listing by the online marketplace
SR/04249/25	France	<b>Fancy-dress costume</b>  (Country of Origin: <b>China</b> )		<b>Burns</b>  The costume has inflammable material. The costume may catch fire if worn close to an ignition source, resulting in burns. The product does not comply with the requirements of the Toy Safety Directive nor with the European standard EN 71-2.	Recall of the product from end users

Alert No.	Notifying Country	Product	Product Photo	Hazard/ Risk	Measures Adopted
SR/04251/25	UK	<b>Magnetic toy</b>  (Country of Origin: <b>China</b> )		<b>Injuries</b>  The toy contains small magnets with a magnetic flux index greater than the maximum permitted level. If a child swallows the small magnets, they could attract one another, causing intestinal blockage or perforation. The product does not comply with the requirements of the Toy Safety Directive.	Recall of the product from end users
SR/04253/25	Austria	<b>Squeeze toy</b>  (Country of Origin: <b>China</b> )		<b>Choking</b>  The product contains small parts (eyes) that can easily detach. A small child may put them in the mouth and choke. The product does not comply with the requirements of the Toy Safety Directive nor with the European standard EN 71-1.	Recall of the product from end users
SR/04254/25	Austria	<b>Soft toy</b>  (Country of Origin: <b>China</b> )		<b>Choking</b>  The product contains small parts (bells) that can easily detach. A small child may put them in the mouth and choke. The product does not comply with the requirements of the Toy Safety Directive nor with the European standard EN 71-1.	Recall of the product from end users
SR/04256/25	Austria	<b>Soft toy</b>  (Country of Origin: <b>China</b> )		<b>Choking</b>  The product contains small parts (necklace beads) that can easily detach. A small child may put them in the mouth and choke. The product does not comply with the requirements of the Toy Safety Directive nor with the European standard EN 71-1.	Recall of the product from end users
SR/04259/25	Germany	<b>Balloons</b>  (Country of Origin: <b>China</b> )		<b>Chemical</b>  The rubber of the balloons releases an excessive amount of nitrosamines (measured total value: 0.21 mg/ kg), and nitrosatable substances (measured value: 4.92 mg/kg), which generate nitrosamines. Nitrosamines may cause cancer through ingestion or dermal exposure. A child could be exposed to them when touching or putting the product in the mouth. The product does not comply with the requirements of the Toy Safety Directive nor with the European standard EN 71-12.	Recall of the product from end users

The information contained in this newsletter is obtained from sources believed to be accurate to the best knowledge of STC and its subsidiaries. Alert No.	Notifying Country	Product	Product Photo	Hazard/ Risk	Measures Adopted
SR/04283/25	Lithuania	Toy slime  (Country of Origin: <b>China</b> )		<b>Chemical</b>  The migration of boron from the toy slime is too high (measured value up to 997 mg/kg). Ingestion or contact with an excessive quantity of boron may harm the health of children by damaging their reproductive system. The product does not comply with the requirements of the Toy Safety Directive nor with the European standard EN 71-3.	Withdrawal of the product from the market
SR/04284/25	Lithuania	Toy slime  (Country of Origin: <b>China</b> )		<b>Chemical</b>  The migration of boron from the toy slime is too high (measured value up to 865 mg/kg). Ingestion or contact with an excessive quantity of boron may harm the health of children by damaging their reproductive system. The product does not comply with the requirements of the Toy Safety Directive nor with the European standard EN 71-3.	Withdrawal of the product from the market
SR/04290/25	Lithuania	Plastic toy  (Country of Origin: <b>China</b> )		<b>Asphyxiation</b>  The plastic bag packaging is too thin. If a child places the plastic bag over their head, they could asphyxiate. The product does not comply with the requirements of the Toy Safety Directive nor with the European standard EN 71-1.	Withdrawal of the product from the market
SR/04316/25	Poland	Plastic doll  (Country of Origin: <b>China</b> )		<b>Chemical</b>  The plastic material of the product has an excessive concentration of bis(2-ethylhexyl) phthalate (DEHP) (up to 0.258% by weight). This phthalate may harm the health by causing possible damage to the reproductive system. The product does not comply with the REACH Regulation nor with the General Product Safety Regulation.	Warning consumers of the risks
SR/04330/25	Malta	Inflatable mat  (Country of Origin: <b>China</b> )		<b>Choking</b>  The product contains small parts (the plastic marine pieces) that can be easily accessed, as there is a circular opening on the underside of the mat. A small child may put them in the mouth and choke. The product does not comply	Import rejected at border

Alert No.	Notifying Country	Product	Product Photo	Hazard/ Risk	Measures Adopted
				with the requirements of the Toy Safety Directive nor with the European standard EN 71-1.	
SR/04331/25	UK	<b>Fidget toy</b>  (Country of Origin: <b>China</b> )		<b>Choking, Microbiological</b>  The products can burst easily, releasing small parts. A small child may put them in the mouth and choke. The aqueous solution inside contains an excessive concentration of microbiological contamination. As the product bursts, this will also become accessible, which could present a microbial infection risk to the user if ingested, inhaled, or through skin contact. The product does not comply with the requirements of the Toy Safety Directive	Recall of the product from end users
SR/04332/25	UK	<b>Toy plane</b>  (Country of Origin: <b>China</b> )		<b>Chemical, Choking</b>  The plastic material of the USB cable of the product contains diisobutyl phthalate (DINP), Dibutyl phthalate (DBP), bis(2-ethylhexyl) phthalate (DEHP) (measured values: 0.019%, 9.5% and 0.34% by weight, respectively). These phthalates may harm the health by causing possible damage to the reproductive system. Moreover, the battery compartment can be easily opened without the use of tools, leaving the batteries accessible. A child may put them in the mouth and choke. The batteries could cause damage to the child's gastrointestinal tract if they are ingested. The product does not comply with the requirements of the Toy Safety Directive nor with the REACH Regulation	Removal of this product listing by the online marketplace
SR/04334/25	Spain	<b>Pirate accessories</b>  (Country of Origin: <b>China</b> )		<b>Burns</b>  The beard and moustache are easily flammable, and the flame propagation is too high. If it catches fire, the child could suffer burns. The product does not comply with the Toy Safety Directive and the European standard EN 71-2.	Temporary ban on the supply, offer to supply, and display of the product

Alert No.	Notifying Country	Product	Product Photo	Hazard/ Risk	Measures Adopted
SR/04338/25	Finland	<b>Finger paint</b>  (Country of Origin: <b>Turkey</b> )		<b>Health Risk / Other</b>  The product does not include an embittering agent and is therefore fragranced. This could cause the child to ingest the product, which could harm the child's digestive system or health. The product does not comply with the requirements of the Toy Safety Directive nor with the European standard 71-7.	Import rejected at border
SR/04341/25	Lithuania	<b>Plastic doll</b>  (Country of Origin: <b>China</b> )		<b>Chemical</b>  The plastic material of the product has an excessive concentration of bis(2-ethylhexyl) phthalate (DEHP) (measured value: 16,5% by weight). This phthalate may harm the health by causing possible damage to the reproductive system. The product does not comply with the requirements of the Toy Safety Directive.	Withdrawal of the product from the market
SR/04368/25	France	<b>Soother holder</b>  (Country of Origin: <b>China</b> )		<b>Choking, Entrapment, Strangulation</b>  The soother holder has openings in which the child could have the fingers trapped. Moreover, the soother holder is too long, it can wrap around the neck of the child, causing strangulation. Additionally, the clip device can easily break, releasing small pieces. A small child may put these in the mouth and choke. The clothing fastener device can also easily disconnect. A small child could also take this small part, put it in the mouth, and choke. The product does not comply with the General Product Safety Regulation nor with the European standard EN 12586.	Removal of this product listing by the online marketplace
SR/04371/25	France	<b>Fancy dress costume</b>  (Country of Origin: <b>China</b> )		<b>Asphyxiation, Burns, Fire</b>  The pipe cleaners rolled around the antennae have sharp points that can cause injuries to the child. The plastic bag packaging is too thin. If a child places the plastic bag over their head, they could asphyxiate. Moreover, the costume may catch fire if worn close to an ignition source, resulting in burns. The product does not comply with the requirements of the Toy Safety Directive	Removal of this product listing by the online marketplace

Alert No.	Notifying Country	Product	Product Photo	Hazard/ Risk	Measures Adopted
		Origin: <b>China</b>		of the Toy Safety Directive nor with the European standard EN 71-1.	
SR/04422/25	Sweden	<b>Children's camera</b>  (Country of Origin: <b>China</b> )		<b>Environment</b>  The solders in the product have an excessive concentration of cadmium (measured value up to 0.38% by weight). Cadmium bio-accumulates and poses a risk to the environment. The product does not comply with the requirements of the Directive on the restriction of the use of certain hazardous substances in electrical and electronic equipment (RoHS 2 Directive).	Removal of this product listing by the online marketplace
SR/04423/25	Sweden	<b>Game toy</b>  (Country of Origin: <b>China</b> )		<b>Environment</b>  The solders in the product have excessive concentrations of lead and cadmium (measured values up to 77.5% and 0.34% by weight, respectively). Cadmium and lead pose a risk to the environment. The product does not comply with the requirements of the Directive on the restriction of the use of certain hazardous substances in electrical and electronic equipment (RoHS 2 Directive).	Removal of this product listing by the online marketplace
SR/04424/25	UK	<b>Infant bath tub seat</b>  (Country of Origin: <b>China</b> )		<b>Drowning</b>  The product does not have a crotch restraint. Without a restraint, the infant may be inadequately supported and could slip down into the water during use, leading to a risk of drowning. Improvements are also required for the product labelling, markings, and warnings. The product does not comply with the General Product Safety Regulation.	Removal of this product listing by the online marketplace
SR/04436/25	UK	<b>Wooden toy</b>  (Country of Origin: <b>China</b> )		<b>Choking, Strangulation</b>  The toy contains small parts that can easily detach (wooden ball). Small children may put them in the mouth and choke. Moreover, the red rope length exceeds the maximum permitted length, which causes a risk of strangulation. The product does not comply with the requirements of the Toy Safety Directive nor with the European standard EN 71-1.	Import rejected at border

SR/04474/25	France	<b>Keyring</b>  (Country of Origin: <b>China</b> )		<b>Choking</b>  The product has small parts which can easily detach (metal ring and turtle eyes). A small child could put them into the mouth and choke. The product does not comply with the requirements of the Toy Safety Directive nor with the European standard EN 71-1.	Warning consumers of the risks
SR/04499/25	UK	<b>Toy wand</b>  (Country of Origin: <b>China</b> )		<b>Chemical, Choking</b>  The battery compartment can be easily opened, leaving the button batteries accessible. A child may put them in the mouth and swallow them, which could cause damage to the child's gastrointestinal tract and/or choking. This product does not comply with the requirements of the Toy Safety Directive.	Withdrawal of the product from the market
SR/04508/25	Czechia	<b>Police baton traffic control toy</b>  (Country of Origin: <b>China</b> )		<b>Environment</b>  The soldiers have excessive concentrations of lead and cadmium (measured values up to 50.5% and 0.058% by weight, respectively. Lead and cadmium pose a risk to the environment. The product does not comply with the requirements of the Directive on the restriction of the use of certain hazardous substances in electrical and electronic equipment (RoHS 2 Directive).	Ban on the marketing of the product and any accompanying measures
SR/04511/25	Germany	<b>Balloons</b>  (Country of Origin: <b>China</b> )		<b>Chemical</b>  The rubber of the balloons releases an excessive amount of nitrosamines (measured total value: 0.063 mg/kg) and nitrosatable substances (measured value: 2.99 mg/kg), which generate nitrosamines. Nitrosamines may cause cancer through ingestion or dermal exposure. A child could be exposed to them when touching or putting the product in the mouth. The product does not comply with the requirements of the Toy Safety Directive nor with the European standard EN 71-12.	Removal of this product listing by the online marketplace

Alert No.	Notifying Country	Product	Product Photo	Hazard/ Risk	Measures Adopted
SR/04515/25	France	Toy slime  (Country of Origin: <b>China</b> )		<b>Chemical</b>  The migration of boron from the toy slime is too high (measured value up to 801 mg/kg). Ingestion or contact with an excessive quantity of boron may harm the health of children by damaging their reproductive system. The product does not comply with the requirements of the Toy Safety Directive nor with the European standard EN 71-3.	Removal of this product listing by the online marketplace
SR/04517/25	Spain	Toy musical instrument  (Country of Origin: <b>China</b> )		<b>Choking, Strangulation</b>  The toy has small parts that can easily detach or break (belt tensioners), releasing small parts. A small child may put them in the mouth and choke on them. Furthermore, the strap attached to the drum has no quick release mechanism. If worn around the neck, it could form a loop and become trapped, leading to strangulation. The product does not comply with the requirements of the Toy Safety Directive nor with the European standard EN 71-1.	Ban on the marketing of the product and any accompanying measures
SR/04518/25	France	Soft toy  (Country of Origin: <b>Singapore</b> )		<b>Choking</b>  The product has small parts which can easily detach (hands and feet). A small child could put them into the mouth and choke. Moreover, the fibrous stuffing material of the toy is easily accessible. A small child could put stuffing material in the mouth and choke. The product does not comply with the requirements of the Toy Safety Directive nor with the European standard EN 71-1.	Warn the seller about the danger of the product they are selling
SR/04519/25	France	Activity toy  (Country of Origin: <b>China</b> )		<b>Choking</b>  The product contains small parts (beads inside the wheel) that can easily detach. A small child may put them in the mouth and choke. The product does not comply with the requirements of the Toy Safety Directive nor with the European standard EN 71-1.	Withdrawal of the product from the market

Alert No.	Notifying Country	Product	Product Photo	Hazard/ Risk	Measures Adopted
SR/04520/25	France	<b>Toy slime</b> (Country of Origin: <b>China</b> )		<b>Chemical</b> The migration of boron from the toy slime is too high (measured value up to 4183 mg/kg). Ingestion or contact with an excessive quantity of boron may harm the health of children by damaging their reproductive system. The product does not comply with the requirements of the Toy Safety Directive nor with the European standard EN 71-3.	Warn the seller about the danger of the product they are selling

## Safety Gate: the EU rapid alert system for dangerous non-food products

“Safety Gate”, the EU rapid alert system (formerly known as “RAPEX”), enables the rapid exchange of information between **31 European countries** and the European Commission on non-food dangerous products found on the market posing a risk to the health and safety of consumers.

A weekly overview of the alerts on those products is published in English for free on <https://ec.europa.eu/safety-gate-alerts/screen/search?resetSearch=true>. The measures taken in the notifying country in order to restrict such products' marketing or use can be ordered by national authorities ("compulsory measures") or be taken directly by producers and distributors ("voluntary measures").

The official contact points of the Member and EFTA-EEA States provide the information published in these weekly overviews. Under the terms of Annex II.10 of the General Product Safety Directive ([2001/95/EC](#)) responsibility for the information provided lies with the notifying party. The Commission does not take any responsibility for the accuracy of the information provided.

## Recall Summary – US Toys / Children's Products

**CPSC Recall List (Dec 2025)**

Recall No.	Notifying Country	Product	Product Photo	Hazard/ Risk	Remedy
26-124	USA	Primark <b>Water Balloon Pump</b>  (Country of Origin: <b>China</b> )		<p><b>Injury Hazard</b> Primark US Recalls Primark Water Balloon Pumps Due to Injury Hazard</p> <p>The water balloon pump can generate excessive pressure during use, causing the product to rupture, posing a risk of physical injury to the user or bystanders.</p>	Consumers should immediately stop using the recalled water balloon pumps and return them to a Primark store for a full refund in the form of the original payment.
26-128	USA	CreateOn <b>Crayola- branded pip-Cubes</b>  (Country of Origin: <b>China</b> )		<p><b>Ingestion Hazard</b> CreateOn Recalls Pip-Cubes Due to Risk of Serious Injury or Death from Magnet Ingestion Hazard</p> <p>The recalled magnetic building cubes contain magnets that can become loose if the seams separate, posing an ingestion hazard to children. When high-powered magnets are swallowed, the ingested magnets can attract to each other, or other metal objects, and become lodged in the digestive system. This can result in perforations, twisting, and/or blockage of the intestines, blood poisoning, and death.</p>	Consumers should immediately stop using the recalled magnetic building cubes, take them away from children, and contact CreateOn to receive a replacement set of pip-cubes. Consumers will receive a prepaid label to return the recalled

					unattended or, alternatively, drain the pool until the repair can be installed.

## CPSC

The United States Consumer Product Safety Commission (CPSC) is an independent agency of the United States Government. To provide better service in alerting the American people to unsafe, hazardous or defective products, a “one stop shop” for U.S. Government recalls, <http://www.recalls.gov>, has been created. Members of the public may report unsafe products to CPSC by using the platform.

The recall list is divided into seven categories: Consumer Products, Motor Vehicles, Boats, Food, Medicine, Cosmetics and Environmental Products. Generally, the recall is conducted voluntarily by the company under CPSC’s Fast Track Recall programme. Fast Track recalls are initiated by firms who are committed to working with CPSC to quickly announce the recall and remedy to protect consumers.

## Recall Summary – Australian Toys / Children's Products

**ACCC Recall List (Dec 2025)**

## Australian Product Safety System

The Australian product safety system is set up to maximise the safety of goods through the cooperation of consumers, businesses and agencies. This policy sets out the principles adopted by the Australian Competition and Consumer Commission (ACCC) for prioritising and addressing product safety risks.

Under the Australian Consumer Law, a responsible Minister can order a compulsory recall when there are hazards on the products. A voluntary recall could be conducted to remove the product from the marketplace when the suppliers become aware of unsafe or defective products.

The ACCC administers a national recalls system for recalls of specific and general consumer products, and publishes all product recalls on <https://www.productsafety.gov.au/recalls>.

## Recall Summary – Japanese Toys / Children's Products

**METI Recall List (Dec 2025)**

Date	Notifying Country	Product	Product Photo	Hazard/ Risk	Remedy
