

Recall Summary – European Toys / Children’s Products

EU Safety Gate Alerts (February 2026)

Alert No.	Notifying Country	Product	Product Photo	Hazard/ Risk	Measures Adopted
OR/00015/26	Hungary	Plush toy (Country of Origin: China)		Choking The fibrous stuffing material of the toy is easily accessible when the zipper is opened. A small child could put stuffing material in the mouth and choke. The product does not comply with the requirements of the Toy Safety Directive nor with the European standard EN 71-1.	Withdrawal of the product from the market
OR/00016/26	Hungary	Plush toy (Country of Origin: China)		Choking The fibrous stuffing material of the toy is easily accessible. A small child could put it in the mouth and choke. The product does not comply with the requirements of the Toy Safety Directive nor with the European standard EN 71-1.	Ban on the marketing of the product and any accompanying measures
OR/00017/26	Hungary	Plush toy (Country of Origin: China)		Choking The fibrous stuffing material of the toy is easily accessible. A small child could put it in the mouth and choke. The product does not comply with the requirements of the Toy Safety Directive nor with the European standard EN 71-1.	Ban on the marketing of the product and any accompanying measures
OR/00018/26	France	Fancy-dress costume (Country of Origin: China)		Choking, Entrapment, Injuries The product has small parts that can easily detach. A small child may put it in the mouth and choke. Moreover, the product has long cords in the arms and waist area. These drawstrings can become trapped during various activities of a child, leading to injuries. The product does not comply with the requirements of the Toy Safety Directive nor with the European standard EN 14682.	Removal of this product listing by the online marketplace
OR/00021/26	Poland	Tricycle (Country of Origin: China)		Cuts, Entrapment, Injuries, Suffocation The toy has sharp edges, which may cause cuts. Moreover, there are accessible gaps between the moving parts of the tricycle. A child’s leg may become trapped there, leading to	Warning consumers of the risks

Alert No.	Notifying Country	Product	Product Photo	Hazard/ Risk	Measures Adopted
				injuries. Finally, the plastic bag packaging is too thin. If a child places the plastic bag over their head, they could suffocate. The product does not comply with the requirements of the Toy Safety Directive nor with the European standard EN 71-1.	
SR/00258/26	Spain	Toy telephone (Country of Origin: China)		Choking The toy has small parts that can easily detach. A small child may put them in the mouth and choke. The product does not comply with the requirements of the Toy Safety Directive nor with the European standard EN 71-1.	Recall of the product from end users
SR/00273/26	France	Soft toy (Country of Origin: China)		Choking The product has small parts (eyes) that can easily detach. A small child may put them in the mouth and choke. The product does not comply with the requirements of the Toy Safety Directive, nor with the European standard EN 71-1.	Removal of this product listing by the online marketplace
SR/00281/26	Germany	Soft toy (Country of Origin: China)		Choking, Strangulation The straps of the backpack are too long and have no break-off point. They may wrap around the neck of a child and lead to strangulation. Moreover, the fibrous stuffing material of the toy is easily accessible. A small child could put the filling material in the mouth and choke. The product does not comply with the requirements of the Toy Safety Directive nor with the European standard EN 71-1.	Stop of sales
SR/00300/26	UK	Children's bathing seat (Country of Origin: Unknown)		Drowning The product does not provide adequate and complete support surrounding the child, and therefore could result in the child slipping down or out of the seat and drowning. The product also does not have a crotch restraint connected to both the sitting surface and the child support. Further, the product is not marked or accompanied by relevant information or warnings to enable consumers to assess and	Removal of this product listing by the online marketplace

Alert No.	Notifying Country	Product	Product Photo	Hazard/ Risk	Measures Adopted
				take precautions against the drowning risks posed by the product. This product does not comply with the General Product Safety Regulation.	
SR/00304/26	Sweden	Baby carrier (Country of Origin: Sweden)		Injuries The correct fastening of the shoulder strap is obstructed. The attachment of the shoulder strap can fail while the infant is lying in the carry carrier, which could lead to it tipping over and injuries to the child. The product does not comply with the General Product Safety Regulation.	Recall indicating repair by consumers
SR/00317/26	UK	Bassinet (Country of Origin: China)		Suffocation The product does not have a locking mechanism to attach to the adult's bed. Consequently, there may be a gap in which the child could fall, leading to a risk of suffocation. The product does not comply with the General Product Safety Regulation.	Import rejected at border
SR/00318/26	Bulgaria	Plastic swing (Country of Origin: Serbia)		Injuries The swing seat is attached to the rope by knots, which may loosen and cause the child to fall and have injuries. The product does not comply with the requirements of the Toy Safety Directive nor with the European standard EN 71-8.	Stop of sales
SR/00329/26	UK	Playmat (Country of Origin: China)		Choking The product contains small parts (printed laminate) that can easily detach from the toy. A small child may put them in the mouth and choke on them. The product does not comply with the requirements of the Toy Safety Directive.	Import rejected at border
SR/00330/26	Bulgaria	Plastic swing (Country of Origin: Serbia)		Injuries The swing seat is attached to the rope by knots, which may loosen and cause the child to fall and have injuries. The product does not comply with the requirements of the Toy Safety Directive nor with the European standard EN 71-8.	Stop of sales

Alert No.	Notifying Country	Product	Product Photo	Hazard/ Risk	Measures Adopted
SR/00337/26	UK	Babies bed (Country of Origin: China)		Suffocation The product lacks safety instructions on how to use it. If a young child is placed in the product to sleep unsupervised and moves in their sleep, they may become pressed against a bumper, restricting their airway and leading to suffocation. This product does not comply with the General Product Safety Regulation.	Import rejected at border
SR/00352/26	Lithuania	Plastic doll (Country of Origin: China)		Chemical The toy contains an excessive concentration of bis(2-ethylhexyl) phthalate (DEHP) (measured value: 0.55% by weight), di-'isononyl' phthalate (DINP), and di-isodecyl phthalate (DIDP) (combined measured value: 0.21% by weight). These phthalates may harm the health of children by causing possible damage to the reproductive system. The product does not comply with the requirements of the Toy Safety Directive.	Withdrawal of the product from the market
SR/00367/26	France	Finger paint (Country of Origin: China)		Chemical The product contains methylisothiazolinone (MI) (measured value up to 0.002% by weight). MI causes severe skin burns and eye damage and may cause an allergic skin reaction. The product does not comply with the requirements of the Toy Safety Directive.	Warning consumers of the risks
SR/00377/26	Poland	Plastic doll (Country of Origin: China)		Chemical The toy has an excessive concentration of bis(2-ethylhexyl) phthalate (DEHP) and dibutyl phthalate (DBP) (measured values up to 1.64% and 4.56% by weight, respectively). These phthalates may harm the health of children, causing possibly damage to the reproductive system. The product does not comply with the REACH Regulation.	Withdrawal of the product from the market

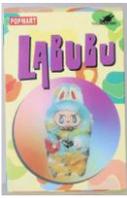

Alert No.	Notifying Country	Product	Product Photo	Hazard/ Risk	Measures Adopted
SR/00383/26	France	Soft toy (Country of Origin: China)		Choking The toy has small parts (the nose) that can easily detach. A small child may put it in the mouth and choke. The product does not comply with the requirements of the Toy Safety Directive nor with the European standard EN 71-1.	Warning consumers of the risks
SR/00388/26	UK	Bed rail bumpers (Country of Origin: China)		Suffocation The product is not provided with the required technical documentation, labelling, marking, and instructions. Consumers are therefore not adequately informed about the safe use of the product, and could position the bumpers in a way that the child could be pressed against them and suffocate. This product does not comply with the General Product Safety Regulation.	Import rejected at border
SR/00389/26	France	Soft toy (Country of Origin: China)		Choking, Suffocation The toy has small parts (the eyes) that can easily detach. A small child could put them in the mouth and choke. Furthermore, the plastic bag of the packaging is too thin. If a child plays with it, the plastic can cover the mouth and nose, causing the child to suffocate. The product does not comply with the requirements of the Toy Safety Directive nor with the European standard EN 71-1.	Warning consumers of the risks
SR/00391/26	UK	Cards toy (Country of Origin: China)		Choking The product has small parts (cardboard disc) that can easily detach. A small child may put them in the mouth and choke. The product does not comply with the requirements of the Toy Safety Directive, nor with the European standard EN 71-1.	Recall of the product from end users
SR/00393/26	UK	Teether (Country of Origin: China)		Choking The product has small parts (silicon pieces) that can easily detach. A small child may put them in the mouth and choke. The product does not comply with the requirements of the Toy Safety	Warning consumers of the risks

Alert No.	Notifying Country	Product	Product Photo	Hazard/ Risk	Measures Adopted
				Directive, nor with the European standard EN 71-1.	
SR/00400/26	Czechia	Soft toy (Country of Origin: China)		Chemical The plastic material of the product has an excessive concentration of bis(2-ethylhexyl) phthalate (DEHP) (measured value: 16.55% by weight). This phthalate may harm health by causing possible damage to the reproductive system. The product does not comply with the REACH Regulation.	Destruction of the product
SR/00403/26	France	Bath toy (Country of Origin: China)		Chemical, Choking The battery compartment can easily be opened without the use of any tools, and the batteries inside are easily accessible. If a child puts them in the mouth, the battery can overheat and release electrolyte which can be ingested by the child and cause damage to the gastrointestinal tract. Furthermore, the product has small parts that can easily detach. A small child may put them in the mouth and choke. The product does not comply with the requirements of the Toy Safety Directive nor with the European standard EN 62115.	Warning seller of the risks
SR/00405/26	Denmark	Spinner toy (Country of Origin: China)		Choking The toy has protruding parts. A small child may put it in the mouth and choke. The product does not comply with the requirements of the Toy Safety Directive nor with the European standard EN 71-1.	Removal of this product listing by the online marketplace
SR/00407/26	Hungary	Soft toy (Country of Origin: China)		Choking The toy has small parts (the nose and the bell on the collar) that can easily detach. A small child may put it in the mouth and choke. The product does not comply with the requirements of the Toy Safety Directive nor with the European standard EN 71-1.	Ban on the marketing of the product and any accompanying measures

Alert No.	Notifying Country	Product	Product Photo	Hazard/ Risk	Measures Adopted
SR/00408/26	Hungary	Soft toy (Country of Origin: China)		Choking The toy has small parts (the eyes) that can easily detach. A small child may put it in the mouth and choke. Moreover, the fibrous stuffing material of the toy is easily accessible. A small child could put it in the mouth and choke. The product does not comply with the requirements of the Toy Safety Directive nor with the European standard EN 71-1.	Import rejected at border
SR/00409/26	Poland	Plastic toy set (Country of Origin: China)		Choking The toy has small parts (plastic hook and ball) that can easily detach. A small child may put it in the mouth and choke. The product does not comply with the requirements of the Toy Safety Directive nor with the European standard EN 71-1.	Warning consumers of the risks
SR/00424/26	France	Children's water bottle (Country of Origin: Spain)		Choking The product contains small parts (decoration affixed with glue) that can easily detach. A small child may put them in the mouth and choke. The product does not comply with the General Product Safety Regulation nor with the European standard EN 14350.	Withdrawal of the product from the market
SR/00428/26	France	Fancy-dress costume (Country of Origin: China)		Choking The product has small parts (bells) that can easily detach. A small child may put it in the mouth and choke. The product does not comply with the requirements set out in the Toy Safety Directive or with European standard EN 71-1.	Removal of this product listing by the online marketplace
SR/00430/26	UK	Soft toy (Country of Origin: China)		Choking The toy has small parts (keyring, plastic hands, and feet) that can easily detach. A small child may put it in the mouth and choke. If the hands or feet detach, it is also possible for children to access the fibrous stuffing, which may also present a choking risk. Improvements are also required for product labelling and marking. This	Withdrawal of the product from the market

Alert No.	Notifying Country	Product	Product Photo	Hazard/ Risk	Measures Adopted
				product does not comply with the requirements of the Toy Safety Directive.	
SR/00431/26	UK	Baby walker (Country of Origin: China)		Choking, Strangulation The toy has small parts (buttons) that can easily detach. A small child may put it in the mouth and choke. The product also presents a risk of strangulation, as the cords exceed the maximum permissible length, and a child could become entangled in them, leading to strangulation. The product does not comply with the General Product Safety Regulation.	Import rejected at border
SR/00432/26	Poland	Toy bicycle (Country of Origin: Taiwan)		Asphyxiation, Choking, Injuries The saddle stem has sharp edges, which may cause cuts. The handlebar pads may disconnect during a ride, increasing the risk of losing balance, leading to an accident. The toy has small parts (plastic screw caps) that can easily detach. A small child may put them in their mouth and choke. The plastic bag packaging is too thin. If a child places the plastic bag over their head, they could suffocate. The product does not comply with the requirements of the Toy Safety Directive nor with the European standard EN 71-1.	Warning consumers of the risks
SR/00439/26	Hungary	Soft toy (Country of Origin: China)		Choking The toy has small parts (the eyes) that can easily detach. Moreover, the fibrous stuffing material of the toy is easily accessible due to the weakness of certain seams. A small child may put them in the mouth and choke. The product does not comply with the requirements of the Toy Safety Directive nor with the European standard EN 71-1.	Recall of the product from end users
SR/00440/26	Spain	Pull-along toy (Country of Origin: Unknown)		Choking The toy contains small parts (items attached to the pulling rope) that can easily detach. A small child may put it in the mouth and choke. The product does not comply with the requirements	Withdrawal of the product from the market

Alert No.	Notifying Country	Product	Product Photo	Hazard/ Risk	Measures Adopted
				of the Toy Safety Directive nor with the European standard EN 71-1.	
SR/00463/26	Norway	Inflatable ball (Country of Origin: Unknown)		Chemical The plastic material of the product contains an excessive amount of diisobutyl phthalate (DIBP) (measured value: 1.54 % by weight). The phthalate may harm the health of children, causing possible damage to their reproductive system. The product does not comply with the REACH Regulation.	Withdrawal of the product from the market
SR/00464/26	Luxembourg	Baby rattle (Country of Origin: China)		Choking The toy has protruding parts. A small child may put it in the mouth and choke. The product does not comply with the requirements of the Toy Safety Directive nor with the European standard EN 71-1.	Removal of this product listing by the online marketplace
SR/00465/26	UK	Children's bathing seat (Country of Origin: China)		Drowning The product does not provide adequate and complete support surrounding the child, and therefore could result in the child slipping down or out of the seat and drowning. The product also does not have a crotch restraint connected to both the sitting surface and the child support. Moreover, the product is not marked or accompanied by relevant information or warnings to enable consumers to assess and take precautions against the drowning risks posed by the product. The product does not comply with the General Product Safety Regulation.	Removal of this product listing by the online marketplace
SR/00468/26	France	Soft toy (Country of Origin: China)		Choking The toy has small parts (suction cup) that can easily detach. A small child may put them in the mouth and choke. The product does not comply with the requirements of the Toy Safety Directive nor with the European standard EN 71-1.	Removal of this product listing by the online marketplace

Alert No.	Notifying Country	Product	Product Photo	Hazard/ Risk	Measures Adopted
SR/00469/26	Luxembourg	Soft toy (Country of Origin: China)		Choking, Strangulation The product has a small part that can easily detach (key ring). A small child could put it in the mouth and choke. Moreover, the scarf of the toy is too long. It may wrap around the neck of a child and lead to strangulation. The product does not comply with the requirements of the Toy Safety Directive nor with the European standard EN 71-1.	Removal of this product listing by the online marketplace
SR/00470/26	France	Fancy-dress costume (Country of Origin: China)		Burns, Choking, Fire The product has a small part that can easily detach (cord lock). A small child can put it in the mouth and choke. Moreover, the costume may easily catch fire if close to an ignition source, resulting in fire and burns to the user. The product does not comply with the requirements of the Toy Safety Directive nor with the European standards EN 71-1 and 71-2.	Warning the seller of the risks
SR/00477/26	Germany	Soft toy (Country of Origin: China)		Chemical The plastic material of the product has an excessive concentration of bis(2-ethylhexyl) phthalate (DEHP) (measured value: 28,8 % by weight). This phthalate may harm health by causing possible damage to the reproductive system. The product does not comply with the REACH Regulation.	Stop of sales
SR/00478/26	Germany	Soft toy (Country of Origin: China)		Chemical The plastic material of the product has an excessive concentration of bis(2-ethylhexyl) phthalate (DEHP) (measured value: 9,4 % by weight). This phthalate may harm health by causing possible damage to the reproductive system. The product does not comply with the REACH Regulation.	Stop of sales
SR/00479/26	Luxembourg	Teething ring (Country of Origin: China)		Choking Due to its size and form, the product can reach too far into the children's mouth and pose a risk of choking and airway obstruction. The product does not comply with the requirements of the	Withdrawal of the product from the market

Alert No.	Notifying Country	Product	Product Photo	Hazard/ Risk	Measures Adopted
		Origin: China)		Toy Safety Directive nor with the European standard EN 71-1.	
SR/00481/26	France	Fancy-dress costume (Country of Origin: China)		Choking, Strangulation, Suffocation The product has a small part (zip fastener pull tab) that can easily detach. A small child may put it in the mouth and choke. Additionally, the product has long cords in the neck area. These drawstrings can become trapped during various activities of a child, leading to strangulation. Moreover, the plastic bag of the packaging is non-permeable. If a child plays with the packaging, the plastic can cover the mouth and nose, causing the child to suffocate. The product does not comply with the requirements of the Toy Safety Directive nor with the European standard EN 71-1.	Warn the seller of the dangerous nature of the product
SR/00483/26	Luxembourg	Toy set (Country of Origin: China)		Choking The toy has small parts (the suction cups) that can easily detach. A small child may put it in the mouth and choke. The product does not comply with the requirements of the Toy Safety Directive nor with the European standard EN 71-1.	Removal of this product listing by the online marketplace
SR/00484/26	France	Doll (Country of Origin: China)		Chemical The migration of chromium VI from the toy is too high (measured value up to 0.33 mg/kg). Chromium (VI) is sensitising, can trigger allergic reactions, and can cause cancer. The product does not comply with the requirements of the Toy Safety Directive nor with the European standard EN 71-3.	Withdrawal of the product from the market
SR/00485/26	France	Fancy-dress costume (Country of Origin: China)		Strangulation, Suffocation The product has long cords in the neck area. These drawstrings can become trapped during various activities of a child, leading to strangulation. Moreover, the plastic bag of the packaging is non-permeable. If a child plays with the packaging, the plastic can cover the mouth and nose, causing the child to suffocate. The product does not comply with the requirements	Warning consumers of the risks

Alert No.	Notifying Country	Product	Product Photo	Hazard/ Risk	Measures Adopted
				of the Toy Safety Directive nor with the European standard EN 71-1.	
SR/00486/26	Hungary	Soft toy (Country of Origin: China)		Choking The toy has small parts (eyes and nose) that can easily detach. A small child may put them in the mouth and choke. Moreover, the fibrous stuffing material of the toy is easily accessible. A small child could put it in the mouth and choke. The product does not comply with the requirements of the Toy Safety Directive nor with the European standard EN 71-1.	Withdrawal of the product from the market
SR/00489/26	Luxembourg	Bath toy (Country of Origin: China)		Choking The toy has a small part (dorsal fin of the dolphin) that can easily detach. A small child may put it in the mouth and choke. The product does not comply with the requirements of the Toy Safety Directive nor with the European standard EN 71-1.	Withdrawal of the product from the market
SR/00492/26	Luxembourg	Toy set (Country of Origin: China)		Choking The toy has small parts (the ejected ball) that can easily detach. A small child may put it in the mouth and choke. The product does not comply with the requirements of the Toy Safety Directive nor with the European standard EN 71-1.	Removal of this product listing by the online marketplace
SR/00493/26	Estonia	Toy drone (Country of Origin: China)		Chemical, Environment The solders in the product have an excessive concentration of lead (measured value up to 72% by weight). The product also has an excessive concentration of dibutyl phthalate (DBP) (measured value up to 17% by weight) and bis(2-ethylhexyl) phthalate (DEHP) (measured value up to 26% by weight). Lead poses a risk to the environment. DBP and DEHP may harm the health of children by causing possible damage to their reproductive system. The product does not comply with the requirements of the Directive on the restriction of the use of certain hazardous substances in	Withdrawal of the product from the market

Alert No.	Notifying Country	Product	Product Photo	Hazard/ Risk	Measures Adopted
				electrical and electronic equipment (RoHS 2 Directive).	
SR/00499/26	Hungary	Soft toy (Country of Origin: China)		Choking The toy has small parts (eyes and nose) that can easily detach. A small child may put them in the mouth and choke. Moreover, the fibrous stuffing material of the toy is easily accessible. A small child could put it in the mouth and choke. The product does not comply with the requirements of the Toy Safety Directive nor with the European standard EN 71-1.	Ban on the marketing of the product and any accompanying measures
SR/00502/26	France	Toy headband (Country of Origin: China)		Chemical The product has an excessive concentration of lead (measured value: 28% by weight). Lead is harmful to human health, accumulates in the body, can cause developmental neurotoxicity, and may affect breast-fed or unborn children. The product does not comply with the REACH Regulation.	Warning consumers of the risks
SR/00504/26	France	Soft toy (Country of Origin: China)		Choking The product has small parts (eyes and metal zip pull) that can easily detach. A small child could put them in the mouth and choke. The product does not comply with the requirements of the Toy Safety Directive nor with the European standard EN 71-1.	Recall of the product from end users
SR/00507/26	UK	Soother holder (Country of Origin: China)		Choking The soother holder can easily break, resulting in small parts. A small child may put them in the mouth and choke. The product does not comply with the General Product Safety Regulation.	Removal of this product listing by the online marketplace
SR/00508/26	France	Toy telephone (Country of Origin: China)		Chemical, Choking The toy has small parts (buttons, antenna) that can easily detach. A small child may put them in the mouth and choke. Moreover, the battery compartment opens easily without tools, and the batteries are easily accessible. If a child puts	Removal of this product listing by the online marketplace

				them in their mouth, the battery may release electrolyte that can be ingested and damage their digestive system. The product does not comply with the requirements of the Toy Safety Directive or with European standards EN 71-1 and 62115.	
SR/00511/26	Germany	Play arch (Country of Origin: China)		Damage to Sight The metal wire of the play arch can easily be removed from the plastic mounts, attaching it to the baby bouncer. The free wire ends of the play arch can cause eye injuries to the child. The product does not comply with the requirements of the Toy Safety Directive nor with the European standard EN 71-1.	Stop of sales
SR/00520/26	Germany	Baby carrier (Country of Origin: China)		Injuries The leg openings of the product are too large, which may cause the baby to slip out, fall, and suffer serious injuries. This product does not comply with the General Product Safety Regulation nor with the European standard EN 13209-2.	Removal of this product listing by the online marketplace
SR/00521/26	Europe	Children's bicycle seat (Country of Origin: Europe)		Injuries The effectiveness of the restraint system is inadequate due to the absence of a shoulder restraint system and footrests. The child may fall out of the seat and suffer injuries. The product does not comply with the General Product Safety Regulation nor with the European standard EN 14344.	Ban on the marketing of the product and any accompanying measures
SR/00539/26	Denmark	Toy rattle (Country of Origin: Unknown)		Choking The toy has protruding parts (rattle handle). A small child may put them in the mouth and choke. The product does not comply with the requirements of the Toy Safety Directive nor with the European standard EN 71-1.	Stop of sales

Alert No.	Notifying Country	Product	Product Photo	Hazard/ Risk	Measures Adopted
SR/00542/26	Spain	Soft toy (Country of Origin: China)		Choking The toy has small parts (foot) that can easily detach. A small child may put them in the mouth and choke. This product does not comply with the requirements of the Toy Safety Directive.	Ban on the marketing of the product and any accompanying measures
SR/00545/26	France	Soft toy (Country of Origin: China)		Choking The product has a small part (left eye) that can easily detach. A small child could put it in the mouth and choke. The product does not comply with the requirements of the Toy Safety Directive nor with the European standard EN 71-1.	Removal of this product listing by the online marketplace
SR/00546/26	France	Toy gun set (Country of Origin: China)		Choking The product has small parts (suction cup tips) that can easily detach. A small child may put them in the mouth and choke. The product does not comply with the requirements of the Toy Safety Directive nor with the European standard EN 71-1.	Recall of the product from end users
SR/00562/26	Finland	Toy backpack (Country of Origin: China)		Chemical The plastic material of the toy has an excessive concentration of bis(2-ethylhexyl) phthalate (DEHP) (measured value: 8.5 % by weight). DEHP may harm health by causing possible damage to the reproductive system. The product does not comply with the requirements of the Toy Safety Directive.	Ban on the marketing of the product and any accompanying measures
SR/00580/26	Austria	Fidget toy (Country of Origin: China)		Choking The toy has small parts (suction cups) that can easily detach. A small child may put them in the mouth and choke. The product does not comply with the requirements of the Toy Safety Directive nor with the European standard EN 71-1.	Recall of the product from end users
SR/00585/26	France	Rocking toy (Country of Origin: China)		Choking The toy has a protruding part (metal axis of the left handle). A small child may put it in the mouth and choke. The product does not comply with	Removal of this product listing by the online marketplace

Alert No.	Notifying Country	Product	Product Photo	Hazard/ Risk	Measures Adopted
				the requirements of the Toy Safety Directive nor with the European standard EN 71-1.	
SR/00586/26	France	Toy gun set (Country of Origin: China)		Choking The product has small parts (suction cup tips) that can easily detach. A small child may put them in the mouth and choke. Additionally, the fibrous stuffing material of the soft parts of the toy is easily accessible. A small child could put it in the mouth and choke. The product does not comply with the requirements of the Toy Safety Directive nor with European standard EN 71-1.	Removal of this product listing by the online marketplace
SR/00587/26	Denmark	Toy tea set (Country of Origin: China)		Choking The toy has small parts (on the lid of the teapot and the fastenings on the storage case) that can easily detach. A small child may put them in the mouth and choke. The product does not comply with the requirements of the Toy Safety Directive nor with the European standard EN 71-1.	Recall of the product from end users
SR/00588/26	France	Soft toy (Country of Origin: China)		Choking The product has a small part (the suction cup) that can easily detach. A small child could put it in the mouth and choke. The product does not comply with the requirements of the Toy Safety Directive nor with European standard EN 71-1.	Removal of this product listing by the online marketplace
SR/00597/26	Germany	Baby carrier (Country of Origin: China)		Injuries The leg openings of the product are too large and the fastening capacity is insufficient which may cause the baby to slip out, fall and suffer serious injuries. This product does not comply with the General Product Safety Regulation nor with the European standard EN 13209-2.	Withdrawal of the product from the market
SR/00598/26	Germany	Baby carrier (Country of Origin: China)		Injuries, Strangulation The circumference of the carrying bag loop is too long, which may lead to strangulation. Moreover, the product does not provide the necessary durability, which may lead to the baby falling, leading to injuries. The product does not comply with the General Product Safety	Removal of this product listing by the online marketplace

Alert No.	Notifying Country	Product	Product Photo	Hazard/ Risk	Measures Adopted
				Regulation nor with the European standard EN 16512.	
SR/00605/26	France	Fancy-dress costume (Country of Origin: China)		Burns, Strangulation The product has long functional cords close to the neck. The cords may become trapped during various activities of a child, leading to injuries and/or strangulation. Moreover, the product is highly flammable. Children could wear the costume close to an ignition source and the costume could catch fire, resulting in burns. The product does not comply with the requirements of the Toy Safety Directive nor with European standards EN 71-1 and EN 71-2.	Recall of the product from end users
SR/00606/26	Finland	Soft toy (Country of Origin: China)		Choking The toy has small parts (the nose) that can easily detach. A small child may put them in the mouth and choke. The product does not comply with the requirements of the Toy Safety Directive nor with the European standard EN 71-1.	Destruction of the product
SR/00608/26	France	Activity toy (Country of Origin: China)		Choking The toy has small parts (rivets) that can easily detach. A small child may put them in the mouth and choke. The product does not comply with the requirements of the Toy Safety Directive nor with the European standard EN 71-1.	Recall of the product from end users
SR/00609/26	France	Key ring with soft toy (Country of Origin: China)		Choking The toy has small parts (feet) that can easily detach. A small child may put them in the mouth and choke. The product does not comply with the requirements of the Toy Safety Directive nor with the European standard EN 71-1.	Warning consumers of the risks
SR/00610/26	France	Fancy-dress costume (Country of Origin: China)		Chemical The product contains chromium VI (measured value up to 0.42 mg/kg). Chromium (VI) is sensitising, can trigger allergic reactions and can cause cancer. The product does not comply with	Withdrawal of the product from the market

Alert No.	Notifying Country	Product	Product Photo	Hazard/ Risk	Measures Adopted
		Origin: China		the REACH Regulation nor with the General Product Safety Regulation.	
SR/00612/26	Europe	Craft kit (Country of Origin: China)		Suffocation The plastic bag packaging is too thin. If a child places the plastic bag over their head, they could suffocate. The product does not comply with the requirements of the Toy Safety Directive nor with the European standard EN 71-1.	Removal of this product listing by the online marketplace
SR/00615/26	France	Soft toy (Country of Origin: China)		Choking The product has a small part (right eye) that can easily detach. A small child may put it in the mouth and choke. The product does not comply with the requirements of the Toy Safety Directive nor with the European standard EN 71-1.	Removal of this product listing by the online marketplace
SR/00622/26	France	Toy phone (Country of Origin: China)		Chemical The battery compartment can easily be opened without the use of any tools, and the batteries inside are easily accessible. If a child puts them in the mouth, the battery can overheat and release electrolyte which can be ingested by the child and cause damage to the gastrointestinal tract. The product does not comply with the requirements of the Toy Safety Directive nor with the European standards EN 71-1 and EN 62115.	Warning consumers of the risks

Safety Gate: the EU rapid alert system for dangerous non-food products

“Safety Gate”, the EU rapid alert system (formerly known as “RAPEX”), enables the rapid exchange of information between **31 European countries** and the European Commission on non-food dangerous products found on the market posing a risk to the health and safety of consumers.

A weekly overview of the alerts on those products is published in English for free on <https://ec.europa.eu/safety-gate-alerts/screen/search?resetSearch=true>. The measures taken in the notifying country in order to restrict such products’ marketing or use can be ordered by national authorities (“compulsory measures”) or be taken directly by producers and distributors (“voluntary measures”).

The official contact points of the Member and EFTA-EEA States provide the information published in these weekly overviews. Under the terms of Annex II.10 of the General Product Safety Directive (**2001/95/EC**) responsibility for the

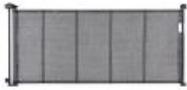

information provided lies with the notifying party. The Commission does not take any responsibility for the accuracy of the information provided.

Recall Summary – US Toys / Children’s Products

CPSC Recall List (February 2026)

Recall No.	Notifying Country	Product	Product Photo	Hazard/ Risk	Remedy
CPSC Recall No. 26-239	USA	Semfri Children’s Helmets (Country of Origin: China)		Risk of Serious Injury or Death Semfri Children’s Helmets Recalled Due to Risk of Serious Injury or Death from Head Injury; Violates Mandatory Standard for Bicycle Helmets. The recalled helmets violate the mandatory safety standard for bicycle helmets because the helmets do not comply with the impact attenuation, positional stability, labeling and certification requirements. The helmets can fail to protect the user in the event of a crash, posing a serious risk of injury or death due to head injury.	Consumers should immediately stop using the recalled helmets and contact Semfri for a full refund. Consumers should destroy the helmet by cutting the straps and sending a photo of the destroyed helmet to Semfri_recall@163.com .
CPSC Recall No. 26-240	USA	Lola + The Boys Youth Clothing with Drawstrings (Country of Origin: China)		Strangulation Hazard Lola Plus The Boys Recalls Youth Clothing with Drawstrings Due to Risk of Serious Injury or Death from Strangulation Hazard; Violates Federal Rule for Children’s Upper Outerwear. The drawstrings in the recalled clothing can get caught on objects and cause death or serious injury to children due to the strangulation hazard. The clothes are in violation of the federal rule for children’s upper outerwear and present a substantial product hazard.	Consumers should immediately take the recalled clothing away from children, remove the drawstrings to eliminate the hazard, and contact Lola Plus The Boys for a full refund. Consumers

Recall No.	Notifying Country	Product	Product Photo	Hazard/ Risk	Remedy
					should send a photo of the clothing without a drawstring, along with their name and the date, to customerservice@lolaandtheboys.com.
CPSC Recall No. 26-246	USA	Kitosun Submersible LED Lights (Country of Origin: China)		Missing of Warnings Kitosun Submersible LED Lights Recalled Due to Risk of Serious Injury or Death from Battery Ingestion; Violates Mandatory Standard for Consumer Products with Coin Batteries. The recalled LED lights violate the mandatory standard for consumer products containing button cell or coin batteries because they contain lithium coin batteries that can be accessed easily by children, posing an ingestion hazard. Additionally, the LED lights do not have the warnings as required by Reese’s Law. When children swallow button cell or coin batteries, the ingested batteries can cause serious injuries, internal chemical burns, and death, posing an ingestion hazard to children.	Consumers should immediately stop using the recalled LED lights and contact Kitosun by email with “Recall” in the subject line for disposal instructions. To receive a full refund, email a photo of the disposed product to sales@kitosun.com.
CPSC Recall No. 26-249	USA	Dresbe LED Christmas Headbands (Country of Origin: China)		Missing of Warnings Dresbe LED Christmas Headbands Recalled Due to Risk of Serious Injury or Death from Battery Ingestion; Violate Mandatory Standard for Consumer Products with Button Cell Batteries. The recalled headbands violate the mandatory standard for consumer products with button cell	Consumers should stop using the recalled headbands immediately and contact Dresbe for information on

Recall No.	Notifying Country	Product	Product Photo	Hazard/ Risk	Remedy
				and coin batteries because the button cell batteries in the headbands can be accessed easily by children, posing an ingestion hazard. Additionally, the packaging and product do not have the warnings required under Reese's Law. When button cell or coin batteries are swallowed, the ingested batteries can cause serious injuries, internal chemical burns, and death.	how to properly dispose of the product. Consumers will need to email a photograph of disposal to dresberecall@shineprom.com to receive the refund.
CPSC Recall No. 26-254	USA	Cobelae Busy Book for Toddlers (Country of Origin: China)		Choking Hazard Cobelae Busy Books Recalled Due to Risk of Serious Injury or Death from Choking Hazard; Violates Small Parts Ban; Sold on Amazon by Flyindream. The toy books violate the small parts ban because the beads can loosen and detach from the product, posing a deadly choking hazard.	Consumers should immediately stop using the recalled Busy Book and contact Flyindream to receive a free replacement book. Consumers should write "RECALLED" on the front of the book with permanent marker, throw the product away, and send a photo of the disposed product to cobelaeservice@outlook.com.
CPSC Recall No. 26-264	USA	Vevor Retractable Baby Gates		Entrapment Hazard This recall involves Vevor-branded safety gates. The recalled safety gates were sold in grey,	Consumers should stop using the

				for toys because the toy's mirror has sharp edges, posing a laceration hazard.	destroy the busy board by writing "RECALLED" with permanent marker on the front of the toy and send a photo of the destroyed toy to indreamrecall@outlook.com. Consumers should then dispose of the recalled product.
CPSC Recall No. 26-304	USA	Concord 360 Degree Rechargeable Light-Up Bike Helmets (Country of Origin: China)		Risk of Serious Injury or Death Todson Recalls Concord Bicycle Helmets Due to Risk of Serious Injury or Death from Head Injury; Violates Mandatory Standard for Bicycle Helmets. The recalled helmets violate the mandatory safety standard for bicycle helmets because the helmets do not comply with the retention system and positional stability requirements. The helmets can fail to protect the user in the event of a crash, posing a serious risk of injury or death due to head injury.	Consumers should immediately stop using the recalled Concord Helmets and contact Todson for a full refund. Consumers should destroy the recalled helmets by cutting the straps off the helmets. Consumers can send photos of the helmet with the straps cut off to 360concordh

					elmet@todson.com to obtain a refund.
CPSC Recall No. 26-305	USA	SumDirect LED Mini Lights (Country of Origin: China)		<p>Missing of Warnings</p> <p>SumDirect LED Mini Lights Recalled Due to Risk of Serious Injury or Death from Battery Ingestion; Violates Mandatory Standard for Consumer Products with Button Cell Batteries.</p> <p>The recalled LED lights violate the mandatory standard for consumer products containing button cell or coin batteries because they contain button cell batteries that can be accessed easily by children, posing an ingestion hazard. Additionally, the LED lights do not have the warnings as required by Reese’s Law. When button cell and coin batteries are swallowed, the ingested batteries can cause serious injuries, internal chemical burns, and death.</p>	<p>Consumers should immediately stop using the recalled LED lights, place them in an area that children cannot access, and properly dispose of the batteries.</p> <p>Contact SumDirect for a full refund. Consumers will be asked to send a photo of the product in the trash to recall@dgfuxin.cn.</p>
CPSC Recall No. 26-307	USA	Babysense Max View Baby Monitors (Country of Origin: China)		<p>Fire Hazard</p> <p>Babysense Max View Baby Monitors Recalled Due to Fire Hazard; Manufactured by Hisense.</p> <p>The display or “parent” unit of the Max View baby monitors can overheat and/or spark when charging, posing a fire hazard to consumers.</p>	<p>Consumers should stop using the display unit of the Max View baby monitors immediately and contact Hisense for a free replacement display unit that does not pose a fire hazard.</p>

Recall No.	Notifying Country	Product	Product Photo	Hazard/ Risk	Remedy
CPSC Recall No. 26-308	USA	Evajoy 48-inch and taller above-ground pools (Country of Origin: China)		Drowning Hazard Evajoy Above-Ground Pools 48 Inches and Taller Recalled Due to Drowning Hazard; Manufactured by Shenzhen Danya Tech. The compression strap that surrounds the outside of the pool legs may create a foothold, allowing a child access to the pool, posing a drowning risk.	Consumers should contact Evajoy to request a free repair kit that removes the compression strap from the pool while maintaining the structural integrity of the pool. In the interim, consumers should ensure that children cannot access the pool unattended or, alternatively, drain the pool until the repair can be installed.

CPSC

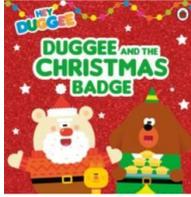

The United States Consumer Product Safety Commission (CPSC) is an independent agency of the United States Government. To provide better service in alerting the American people to unsafe, hazardous or defective products, a “one stop shop” for U.S. Government recalls, <http://www.recalls.gov>, has been created. Members of the public may report unsafe products to CPSC by using the platform.

The recall list is divided into seven categories: Consumer Products, Motor Vehicles, Boats, Food, Medicine, Cosmetics and Environmental Products. Generally, the recall is conducted voluntarily by the company under CPSC’s Fast Track Recall programme. Fast Track recalls are initiated by firms who are committed to working with CPSC to quickly announce the recall and remedy to protect consumers.

Recall Summary – Australian Toys / Children’s Products

ACCC Recall List (February 2026)

PRA No.	Notifying Country	Product	Product Photo	Hazard/ Risk	Remedy

					batch number on the spine of the carabiner.
ACCC PRA No. 2026/20838	Australia	75 Piece Wobbly Blocks (Country of Origin: China)		Risk of Serious Injury or Death The product may not comply with the mandatory standard for toys for children up to and including 36 months of age. The tub may include small loose fragments of offcuts from the moulded block components. Risk of serious injury or death from choking if children swallow small loose fragments of the plastic offcut components.	Stop using the product immediately and keep it out of reach of children. Thoroughly check inside the tub and play area for loose plastic offcuts, remove and dispose of them. Alternatively, return the product to the place of purchase for a full refund.

Australian Product Safety System

The Australian product safety system is set up to maximise the safety of goods through the cooperation of consumers, businesses and agencies. This policy sets out the principles adopted by the Australian Competition and Consumer Commission (ACCC) for prioritising and addressing product safety risks.

Under the Australian Consumer Law, a responsible Minister can order a compulsory recall when there are hazards on the products. A voluntary recall could be conducted to remove the product from the marketplace when the suppliers become aware of unsafe or defective products.

The ACCC administers a national recalls system for recalls of specific and general consumer products, and publishes all product recalls on <https://www.productsafety.gov.au/recalls>.

STC (Hong Kong Standards and Testing Centre) is a not-for-profit, independent testing, inspection and certification organization. With a global network of ISO/IEC 17025 accredited testing laboratories and over 60 years of experience in consumer product testing, we can meet your conformity assessment needs with highly efficient and reliable service. Our testing scope and capabilities related to toys and children's products include but are not limited to:

EU Requirements

- EN 71
