

Recall Summary – European Toys / Children’s Products

EU Safety Gate Alerts (April 2026)

Alert No.	Notifying Country	Product	Product Photo	Hazard/ Risk	Measures Adopted
OR/00036/26	Ireland	Baby swing (Country of Origin: China)		Injuries The construction is not secure enough and the seat can separate from the frame. This can lead to the child falling on the floor resulting in injuries. The product does not comply with the General Product Safety Regulation.	Recall of the product from end users
OR/00037/26	Ireland	Tamagotchi (Country of Origin: China)		Chemical The product lacks the necessary warning that different types of batteries or new and used batteries are not to be mixed. If batteries are used at same time, battery leakage could occur. The leaking fluid could come into contact with the user’s skin and cause chemical burns. The product does not comply with the requirements of the Toy Safety Directive nor with the European standard EN 62115.	Recall of the product from end users
SR/00926/26	Estonia	Soft toy (Country of Origin: Unknown)		Choking The toy contains small parts (keyring) that can easily detach. A small child may put them in the mouth and choke. The product does not comply with the requirements of the Toy Safety Directive nor with the European standard EN 71-1.	Recall of the product from end users
SR/00928/26	UK	Baby stroller (Country of Origin: China)		Injuries The product’s braking system does not function properly which could lead the stroller to move unexpectedly when the brakes are partially engaged. This could lead to injuries to the user. The product does not comply with the General Product Safety Regulation.	Destruction of the product
SR/00929/26	UK	Expandable toy (Country of		Choking The product expands when in contact with water. If a child puts the product in the mouth or swallows it, contact with saliva or stomach liquids will cause the product to expand, which	Withdrawal of the product from the market

Alert No.	Notifying Country	Product	Product Photo	Hazard/ Risk	Measures Adopted
		Origin: Unknown		can result in occlusion of the respiratory tract or intestinal blockage. The product does not comply with the requirements of the Toy Safety Directive.	
SR/00930/26	UK	Soother holder (Country of Origin: China)		Choking The product contains small parts that can easily detach (detachable fastener). A small child may put them in the mouth and choke. The product does not comply with the General Product Safety Regulation.	Import rejected at border
SR/00931/26	Germany	Baby swing (Country of Origin: Unknown)		Injuries The swing lacks restraining devices to keep the child in the seat (no belt or T-shaped restraint in the leg area). The child can therefore slip out of the swing and be seriously injured. The product does not comply with the requirements of the Toy Safety Directive nor with the European standard DIN EN 71-8.	Recall of the product from end users
SR/00936/26	Austria	Toy slime with key ring (Country of Origin: China)		Choking The toy has small parts (the key ring, chain, feet and mouth) that can easily detach. A small child may put it in the mouth and choke. The product does not comply with the requirements of the Toy Safety Directive nor with the European standard EN 71-1.	Recall of the product from end users
SR/00937/26	Hungary	Soft toy (Country of Origin: China)		Burns, Fire The battery management system lacks a cell temperature monitoring device. The product can overheat and cause burns or a fire. The product does not comply with the General Product Safety Regulation, nor with the European standard EN 62133-2.	Withdrawal of the product from the market
SR/00939/26	France	Soft toy (Country of Origin: China)		Choking The product has small parts (the suction cup) that can easily detach. A small child may put it in the mouth and choke. The product does not comply with the requirements of the Toy Safety	Removal of this product listing by the online marketplace

Alert No.	Notifying Country	Product	Product Photo	Hazard/ Risk	Measures Adopted
				Directive nor with the European standard EN 71-1.	
SR/00951/26	Estonia	Soft toy (Country of Origin: China)		Choking The toy contains small parts (gold-coloured metal ring) that can easily detach. A small child may put them in the mouth and choke. The product does not comply with the requirements of the Toy Safety Directive nor with the European standard EN 71-1.	Recall of the product from end users
SR/00956/26	France	Toy gun set (Country of Origin: China)		Choking The toy contains small parts (suction-cup tips) that can easily detach. A small child may put them in the mouth and choke. The product does not comply with the requirements of the Toy Safety Directive nor with the European standard EN 71-1.	Warning consumers of the risks
SR/00958/26	Germany	Soft toy with key ring (Country of Origin: China)		Chemical, Choking The plastic material of the toy's face has an excessive concentration of bis(2-ethylhexyl) phthalate (DEHP), diisobutyl phthalate (DIBP) and dibutyl phthalate (DBP) (measured values up to 0.05%, 0.05%, and 9.8% by weight, respectively). These phthalates may harm health by causing possible damage to the reproductive system. Moreover, the toy contains small parts (keyring) that can easily detach. A small child may put them in the mouth and choke. The product does not comply with the requirements of the Toy Safety Directive nor with the REACH Regulation and the European standard EN 71-1.	Stop of sales
SR/00963/26	Croatia	Fancy-dress costume (Country of Origin: Hong Kong)		Choking, Injuries The battery compartment of the toy can be easily opened without use of any tools and the batteries inside are easily accessible. A child may put them in the mouth and swallow them, which could cause damage to the child's gastrointestinal tract and/or choking. The product does not comply with the requirements of the Toy Safety Directive.	Withdrawal of the product from the market

Alert No.	Notifying Country	Product	Product Photo	Hazard/ Risk	Measures Adopted
SR/00978/26	Estonia	Soft toy (Country of Origin: Unknown)		Choking The toy contains small parts (metal ring and beads). A small child may put them in the mouth and choke. The product does not comply with the requirements of the Toy Safety Directive nor with the European standard EN 71-1.	Stop of sales
SR/00979/26	France	Bow toy set (Country of Origin: China)		Choking, Injuries The product has small parts (the projectiles' suction cups) which may easily detach. A small child may put them in the mouth and choke. Furthermore, the protection on the arrow can become detached and the arrow, which can still be shot, may cause injuries a nearby people. The product does not comply with the requirements of the Toy Safety Directive and European standard EN 71-1.	Removal of this product listing by the online marketplace
SR/00980/26	France	Children's science kit (Country of Origin: China)		Chemical The product contains asbestos fibres. Asbestos could cause cancer. This product does not comply with the requirements of the Toy Safety Directive.	Removal of this product listing by the online marketplace
SR/00982/26	Germany	Baby carrier (Country of Origin: China)		Injuries The carrier does not provide adequate fastening or support, therefore, the baby may slip out, fall and suffer serious injuries. The product does not comply with the General Product Safety Regulation.	Withdrawal of the product from the market
SR/00987/26	Germany	Baby sling (Country of Origin: China)		Injuries The product does not provide adequate fastening support. Therefore, the baby may slip out, fall and suffer serious injuries. The product does not comply with the General Product Safety Regulation nor with the European standard EN 16512.	Removal of this product listing by the online marketplace

Alert No.	Notifying Country	Product	Product Photo	Hazard/ Risk	Measures Adopted
SR/00990/26	UK	Teether (Country of Origin: China)		Choking The product has small parts (the fox's feet) that can easily detach. A small child may put them in the mouth and choke. This product does not comply with the requirements of the Toy Safety Directive.	Withdrawal of the product from the market
SR/00994/26	Germany	Baby carrier (Country of Origin: China)		Injuries The attachment systems of the carrier have an excessive slippage. As a result, the baby may slip out, fall and suffer serious injuries. The product does not comply with the General Product Safety Regulation nor with the European standard EN 16512.	Withdrawal of the product from the market
SR/01001/26	UK	Expandable toy (Country of Origin: China)		Choking, Injuries The product expands more than 50% in size when in contact with water. If a child puts the product in their mouth or swallows it, contact with saliva or stomach liquids will cause the product to expand, which can result in occlusion of the respiratory tract or intestinal blockage. Moreover, the product can generate small parts that can easily detach. A small child may put them in the mouth and choke. The product does not comply with the requirements of the Toy Safety Directive.	Import rejected at border
SR/01002/26	Germany	Baby carrier (Country of Origin: China)		Injuries The fastenings may break and rip the fabric of the attachment system in several places. The baby may slip out, fall and suffer serious injuries. This product does not comply with the General Product Safety Regulation nor with the European standard EN 16512.	Withdrawal of the product from the market
SR/01004/26	UK	Children's bathing seat (Country of Origin: China)		Drowning The product does not provide adequate and complete support surrounding the child and therefore could result in the child slipping down or out of the seat and drowning. The product also does not have a crotch restraint connected to both the sitting surface and the child support.	Removal of this product listing by the online marketplace

Alert No.	Notifying Country	Product	Product Photo	Hazard/ Risk	Measures Adopted
				Moreover, the product is not marked, or accompanied, with relevant information, warnings, to enable consumers to assess and take precautions against the drowning risks posed by the product. The product does not comply with the General Product Safety Regulation.	
SR/01005/26	UK	Toy gun (Country of Origin: China)		Choking The product contains water beads. If these products are swallowed, they can block a young child's airway leading to choking. This product does not comply with the requirements of the Toy Safety Directive.	Removal of this product listing by the online marketplace
SR/01007/26	Poland	Musical toy set (Country of Origin: China)		Choking The toy's rattles and drum can easily break, resulting in small parts (plastic balls). A small child may put them in the mouth and choke. The product does not comply with the requirements of the Toy Safety Directive nor with the European standard EN 71-1.	Warning consumers of the risks
SR/01012/26	France	Bath toy (Country of Origin: China)		Choking The suction cups can be easily removed. If a child puts a suction cup in their mouth, it might obstruct the respiratory tract and cause choking. The product does not comply with the requirements of the Toy Safety Directive nor the European standard EN 71-1.	Removal of this product listing by the online marketplace
SR/01014/26	France	Soft toy (Country of Origin: China)		Choking, Injuries, Strangulation The toy contains small parts (beaded necklace and left leg) that can easily detach. A small child may put them in the mouth and choke. Moreover, the crown's points may cause injuries to the child. Finally, the beaded necklace is too long. It can become wrapped around the neck of a child, leading to strangulation. The product does not comply with the requirements of the Toy Safety Directive nor with the European standard EN 71-1.	Warning the seller of the risks

Alert No.	Notifying Country	Product	Product Photo	Hazard/ Risk	Measures Adopted
SR/01017/26	France	Portable electronic toy (Country of Origin: China)		Chemical, Choking The screw of the battery compartment is not captive. If the screw is lost when changing the batteries, the cover of the compartment could easily be removed without using a tool. If a child puts them in their mouth, the batteries may release electrolyte that can be ingested and damage their digestive system. The product does not comply with the requirements of the Toy Safety Directive nor with the European standard EN 62115.	Removal of this product listing by the online marketplace
SR/01018/26	UK	Toy set (Country of Origin: China)		Choking The toy contains small parts (eyes) that can easily detach. A small child may put them in the mouth and choke. The product does not comply with the requirements of the Toy Safety Directive.	Import rejected at border
SR/01020/26	France	Toy set (Country of Origin: China)		Choking The toy contains small parts (of the pistol) that can easily detach. A small child may put them in the mouth and choke. Moreover, the presence of suction-cup tips on the projectiles can obstruct the respiratory tract of a small child and cause choking. The product does not comply with the requirements of the Toy Safety Directive nor with the European standard EN 71-1.	Removal of this product listing by the online marketplace
SR/01022/26	UK	Soft toy (Country of Origin: China)		Choking The toy contains small parts (jewellery) that can easily detach. A small child may put them in the mouth and choke. The product does not comply with the requirements of the Toy Safety Directive.	Import rejected at border
SR/01027/26	Hungary	Soft toy (Country of Origin: China)		Choking The product has small parts (eye, nose, bell) that can easily detach. Small children may put them in the mouth and choke. The product does not comply with the requirements of the Toy Safety Directive nor with the European standard EN 71-1.	Withdrawal of the product from the market

Alert No.	Notifying Country	Product	Product Photo	Hazard/ Risk	Measures Adopted
SR/01032/26	France	Soft toy (Country of Origin: China)		Choking, Suffocation The toy has small parts (eyes) that can easily detach. Small children may put them in the mouth and choke. Furthermore, the plastic bag of the packaging is too thin. If a child plays with it, the plastic can cover the mouth and nose, causing the child to suffocate. The product does not comply with the requirements of the Toy Safety Directive nor with the European standard EN 71-1.	Recall of the product from end users
SR/01051/26	Germany	Baby bouncer (Country of Origin: China)		Injuries The product is not sufficiently stable and the support strap may easily break. The child could therefore fall out and be injured. The product does not comply with the General Product Safety Regulation nor with European standard EN 14036.	Removal of this product listing by the online marketplace
SR/01055/26	UK	High chair (Country of Origin: China)		Injuries The high chair is not sufficiently stable and may tip over while the child is seated. The product does not comply with the General Product Safety Regulation.	Import rejected at border
SR/01061/26	France	Ride-on toy car (Country of Origin: China)		Injuries, Suffocation The toy becomes loose upon use, creating a space between the left wheel and the body of the toy. A child could trap their fingers in this space and injure themselves. Furthermore, the plastic bag of the packaging is too thin. If a child plays with it, the plastic can cover the mouth and nose, causing the child to suffocate. The product does not comply with the requirements of the Toy Safety Directive nor with the European standard EN 71-1	Warning consumers of the risks
SR/01066/26	Estonia	Soft toy with key ring (Country of Origin: China)		Chemical, Choking The plastic material of the toy has an excessive concentration of bis(2-ethylhexyl) phthalate (DEHP) (measured value up to 12.2%). These phthalates may harm the health by causing possible damage to the reproductive system.	Recall of the product from end users

Alert No.	Notifying Country	Product	Product Photo	Hazard/ Risk	Measures Adopted
		Origin: China)		Additionally, the product has small parts (boots) that can easily detach. Small children may put them in the mouth and choke. The product does not comply with the REACH Regulation nor with the requirements of the Toy Safety Directive.	
SR/01069/26	France	Fancy-dress costume (Country of Origin: China)		Chemical The migration of chromium VI from the textile label is too high (measured value: 0.39 mg/kg). Chromium (VI) is sensitising, can trigger allergic reactions and can cause cancer. The product does not comply with the requirements of the Toy Safety Directive nor with the European standard EN 71-3.	Warning consumers of the risks
SR/01105/26	Estonia	Soft toy (Country of Origin: Unknown)		Chemical The plastic material of the product has an excessive concentration of bis(2-ethylhexyl) phthalate (DEHP) (measured value: 7.2% by weight). This phthalate may harm the health by causing possible damage to the reproductive system. The product does not comply with the REACH Regulation.	Recall of the product from end users
SR/01119/26	Netherlands	Magnetic toy (Country of Origin: China)		Choking, Injuries The toy contains small magnets with a high magnetic flux. A small child may put it in the mouth and choke. Moreover, if a child swallows the small magnets, they could attract one another causing intestinal blockage or perforation. The product does not comply with the requirements of the Toy Safety Directive nor with the European standard EN 71-1.	Recall of the product from end users
SR/01120/26	Germany	Activity toy board (Country of Origin: China)		Choking The toy has small parts (individual rotary knobs, lock) that can easily detach. A small child may put them in the mouth and choke. The product does not comply with the requirements of the Toy Safety Directive nor with European standard EN 71-1.	Withdrawal of the product from the market

Alert No.	Notifying Country	Product	Product Photo	Hazard/ Risk	Measures Adopted
SR/01121/26	France	Sand-filled figurine toy (Country of Origin: China)		Health risk / other The toy could rupture and the filling of the inside could come out. The sand inside contains asbestos. Asbestos could cause cancer. The product does not comply with the requirements of the Toy Safety Directive.	Recall of the product from end users
SR/01122/26	France	Sand-filled figurine toy (Country of Origin: China)		Health risk / other The toy could rupture and the filling of the inside could come out. The sand inside contains asbestos. Asbestos could cause cancer. The product does not comply with the requirements of the Toy Safety Directive.	Recall of the product from end users
SR/01135/26	UK	Soft toy (Country of Origin: China)		Choking The toy has small parts (jacket buttons) that can easily detach. A small child may put them in the mouth and choke. The product does not comply with the requirements of the Toy Safety Directive nor with the European standard EN 71-1.	Recall of the product from end users
SR/01138/26	Estonia	Soft toy with key ring (Country of Origin: China)		Chemical, Choking The plastic material of the toy has an excessive concentration of bis(2-ethylhexyl) phthalate (DEHP) (measured value up to 9.0%). This phthalate may harm the health by causing possible damage to the reproductive system. Moreover, the product has small parts (metal keyring) that can easily detach. Small children may put them in the mouth and choke. The product does not comply with the requirements of the Toy Safety Directive nor with the REACH Regulation and the European standard EN 71-1.	Recall of the product from end users
SR/01140/26	Poland	Plastic ball (Country of Origin: China)		Chemical The toy has an excessive concentration of bis(2-ethylhexyl) phthalate (DEHP), dibutyl phthalate (DBP) and diisobutyl phthalate (DIBP) (measured values up to 2.5%, 5.2% and 8% by weight, respectively). These phthalates may harm the health of children, causing possibly damage to the reproductive system. The product does not comply with the REACH Regulation.	Destruction of the product

Alert No.	Notifying Country	Product	Product Photo	Hazard/ Risk	Measures Adopted
SR/01141/26	Poland	Plastic toy set (Country of Origin: China)		Chemical The toy has an excessive concentration of bis(2-ethylhexyl) phthalate (DEHP) (measured value up to 14.5% by weight). This phthalate may harm the health of children, causing possibly damage to the reproductive system. The product does not comply with the REACH Regulation.	Destruction of the product
SR/01148/26	UK	Expandable beads (Country of Origin: Unknown)		Choking, Injuries The product expands in size when in contact with water. If a child puts the product in the mouth or swallows it, contact with saliva or stomach liquids will cause the product to expand, which can result in occlusion of the respiratory tract or intestinal blockage. The product does not comply with the requirements of the Toy Safety Directive.	Removal of this product listing by the online marketplace
SR/01156/26	France	Children's bicycle seat (Country of Origin: China)		Cuts, Entrapment, Injuries, Suffocation The child's feet can get trapped between the wheel and the bicycle frame, causing injuries to the child and user. Furthermore, the plastic packaging of the seat is too thin. The bag can cover a child's head, causing suffocation. In addition, the mounting screws of the bicycle seat have protruding parts that can cause cuts to the child. The product does not comply with the General Product Safety; Regulation nor with the European standard EN 14344.	Removal of this product listing by the online marketplace
SR/01157/26	France	Fancy dress costume (Country of Origin: China)		Chemical, Choking The battery compartment can easily be opened without use of any tools and the button batteries inside are easily accessible. A child may put them in the mouth and swallow them, which could cause damage to the child's gastrointestinal tract and/or choking. The product does not comply with the requirements of the Toy Safety Directive or with the European standard EN 62115.	Removal of this product listing by the online marketplace

Alert No.	Notifying Country	Product	Product Photo	Hazard/ Risk	Measures Adopted
SR/01161/26	Croatia	Toy slime (Country of Origin: China)		Chemical The migration of boron from the toy slime is too high (measured value up to 1463 mg/kg). Ingestion or contact with an excessive quantity of boron may harm the health of children by damaging their reproductive system. The product does not comply with the requirements of the Toy Safety Directive nor with the European standard EN 71-3.	Stop of sales
SR/01164/26	Austria	Wooden toy set (Country of Origin: China)		Choking The toy contains small parts (cover of the cylinder) that can easily detach. As a consequence, a small child may put them in their mouth and choke. The product does not comply with the requirements of the Toy Safety Directive nor with European standard EN 71-1.	Removal of this product listing by the online marketplace
SR/01165/26	Ireland	Baby sleeping bag (Country of Origin: Ireland)		Suffocation The sleeping bag has a hood, which may cover the mouth and/or nose area of the baby. This could lead the child to suffocate. The product does not comply with the General Product Safety Regulation nor with the European standard EN 16781.	Recall of the product from end users
SR/01166/26	Croatia	Toy slime (Country of Origin: China)		Chemical The migration of boron from the toy slime is too high (measured value up to 1314 mg/kg). Ingestion or contact with an excessive quantity of boron may harm the health of children by damaging their reproductive system. The product does not comply with the requirements of the Toy Safety Directive nor the European standard EN 71-3.	Import rejected at border
SR/01170/26	France	Baby carrier (Country of Origin: China)		Injuries The product lacks instructions, which could lead to a child not being properly secured in the baby carrier, with the risk of falling as a result of incorrect positioning of the child or incorrect adjustment of the product. The product does not	Removal of this product listing by the online marketplace

Alert No.	Notifying Country	Product	Product Photo	Hazard/ Risk	Measures Adopted
				comply with the General Product Safety Regulation.	
SR/01173/26	Netherlands	Children's car seat (Country of Origin: China)		Injuries Due to the product's insufficient restraint, in case of abrupt vehicle manoeuvres, the child can shift position and suffer injuries. Additionally, the seat belts can also come loose, leaving the occupant unprotected, leading to injuries to the child. The product does not comply with the Regulation on the approval and market surveillance of motor vehicles and their trailers, and of systems, components and separate technical units intended for such vehicles nor with Regulation UN/ECE No 129.	Removal of this product listing by the online marketplace
SR/01178/26	UK	Activity toy (Country of Origin: China)		Suffocation The plastic bag packaging is too thin. If a child places the plastic bag over their head, they could suffocate. The product does not comply with the requirements of the Toy Safety Directive.	Import rejected at border
SR/01180/26	UK	Magnetic toy (Country of Origin: China)		Injuries The toy contains small magnets that are too strong (measured magnetic flux index up to 688 kG2mm2). If a child swallows the small magnets, they could attract one another causing intestinal blockage or perforation. The product does not comply with the requirements of the Toy Safety Directive.	Recall of the product from end users
SR/01190/26	France	Fancy-dress costume (Country of Origin: China)		Chemical The textile label on the product contains chromium (VI) (measured value: 0.12 mg/kg). Chromium (VI) is sensitising, can trigger allergic reactions and can cause cancer. The product does not comply with the requirements of the Toy Safety Directive or with the European standard EN 62115.	Warning consumers of the risks

Alert No.	Notifying Country	Product	Product Photo	Hazard/ Risk	Measures Adopted
SR/01191/26	Estonia	Soft toy (Country of Origin: Unknown)		Choking The toy contains a small part (a metal ring). A small child may put it in the mouth and choke. The product does not comply with the requirements of the Toy Safety Directive nor with the European standard EN 71-1.	Recall of the product from end users
SR/01192/26	France	Soft toy (Country of Origin: China)		Choking The toy has small parts (the eyes) that can easily detach. A small child may put them in the mouth and choke. The product does not comply with the requirements of the Toy Safety Directive nor with the European standard EN 71-1.	Recall of the product from end users
SR/01195/26	Estonia	Soft toy (Country of Origin: China)		Choking The toy contains a small part (a metal ring). A small child may put it in the mouth and choke. The product does not comply with the requirements of the Toy Safety Directive nor with the European standard EN 71-1.	Stop of sales
SR/01198/26	Germany	Balloons (Country of Origin: Germany)		Chemical The rubber of the balloons releases an excessive amount of nitrosatable substances (measured total value: 7.25 mg/kg). Nitrosatable substances can be absorbed through the skin and mouth while playing and generate nitrosamines. Nitrosamines may cause cancer. The product does not comply with the requirements of the Toy Safety Directive.	Removal of this product listing by the online marketplace
SR/01201/26	Finland	Keychain with soft toy (Country of Origin: China)		Choking The toy has a small part (metal key clip with ring) that can easily detach. A small child may put it in the mouth and choke. The product does not comply with the requirements of the Toy Safety Directive nor with the European standard EN 71-1.	Import rejected at border

Alert No.	Notifying Country	Product	Product Photo	Hazard/ Risk	Measures Adopted
SR/01206/26	France	Bath toy (Country of Origin: China)		Choking The product has small parts (suction cups) that can easily detach. A small child may put them in the mouth and choke. The product does not comply with the requirements of the Toy Safety Directive nor with the European standard EN 71-1.	Removal of this product listing by the online marketplace
SR/01210/26	Hungary	Soft toy (Country of Origin: Unknown)		Choking The toy has small parts (the eyes and rattle) that can easily detach. A small child may put them in the mouth and choke. The product does not comply with the requirements of the Toy Safety Directive nor with the European standard EN 71-1.	Recall of the product from end users
SR/01213/26	Poland	Magnetic toy (Country of Origin: China)		Injuries The toy contains small magnets with a high magnetic flux (measured value up to 1.86 T ² mm ²). If a child swallows the small magnets, they could attract one another causing intestinal blockage or perforation. The product does not comply with the requirements of the Toy Safety Directive nor with the European standard EN 71-1.	Warning consumers of the risks
SR/01215/26	France	Electronic toy (Country of Origin: China)		Burns, Chemical, Choking The battery compartment can easily be opened without the use of any tools, and the batteries inside are easily accessible. If a child puts them in the mouth, the battery can overheat and release electrolytes, which can be ingested by the child and cause damage to the gastrointestinal tract. The product does not comply with the requirements of the Toy Safety Directive nor with the European standard EN 62115.	Warning consumers of the risks
SR/01219/26	Germany	Soft toy (Country of Origin: Unknown)		Chemical The toy has an excessive concentration of bis(2-ethylhexyl) phthalate (DEHP), dibutyl phthalate (DBP) and diisobutyl phthalate (DIBP) (measured values up to 27.98%, 17.08% and	Stop of sales

Alert No.	Notifying Country	Product	Product Photo	Hazard/ Risk	Measures Adopted
				0.03% by weight, respectively).These phthalates may harm the health of children, causing possibly damage to the reproductive system. The product does not comply with the REACH Regulation.	
SR/01220/26	Germany	Soft toy with key ring (Country of Origin: China)		Choking The product has small parts (pendants) that can easily detach. Small children may put them in the mouth and choke. The product does not comply with the requirements of the Toy Safety Directive nor with the European standard EN 71-1.	Withdrawal of the product from the market
SR/01226/26	Netherlands	Sand painting set (Country of Origin: China)		Health risk / other The play sand contains asbestos fibres (measured value up to 0.1% by weight). Asbestos could cause cancer. The product does not comply with the requirements of the Toy Safety Directive.	Warning consumers of the risks
SR/01228/26	Hungary	Soft toy (Country of Origin: China)		Choking The toy has small parts (eyes) that can easily detach. Furthermore, the fibrous stuffing material of the toy is easily accessible. A small child could put them in the mouth and choke. The product does not comply with the requirements of the Toy Safety Directive nor with the relevant European standard EN 71-1.	Ban on the marketing of the product and any accompanying measures
SR/01229/26	Lithuania	Toy train (Country of Origin: China)		Choking The toy has small parts (such as the wheels and the chimney cap) that can easily detach. Small children may put them in the mouth and choke. The product does not comply with the requirements of the Toy Safety Directive nor with the European standard EN 71-1.	Withdrawal of the product from the market
SR/01230/26	Lithuania	Toy motorcycle (Country of Origin: China)		Choking The toy has small parts (such as the wheels and the driver's head and hand) that can easily detach. Small children may put them in the mouth and choke. The product does not comply	Withdrawal of the product from the market

Alert No.	Notifying Country	Product	Product Photo	Hazard/ Risk	Measures Adopted
		Origin: China)		with the requirements of the Toy Safety Directive nor with the European standard EN 71-1.	

Safety Gate: the EU rapid alert system for dangerous non-food products

“Safety Gate”, the EU rapid alert system (formerly known as “RAPEX”), enables the rapid exchange of information between **31 European countries** and the European Commission on non-food dangerous products found on the market posing a risk to the health and safety of consumers.

A weekly overview of the alerts on those products is published in English for free on <https://ec.europa.eu/safety-gate-alerts/screen/search?resetSearch=true>. The measures taken in the notifying country in order to restrict such products’ marketing or use can be ordered by national authorities (“compulsory measures”) or be taken directly by producers and distributors (“voluntary measures”).

The official contact points of the Member and EFTA-EEA States provide the information published in these weekly overviews. Under the terms of Annex II.10 of the General Product Safety Directive (2001/95/EC) responsibility for the information provided lies with the notifying party. The Commission does not take any responsibility for the accuracy of the information provided.

Recall Summary – US Toys / Children’s Products

CPSC Recall List (April 2026)

Recall No.	Notifying Country	Product	Product Photo	Hazard/ Risk	Remedy
26-365	USA	Beestech Children’s Spiral Tower Toys (Country of Origin: China)		Choking Hazard Children’s Toys Recalled Due to Risk of Serious Injury or Death from Choking Hazard; Violates the Small Ball Ban; Sold on Amazon by Beestech The recalled spiral tower toy sets violate the mandatory standard for toys because they contain small balls and are intended for children under three years of age, posing a deadly choking hazard.	Consumers should take the toys away from children immediately and contact Beestech for a full refund. Consumers will be asked to write “Recalled” with permanent marker on the toy and send a photo of the marked toy to beestechballtowerrecall@hotmail.com . Consumers should then dispose of the recalled product.
26-368	USA	Gavoyeat Halloween Light-Up Rings Party Favors (Country of Origin: China)		Ingestion Hazard Gavoyeat Halloween Light-Up Rings Recalled Due to Risk of Serious Injury or Death from Battery Ingestion Hazard; Violates Mandatory Standard for Toys; Sold on Amazon by CSZWEICD The recalled light-up rings violate the mandatory safety standard for toys because the battery	Consumers should take the recalled light-up rings from children, stop using the recalled toys immediately and remove

				sleepwear, posing a risk of serious injuries or deadly burn hazards to children.	Silks for a full refund or store credit. Consumers should destroy the garments by cutting the top and bottom in half and send a photo of the destroyed garments to silkssupport@silksdesign.com . Consumers should then dispose of the loungewear.
26-393	USA	SCUBAPRO Monorail Weight Pockets for BCDs (Country of Origin: South Africa)		Drowning Hazard SCUBAPRO Recalls Monorail Weight Pockets for Buoyancy Compensator Devices (BCDs) Due to Risk of Serious Injury or Death from Drowning The D-ring handle that is used to unlock the weight pocket from the Buoyancy Compensator Device (BCD) can detach during use. If this happens, the user will not be able to remove the weight pocket in an emergency in order to rise to the surface, posing a risk of serious injury or death from a drowning hazard.	Consumers should immediately stop using the recalled Monorail Weight Pocket and register online at https://scubapro.johnsonoutdoors.com/us/recalls for a free repair of the D-ring handle at a local authorized dealer or to obtain a prepaid

Recall No.	Notifying Country	Product	Product Photo	Hazard/ Risk	Remedy
					shipping label to return the recalled weight pocket to SCUBAPRO for a free repair and free return shipping.
26-395	USA	Head Ski Boots (Country of Origin: Czech Republic)		Fall Hazard Head USA Recalls Ski Boots Due to Risk of Serious Injury from Fall Hazard The fluorescent yellow materials of the boot shell and sole inserts can deteriorate and break, posing a risk of serious injury from a fall.	Consumers should stop using the recalled ski boots immediately and contact Head USA or a Head authorized retailer. For recalled boots with fluorescent boot shell materials, Head will provide free replacement boots in a newer equivalent model upon return of the recalled boots. For recalled boots with yellow sole inserts, Head will provide

Recall No.	Notifying Country	Product	Product Photo	Hazard/ Risk	Remedy
					free replacement sole inserts, which can be installed by the consumer or by a ski shop.
26-396	USA	Besslly Halloween Pumpkin Carving Kits (Country of Origin: China)		Missing of Warnings Halloween Pumpkin Carving Kits Recalled Due to Risk of Serious Injury or Death from Battery Ingestion; Violates Mandatory Standard for Consumer Products with Button Cell Batteries; Sold on Amazon by Besslly Store The recalled carving kits violate the mandatory standard for consumer products with button cell and coin batteries because the button cell batteries in the tea lights can be accessed easily by children, posing an ingestion hazard. Additionally, the product and its packaging do not have the warnings required under Reese's Law. When button cell or coin batteries are swallowed, the ingested batteries can cause serious injuries, internal chemical burns, and death.	Consumers should stop using the recalled carving kits immediately and contact Besslly Store for a full refund. Consumers will be asked to email a photograph of disposal to tingjmng@outlook.com to receive the refund.
26-397	USA	Yeeluzan Pool Drain Covers (Country of Origin: China)		Entrapment and Drowning Hazards Yeeluzan Pool Drain Covers Recalled Due to Risk of Serious Injury or Death from Entrapment and Drowning Hazards; Violates Virginia Graeme Baker Pool & Spa Safety Act; Sold on Amazon by Yeeluzan The recalled drain covers violate the entrapment protection standards of the Virginia Graeme Baker Pool and Spa Safety Act (VGBA), posing entrapment and drowning hazards to swimmers and bathers.	Pool owners, pool operators and consumers should immediately stop using pools with the recalled pool drain covers. To receive a full refund to their original

Recall No.	Notifying Country	Product	Product Photo	Hazard/ Risk	Remedy
					<p>payment method, consumers should destroy the removed drain cover, take a clear photograph/video of the destroyed product as proof of destruction, and send the proof to the recalling firm by email at yeeluzanrecall@163.com. Ensure all pools and spas are fitted with VGBA-compliant drain covers and teach children to stay away from drains.</p>
26-398	USA	<p>ShymeryDirect LED Lights</p> <p>(Country of Origin: China)</p>		<p>Missing of Warnings</p> <p>ShymeryDirect LED Lights Recalled Due to Risk of Serious Injury or Death from Battery Ingestion; Violates Mandatory Standard for Consumer Products with Coin Batteries</p> <p>The recalled LED lights violate the mandatory standard for consumer products containing button cell or coin batteries because they contain lithium coin batteries that can be accessed easily by children, posing an ingestion</p>	<p>Consumers should immediately stop using the recalled LED lights and place them in an area where children cannot access them. Consumers will</p>

CPSC

The United States Consumer Product Safety Commission (CPSC) is an independent agency of the United States Government. To provide better service in alerting the American people to unsafe, hazardous or defective products, a “one stop shop” for U.S. Government recalls, <http://www.recalls.gov>, has been created. Members of the public may report unsafe products to CPSC by using the platform.

The recall list is divided into seven categories: Consumer Products, Motor Vehicles, Boats, Food, Medicine, Cosmetics and Environmental Products. Generally, the recall is conducted voluntarily by the company under CPSC’s Fast Track Recall programme. Fast Track recalls are initiated by firms who are committed to working with CPSC to quickly announce the recall and remedy to protect consumers.

Australian Product Safety System

The Australian product safety system is set up to maximise the safety of goods through the cooperation of consumers, businesses and agencies. This policy sets out the principles adopted by the Australian Competition and Consumer Commission (ACCC) for prioritising and addressing product safety risks.

Under the Australian Consumer Law, a responsible Minister can order a compulsory recall when there are hazards on the products. A voluntary recall could be conducted to remove the product from the marketplace when the suppliers become aware of unsafe or defective products.

The ACCC administers a national recalls system for recalls of specific and general consumer products, and publishes all product recalls on <https://www.productsafety.gov.au/recalls>.

Recall Summary – Japanese Toys / Children’s Products

METI Recall List (April 2026)

管理番号	Notifying Country	Product	Product Photo	Hazard/ Risk	Remedy
00000035179	Japan	幸せの星砂 ボトル Happiness Star Sand Bottle		行政機関（厚生労働省）による検査の結果、石綿（アスベスト）が検出されたとの指摘 Asbestos was detected as a result of inspection by an administrative agency (Ministry of Health, Labour and Welfare)	製品の構造上、そのままでも安全性に問題はございませんが、ご不安を感じられるお客様に対しましては、個別に返品・回収を承ります。 Due to the structure of the product, there is no safety problem even if it is as it is, but for customers who feel uneasy, we accept individual returns and collections.
00000035222	Japan	玩具（打楽器） 打楽器 Toy (Percussion Instrument) Percussion Instrument		一部部品の接着強度が不十分で、当該部品が外れた場合に乳幼児が誤飲するおそれがあるため。 Because the adhesive strength of some parts is insufficient, and if the part comes off, there is a risk that infants and young children may accidentally swallow it.	回収・返金 Return and refund

Japan's Product Recall System

Under the Consumer Product Safety Act (消費生活用製品安全法 CPSA), the Consumer Affairs Agency (消費者庁 CAA) enforces consumer protection laws and collects reports of serious product accidents. When such an accident is reported, the CAA notifies the Ministry of Economy, Trade and Industry (経済産業省 METI), which will initiate a recall.

Such accident cases are listed in the "Recall Information Website リコール情報サイト"

<https://www.recall.caa.go.jp/>.

STC (Hong Kong Standards and Testing Centre) is a not-for-profit, independent testing, inspection and certification organization. With a global network of ISO/IEC 17025 accredited testing laboratories and over 60 years of experience in consumer product testing, we can meet your conformity assessment needs with highly efficient and reliable service. Our testing scope and capabilities related to toys and children's products include but are not limited to:
