

Recall Summary – US Toys / Children’s Products

CPSC Recall List (September 2026)

Recall No.	Notifying Country	Product	Product Photo	Hazard/ Risk	Remedy
26-732	USA	Spiral Toy (Country of Origin: China)		Choking Hazard SHEIN Distribution Corporation Recalls Spiral Toys Due to Risk of Serious Injury or Death from Choking Hazard; Violate Small Ball Ban The toys violate the small ball ban because they contain small balls and are intended for children under three years of age, posing a fatal choking hazard.	Consumers should stop using the recalled toys immediately, take them away from children and contact SHEIN for a full refund. Consumers will be asked to affirm they disposed of the entire toy, including the small balls.
26-737	USA	Rainbow Mystery Squishy Bun Toys (Country of Origin: China)		Ingestion Hazard OKK Trading Recalls Rainbow Mystery Squishy Bun Toys Due to Risk of Serious Injury or Death from Water Bead Ingestion; Violate Mandatory Standard for Toys The squishy bun toys violate the mandatory safety standard for toys because the water beads inside the dumplings expand larger than permitted, posing a deadly ingestion hazard. If a water bead is ingested, it can pose ingestion, choking, and intestinal obstruction hazards inside a child’s body, resulting in severe discomfort, vomiting, dehydration and a risk of death to a child.	Consumers should stop using the squishy dumpling toys immediately and contact OKK Trading for a full refund. Consumers will be asked to write “RECALLED” in permanent marker on the squeezey dumpling and its tan plastic container, throw the toy away, and email a photo of the disposed toy to

					recall@okktoys.com.
26-738	USA	Squeezy Dumplings (Country of Origin: China)		Choking and Obstruction Hazards GIHNJSI Squeezy Dumplings Toys Recalled Due to Serious Ingestion, Choking and Obstruction Hazards; Sold on Amazon by Chenyuanhui The squeezy toys contain water beads. If ingested, water beads expand and can pose deadly ingestion, choking, and intestinal obstruction hazards inside a child's body, resulting in severe discomfort, vomiting, dehydration, and a risk of death to a child.	Consumers should stop using the Squeezy Dumplings toys immediately and contact Chenyuanhui for a full refund. Consumers will be asked to write "RECALLED" in permanent marker on the Squeezy Dumpling and on its tan plastic container, throw the toy away and email a photo of the disposed toy to GIHNJSI_recall@163.com.
26-739	USA	Baby Sesame Street Elmo Silicone Teethers (Country of Origin: China)		Choking Hazard Skip Hop Recalls Baby Sesame Street Elmo Silicone Teethers Due to Risk of Serious Injury or Death from Choking Hazard The black eyes can detach from the recalled teether if frozen, posing a risk of serious injury or death from a choking hazard.	Consumers should stop using the recalled teether immediately, take it away from children and contact Skip Hop Inc. at www.skiphoprecall.com to obtain a refund in the form of a gift card and further instructions on disposal of the

Recall No.	Notifying Country	Product	Product Photo	Hazard/ Risk	Remedy
					product. The gift card can be used at any The William Carter Company brand store, including Carter's, Skip Hop, OshKosh B'gosh and Little Planet.
26-748	USA	Ricky Joy Sour Crush Rolling Liquid Candy Bottles (Country of Origin: Colombia)		Choking Hazard Ricky Joy Recalls More Than 2.3 Million Sour Crush Candy Bottles Due to Risk of Serious Injury or Death from Choking Hazard The rolling ball on the recalled candy bottles can detach, posing a risk of serious injury or death from a choking hazard.	Consumers should stop using the candy bottles immediately, take them away from children and contact The Ricky Joy Company for a refund. Consumers will be provided with a pre-paid shipping label to return the recalled product.
26-749	USA	Victgoal Children's Bike Helmets (Country of Origin: China)		Risk of Serious Injury or Death Victgoal Recalls Bicycle Helmets Due to Risk of Serious Injury or Death from Head Injury; Violate Mandatory Standard for Bicycle Helmets The recalled helmets violate the mandatory safety standard for bicycle helmets because the helmets do not comply with the retention system, positional stability and certification requirements. The helmets can fail to protect the user in the event of a crash, posing a serious risk of injury or death due to head injury.	Consumers should stop using the recalled helmets immediately and contact Victgoal for a full refund. Consumers will be asked to destroy the helmets by cutting the straps and then sending a photo of the destroyed product, showing the helmet's

Recall No.	Notifying Country	Product	Product Photo	Hazard/ Risk	Remedy
					production date to walmart@victgoal.com. Consumers should then dispose of the recalled product.
26-752	USA	Sweet Cubby Children's Loungewear Sets (Country of Origin: China)		Burn Hazard Sweet Cubby Recalls Children's Loungewear Sets Due to Risk of Serious Injury or Death from Burn Hazard; Violate Mandatory Standard for Children's Sleepwear The recalled children's loungewear sets violate the mandatory flammability standard for children's sleepwear, posing a risk of serious burn injuries or death.	Consumers should stop using the recalled loungewear sets immediately, take them away from children and contact Sweet Cubby for a full refund. Consumers will be asked to destroy the loungewear sets by cutting them in half and send a photo of the destroyed loungewear sets to SweetCubby@163.com. Consumers should then dispose of the destroyed product.
26-753	USA	Lontcs Busy Board (Country of Origin: China)		Risk of Serious Injury from Lead Poisoning SQT Recalls Lontcs Busy Boards Due to Risk of Serious Injury from Lead Poisoning; Violate Federal Lead Paint Ban The toys' zipper contains levels of lead that exceed the standard set in the federal lead paint ban. Lead is toxic if ingested by	Consumers should stop using the busy boards immediately and contact SQT for a full refund. Consumers will be asked to destroy the toys by

				young children and can cause adverse health issues.	unscrewing their components, write in permanent marker "RECALLED" on the board, and send a photo of the destroyed toy to Lontcs@163.com. Consumers should then dispose of the destroyed product.
26-760	USA	Bear-Shaped Decorative Refrigerator Magnets (10, 20 or 30 pieces) (Country of Origin: China)		Ingestion Hazard SHEIN Distribution Corporation Recalls Bear-Shaped Refrigerator Magnets Due to Risk of Serious Injury or Death from Magnet Ingestion; Violate Mandatory Standard for Magnets The recalled refrigerator magnets violate the mandatory standard for magnets because they contain loose magnets posing an ingestion hazard to children and can appeal to children or teens. When high-powered magnets are swallowed, the ingested magnets can attract each other, or other metal objects, and become lodged in the digestive system. This can result in perforations, twisting, and/or blockage of the intestines, blood poisoning and death.	Consumers should stop using the bear-shaped refrigerator magnets immediately, take them away from children and contact SHEIN for a full refund. Consumers will be asked to affirm they threw the recalled refrigerator magnets away.
26-761	USA	Cade California Electronic Projecting Finger Light Toys		Risk of Serious Injury or Death Cade California Electronic Recalls Finger Light Toys Due to Risk of Serious Injury or Death from Battery Ingestion; Violate Mandatory Standard for Toys The recalled finger lights violate the	Consumers should stop using the recalled toys immediately, take them away from children and contact Cade

					and submit a photo of the disposed product to recallzmctoy@gmail.com. Note: Button cell batteries are hazardous. Batteries should be disposed of or recycled by following local hazardous waste procedures.
26-774	USA	Jerify Magnetic Humanoid Toy Sets 30 PCS (Country of Origin: China)		Ingestion Hazard ColerInsec Recalls Jerify Magnetic Stick Figure Toy Sets Due to Risk of Serious Injury or Death from Magnet Ingestion; Violate Mandatory Standard for Toys The magnetic humanoid toy sets violate the mandatory standard for toys because they can release loose high-powered magnets posing an ingestion hazard to children. When high-powered magnets are swallowed, the ingested magnets can attract each other or other metal objects and become lodged in the digestive system. This can result in perforations, twisting, and/or blockage of the intestines, blood poisoning and death.	Consumers should take the magnetic humanoid toys away from children immediately, stop using them and contact ColerInsec for a full refund. Consumers will be asked to throw away the magnetic toys and submit a photo of the disposed toys to coushdwugintwer@163.com.

Recall No.	Notifying Country	Product	Product Photo	Hazard/ Risk	Remedy
26-775	USA	Esjay Toddler Busy Board Montessori Toys (Country of Origin: China)		Choking Hazard Esjay US Recalls Toddler Busy Board Montessori Toys Due to Risk of Serious Injury or Death from Choking; Violates Small Parts Ban The recalled toy violates the small parts ban because the product is for children under three years of age and the red knobs can detach, posing a fatal choking hazard.	Consumers should take the recalled toy away from children, stop using it immediately and contact Esjay for instructions on how to repair the toy. Consumers will be asked to unzip the page with red knobs, write "RECALLED" on both sides of the page and throw it away. Consumers should send a photo of the disposed page to Esjay US at esjay-service@outlook.com to receive a replacement page.
26-780	USA	Lights & Sounds Fire Truck Activity Board (Country of Origin: China)		Choking Hazard Melissa & Doug Recalls Fire Truck Activity Board Toys Due to Risk of Serious Injury from Choking Hazard; Sold Exclusively at Target The fire hose port can come loose and detach, posing a risk of serious injury from choking hazard.	Consumers should stop using the fire truck activity board immediately and register at www.melissaanddoug.com/recall for instructions on how to receive a free replacement fire truck activity board, register for a full refund of

				ingested batteries can cause serious injuries, internal chemical burns and death.	product being disposed of in the trash.

CPSC

The United States Consumer Product Safety Commission (CPSC) is an independent agency of the United States Government. To provide better service in alerting the American people to unsafe, hazardous or defective products, a “one stop shop” for U.S. Government recalls, <http://www.recalls.gov>, has been created. Members of the public may report unsafe products to CPSC by using the platform.

The recall list is divided into seven categories: Consumer Products, Motor Vehicles, Boats, Food, Medicine, Cosmetics and Environmental Products. Generally, the recall is conducted voluntarily by the company under CPSC’s Fast Track Recall programme. Fast Track recalls are initiated by firms who are committed to working with CPSC to quickly announce the recall and remedy to protect consumers.

Recall Summary – Australian Toys / Children’s Products

ACCC Recall List (September 2026)

PRA No.	Notifying Country	Product	Product Photo	Hazard/ Risk	Remedy
2026/21010	Australia	XL magnetic building blocks (Country of Origin: China)		Risk of Serious Injury or Death The product may not comply with the mandatory standard for toys for children up to and including 36 months of age. The blocks can break apart and expose sharp points and small parts if dropped or during use. Risk of serious injury or death from choking and asphyxiation if a child places small parts inside their mouth. There is also a risk of serious injury from lacerations caused by sharp points. Incidents have occurred.	Stop using the XL magnetic building blocks immediately and keep out of reach of children.
2026/21016	Australia	Farm to Table Play Kitchen (Country of Origin: China)		Protrusion and Catch Hazard The accessory hooks intended to hold pots and pans can become a protrusion and catch hazard. Children’s clothing can become snagged on these hooks, posing a strangulation hazard. Risk of serious injury or death from strangulation and asphyxiation if a child’s clothing is snagged on an accessory hook. An incident has occurred in the USA resulting in a fatality.	Stop using the play kitchen immediately, remove the accessory hooks and dispose of them in general household waste. Once the hooks are removed, the product may continue being used.
2026/21018	Australia	Baby Sensory Activity Toys (Country of Origin: China)		Risk of Serious Injury or Death The products may not comply with the mandatory standard for toys for children up to and including 36 months of age. Silicone pull strings on the products are too long and can reach the back of a child’s throat causing	Stop using the products immediately and keep them out of reach of children.

PRA No.	Notifying Country	Product	Product Photo	Hazard/ Risk	Remedy
		Origin: China)		choking or asphyxiation. Small parts may detach from the products and cause a child to choke if they place them in their mouth. Risk of serious injury or death from choking and asphyxiation if a child places the silicone pull strings in their mouth or if small parts detach from the toys and the child places them in their mouth.	
2026/21021	Australia	Merino Essentials Pointelle Kimono Stretch & Grow and Merino Essentials Pointelle Long Sleeve Kimono Bodysuit (Country of Origin: China)		Choking Hazard The dome fasteners can detach and separate from the garments, becoming a choking hazard. Risk of serious injury or death from choking and asphyxiation if a fastener separates from a garment and a child places it in their mouth. Incidents of the fasteners detaching have occurred.	Stop using these garments immediately and keep out of reach of children. Return the garments to the place of purchase for a full refund. Items can be returned to Nature Baby stores or by post.
2026/21022	Australia	Qinbeer silicone pull string toys sold through Amazon (Country of Origin: China)		Risk of Serious Injury or Death The product may not comply with the mandatory standard for toys for children up to and including 36 months of age. The product's silicone pull strings are too long and can reach the back of a child's throat causing choking or asphyxiation. Small parts may detach from the product and cause a child to choke if they place them in their mouth. Risk of serious injury or death from choking and asphyxiation if a child places the silicone pull strings in their mouth or if small parts detach	Stop using the toy immediately and place out of reach of children. Cut the strings of the toy and take a photograph of the toy before disposing of it in household

PRA No.	Notifying Country	Product	Product Photo	Hazard/ Risk	Remedy
				from the toy and the child places them in their mouth.	waste. Email the photograph and your order details to qinbeerrecall@outlook.com , the company will process a refund for the original order via Amazon. For further information or assistance with this recall, please email qinbeerrecall@outlook.com .
2026/21030	Australia	The Wonderland Collection K Mini Baby Thermal Drink Bottles (Country of Origin: China)		Risk of Serious Injury or Death The product may not comply with the mandatory standard for toys for children up to and including 36 months of age. The button clip cover may become detached from the product during use, creating small parts. Risk of serious injury or death from choking if small parts detach from the bottle and a child places them in their mouth.	Stop using the product immediately and keep out of reach of children. Return the product to your nearest Kaisercraft store for a full refund.
2026/21031	Australia	4-key keyboard switch clicker key chain (Country of Origin: China)		Risk of Choking The product doesn't comply with the mandatory standards for products containing button/coin batteries. The battery isn't secured, and children could access the button/coin battery.	Stop using the clicker toy immediately and place out of reach of children. Do not remove the batteries

PRA No.	Notifying Country	Product	Product Photo	Hazard/ Risk	Remedy
		Origin: China)		The product is missing warning information about the dangers of button/coin batteries to children.	from the product. Return the product to any Kingdomcity location. Alternatively, safely dispose of the product by following the disposal instructions at Recycle Mate and notify Kingdomcity of the disposal.
2026/21034	Australia	AK Flower Bouquet Toy (Country of Origin: China)		Risk of Serious Injury to Face or Eyes The internal metal rod that supports the flower stem may penetrate the material of the flower or the stem and be exposed. Risk of serious injury to face or eyes of young children during play or use if the metal rod is exposed from the toy.	Stop using the toy immediately and place out of reach of any children. Return the toy to an Adairs Retail Store for a full refund.

Australian Product Safety System

The Australian product safety system is set up to maximise the safety of goods through the cooperation of consumers, businesses and agencies. This policy sets out the principles adopted by the Australian Competition and Consumer Commission (ACCC) for prioritising and addressing product safety risks.

Under the Australian Consumer Law, a responsible Minister can order a compulsory recall when there are hazards on the products. A voluntary recall could be conducted to remove the product from the marketplace when the suppliers become aware of unsafe or defective products.

The ACCC administers a national recalls system for recalls of specific and general consumer products, and publishes all product recalls on <https://www.productsafety.gov.au/recalls>.

Recall Summary – Japanese Toys / Children’s Products

METI Recall List (September 2026)

管理番号	Notifying Country	Product	Product Photo	Hazard/ Risk	Remedy
00000035861	Japan	FWG0104 クイックレスキューベルト Quick Rescue Belt		メインバックルへのテープの固定方法に誤りがあります。 There is an error in the method of securing the tape to the main buckle.	該当商品をお持ちのお客様は、下記のご送付方法にて、株式会社 finetrack【クイックレスキューベルト 回収係】まで、送料着払いでお送りください。品質管理部門にて点検のうえ、交換品をお客様へ返送させていただきます。 Customers who have the relevant product should send it to finetrack Co., Ltd. [Quick Rescue Belt Collection Team] using cash on delivery for the shipping charges. After inspection by the quality control department, the replacement product will be returned to the customer.

Japan’s Product Recall System

Under the Consumer Product Safety Act (消費生活用製品安全法 CPSCA), the Consumer Affairs Agency (消費者庁 CAA) enforces consumer protection laws and collects reports of serious product accidents. When such an accident is reported, the CAA notifies the Ministry of Economy, Trade and Industry (経済産業省 METI), which will initiate a recall.

Such accident cases are listed in the “Recall Information Website リコール情報サイト”

<https://www.recall.caa.go.jp/>.

STC (Hong Kong Standards and Testing Centre) is a not-for-profit, independent testing, inspection and certification organization. With a global network of ISO/IEC 17025 accredited testing laboratories and over 60 years of experience in consumer product testing, we can meet your conformity assessment needs with highly efficient and reliable service. Our testing scope and capabilities related to toys and children's products include but are not limited to:

US & Canada Requirements

- ASTM F963
- CPSIA
- California Proposition 65
- 16 CFR 1501
- ASTM F2923 (Children's jewellery)
- ASTM F2999 (Adult's jewellery)
- US Toxic in Packaging Clearinghouse (TPCH)
- CCPSA - Toys Regulations (SOR/2011-17)

Japan Requirements

- Japan Toy Safety Standard (ST)
- Japan Food Sanitation Law (JFSL)

Australia Requirements

- AS/NZS 8124
- Consumer Protection Notice No. 6 of 2010 - DEHP
