

# 30% OFF Table-mounted Baby Chair Testing

Attach this flyer together with your application

to enjoy 30% discount !\*

A **table-mounted chair** provides the necessary safety and comfort for a baby to enjoy their meals. But the quality of table-mounted chairs in the market is often questionable. How should we choose a baby high chair with sufficient safety protection?

**The key is whether the product meets the relevant testing standards!**

STC has accumulated decades of testing experiences and capabilities in quality and safety testing of baby products. We can provide one-stop testing services for your products so as to meet the requirements for global market access, improve the quality and safety of your products, and enhance their competitiveness in the market.
