

Toy Quality Inspection - Assuring Your Product Compliance

The global toy business is highly competitive and innovative, generating billions of dollars every year. However, not all toys are created up to standard and **low-quality toys can pose serious risks to children.**

So it's crucial to ensure stringent toy quality control: **it's not just about protecting children, but also a legal obligation.**

Professional inspection and quality control before shipment are the solutions to overcoming these challenges and assuring your product quality.

HKIC is a professional inspection partner:

- 1 Accredited by CNAS in accordance with ISO/IEC 17020:2012**
- 2 Global inspection network and service**
- 3 Fully in tune with international and local standards**
- 4 Tailor-made inspections for your quality requirements**

Contact us today to learn more about our toy inspection services and how we can help you ensure the safety and quality of your toys.
