

# Want to Open Up the Middle East Toy Market?

Entering the Middle East GCC Toy Market is easier than it might seem

STC can help you obtain the **GCC Conformity** quality mark and enter the **Middle East GCC Toy Market**: Test to international and **GCC standards** for general safety (**GSO 577**), mechanical and chemical requirements (**GSO 578**), flammability criteria (**GSO 579**), and other relevant testing with reference to the **EN71** series of standards.

All toy manufacturers and distributors doing business in the **GCC** must comply with the **GCC-wide** safety and health regulations for toys as set by the **Gulf Toys Technical Regulation (GTTR)**. Manufacturers must draw up a **DoC** on the basis of "Type Examination" by a **GCC Notified Body** or compliance verification to the **GSO** safety requirements.

The **GTTR** is now enforced in all **Gulf Cooperation Council Member States (GCC)**, including:

- The State of the United Arab Emirates
- The State of Qatar
- The Kingdom of Bahrain
- The State of Kuwait
- The Kingdom of Saudi Arabia
- The Republic of Yemen
- The Sultanate of Oman
