

Children's Cosmetics Testing

for the EU & USA

The EU and USA have stringent regulations that dictate the manufacture and sale of cosmetics, especially those for children.

Do your children's cosmetics comply with these regulations?

Test now with STC's one-stop testing services.

Service	Testing Scope / Documentation
Regulatory Supporting Documents	Safety Assessment
	Cosmetic Products Safety Report (CPSR)
	Chemicals Safety Data Sheets (SDS)
	Ingredient and Labelling Review
Cosmetics Ingredients Testing	Heavy Metals Content
	Microbiological Quality and Challenge Tests
	Storage Stability Test
Packaging Materials Testing	Heavy Metals / PAHs / Phthalates

EU Definition of Cosmetics

The EU defines cosmetics as substances or mixtures used externally on any part of the body (including skin, hair, nails, lips, and vulva), or teeth and oral mucosa, mainly for cleansing, fragrance, or protection to maintain good hygiene, beautifying or eliminating body odour.

US Food and Drug Administration (FDA) Definition of Cosmetics

The Federal Food, Drug & Cosmetic Act (FD&C Act) defines cosmetics as “articles intended to be rubbed, poured, sprinkled, or sprayed on, introduced into, or otherwise applied to the human body, etc., for cleansing, beautifying, promoting attractiveness, or altering the appearance” (Section 201(i) of the FD&C Act). Included in this definition are products such as skin moisturizers, perfumes, lipsticks, fingernail polishes, eye and facial makeup preparations, shampoos, hair perms, hair dyes, and deodorants, as well as any material intended for use as a component of a cosmetic product.
