

# Do you know where the air leak is coming from?

Find out, test now to **BS EN 1751-5.2** with  
STC one-stop testing services

## What is BS EN 1751-5.2?

**BS EN 1751-5.2** is the **European Standard** for the testing and **rating of dampers and valves used in ventilation systems** for locations such as buildings and air terminal devices.

## What are dampers?

The **damper is a component** in the ventilation system that **controls the air volume**.

## Can the air leakages be classified?

Air leakage **samples from closed dampers** are classified into **four classes, A – D**, based on the leakage rate.
