STC SOLUTIONS

SERVICE THAT COUNTS DỊCH VỤ ĐÁNG TIN CẬY

STC (Hong Kong Standards and Testing Centre) is the first independent, not-for-profit testing, inspection and certification organization in Hong Kong. Since its establishment in 1963, STC has been dedicated to providing professional, reliable and comprehensive testing and inspection services, and issuing the highest quality reports to ensure product compliance with relevant technical and safety requirements while keeping pace with the development of trade and industry. Our experienced auditors and inspectors provide a range of inspection services from factory audit to pre-shipment inspection to warrant the goods to be delivered are up to required standards in safety, quality, reliability and functionality.

Hong Kong STC là tổ chức thử nghiệm, kiểm định và cấp chứng nhận độc lập, phi lợi nhuận đầu tiên ở Hong Kong. Kể từ khi thành lập vào năm 1963, STC đã cung cấp các dịch vụ thử nghiệm, kiểm định chuyên nghiệp, toàn diện và đáng tin cậy, phát hành các báo cáo chính xác, đảm bảo sản phẩm hàng hóa tuân thủ các yêu cầu về an toàn và kỹ thuật liên quan đồng thời vẫn duy trì tốc độ phát triển thương mại và công nghiệp. Các chuyên gia đánh giá và kiểm định giàu kinh nghiệm của chúng tôi cung cấp hàng loạt các dịch vụ kiểm định uy tín, từ kiểm định tại nhà máy đến kiểm định trước khi xuất hàng để đảm bảo hàng hóa đạt tiêu chuẩn yêu cầu về an toàn, chất lượng, độ tin cậy và tính năng sản phẩm.

SCOPE OF SERVICES PHẠM VI DỊCH VỤ

GLOBAL NETWORK MẠNG LƯỚI TOÀN CẦU

• • •

To meet global demand for testing services, not only has STC set up testing laboratories and / or offices in Dongguan, Shanghai, Changzhou, Guangxi and Heilongjiang, but also has it landed in Germany, USA, Vietnam and Japan. In the future, STC will keep exploring and investing in emerging markets.

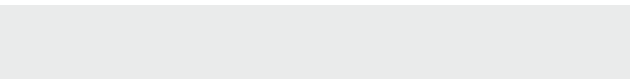

Để đáp ứng nhu cầu toàn cầu về dịch vụ thử nghiệm, STC không chỉ đặt các phòng thí nghiệm, văn phòng đại diện ở Đông Quan, Thượng Hải, Thường Châu, Quảng Tây và Hắc Long Giang mà còn có ở Đức, Mỹ, Việt Nam và Nhật Bản. Trong tương lai, STC sẽ không ngừng mở rộng và đầu tư ở các thị trường mới.

ACCREDITATION SỰ CÔNG NHẬN

• • •

STC is recognized by various organisations and accreditation bodies around the world, and is the only CB Testing Laboratory in Hong Kong under the National Certification Body of China. We are also the first laboratory in Hong Kong accredited by China National Accreditation Service for Conformity Assessment (CNAS), Federal Communications Commission (FCC) and Deutsche Akkreditierungsstelle GmbH (DAkkS).

STC được nhận diện bởi rất nhiều các tổ chức và cơ quan cấp giấy chứng nhận trên toàn thế giới và là cơ quan chứng nhận duy nhất tại Hong Kong thuộc Cơ quan chứng nhận quốc gia Trung Quốc. Chúng tôi cũng là phòng thí nghiệm đầu tiên ở Hong Kong được công nhận bởi China National Accreditation Service for Conformity Assessment (CNAS), Federal Communications Commission (FCC) và Deutsche Akkreditierungsstelle GmbH (DAkkS)

Toys &
Children's
Products
Testing

OVERVIEW

Toys and children’s products are inseparable from the daily life of infants and children and that’s why safety is the main concern for your loved ones. With our expertise and state-of-the-art testing equipment, we strive to help you tap into international markets by ensuring the safety of your toys and children’s products and guiding you through the complexities of global regulatory requirements.

SCOPE OF SERVICES

Toys, Gifts & Premiums		Stationery & School Items
Age Grading Assessment	Material and Product Evaluation	Writing Instruments: Pens, Pencils, Highlighters, Markers, etc.
Aging and Pre-conditioning	Microbiological Test	Drawing Instruments: Crayons, Paints, Pencil Sharpeners, Rulers, Erasers, etc.
Chemical Analysis	Packaging Assessment	Paper Products: Papers/Cards, Books, Notebooks, Calendars, etc.
Electrical Toy Safety	Performance and Reliability Testing	Desktop Accessories: Scissors, Staplers, Hole Punchers, Paper Cutters, Adhesives, Tapes, etc.
Electromagnetic Compatibility Testing	Physical and Mechanical Properties	Postage and Packaging: Envelopes, etc.
Experimental / Chemical Toy Sets	Stuffing Cleanliness	
Flammability	Toxicity	
Food Contact Article Analysis	Transportation Testing	

Children's & Juvenile Products

-  Physical Testing: Tension, Torque, Flammability, Sharp Point, Sharp Edge, Small Parts, etc.

ONE-STOP SERVICE TO INTERNATIONAL STANDARDS / GLOBAL MARKETING ACCESS

CCC – China Compulsory Certification of Toys and Children Vehicles

All products listed in the "Catalogue of Products Subject to China Compulsory Certification" are required to obtain CCC Mark after being tested by designated laboratories in China before they could be exported to, selling in or used in business activities in China. The four classes of toys and children's products subject to CCC testing are children vehicles, ride-on toys, electric toys, plastic toys and metal toys while the four classes of children vehicles are children's bicycles, children's tricycles, children's strollers and baby walkers. STC is the first non-governmental laboratory in Hong Kong and China approved by Certification and Accreditation Administration of the People's Republic of China (CNCA) to undertake toy testing subject to CCC. We offer one-stop service on CCC testing and certification to facilitate the entrance of manufacturers and importers into the emerging Chinese market.

ST Standard – Japan Toy Safety Standard

In Japan, designated toys that are intended for infants are required to comply with the mandatory Food Sanitation Law; while Japan Toy Safety Standard (ST Standard) established by the Japan Toy Association provides toy manufacturers, retailers and consumers with additional safeguard where toys intended for children up to the age of 14 must comply with the Standard and bear the ST Mark. To obtain the ST Mark, all toys must be tested by approved laboratories to guarantee their safety. Well versed with toy safety requirements, STC is approved by JMHLW and is the first foreign testing body designated by Japan Toy Association for chemical testing under the ST Mark Program to guide you through the toy market in Japan.

STC (Hong Kong Standards and Testing Centre) is the first independent, not-for-profit testing, inspection and certification organization in Hong Kong. Since its establishment in 1963, STC has been dedicated to providing professional, reliable and comprehensive testing and inspection services, and issuing the highest quality reports to ensure product compliance with relevant technical and safety requirements while keeping pace with the development of trade and industry. Chemical,
Food &
Pharmaceutical
Products
Testing

OVERVIEW

...

People are getting more health-conscious nowadays from paying attention to the nutritional value of what they eat, to wanting to be sure of the quality and the safety of the food products or whatever that would come into direct contact with their skin before making purchase decision. With advanced testing technologies, we are dedicated to improving consumer confidence in your products and enhancing your brand image by ensuring your products are up to safety requirements.

SCOPE OF SERVICES

...

Pharmaceutical Testing

Adulteration of Drugs in pCms	Heavy Metals Analysis	Proprietary Chinese Medicine Testing
Antibiotics	IR identification of Raw Material	Residual Pesticides
Assay & Identification of Active Ingredient	Method Validation	Stability Test (real time and accelerated)
Chromatographic & Spectrometric Analysis	Microbiological Examination	Toxicity Test (acute, chronic, local toxicity)

Kitchenware Testing

Ceramic Tabletop	Durability test	Ovenware
Cookware	Glassware	Safety Test : Metal Release ; Mechanical hazards
Cutlery		

Food Testing

Artificial Coloring Matter	Health Food and Supplement	Microbiological Quality Examination
Antibiotic Residues in Food	Heavy Metal Contaminants	Preservatives and Anti-Oxidants
Drinking Water and Mineral Water	Hygiene Audit and Swab Test	Residual Pesticides
Edible Oils and Fats	HK Nutrition Labeling	Residual Veterinary Drugs
Fresh Water Plumbing Quality Maintenance Recognition Scheme	Melamine Content	US FDA Food Labeling

Chemical Testing

Corrosion Resistance Test	Plastic Identification	Restricted Chemicals Content
Metal Alloy Composition Analysis		

Environmental Testing

Harmful Chemicals	Ozone Depleting Chemicals (CFCs & HCFCs)	Water and Waste Water
Lead and other Toxic Metals	Phenol, PCB and Formaldehyde	

Consumer Product Testing

Antibacterial Assessment	Fashion accessories	Water Filter
Cosmetics	Tissue paper	

DNA TESTING SERVICE DNA

• • •

Genes never lie! From the extraction and amplification of genetic materials via polymerase chain reaction (PCR), to DNA sequencing, we can unmask the face of any living species by analyzing and identifying their unique genetic codes. STC is capable of providing speedy DNA-based testing services including the identification of food-borne pathogens and virus, precious Chinese medicine identification, genetic modified food test, animal ingredients adulteration and identification of allergens, etc. Together with our traditional food testing services, STC provides you with a more comprehensive food testing solution.

Electrical & Electronic Products Testing

OVERVIEW

Electrical and electronic products no doubt have become part of our daily lives. With an influx of new products into the market every year comes the increasing demand for quality and safe products – that’s why product testing before launch is more crucial than ever. We aim to help you achieve sales target by ensuring your products are reliable and meet required safety standards through our one-stop safety and EMC testing service.

SCOPE OF SERVICES

Providing technical support services at different design stages

Offering a full scope of electromagnetic compatibility, electrical safety & radio frequency testing service

Providing tailor-made test program according to customer’s specifications and relevant product standards, e.g. on-site measurement for bulky or fixed equipment, on-site EMC measurement for railway systems, human exposure to environmental electromagnetic fields (EMF), energy efficiency test, environmental test, protection against dust and liquid test etc.

Providing one-stop product testing service and certification for national marks, including ASTA, BSMI, CCC, CE, CQC, CSA, KC, Nemko, EPSR, FCC, EAC, GS, HKSM, JET, NOM, PSB, PSE, RCM, SAA, TUV, UCIEE, UL, VCCI, VDE

HK Energy Efficiency testing on household appliances, office equipment, television and lighting equipment

Testing and certification of Telecommunications Equipment against OFCA prescribed specifications for Type Approval or Type Acceptance

Issuing endorsed testing reports for CNAS, DAkkS and HOKLAS

Providing more services or technical support, such as seminars and technical meetings, for customers

RADIO FREQUENCY & ELECTROMAGNETIC COMPATIBILITY TESTING

• • •

There has been growing concern over product performance in the aspect of Radio Frequency (RF), ElectroMagnetic Interference (EMI) and ElectroMagnetic Susceptibility (EMS). The safety of electronic and electrical products is now subject to stringent scrutiny that only products in compliance with relevant regulations are allowed for import in most countries. With comprehensive understanding of government regulations and policies applied to the electrical and electronics industry, we provide accurate testing services for Radio Frequency (RF) and ElectroMagnetic Compatibility (EMC) in accordance with various international standards.

PROFESSIONAL SERVICE FOR MEDICAL DEVICES

• • •

Medical devices are used to diagnose, prevent, or treat disease or other conditions for human beings, and hence the safety of them is crucial. STC supports manufacturers to better monitor your products from pre-market registration, technical file preparation to post market entry. Complying with the GLP requirements and as a CB testing laboratory, STC provides test reports according to ISO 10993 and IEC/EN/AAMI/ES 60601 related to Biological and Electrical Safety & EMC testing.

HONG KONG SAFETY MARK

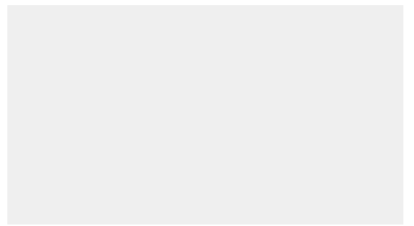

• • •

Launched in 1998, Hong Kong Safety Mark is the first product certification scheme in Hong Kong. Products with the Mark signify they have passed certain safety tests to local and international standards, and the production process has been thoroughly assessed and complies with strict requirements.

The Hong Kong Safety Mark aims to enhance public awareness on product safety, aid consumers in identifying products that have been tested and in compliance with current safety regulations, assist manufacturers to improve brand image and hence promote their products at the same time.

STC (Hong Kong Standards and Testing Centre) is the first independent, not-for-profit testing, inspection and certification organization in Hong Kong. Since its establishment in 1963, STC has been dedicated to providing professional, reliable and comprehensive testing and inspection services, and issuing the highest quality reports to ensure product compliance with relevant technical and safety requirements while keeping pace with the development of trade and industry.
