

TIC Direct Validation Services for Amazon Sellers

The Hong Kong Standards and Testing Centre Limited

As an Amazon seller, have you ever been disrupted by a **"compliance requires TIC Direct Validation (DV)"** notice? Have you ever faced the risk of product delisting and missed out on overseas market sales because you were unable to upload testing reports independently?

Your trusted compliance partner is here! With leading technical expertise and rigorous management processes, The Hong Kong Standards and Testing Centre Limited (STC) is officially recognised by Amazon as a designated TIC DV laboratory. We provide one-stop compliance verification services to ensure your products launch smoothly.

STC can provide TIC DV services in the following categories and marketplaces:

Children's toys

✓ USA

✓ Canada

CSU

✓ USA

✓ Canada

Why STC, and What Can We Do for You?

Amazon-Approved Qualifications

Our credentials have undergone strict official audit by Amazon. The testing results we issue are directly recognised and accepted by the platform, without the need for secondary verification.

Global Footprint + Localised Service

Headquartered in Hong Kong, China, STC has an extensive global network of laboratories in Chinese Mainland (Guangdong, Shanghai, Changzhou, Guangxi), Vietnam, Japan, the USA, Germany, and other regions.

In-depth Policy Interpretation

We have a profound understanding of Amazon's compliance policies, allowing us to avoid procedural errors at the source and prevent any compliance-related delays.

One-click STC Selection for Automatic Result Upload

✓ Officially Selected

Log in to Amazon's "Manage Your Compliance" (MYC) portal and directly select STC as your official testing organisation.

✓ Tailored Solutions

We offer two flexible service models: submit samples for new compliance testing, or provide existing reports for professional assessment and verification.

✓ Automated Result Synchronisation

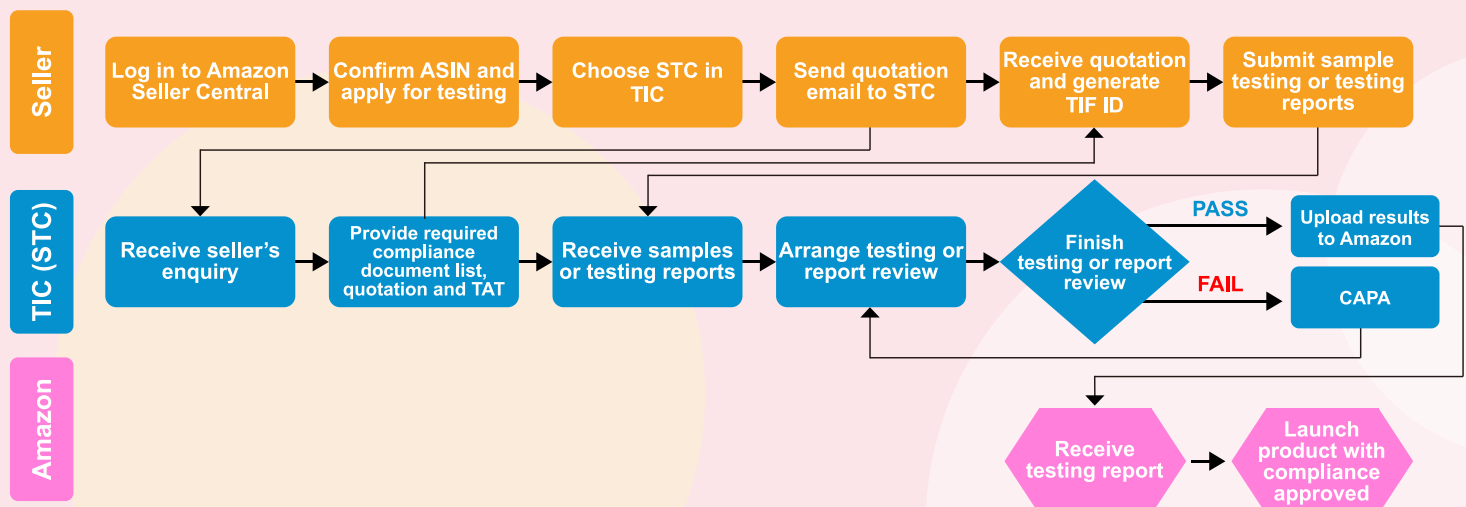

Upon completion of testing or assessment, results are automatically uploaded to Amazon's platform. This eliminates the need for manual submission by sellers and mitigates the risk of upload errors.

✓ Dedicated Support

Our team provides comprehensive market-specific support, ensuring rapid responses to enquiries. We help clear compliance hurdles to accelerate your product's launch.
