

Recall Summary – European Toys

Published: 09 September 2019

RAPEX notification (Aug 2019)

Alert No.	Notifying Country	Product	Product Photo	Hazard/ Risk	Measures Adopted
A11/0047/19	France	Soft toy (Country of Origin: China)		Choking The fibrous stuffing material of the toy is easily accessible due to the weakness of certain seams. A small child may put the stuffing material in the mouth and choke. The product does not comply with the requirements of the Toy Safety Directive and with the relevant European standards EN 71-1.	Recall of the product from end users, Withdrawal of the product from the market
A11/0048/19	United Kingdom	Soft toy (Country of Origin: China)		Choking The nose and eyes of the toy can be easily detached. A small child may put them in the mouth and choke on them. The product does not comply with the requirements of the Toy Safety Directive and the relevant European standard EN 71-1.	Recall of the product from end users
A12/1151/19	France	Interactive soft toy (Country of Origin: China)		Burns The surface of the battery compartment can overheat. This can lead to a risk of burns for children. The product does not comply with the requirements of the Toy Safety Directive and the relevant European standard EN 62115.	Recall of the product from end users, Withdrawal of the product from the market
A12/1152/19	Germany	Slacker eagle (Country of Origin: United States)		Injuries The hand slide can easily break. As a consequence, a child could lose balance and fall down. The product does not comply with the relevant European standard EN 71-1.	Recall of the product from end users
A12/1153/19	France	Toy experimental kit		Chemical The plastic frame of the protective goggles contains bis(2-ethylhexyl) phthalate (DEHP) (measured value: 12.7 % by weight).	Recall of the product from end users, Withdrawal of the product from the market

Alert No.	Notifying Country	Product	Product Photo	Hazard/ Risk	Measures Adopted
		(Country of Origin: Portugal)		This phthalate may harm the health of children, causing possible damage to their reproductive system. The product does not comply with the REACH Regulation.	
A12/1158/19	Hungary	Toy slime (Country of Origin: China)		Chemical The content of Boron in the toy slime is too high (declared value up to: 1289 mg/kg). Ingestion or contact with an excessive quantity of boron may harm the health of children by damaging the reproductive system. The product does not comply with the requirements of the Toy Safety Directive and the relevant European standard EN 71-3.	Recall of the product from end users, Withdrawal of the product from the market
A12/1169/19	Hungary	Fancy-dress mask (Country of Origin: China)		Burns The fancy-dress mask is highly flammable and does not self-extinguish. When catching fire, the child could suffer burns. The product does not comply with the requirements of the Toy Safety Directive and the relevant European standard EN 71-2.	Recall of the product from end users, Withdrawal of the product from the market
INFO/0088/19	Poland	Soft toy (Country of Origin: Unknown)		Choking Small parts (the eyes, the nose) may be easily detached from the toy. In addition, the fibrous stuffing material of the toy is easily accessible due to the weakness of certain seams. A small child may put the detached elements or the stuffing material in the mouth and choke on them. The product does not comply with the requirements of the Toy Safety Directive and the relevant European standard EN 71-1.	Withdrawal of the product from the market

Alert No.	Notifying Country	Product	Product Photo	Hazard/ Risk	Measures Adopted
INFO/0089/19	Denmark	Plastic toy (Country of Origin: Unknown)		Chemical The toy contains an excessive amount of bis(2-ethylhexyl) phthalate (DEHP) (measured value: 18.3% by weight). This phthalate may harm the health of children, causing possible damage to their reproductive system. The product does not comply with the REACH Regulation.	Removal of the products from the Wish platform
INFO/0090/19	Denmark	Plastic toy (Country of Origin: Unknown)		Chemical The product contains an excessive amount of bis(2-ethylhexyl) phthalate (DEHP) (measured value: 20% by weight). This phthalate may harm the health of children, causing possible damage to their reproductive system. The product does not comply with the REACH Regulation.	Removal of the products from the eBay platform
INFO/0091/19	Denmark	Plastic figures (Country of Origin: Unknown)		Chemical The toy contains an excessive amount of di-(2-ethylhexyl) phthalate (DEHP) (measured value: 21% by weight). The phthalate may harm the health of children, causing possible damage to the reproductive system. The product does not comply with the REACH Regulation and with the requirements of the Toy Safety Directive and the relevant European Standard EN 71-1.	Removal of the products from the Wish platform
A11/0049/19	Slovakia	Toy mobile phone (Country of Origin: China)		Damage to hearing The sound pressure level of the toy is too high. It could cause damage to hearing. The product does not comply with the requirements of the Toy Safety Directive and the relevant European Standard EN 71-1.	Recall of the product from end users, Warning consumers of the risks, Withdrawal of the product from the market

Alert No.	Notifying Country	Product	Product Photo	Hazard/ Risk	Measures Adopted
A11/0050/19	Hungary	Soft toy (Country of Origin: China)		Choking The fibrous stuffing material of the toy is easily accessible due to the weakness of certain seams. A small child may put the stuffing material in the mouth and choke. The product does not comply with the requirements of the Toy Safety Directive and the relevant European standard EN 71-1.	Withdrawal of the product from the market
A12/1172/19	Slovakia	Puzzle mat (Country of Origin: China)		Choking The foam puzzle mat contains small parts which can easily be detached from the product. Small children could put the small parts in the mouth and choke on them. The product does not comply with the requirements of the Toy Safety Directive and the relevant European Standard EN 71-1.	Recall of the product from end users, Warning consumers of the risks, Withdrawal of the product from the market
A12/1174/19	Hungary	Soft toy (Country of Origin: China)		Choking Small parts (plastic eyes) may be easily detached from the toy. In addition, the fibrous stuffing material of the toy is easily accessible due to the weakness of certain seams. A small child may put the detached element or the stuffing material in the mouth and choke on them. The product does not comply with the requirements of the Toy Safety Directive and the relevant European standard EN 71-1.	Recall of the product from end users, Withdrawal of the product from the market

Alert No.	Notifying Country	Product	Product Photo	Hazard/ Risk	Measures Adopted
A12/1175/19	Hungary	Soft toy with suction cup (Country of Origin: China)		<p>Choking Small parts (plastic eyes and suction cup) may be easily detached from the toy. In addition the fibrous stuffing material of the toy is easily accessible due to the weakness of certain seams.</p> <p>A small child may put the detached element or the stuffing material in the mouth and choke on them. The product does not comply with the requirements of the Toy Safety Directive and the relevant European standard EN 71-1.</p>	Recall of the product from end users, Withdrawal of the product from the market
A12/1176/19	Hungary	Soft toy with suction cup (Country of Origin: China)		<p>Choking Small parts (plastic eyes and suction cup) may be easily detached from the toy. In addition the fibrous stuffing material of the toy is easily accessible due to the weakness of certain seams.</p> <p>A small child may put the detached element or the stuffing material in the mouth and choke on them. The product does not comply with the requirements of the Toy Safety Directive and the relevant European standard EN 71-1.</p>	Recall of the product from end users, Withdrawal of the product from the market
A12/1177/19	Hungary	Soft toy (Country of Origin: China)		<p>Choking Small parts (plastic eyes and nose) may be easily detached from the toy. In addition the fibrous stuffing material of the toy is easily accessible due to the weakness of certain seams.</p> <p>A small child may put the detached element or the stuffing material in the mouth and choke on them. The product does not comply with the requirements of the Toy Safety Directive and the relevant European standard EN 71-1.</p>	Recall of the product from end users, Withdrawal of the product from the market

Alert No.	Notifying Country	Product	Product Photo	Hazard/ Risk	Measures Adopted
A12/1178/19	United Kingdom	Expandable toy (Country of Origin: United States)		Choking, Injuries The ball can be put into the mouth and swallowed by children. As the toy expands, it can cause fatal occlusion of the respiratory track or intestinal blockage of small children. The product does not comply with the requirements of the Toy Safety Directive and the relevant European standard EN 71-1.	Recall of the product from end users
A12/1179/19	United Kingdom	Expandable toy (Country of Origin: United States)		Choking, Injuries The balls can be put into the mouth and swallowed by children. As the toy expands, it can cause fatal occlusion of the respiratory track or intestinal blockage of small children. The product does not comply with the requirements of the Toy Safety Directive and the relevant European standard EN 71-1.	Recall of the product from end users, Withdrawal of the product from the market
A12/1180/19	United Kingdom	Expandable toy (Country of Origin: United States)		Choking, Injuries The clear ball can be put into the mouth and swallowed by children. As the toy expands, it can cause fatal occlusion of the respiratory track or intestinal blockage of small children. The product does not comply with the requirements of the Toy Safety Directive and the relevant European standard EN 71-1.	Recall of the product from end users, Withdrawal of the product from the market

Alert No.	Notifying Country	Product	Product Photo	Hazard/ Risk	Measures Adopted
A12/1184/19	Poland	Educational toy (Country of Origin: China)		<p>Environment</p> <p>Four solders in the toy contain an excessive amount of lead and cadmium (measured values up to 84.5% and 0.3% by weight respectively).</p> <p>Lead and cadmium pose a risk to the environment. The product does not comply with the requirements of the Commission Directive on the restriction of the use of certain hazardous substances in electrical and electronic equipment (RoHS 2 Directive).</p>	Withdrawal of the product from the market
A12/1185/19	Poland	Toy electric drill (Country of Origin: China)		<p>Environment</p> <p>Four solders in the toy contain an excessive amount of lead and cadmium (measured values up to 38.9% and 0.03% by weight respectively).</p> <p>Lead and cadmium pose a risk to the environment. The product does not comply with the requirements of the Commission Directive on the restriction of the use of certain hazardous substances in electrical and electronic equipment (RoHS 2 Directive).</p>	Withdrawal of the product from the market
A12/1192/19	Luxembourg	Slime toy (Country of Origin: China)		<p>Chemical</p> <p>The migration of boron from the toy slime is too high (measured value: 1650 mg/kg).</p> <p>Ingestion or contact with an excessive quantity of boron may harm the health of children by damaging their reproductive system. The product does not comply with the requirements of the Toy Safety Directive and the relevant European standard EN 71-3.</p>	Ban on the marketing of the product and any accompanying measures

Alert No.	Notifying Country	Product	Product Photo	Hazard/ Risk	Measures Adopted
A12/1194/19	Luxembourg	Slime toy (Country of Origin: China)		<p>Chemical</p> <p>The migration of boron from the toy slime is too high (measured value: 2300 mg/kg).</p> <p>Ingestion or contact with an excessive quantity of boron may harm the health of children by damaging their reproductive system. The product does not comply with the requirements of the Toy Safety Directive and the relevant European standard EN 71-3.</p>	Ban on the marketing of the product and any accompanying measures
A12/1195/19	Luxembourg	Slime toy (Country of Origin: China)		<p>Chemical</p> <p>The migration of boron from the toy slime is too high (measured value: 3400 mg/kg).</p> <p>Ingestion or contact with an excessive quantity of boron may harm the health of children by damaging their reproductive system. The product does not comply with the requirements of the Toy Safety Directive and the relevant European standard EN 71-3.</p>	Destruction of the product. Ban on the marketing of the product and any accompanying measures
A12/1196/19	Luxembourg	Slime toy (Country of Origin: China)		<p>Chemical</p> <p>The migration of boron from the toy slime is too high (measured value: 6960 mg/kg).</p> <p>Ingestion or contact with an excessive quantity of boron may harm the health of children by damaging their reproductive system. The product does not comply with the requirements of the Toy Safety Directive and the relevant European standard EN 71-3.</p>	Ban on the marketing of the product and any accompanying measures

Alert No.	Notifying Country	Product	Product Photo	Hazard/ Risk	Measures Adopted
A12/1197/19	Poland	LED Balloons (Country of Origin: China)		Chemical The battery compartment can easily be opened without the use of any tools, leaving the contained button cell batteries accessible. A child may put these in the mouth, which could cause damage to the child's gastrointestinal tract. The product does not comply with the requirements of the relevant European standards EN 71-1 and EN 62115.	Withdrawal of the product from the market
A12/1203/19	Finland	Inflatable guitar (Country of Origin: China)		Chemical The product contains an excessive amount of bis(2-ethylhexyl) phthalate (DEHP) (measured value: 26% by weight). This phthalate may harm the health of children, causing possible damage to their reproductive system. The product does not comply with the REACH Regulation.	Import rejected at border
A12/1204/19	Italy	Plastic toy (Country of Origin: China)		Choking Small parts can easily be detached from the front wheel of the toy. A small child could put them in the mouth and choke. The product does not comply with the requirements of the Toy Safety Directive and the relevant European standard EN 71-1.	Withdrawal of the product from the market
A12/1206/19	United Kingdom	Remote-controlled toy car (Country of Origin: China)		Electric shock The electrical insulation and the creepage and clearance distances in the charger are not sufficient. A user might touch live parts and receive an electric shock. The product does not comply with the requirements of the Toy Safety Directive and the relevant European Standard EN 62115.	Destruction of the product

Alert No.	Notifying Country	Product	Product Photo	Hazard/ Risk	Measures Adopted
A12/1208/19	Italy	Felt-tip pens (Country of Origin: China)		<p>Chemical</p> <p>The product contains several chemical substances, such as cadmium (measured value up to 0.66 mg/kg), lead (measured value up to 1.32 mg/kg).</p> <p>Cadmium is harmful to human health, because it accumulates in the body and can damage organs and it may cause cancer. Exposure to lead can result in severe and irreversible neurotoxicity, particularly in the case of children. No safe threshold of exposure has been established for this effect. The product does not comply with the requirements of the Toy Safety Directive and the relevant European Standard EN 71-3.</p>	Withdrawal of the product from the market
A12/1209/19	Slovakia	Toy pushchair (Country of Origin: China)		<p>Injuries</p> <p>The pushchair has only one locking device and could consequently collapse during use.</p> <p>As a consequence, it can easily collapse and the child's fingers may become trapped between moving parts, causing injuries. The product does not comply with the requirements of the Toy Safety Directive and the relevant European standard EN 71-1.</p>	Recall of the product from end users, Warning consumers of the risks, Withdrawal of the product from the market
A12/1210/19	Slovakia	Toy pushchair with doll (Country of Origin: China)		<p>Chemical</p> <p>Button cells batteries are accessible without the aid of a tool.</p> <p>The battery compartment can be easily opened without the use of any tools, leaving button cell batteries accessible. A child may put these in the mouth, which could cause damage to the child's gastrointestinal tract. The product does not comply with the requirements of the Toy Safety Directive and the relevant European standards EN 71-1 and EN 62115.</p>	Recall of the product from end users, Warning consumers of the risks, Withdrawal of the product from the market

Alert No.	Notifying Country	Product	Product Photo	Hazard/ Risk	Measures Adopted
A12/1212/19	United Kingdom	Light up toy sword (Country of Origin: China)		Chemical The silver paint of the product contains lead (measured value: 112 mg/kg). A child may put the toy in the mouth. Exposure to lead is harmful for human health and cause developmental neurotoxicity. The product does not comply with the requirements of the Toy Safety Directive and the relevant European standard EN 71-3.	Recall of the product from end users
A11/0053/19	Hungary	Tricycle (Country of Origin: China)		Injuries There are accessible gaps between the moving elements of the tricycle. While using the tricycle, the child's fingers might get trapped in the openings and be injured due to the movement. The product does not comply with the requirements of the Toy Safety Directive and the relevant European standard EN 71-1.	Withdrawal of the product from the market
A11/0054/19	Germany	Toy slime (Country of Origin: China)		Chemical The migration of boron from the toy slime is too high (measured value 1396 mg/kg). Ingestion or contact with an excessive quantity of boron may harm the health of children by damaging the reproductive system. The product does not comply with the requirements of the Toy Safety Directive and the relevant European standard EN 71-3.	Information to the customers Temporary ban on the supply, offer to supply and display of the product

Alert No.	Notifying Country	Product	Product Photo	Hazard/ Risk	Measures Adopted
A12/1229/19	Poland	Plastic doll (Country of Origin: China)		Chemical The plastic material of the doll's head contains 2-ethylhexyl phthalate (DEHP) (measured value: 29% by weight). This phthalate may harm the health of children, causing possible damage to the reproductive system. The product does not comply with the REACH Regulation.	Withdrawal of the product from the market
A12/1230/19	Czech Republic	Plastic doll set (Country of Origin: China)		Chemical The toy contains an excessive amount of di-(2-ethylhexyl) phthalate (DEHP) (measured value up to 13.8% by weight). The phthalate may harm the health of children, causing possible damage to the reproductive system. The product does not comply with the REACH Regulation.	Withdrawal of the product from the market
A12/1237/19	Hungary	Soft toy (Country of Origin: China)		Chemical The suction cup contains an excessive amount di (2-ethylhexyl) phthalate (DEHP) (measured value: 0,2 % by weight). The phthalate may harm the health of children, causing possible damage to the reproductive system. The product does not comply with the REACH Regulation and with the requirements of the Toy Safety Directive and the relevant European Standard EN 71-1.	Recall of the product from end users, Withdrawal of the product from the market

Alert No.	Notifying Country	Product	Product Photo	Hazard/ Risk	Measures Adopted
A12/1238/19	Hungary	Puzzle mat (Country of Origin: China)		Choking Small parts of the mat can easily be detached. A child could put the small parts in the mouth and choke. The product does not comply with the requirements of the Toy Safety Directive and with the relevant European standard EN 71-1.	Recall of the product from end users, Withdrawal of the product from the market
A12/1239/19	Hungary	Puzzle mat (Country of Origin: China)		Choking Small parts of the mat can easily be detached. A child could put the small parts in the mouth and choke. The product does not comply with the requirements of the Toy Safety Directive and with the relevant European standard EN 71-1.	Recall of the product from end users, Withdrawal of the product from the market
A12/1241/19	Hungary	Toy scooter (Country of Origin: China)		Injuries The handlebar locking mechanism of the scooter may release under load and the steering column may slip down. In addition, the front wheel is too small and could get stuck in holes in the ground. These could cause the child to lose balance and fall off, leading to injuries. The product does not comply with the requirements of the Toy Safety Directive and the relevant European standard EN 71-1.	Recall of the product from end users, Withdrawal of the product from the market
A12/1260/19	United Kingdom	Soft toy (Country of Origin: China)		Choking The zip can easily be detached, generating a small part, and the fibrous stuffing material is accessible through the zip on the belly of the plush toy. A small child may put the small part or the stuffing material in the mouth and choke. The product does not comply with the requirements of the Toy Safety Directive and the relevant European standard EN 71-1.	Destruction of the product

Alert No.	Notifying Country	Product	Product Photo	Hazard/ Risk	Measures Adopted
A12/1262/19	Germany	Toy slime (Country of Origin: China)		Chemical The migration of boron from the toy slime is too high (measured value on average: 3817 mg/kg). Ingestion or contact with an excessive quantity of boron may harm the health of children by damaging the reproductive system. The product does not comply with the requirements of the Toy Safety Directive and the relevant European standard EN 71-3.	Withdrawal of the product from the market
A12/1263/19	Germany	Toy slime (Country of Origin: China)		Chemical The migration of boron from the toy slime is too high (measured value up to 6072 mg/kg). Ingestion or contact with an excessive quantity of boron may harm the health of children by damaging the reproductive system. The product does not comply with the requirements of the Toy Safety Directive and the relevant European standard EN 71-3.	Destruction of the product. Ban on the marketing of the product and any accompanying measures, Withdrawal of the product from the market
A11/0055/19	Germany	Toy slime (Country of Origin: China)		Chemical The migration of boron from the toy slime is too high (measured value up to 1917 mg/kg). Due to its characteristic form, colour, appearance and size, the product may be mistaken for foodstuff. This may lead a small child to put the product in the mouth, which could cause the kid to swallow the slime. Ingestion or contact with an excessive quantity of boron may harm the health of children by damaging their reproductive system. The product does not comply with the requirements of the Toy Safety Directive, the Food Imitating Products Directive and the relevant European standard EN 71-3.	Withdrawal of the product from the market Ban on the marketing of the product and any accompanying measures
A12/1267/19	Germany	Finger paint (Country of Origin: Germany)		Microbiological The toy contains aerobic mesophilic bacteria (measured value up to: 120000 cfu/g) and the presence of Pseudomonas aeruginosa has been detected. If played with by children with compromised or weakened immunity, the product may cause infection or irritation. The product does not comply	Recall of the product from end users, Withdrawal of the product from the market

Alert No.	Notifying Country	Product	Product Photo	Hazard/ Risk	Measures Adopted
				with the requirements of the Toy Safety Directive.	
A12/1269/19	Finland	Sand moulds (Country of Origin: Finland)		Choking The ball of the plane-shaped mould can be easily detached, generating a small part. A small child may put it in the mouth and choke. The product does not comply with the requirements of the Toy Safety Directive and the relevant European standard EN 71-1.	Recall of the product from end users
A12/1270/19	Hungary	Toy microphone (Country of Origin: China)		Damage to hearing The sound pressure level of the toy is too high. It could cause damage to hearing. The product does not comply with the requirements of the Toy Safety Directive and the relevant European standard EN 71-1.	Recall of the product from end users, Withdrawal of the product from the market
A12/1289/19	Slovakia	Push-along toy (Country of Origin: China)		Choking The toy can easily break, releasing small parts (plastic eggs). A small child may put the small parts in the mouth and choke. The product does not comply with the requirements of the Toy Safety Directive and the relevant European standard EN 71-1.	Ban on the marketing of the product and any accompanying measures, Warning consumers of the risks

Alert No.	Notifying Country	Product	Product Photo	Hazard/ Risk	Measures Adopted
A12/1292/19	Slovakia	Toy gun (Country of Origin: China)		Damage to hearing The emission sound-pressure level of the toy is too high. If the toys are used close to the ear, they could cause damage to hearing. The product does not comply with the requirements of the Toy Safety Directive and the relevant European standard EN 71-1.	Ban on the marketing of the product and any accompanying measures, Warning consumers of the risks
A12/1293/19	United Kingdom	Finger flickers toy (Country of Origin: China)		Chemical The battery compartment can be easily opened without the use of any tools, leaving button cell batteries accessible. A child may put these in the mouth, which could cause damage to the child's gastrointestinal tract. The product does not comply with the requirements of the Toy Safety Directive and the relevant European standards EN 71-1 and EN 62115.	Recall of the product from end users
A12/1294/19	Hungary	Soft toy with suction cup (Country of Origin: China)		Chemical, Choking Small parts (plastic nose, eyes and suction cup) may be easily detached from the toy. In addition, the fibrous stuffing material of the toy is easily accessible due to the weakness of certain seams. The suction cup contains di (2-ethylhexyl) phthalate (DEHP) (measured value: 40% by weight). A small child may put the detached element or the stuffing material in the mouth and choke on them. At the same time, this phthalate may harm the health of children, causing possible damage of the reproductive system. The product does not comply with the requirements of the Toy Safety Directive and the relevant European standards EN 71-1 and EN 62115.	Recall of the product from end users, Withdrawal of the product from the market
A12/1295/19	Germany	Plastic doll (Country of Origin: China)		Chemical The toy contains an excessive amount of di-(2-ethylhexyl) phthalate (DEHP) (measured value up to 4.6% by weight). The phthalate may harm the health of children, causing possible damage to the reproductive system. The product does not comply with the REACH Regulation.	Ban on the marketing of the product and any accompanying measures

Alert No.	Notifying Country	Product	Product Photo	Hazard/ Risk	Measures Adopted
A12/1296/19	Finland	Rattle toy (Country of Origin: Czech Republic)		Choking The rattle can release small parts. A small child could put the small parts in the mouth and choke. The product does not comply with the requirements of the Toy Safety Directive and the relevant European Standard EN 71-1.	Recall of the product from end users
A12/1297/19	Finland	Balloon with LED light (Country of Origin: Mexico)		Injuries The toy can easily break, causing the button batteries and LED light to become accessible. A child may put them in the mouth, causing damage to the gastrointestinal tract. The product does not comply with the requirements of the Toy Directive and the relevant European standard EN 62115.	Recall of the product from end users

RAPEX – Rapid Exchange of Information System

The Rapid Alert System enables the rapid exchange of information (RAPEX) between [31 European countries](#) and the European Commission on non- food dangerous products found on the market posing a risk to health and safety of consumers.

A weekly overview of the alerts on those products is published in English for free on <http://ec.europa.eu/rapex>. The measures taken in the notifying country in order to restrict their marketing or use can be ordered by national authorities ("compulsory measures") or be taken directly by producers and distributors ("voluntary measures").

The official contact points of the Member and EFTA-EEA States provide the information published in these weekly overviews. Under the terms of Annex II.10 of the General Product Safety Directive ([2001/95/EC](#)) responsibility for the information provided lies with the notifying party. The Commission does not take any responsibility for the accuracy of the information provided.

Recall Summary – US Toys / Children’s Products

CPSC Recall List (Aug 2019)

Recall No.	Notifying Country	Product	Product Photo	Hazard/ Risk	Remedy
19-179	USA	Super Jumper Trampolines (Country of Origin: China)		Fall And Injury the welds on the metal railings (legs) can fail, posing fall and injury hazards.	Consumers should immediately stop using the recalled trampolines and contact Super Jumper for a free repair kit which consists of reinforcement clamps that clamp around the trampolines’ welded joints.

CPSC

The United States Consumer Product Safety Commission (CPSC) is an independent agency of the United States government. To provide better service in alerting the American people to unsafe, hazardous or defective products, a “one stop shop” for U.S. Government recalls, www.recalls.gov, has been created. Publics can report unsafe products to CPSC by using the platform.

The recall list is divided into seven categories: Consumer Products, Motor Vehicles, Boats, Food, Medicine, Cosmetics and Environmental Products. Generally, the recall was conducted, voluntarily by the company, under CPSC’s Fast Track Recall program. Fast Track recalls are initiated by firms who commit to work with CPSC to quickly announce the recall and remedy to protect consumers.

Australian Product Safety System

The Australian product safety system is to maximize the safety of good by the cooperation of consumers, businesses and agencies. This policy sets out the principles adopted by the Australian Competition and Consumer Commission (ACCC) for prioritizing and addressing product safety risks.

Under the Australian Consumer Law, a responsible Minister can order a compulsory recall when there are hazards on the products. A voluntary recall could be conducted to remove the product from the marketplace when the suppliers become aware of unsafe or defective products.

The ACCC administers a national recalls system for recalls of specific and general consumer products, and publishes all product recalls on the website <https://www.productsafety.gov.au/recalls>.

STC (The Hong Kong Standards and Testing Centre) is a not-for-profit, independent testing, inspection and certification organization. With a global network of ISO/IEC 17025 accredited testing laboratories and over 50 years of experience in consumer product testing, we can meet your conformity assessment needs with highly efficient and reliable service. Our testing scope and capabilities related to toys and children's products include but not limited to:
