

## Recall Summary – European Toys

### EU Safety Gate Alerts (Jun 2022)

Alert No.	Notifying Country	Product	Product Photo	Hazard/ Risk	Measures Adopted
A11/00074/22	Lithuania	<b>Toy Gun Set with Projectiles</b>  (Country of Origin: <b>China</b> )		<b>Choking</b> The foam projectiles are too small to be safe. A child playing with the toy may put the projectiles in the mouth and choke. The product does not comply with the requirements of the Toy Safety Directive and the European standard EN 71-1.	Withdrawal of the product from the market
A11/00075/22	Poland	<b>Toy Telephone</b>  (Country of Origin: <b>China</b> )		<b>Damage to Hearing</b> The sound pressure level is too high (measured value: up to 76.2 dB). This could lead to permanent or partial hearing loss when the product is used. The product does not comply with the requirements of the Toy Safety Directive and the European standard EN 71-1.	Warning consumers of the risks
A12/00741/22	Bulgaria	<b>Children's Crib</b>  (Country of Origin: <b>Turkey</b> )		<b>Injury</b> The distances between the crib base and the component of sides and between the side slats are too large which could cause a child's limb to become trapped. The crib is not stable enough and could overturn. Furthermore, accessible and protruding parts of the crib are not rounded and have sharp points and edges. These can cause injury to a child. The product does not comply with the requirements of the General Product Safety Directive and the European standard EN 1130.	Import rejected at border

A12/00790/22	Lithuania	<b>Dolls Set</b>  (Country of Origin: <b>China</b> )		<b>Chemical</b> The plastic material of the head of the doll contains an excessive amount of diisobutyl phthalate (DIBP) (measured values: up to 0.5% by weight). This phthalate may harm the health of children, causing possible damage to their reproductive system. The product does not comply with the REACH Regulation.	Withdrawal of the product from the market
A12/00791/22	Czechia	<b>Travel Cot</b>  (Country of Origin: <b>China</b> )		<b>Injury</b> The cot is not sufficiently stable and may easily overturn. A small child may consequently fall out of the cot and suffer injury. The product does not comply with the requirements of the General Product Safety Directive and the European standard EN 716-1.	Withdrawal of the product from the market
A12/00796/22	Lithuania	<b>Plastic Toy</b>  (Country of Origin: <b>China</b> )		<b>Choking</b> Small parts (bath faucets, shower head, rattling flowers, sound elements for pressure toys) can easily detach from the toy. A child may put them in the mouth and choke. The product does not comply with the requirements of the Toy Safety Directive and the European standard EN 71-1.	Withdrawal of the product from the market
A12/00797/22	Croatia	<b>Toy Slime</b>  (Country of Origin: <b>China</b> )		<b>Chemical</b> The migration of boron from the toy is too high (measured value: up to 1004 mg/kg). Ingestion or contact with an excessive quantity of boron may harm the health of children by damaging their reproductive system. The product does not comply with the requirements of the Toy Safety Directive and the European standard EN 71-3.	Ban on the marketing of the product and any accompanying measures

A12/00798/22	Sweden	<b>Wooden Toy</b>  (Country of Origin: <b>Germany</b> )		<b>Choking</b> Small parts (wheels) can easily detach from the toy. Consequently, a child may put them in the mouth and choke. The product does not comply with the requirements of the Toy Safety Directive and the European standard EN 71-1.	Recall of the product from end users
A12/00801/22	Sweden	<b>Toy Rattle</b>  (Country of Origin: <b>Germany</b> )		<b>Choking</b> Small parts (rivet, rivet bar and wooden ball) can easily detach from the toy. Consequently, a child may put them in the mouth and choke. The product does not comply with the requirements of the Toy Safety Directive and the European standard EN 71-1.	Recall of the product from end users
A12/00802/22	Czechia	<b>Battery Operated Car Track</b>  (Country of Origin: <b>China</b> )		<b>Environment</b> The solder contains an excessive amount of lead (measured value: up to 73.5% by weight). Lead poses a risk to the environment. The product does not comply with the requirements of the Directive on the restriction of the use of certain hazardous substances in electrical and electronic equipment (RoHS 2 Directive).	Withdrawal of the product from the market
A12/00804/22	Luxembourg	<b>Key Ring</b>  (Country of Origin: <b>China</b> )		<b>Choking</b> Small parts (key-chain tag and toy's eyes) can easily detach from the toy. A child may put them in the mouth and choke. The product does not comply with the requirements of the Toy Safety Directive and the European standard EN 71-1.	Withdrawal of the product from the market

A12/00805/22	Czechia	<b>Battery Operated Toy</b>  (Country of Origin: <b>China</b> )		<b>Environment</b> The solder contains an excessive amount of lead (measured value: up to 85.9% by weight). Lead poses a risk to the environment. The product does not comply with the requirements of the Directive on the restriction of the use of certain hazardous substances in electrical and electronic equipment (RoHS 2 Directive).	Withdrawal of the product from the market
A12/00809/22	Lithuania	<b>Soft Toy</b>  (Country of Origin: <b>China</b> )		<b>Choking</b> The metal pendant can easily detach from the neckband of the toy. A child can put this small piece in the mouth and choke. The product does not comply with the requirements of the Toy Safety Directive and the European standard EN 71-1.	Withdrawal of the product from the market
A12/00811/22	Latvia	<b>Children's High Chair</b>  (Country of Origin: <b>Poland</b> )		<b>Injury</b> The horizontal distance between the front surface of the backrest and the crotch restraint is too large. A child may get free from the restraint system, get up on his/her feet, fall out of the chair to the floor and get injured. The product does not comply with the requirements of the General Product Safety Directive and the European standard EN 14988.	Withdrawal of the product from the market
A12/00813/22	Lithuania	<b>Plastic Doll</b>  (Country of Origin: <b>China</b> )		<b>Chemical</b> The plastic material of the doll contains an excessive amount of bis-(2-ethylhexyl) phthalate (DEHP) and dibutyl phthalate (DBP) (measured values: up to 13.2% and 0.1% by weight, respectively). These phthalates may harm the health of children, causing possible damage to their reproductive system. The product does not comply with the REACH Regulation.	Withdrawal of the product from the market

A12/00814/22	Lithuania	<b>Plastic Doll</b>  (Country of Origin: <b>China</b> )		<b>Chemical</b>  The plastic material of the doll contains an excessive amount of bis-(2-ethylhexyl) phthalate (DEHP) and dibutyl phthalate (DBP) (measured values: up to 14.1% and 0.1% by weight, respectively). These phthalates may harm the health of children, causing possible damage to their reproductive system. The product does not comply with the REACH Regulation.	Withdrawal of the product from the market
A12/00823/22	Poland	<b>Plastic Toy</b>  (Country of Origin: <b>China</b> )		<b>Choking</b>  The suction cups detach easily from the projectiles. A child playing with the toy may put the projectile in the mouth and choke. The product does not comply with the requirements of the Toy Safety Directive and the European standard EN 71-1.	Warning consumers of the risks
A12/00833/22	Austria	<b>Puffer Toy</b>  (Country of Origin: <b>Germany</b> )		<b>Choking</b>  Small parts (eyes) can easily detach from the toy. A child may put them in the mouth and choke. The product does not comply with the requirements of the Toy Safety Directive and the European standard EN 71-1.	Marking the product with appropriate warnings on the risks
A12/00836/22	Poland	<b>Expandable Toy</b>  (Country of Origin: <b>Unknown</b> )		<b>Choking, Injury</b>  The flamingo figurine expands 50% in size when in contact with water. If a child puts it in the mouth or swallows it, the contact with saliva or stomach liquids will cause the figurine to expand, which can result in occlusion of the respiratory track or intestinal blockage. The product does not comply with the requirements of the Toy Safety Directive and the European standard EN 71-1.	Warning consumers of the risks

A12/00837/22	Poland	<b>Toy Bow and Arrows Set</b>  (Country of Origin: <b>China</b> )		<b>Choking</b> The suction cups detach easily from the arrows. A child playing with the toy may put arrow(s) in the mouth and choke with on suction cup(s). The product does not comply with the requirements of the Toy Safety Directive and the European standard EN 71-1.	Warning consumers of the risks
A12/00838/22	Czechia	<b>Battery Operated Toy</b>  (Country of Origin: <b>China</b> )		<b>Environment</b> The solder contains an excessive amount of lead (measured value: up to 65.5% by weight). Lead poses a risk to the environment. The product does not comply with the requirements of the Directive on the restriction of the use of certain hazardous substances in electrical and electronic equipment (RoHS 2 Directive).	Stop of sales
A12/00840/22	Austria	<b>Puffer Toy</b>  (Country of Origin: <b>The Netherlands</b> )		<b>Choking</b> Small parts (eyes) can easily detach from the toy. A child may put them in the mouth and choke. The product does not comply with the requirements of the Toy Safety Directive and the European standard EN 71-1.	Marking the product with appropriate warnings on the risks
A12/00841/22	Poland	<b>Plastic Doll</b>  (Country of Origin: <b>China</b> )		<b>Chemical</b> The toy contains bis (2-ethylhexyl) phthalate (DEHP) (measured value: up to 19.6% by weight). This phthalate may harm the health of children, possibly causing damage to the reproductive system. The product does not comply with the REACH Regulation.	Withdrawal of the product from the market

A12/00842/22	Poland	<b>Toy Slime</b>  (Country of Origin: <b>China</b> )		<b>Chemical</b> The migration of boron from the toy is too high (measured value: up to 3118.32 mg/kg). Ingestion or contact with an excessive quantity of boron may harm the health of children by damaging their reproductive system. The product does not comply with the requirements of the Toy Safety Directive and the relevant European standard EN 71-3.	Destruction of the product
A12/00843/22	Poland	<b>Toy Slime</b>  (Country of Origin: <b>China</b> )		<b>Chemical</b> The migration of boron from the toy is too high (measured value: up to 1228.7 mg/kg). Ingestion or contact with an excessive quantity of boron may harm the health of children by damaging their reproductive system. The product does not comply with the requirements of the Toy Safety Directive and the relevant European standard EN 71-3.	Destruction of the product
A12/00844/22	Poland	<b>Toy Slime</b>  (Country of Origin: <b>China</b> )		<b>Chemical</b> The migration of boron from the toy is too high (measured value: up to 2499.15 mg/kg). Ingestion or contact with an excessive quantity of boron may harm the health of children by damaging their reproductive system. The product does not comply with the requirements of the Toy Safety Directive and the European standard EN 71-3.	Withdrawal of the product from the market

A12/00849/22	Austria	<b>Toy Whistle</b>  (Country of Origin: <b>Germany</b> )		<b>Choking, Damage to Hearing</b> The sound pressure level is too high (measured value: up to 123.5 dB). This could lead to permanent or partial hearing loss when the product is used. Moreover, the weather vane can be easily detached. A child may put it in the mouth and choke. The product does not comply with the requirements of the Toy Safety Directive and the European standard EN 71-1.	Withdrawal of the product from the market
A12/00850/22	Austria	<b>Toy Whistle</b>  (Country of Origin: <b>Germany</b> )		<b>Damage to hearing</b> The sound pressure level is too high (measured value: up to 121.4 dB). This could lead to permanent or partial hearing loss when the product is used. The product does not comply with the requirements of the Toy Safety Directive, and the European standard EN 71-1.	Withdrawal of the product from the market
A12/00854/22	Austria	<b>Puffer Toy</b>  (Country of Origin: <b>Unknown</b> )		<b>Choking</b> Small parts (the eyes) can easily detach from the toy. A child may put them in the mouth and choke. The product does not comply with the requirements of the Toy Safety Directive and the European standard EN 71-1.	Marking the product with appropriate warnings on the risks
A12/00855/22	Poland	<b>Magnetic Balls</b>  (Country of Origin: <b>China</b> )		<b>Injury</b> The toy is made of small parts (balls) with a high magnetic flux. If a child swallows them, they could attract one another causing intestinal blockage or perforation. The product does not comply with the requirements of the Toy Safety Directive and the relevant European standard EN 71-1.	Withdrawal of the product from the market

A12/00857/22	Poland	<b>Bath Toy</b>  (Country of Origin: <b>China</b> )		<b>Chemical</b>  The foam in the product contains an excessive amount of Tris(2-chloro-1-methylethyl) phosphate (TCPP) (measured value: up to 70 mg/kg) and Tris2-chloro-1-(chloromethyl)ethyl phosphate (TDCP) (measured value: more than 100mg/kg). TCPP and TDCP might cause cancer. The product does not comply with the requirements of the Toy Safety Directive.	Withdrawal of the product from the market
A12/00858/22	Estonia	<b>Rattle Toy</b>  (Country of Origin: <b>Unknown</b> )		<b>Choking</b>  The rattles can easily break, generating small parts. A child may put them in the mouth and choke. The product does not comply with the requirements of the Toy Safety Directive and the European standard EN 71.	Recall of the product from end users
A12/00859/22	Poland	<b>Toy Gun Set</b>  (Country of Origin: <b>China</b> )		<b>Damage to Sight</b>  The kinetic energy of the projectiles fired from the toy gun is too high and this can lead to eye injury. The product does not comply with the requirements of the Toy Safety Directive and the European standard EN 71-1.	Warning consumers of the risks
A12/00862/22	Austria	<b>Puffer Toy</b>  (Country of Origin: <b>Italy</b> )		<b>Choking</b>  Small parts (the bow and the arms) can easily detach from the toy. A child may put them in the mouth and choke. The product does not comply with the requirements of the Toy Safety Directive and the European standard EN 71-1.	Recall of the product from end users

A12/00863/22	Austria	<b>Puffer Toy</b>  (Country of Origin: The Netherlands)		<b>Choking</b> Small parts (the eyes) can easily detach from the toy. A child may put them in the mouth and choke. The product does not comply with the requirements of the Toy Safety Directive and the European standard EN 71-1.	Marking the product with appropriate warnings on the risks
A12/00868/22	Poland	<b>Toy Slime</b>  (Country of Origin: China)		<b>Chemical</b> The migration of boron from the toy is too high (measured value up to: 725 mg/kg). Contact with an excessive quantity of boron may harm the health of children by damaging their reproductive system. The product does not comply with the requirements of the Toy Safety Directive and the European standard EN 71-3.	Warning consumers of the risks
A12/00869/22	Poland	<b>Plastic Doll</b>  (Country of Origin: China)		<b>Chemical</b> The plastic material of the toy contains an excessive concentration of bis(2-ethylhexyl) phthalate (DEHP) (measured value: up to 2.16% by weight). This phthalate may harm the health of children, possibly causing damage to the reproductive system. The product does not comply with the REACH Regulation.	Warning consumers of the risks
A12/00871/22	Poland	<b>Inflatable Plastic Ball</b>  (Country of Origin: China)		<b>Chemical</b> The toy contains an excessive concentration of diisobutyl phthalate (DIBP) (measured value: up to 25.5% by weight). This phthalate may harm the health of children, causing possible damage to their reproductive system. The product does not comply with the REACH Regulation.	Withdrawal of the product from the market

A12/00878/22	Austria	<b>Puffer Toy and Slime Set</b>  (Country of Origin: <b>Unknown</b> )		<b>Choking</b> Small parts (the eyes) can easily detach from the centipede toy. A child may put them in the mouth and choke. The product does not comply with the requirements of the Toy Safety Directive and the European standard EN 71-1.	Withdrawal of the product from the market
A12/00880/22	Iceland	<b>Baby Teether</b>  (Country of Origin: <b>China</b> )		<b>Choking</b> Small part (ball in the foot of the toy) can easily detach from the toy. A child may put it in the mouth and choke. The product does not comply with the requirements of the Toy Safety Directive and the European standard EN 71.	Recall of the product from end users
A12/00881/22	The Netherlands	<b>Baby Teether</b>  (Country of Origin: <b>The Netherlands</b> )		<b>Choking</b> The product can easily break, generating small parts. A child may put them in the mouth and choke. The product does not comply with the requirements of the Toy Safety Directive and the relevant European standard EN 71-1.	Recall of the product from end users
A12/00884/22	Hungary	<b>Bath Toy Set</b>  (Country of Origin: <b>China</b> )		<b>Chemical</b> The product contains an excessive concentration of bis (2-ethylhexyl) phthalate (DEHP) and dibutyl phthalate (DBP) (measured value: up to 0.27 and 0.42% by weight, respectively). These phthalates may harm the health of children, possibly causing damage to the reproductive system. The product does not comply with the REACH Regulation.	Withdrawal of the product from the market

A12/00885/22	Czechia	<b>Battery Operated Toy Car</b>  (Country of Origin: <b>China</b> )		<b>Environment</b> The solder contains an excessive amount of lead (measured value: up to 63.5% by weight). Lead poses a risk to the environment. The product does not comply with the requirements of the Directive on the restriction of the use of certain hazardous substances in electrical and electronic equipment (RoHS 2 Directive).	Recall of the product from end users
A12/00886/22	Czechia	<b>Plastic Doll</b>  (Country of Origin: <b>China</b> )		<b>Chemical</b> The toy contains bis (2-ethylhexyl) phthalate (DEHP) (measured value: up to 20% by weight). This phthalate may harm the health of children, possibly causing damage to the reproductive system. The product does not comply with the REACH Regulation.	Withdrawal of the product from the market
A12/00887/22	Hungary	<b>Doll Set</b>  (Country of Origin: <b>China</b> )		<b>Chemical</b> The toy contains bis (2-ethylhexyl) phthalate (DEHP) (measured value: up to 37% by weight). This phthalate may harm the health of children, possibly causing damage to the reproductive system. The product does not comply with the REACH Regulation.	Recall of the product from end users
A12/00889/22	Czechia	<b>Battery Toy</b>  (Country of Origin: <b>China</b> )		<b>Environment</b> The solder contains an excessive amount of lead (measured value: up to 65.9% by weight) and cadmium (measured value: up to 0.0883% by weight). Lead and cadmium pose a risk to the environment. The product does not comply with the requirements of the Directive on the restriction of the use of certain hazardous substances in electrical and electronic equipment (ROHS2 Directive).	Recall of the product from end users

A12/00890/22	The Netherlands	<b>Pet Toy</b>  (Country of Origin: <b>China</b> )		<b>Damage to Sight</b>  The laser light emitted is too powerful. Direct viewing of the light could damage the eyesight permanently, in particular the one of children, for whom the product is attractive. The product is lacks a warning text or warning label for the laser. The product does not comply with the requirements of the General Product Safety Directive, and the European standard EN 60825-1.	Withdrawal of the product from the market
A12/00891/22	Finland	<b>Key Ring</b>  (Country of Origin: <b>China</b> )		<b>Chemical</b>  The metal of the key ring releases an excessive amount of nickel (measured value: up to 1.6µg/cm2/week). Nickel is a strong sensitizer and can cause allergic reactions if present in articles that come into direct and prolonged contact with the skin. A child may become exposed to it by playing with the key ring. The product does not comply with the REACH Regulation.	Ban on the marketing of the product and any accompanying measures
A12/00892/22	Croatia	<b>Slime Toy</b>  (Country of Origin: <b>China</b> )		<b>Chemical</b>  The migration of boron from the toy is too high (measured value: up to 1,056 mg/kg). Ingestion or contact with an excessive quantity of boron may harm the health of children by damaging their reproductive system. The product does not comply with the requirements of the Toy Safety Directive and the European standard EN 71-3.	Ban on the marketing of the product and any accompanying measures

A12/00895/22	Czechia	<b>Battery Operated Toy</b>  (Country of Origin: <b>China</b> )		<b>Environment</b>  The solder joint in the toy contains an excessive concentration of lead and cadmium (measured values: up to 77.2% and 0.1495% by weight, respectively). Lead and cadmium pose a risk to the environment. The product does not comply with the requirements of the Commission Directive on the restriction of the use of certain hazardous substances in electrical and electronic equipment (RoHS 2 Directive).	Recall of the product from end users
A12/00897/22	Poland	<b>Toy Slime</b>  (Country of Origin: <b>China</b> )		<b>Chemical</b>  The migration of boron from the toy is too high (measured value: up to 555 mg/kg). Ingestion or contact with an excessive quantity of boron may harm the health of children by damaging their reproductive system. The product does not comply with the requirements of the Toy Safety Directive and the European standard EN 71-3.	Withdrawal of the product from the market
A12/00898/22	Poland	<b>Toy Slime</b>  (Country of Origin: <b>China</b> )		<b>Chemical</b>  The migration of boron from the toy is too high (measured value: up to 593 mg / kg). Ingestion or contact with an excessive quantity of boron may harm the health of children by damaging their reproductive system. The product does not comply with the requirements of the Toy Safety Directive and the European standard EN 71-3.	Withdrawal of the product from the market

A12/00899/22	Poland	<b>Toy Slime</b>  (Country of Origin: <b>China</b> )		<b>Chemical</b>  The migration of boron from the toy is too high (measured value: up to 433 mg/kg). Ingestion or contact with an excessive quantity of boron may harm the health of children by damaging their reproductive system. The product does not comply with the requirements of the Toy Safety Directive and the European standard EN 71-3.	Destruction of the product

### Safety Gate: the EU rapid alert system for dangerous non-food products

“Safety Gate”, the EU rapid alert system (formerly known as “RAPEX”), enables the rapid exchange of information between **31 European countries** and the European Commission on non- food dangerous products found on the market posing a risk to health and safety of consumers.

A weekly overview of the alerts on those products is published in English for free on <https://ec.europa.eu/safety-gate-alerts/screen/webReport#weeklyReports>. The measures taken in the notifying country in order to restrict their marketing or use can be ordered by national authorities (“compulsory measures”) or be taken directly by producers and distributors (“voluntary measures”).

The official contact points of the Member and EFTA-EEA States provide the information published in these weekly overviews. Under the terms of Annex II.10 of the General Product Safety Directive (**2001/95/EC**) responsibility for the information provided lies with the notifying party. The Commission does not take any responsibility for the accuracy of the information provided.

## Recall Summary – US Toys / Children’s Products

**CPSC Recall List (Jun 2022)**

Recall No.	Notifying Country	Product	Product Photo	Hazard/ Risk	Remedy
22-141	USA	<b>6” Aflac Plush Promotional Ducks</b>  (Country of Origin: <b>China</b> )		<b>Poisoning Hazard</b> Components of the recalled promotional ducks contain levels of certain phthalates that exceed the federal phthalate content standard. A component of the promotional fishing duck also contains a level of lead that exceeds the federal lead content standard. Phthalates and lead are toxic if ingested by young children and can cause adverse health issues.	Consumers should immediately stop using and dispose of the recalled plush promotional ducks. Communicorp is contacting Aflac employees and licensed agents who purchased these plush promotional ducks directly.
22-142	USA	<b>Children’s Pajama Sets</b>  (Country of Origin: <b>China</b> )		<b>Burn Hazard</b> The children’s pajama sets fail to meet the federal flammability standards for children’s sleepwear, posing a risk of burn injury to children.	Consumers should immediately take the recalled pajama sets away from children and return the pajama sets to any Target store location for a full refund.
22-145	USA	<b>Children’s Robes</b>  (Country of Origin: <b>China</b> )		<b>Burn Hazard</b> The children’s robes fail to meet flammability standards for children’s sleepwear, posing a risk of burn injury to children.	Consumers should immediately take the recalled robes away from children, stop using them and contact Joey Clothing for a full refund.
22-146	USA	<b>Wonder &amp; Wise Baby Activity Walkers</b>  (Country of Origin: <b>China</b> )		<b>Strangulation Hazard</b> Rubber rings on the rear wheels can separate from the wheels and detach from the Activity Walkers, posing a strangulation hazard to children.	Consumers should immediately take the recalled walkers away from children, stop using them until repaired and contact Asweets for instructions on getting free replacement rear wheels.

22-155	USA	<p><b>Brompton Electric Folding Bicycles</b></p> <p>(Country of Origin: <b>United Kingdom</b>)</p>		<p><b>Crash and Injury Hazards</b></p> <p>The mudguard is positioned too close to the front wheel which can cause the wheel to lock up leading to sudden deceleration of the bike if an object gets caught between the mudguard and front tire, posing crash and injury hazards to the rider.</p>	<p>Consumers should immediately stop using the recalled bicycles and contact an authorized Brompton dealer for a free repair, which replaces the front mudguard stay and flap and increases the clearance between the mudguard and tire.</p>
22-156	USA	<p><b>Activity Loops</b></p> <p>(Country of Origin: <b>China</b>)</p>		<p><b>Choking Hazard</b></p> <p>Tubes on the Activity Loops toys can detach from the base releasing small plastic rings, posing a small parts choking hazard to children.</p>	<p>Consumers should immediately stop using the Activity Loops toys, take the toys away from children and return them for a full refund either to the place of purchase or directly to Manhattan Toy. Manhattan Toy will supply a prepaid shipping label for returns directly to the company.</p>
22-165	USA	<p><b>Children's Pajamas</b></p> <p>(Country of Origin: <b>China</b>)</p>		<p><b>Burn Hazard</b></p> <p>The children's pajamas fail to meet the tight-fitting flammability standards for children's sleepwear, posing a risk of burn injury to children.</p>	<p>Consumers should immediately take the recalled sleepwear away from children and contact Loulou Lollipop for a full refund.</p>
22-166	USA	<p><b>Children's Desks and Chairs</b></p> <p>(Country of Origin: <b>China</b>)</p>		<p><b>Poisoning Hazard</b></p> <p>Surface paint on the desks and chairs contains levels of lead that exceed the federal lead paint ban, posing a lead poisoning hazard. The desks and chairs also fail to comply with the federal lead content ban. Lead is toxic if ingested by children and can cause adverse health effects.</p>	<p>Consumers should immediately stop using the recalled children's desks and chairs and return them to a Times Tienda store for a full refund.</p>

22-167	USA	<p><b>Wooden Xylophone Toys</b></p> <p>(Country of Origin: <b>China</b>)</p>		<p><b>Choking Hazard</b></p> <p>The xylophone's feet can loosen and fall off, posing a choking hazard to children.</p>	<p>Consumers should immediately stop using the recalled xylophone and return it to a Primark store for a full refund.</p>
22-170	USA	<p><b>Baby Boy Dino Rompers and Baby Boy Camo Rompers Two Pack</b></p> <p>(Country of Origin: <b>India</b>)</p>		<p><b>Choking Hazard</b></p> <p>The metal snaps on the rompers can detach, posing a choking hazard to children.</p>	<p>Consumers should immediately take the recalled rompers away from children and return the rompers to any The Children's Place store for a full refund. The company will send an email notice to all customers who bought the product on the firm's website with instructions on how to receive a full refund for the recalled products.</p>
22-172	USA	<p><b>Children's Robes</b></p> <p>(Country of Origin: <b>China</b>)</p>		<p><b>Burn Hazard</b></p> <p>The children's robes fail to meet the flammability standards for children's sleepwear, posing a risk of burn injury to children.</p>	<p>Consumers should immediately take the recalled robes away from children and contact Richie House for a full refund.</p>
22-177	USA	<p><b>Children's Pajamas</b></p> <p>(Country of Origin: <b>China</b>)</p>		<p><b>Burn Hazard</b></p> <p>The children's pajamas fail to meet the flammability standards for children's sleepwear, posing a risk of burn injury to children.</p>	<p>Consumers should immediately take the recalled sleepwear away from children and contact Kids Tales for a full refund.</p>
22-178	USA	<p><b>Children's Nightgowns</b></p> <p>(Country of Origin: <b>China</b>)</p>		<p><b>Burn Hazard</b></p> <p>The children's nightgowns fail to meet the flammability standards for children's sleepwear, posing a risk of burn injury to children.</p>	<p>Consumers should immediately take the recalled nightgowns away from children and contact iMOONZZZ for a full refund.</p>

22-750	USA	<p><b>Jungle Jumparoo Children’s Toys</b></p> <p>(Country of Origin: <b>China</b>)</p>		<p><b>Violation of the Federal Lead Content Ban</b></p> <p>The toys’ yellow poles contain levels of lead that exceed the federal lead content ban. Lead is toxic if ingested by children and can cause adverse health issues.</p>	<p>Consumers should immediately stop using the recalled toys and contact Jungle Jumparoo for information on how to properly dispose of the yellow poles and to receive free replacement poles, including shipping. Jungle Jumparoo is contacting all known purchasers directly.</p>

## CPSC

The United States Consumer Product Safety Commission (CPSC) is an independent agency of the United States government. To provide better service in alerting the American people to unsafe, hazardous or defective products, a “one stop shop” for U.S. Government recalls, [www.recalls.gov](http://www.recalls.gov), has been created. Publics can report unsafe products to CPSC by using the platform.

The recall list is divided into seven categories: Consumer Products, Motor Vehicles, Boats, Food, Medicine, Cosmetics and Environmental Products. Generally, the recall was conducted, voluntarily by the company, under CPSC’s Fast Track Recall program. Fast Track recalls are initiated by firms who commit to work with CPSC to quickly announce the recall and remedy to protect consumers.

## Recall Summary – Australia Toys / Children’s Products

**ACCC Recall List (Jun 2022)**

PRA No.	Notifying Country	Product	Product Photo	Hazard/ Risk	Remedy
2022/19499	Australia	<b>Myer Pty Ltd — Jack &amp; Milly Koala Sippy Cup</b>		<b>Choking or Ingestion Hazard</b> If part of the silicone detaches from the cup, it may pose a choking or ingestion hazard to small children, which can lead to serious injury or death.	Customers should immediately stop using the sippy cup and should return the product to a Myer store as soon as possible for a refund. A receipt is not required to obtain a refund.
2022/19504	Australia	<b>Le Toy Van Petilou Sensory Shapes LEPL089 A wooden tray with nine different wooden shapes</b>		<b>Choking or Suffocation Hazard</b> The product does not comply with the mandatory safety standard for toys for children up to and including 36 months of age. The top of the shapes may come off and release small parts. If the shapes release small parts, they may pose a choking or suffocation hazard for children.	Consumers should immediately stop using the toy, dispose of the product and contact Kaleidoscope Australasia Pty Ltd. A full refund will be issued from the place of purchase.

### Australian Product Safety System

The Australian product safety system is to maximize the safety of good by the cooperation of consumers, businesses and agencies. This policy sets out the principles adopted by the Australian Competition and Consumer Commission (ACCC) for prioritizing and addressing product safety risks.

Under the Australian Consumer Law, a responsible Minister can order a compulsory recall when there are hazards on the products. A voluntary recall could be conducted to remove the product from the marketplace when the suppliers become aware of unsafe or defective products.

The ACCC administers a national recalls system for recalls of specific and general consumer products, and publishes all product recalls on the website <https://www.productsafety.gov.au/recalls>.

STC (Hong Kong Standards and Testing Centre) is a not-for-profit, independent testing, inspection and certification organization. With a global network of ISO/IEC 17025 accredited testing laboratories and nearly 60 years of experience in consumer product testing, we can meet your conformity assessment needs with highly efficient and reliable service. Our testing scope and capabilities related to toys and children's products include but not limited to:
