

Recall Summary – European Toys

EU Safety Gate Alerts (Dec 2022)

Alert No.	Notifying Country	Product	Product Photo	Hazard/ Risk	Measures Adopted
A11/00134/22	Croatia	Soft toy (Country of Origin: China)		Choking The fibrous stuffing material of the toy is easily accessible due to the weakness of certain seams. A small child may put the stuffing material in the mouth and choke on it. The product does not comply with the requirements of the Toy Safety Directive nor with the European standard EN 71-1.	Ban on the marketing of the product and any accompanying measures
A11/00135/22	Croatia	Soft toy (Country of Origin: China)		Choking The fibrous stuffing material of the toy is easily accessible due to the weakness of certain seams. A small child may put the stuffing material in the mouth and choke on it. The product does not comply with the requirements of the Toy Safety Directive nor with the European standard EN 71-1.	Ban on the marketing of the product and any accompanying measures
A11/00136/22	France	Tricycle with push handle (Country of Origin: Philippines)		Entrapment When the tricycle is pushed along by the handle, there is a risk that the child's foot/feet get caught or bruised if they are lifted from the pedals, owing to the lack of a freewheel or a footrest. The product does not comply with the requirements of the Toy Safety Directive.	Recall of the product from end users
A11/00141/22	Hungary	Toy bow set (Country of Origin: China)		Injuries The product can shoot improvised projectiles with too high kinetic energy which could cause injuries, especially to the eyes. The product does not comply with the requirements of the Toy Safety Directive nor with the European standard EN 71.	Import rejected at border

A11/00142/22	Lithuania	Soft toy (Country of Origin: China)		Choking Small parts (the plastic eyes and nose of the toy) are easily accessible due to the weakness of certain seams. A small child may put them in the mouth and choke. The product does not comply with the requirements of the Toy Safety Directive nor with the European standard EN 71-1.	Withdrawal of the product from the market
A11/00147/22	Poland	Plastic toy (Country of Origin: China)		Chemical, Electric shock Due to insufficient electrical resistance of the toy, a child may receive an electric shock. Moreover, the toy is not resistant to moisture; chemical substances from the electrical circuit may migrate to the water causing chemical risk. The product does not comply with the requirements of the Toy Safety Directive nor with the European standard EN 62115.	Withdrawal of the product from the market
A12/01666/22	Poland	Plastic doll (Country of Origin: China)		Chemical The toy contains bis(2-ethylhexyl) phthalate (DEHP) (measured value up to 2.74% by weight). This phthalate may harm the health of children, causing possible damage to the reproductive system. The product does not comply with the REACH Regulation.	Warning consumers of the risks
A12/01667/22	Poland	Toy slime (Country of Origin: China)		Chemical The migration of boron from the toy is too high (measured value: up to 1614 mg/kg). Ingestion or contact with an excessive quantity of boron may harm the health of children by damaging their reproductive system. The product does not comply with the requirements of the Toy Safety Directive nor with the European standard EN 71-3.	Import rejected at border
A12/01669/22	Poland	Toy slime (Country of Origin: China)		Chemical The migration of boron from the toy is too high (measured value: up to 1672 mg/kg). Ingestion or contact with an excessive quantity of boron may harm the health of children by damaging their reproductive system. The product does not comply with the requirements of the Toy Safety Directive nor with the European standard EN 71-3.	Import rejected at border

A12/01679/22	Finland	Christmas calendar (Country of Origin: China)		Chemical, Choking The migration of boron from the toy is too high (measured value up to 840 mg/kg). Ingestion or contact with an excessive quantity of boron may harm the health of children by damaging their reproductive system. Small parts may detach from the capsule. A child may put the small parts in the mouth and choke. The product does not comply with the requirements of the Toy Safety Directive nor with the European standard EN 71-3.	Import rejected at border
A12/01692/22	Italy	Balloons (Country of Origin: China)		Chemical The product contains an excessive concentration of diisobutyl phthalate (DIBP) and bis(2-ethylhexyl) phthalate (DEPH) (measured values up to 15.8% and 9.9%, respectively). These phthalates may harm the health of children, possibly causing damage to their reproductive system. The product does not comply with the REACH Regulation.	Ban on the marketing of the product and any accompanying measures
A12/01711/22	France	Water bombs (Country of Origin: China)		Chemical The rubber of the balloons releases an excessive amount of nitrosamines (above the limits of 1 mg/kg). Nitrosamines may cause cancer through ingestion or dermal exposure. A child could be exposed to them when touching or putting the product in the mouth. The product does not comply with the requirements of the Toy Safety Directive nor with the European standard EN 71-12.	Withdrawal of the product from the market
A12/01714/22	The Netherlands	Baby Lock (Country of Origin: China)		Choking A child could detach small parts from the baby lock (caps), and swallow it, which may cause choking. The product does not comply with the requirements of the General Product Safety Directive nor with the European standard 71-1.	Recall of the product from end users

A12/01723/22	Czechia	Plastic doll (Country of Origin: China)		Chemical Plastic material of the head of the doll contains an excessive concentration of di-(2-ethylhexyl) phthalate (DEHP) (measured value 12.3 % by weight). This phthalate may harm the health of children, causing possible damage to the reproductive system. The product does not comply with the REACH Regulation.	Withdrawal of the product from the market
A12/01727/22	Sweden	Finger paint kit (Country of Origin: Unknown)		Chemical The product contains an excessive concentration of formaldehyde (measured value up to 140 mg/kg). Formaldehyde can cause skin irritation when in contact with the skin and is carcinogenic. The product does not comply with the requirements of the Toy Safety Directive.	Removal of this product listing by the online marketplace
A12/01729/22	France	Crossbow set (Country of Origin: Unknown)		Injuries The product can shoot improvised projectiles with too high kinetic energy which could cause injuries. The product does not comply with the requirements of the Toy Safety Directive nor with the European standard EN 71-1.	Recall of the product from end users
A12/01730/22	Finland	Fancy-dress mask (Country of Origin: China)		Chemical The toy contains bis(2-ethylhexyl) phthalate (DEHP) (measured value up to 0.46% by weight). This phthalate may harm the health of children, causing possible damage to the reproductive system. The product does not comply with the REACH Regulation.	Import rejected at border

A12/01731/22	Finland	Slime toy (Country of Origin: China)		Chemical The migration of boron from the slime is too high (measured value up to 1300 mg/kg). Ingestion or contact with an excessive quantity of boron may harm the health of children by damaging their reproductive system. The product does not comply with the requirements of the Toy Safety Directive nor with the European standard EN 71-3.	Import rejected at border
A12/01735/22	Lithuania	Plastic doll set (Country of Origin: China)		Chemical The plastic material of the doll contains an excessive concentration of bis(2-ethylhexyl) phthalate (DEHP) (measured values: up to 26 % by weight). This phthalate may harm the health of children, causing possible damage to their reproductive system. The product does not comply with the REACH Regulation.	Withdrawal of the product from the market
A12/01736/22	Bulgaria	Children's mattress (Country of Origin: Bulgaria)		Choking, Suffocation The mattress does not meet the firmness requirements. A child may suffocate as a result. The zipper puller easily detaches and a child may put it in the mouth and choke. The product does not have the required leaflet providing the consumer with information about safe and correct use. The product does not comply with the requirements of the General Product Safety Directive nor with the European standard EN 16890.	Withdrawal of the product from the market
A12/01738/22	Poland	Plastic ball (Country of Origin: China)		Chemical The toy contains an excessive concentration of diisobutyl phthalate (DIBP) (measured value up to: 49,4% by weight). This phthalate may harm the health of children, possibly causing damage to their reproductive system. The product does not comply with the REACH Regulation.	Warning consumers of the risks

A12/01739/22	Poland	Plastic doll (Country of Origin: China)		Chemical The toy contains an excessive concentration of bis (2-ethylhexyl) phthalate (DEHP) (measured value up to 13.4% by weight). This phthalate may harm the health of children, possibly causing damage to the reproductive system. The product does not comply with the REACH Regulation.	Warning consumers of the risks
A12/01740/22	France	Soft toy (Country of Origin: China)		Choking The seam at the level of the paw is open; making the filling accessible. Ingestion of the filling may cause choking. The product does not comply with the requirements of the Toy Safety Directive nor with the European standard EN 71-1.	Recall of the product from end users
A12/01741/22	Czechia	Plastic doll set (Country of Origin: China)		Chemical The plastic material of the head of the doll contains an excessive concentration of bis(2-ethylhexyl) phthalate (DEHP) (measured value up to 29.3% by weight). This phthalate may harm the health of children, possibly causing damage to their reproductive system. The product does not comply with the REACH Regulation.	Withdrawal of the product from the market
A12/01745/22	France	Musical soft toy (Country of Origin: China)		Strangulation The cord of the toy is too long and does not have a breakaway feature. It may become wrapped around a child's neck and lead to strangulation. The product does not comply with the requirements of the Toy Safety Directive nor with the European standard EN 71-1.	Withdrawal of the product from the market
A12/01764/22	Czechia	Plastic doll (Country of Origin: China)		Chemical The plastic material of the head of the doll contains an excessive concentration of bis(2-ethylhexyl) phthalate (DEHP) (measured value up to 15.6% by weight). This phthalate may harm the health of children, causing possible damage to their reproductive system. The product does not comply with the REACH Regulation.	Withdrawal of the product from the market

The information contained in this newsletter is obtained from sources believed to be accurate to the best knowledge of STC and its subsidiaries. It is distributed without warranty, representation, inducement or license of any kinds and STC and its subsidiaries do not assume any legal responsibility for use or reliance upon the information.

A12/01765/22	Spain	Electric toy (Country of Origin: China)		Choking Small parts can easily detach (bone in the dog's mouth). As a consequence, a small child may put them in the mouth and choke on them. The product does not comply with the requirements of the Toy Safety Directive nor with the European standard EN 71-1.	Ban on the marketing of the product and any accompanying measures
A12/01768/22	Spain	Soother holder (Country of Origin: China)		Choking The chain can easily break, resulting in small parts. A small child may put them in the mouth and choke. The product does not comply with the requirements of the General Product Safety Directive.	Withdrawal of the product from the market
A12/01779/22	Hungary	Toy gun set (Country of Origin: China)		Chemical, Choking, Injuries The suction cups contain an excessive concentration of bis-2-ethylhexyl phthalate (DEHP) and dibutyl phthalate (DBP) (measured values: up to 5.6% and 6.2% by weight, respectively); these phthalates may harm the health of children, causing possible damage to the reproductive system. In addition, the suction cups of the projectiles can be easily detached, and a child can put them in the mouth and choke. Furthermore, there are no warnings in the toy about the danger of aiming at the eyes or face, which could cause injuries, especially to the eyes. The product does not comply with the REACH Regulation, nor with the requirements of the Toy Safety Directive, nor with the European standard EN 71-1.	Import rejected at border
A12/01787/22	Germany	Rattle toy (Country of Origin: China)		Choking The attachment to one of the clamps fails and small parts (beads and rings) can easily be detached from the wooden rings. A small child may put them in the mouth and choke. The handle of the rattle toy is too long and if a child puts it in the mouth it can block the airways and cause choking. The product does not comply with the requirements of the Toy Safety Directive nor with the European standard EN 71-1.	Stop of sales

The information contained in this newsletter is obtained from sources believed to be accurate to the best knowledge of STC and its subsidiaries. It is distributed without warranty, representation, inducement or license of any kinds and STC and its subsidiaries do not assume any legal responsibility for use or reliance upon the information.

A12/01788/22	Finland	Musical toy (Country of Origin: China)		Choking The toy contains small parts (eyes), which can easily detach. As a consequence, a small child may put them in the mouth and choke. The product does not comply with the requirements of the Toy Safety Directive nor with the European standard EN 71-1.	Removal of this product listing by the online marketplace
A12/01789/22	Finland	Soft toy (Country of Origin: China)		Choking The toy contains small parts (eyes and metal chain) which can easily detach. As a consequence, a small child may put them in the mouth and choke. The product does not comply with the requirements of the Toy Safety Directive nor with the European standard EN 71-1.	Warning consumers of the risks
A12/01794/22	Spain	Plastic doll with accessories (Country of Origin: China)		Choking Small parts (blue piece on the top of the bottle) can easily detach from the toy. A small child may put them in the mouth and choke. The product does not comply with the requirements of the Toy Safety Directive nor with the European standard EN 71-1.	Ban on the marketing of the product and any accompanying measures
A12/01797/22	France	Soother holder (Country of Origin: France)		Choking, Strangulation The product has small detachable parts (plastic clip and plastic ring), which a child can easily access, put in the mouth and choke. In addition, the soother holder is too long and may lead to strangulation of a child. The product does not comply with the requirements of the General Product Safety Directive nor with the European standards EN 71-1 and EN 12586.	Recall of the product from end users

A12/01800/22	France	Toy rake (Country of Origin: China)		Injuries The toy has fixed protruding vertical parts (the rake prongs when the rake is laid on the ground prongs upward). If a child falls onto them, this can lead to cuts and injuries. The product does not comply with the requirements of the Toy Safety Directive nor with the European standard EN 71-1.	Recall of the product from end users
A12/01817/22	Czechia	Plastic doll (Country of Origin: China)		Chemical The plastic material of the product contains an excessive concentration of bis(2-ethylhexyl) phthalate (DEHP) (measured value up to 13,5% by weight). This phthalate may harm the health of children, causing possible damage to their reproductive system. The product does not comply with the REACH Regulation.	Withdrawal of the product from the market
A12/01838/22	Poland	Rattle toy (Country of Origin: China)		Choking, Damage to hearing The sound pressure level produced by the toy is too high (measured value up to 111.7 dB). This could lead to permanent or partial hearing loss when the product is used. The toy breaks easily releasing small plastic parts (ratchet elements). A small child may put them in the mouth and choke on them. The product does not comply with the requirements of the Toy Safety Directive nor with the European standard EN 71-1.	Withdrawal of the product from the market
A12/01841/22	Poland	Rattle toy set (Country of Origin: China)		Choking The rattles can easily break, generating small parts. A child may put them in the mouth and choke. The product does not comply with the requirements of the Toy Safety Directive nor with the European standard EN 71-1.	Warning consumers of the risks

A12/01847/22	Poland	Toy musical instruments (Country of Origin: China)		Choking The toy can easily break, releasing small parts (rattling elements). A child may put them in the mouth and choke. The product does not comply with the requirements of the Toy Safety Directive nor with the European standard EN 71-1.	Warning consumers of the risks
A12/01851/22	France	Plastic bath toy set (Country of Origin: China)		Chemical The product contains Bisphenol A (BPA) (measured value up to 0.04 mg/kg). BPA may damage fertility and has been identified as a substance affecting the hormonal systems of humans and animals. The product does not comply with the requirements of the General Product Safety Directive.	Recall of the product from end users
A12/01853/22	France	Magnetic puzzle (Country of Origin: France)		Choking, Injuries Small parts can easily detach (magnets). As a consequence, a small child may put them in the mouth and choke. Moreover, if a child swallows the small magnets and other metallic objects, they could attract one another causing intestinal blockage or perforation. The product does not comply with the requirements of the Toy Safety Directive nor with the European standard EN 71-1.	Recall of the product from end users
A12/01856/22	Poland	Inflatable plastic ball (Country of Origin: China)		Chemical The toy contains an excessive amount of diisobutyl phthalate (DIBP) (measured value up to: 27.8% by weight). This phthalate may harm the health of children, causing possible damage to their reproductive system. The product does not comply with the REACH Regulation.	Destruction of the product

A12/01857/22	Poland	Balloons (Country of Origin: China)		Chemical The product releases an excessive amount of nitrosatable substances (measured value up to 1.79 mg/kg). Nitrosatable compounds can be converted into nitrosamines, which are genotoxic carcinogens via inhalation, ingestion or dermal exposure. A child can get exposed to them by putting the product in the mouth. The product does not comply with the requirements of the Toy Safety Directive nor with the European standard EN 71-12.	Warning consumers of the risks
A12/01858/22	Hungary	Toy gun set (Country of Origin: China)		Choking, Damage to hearing The projectile has small parts (suction cups). A child may put them in the mouth and choke. Moreover, the sound pressure level of the toy is too high and can therefore cause damage to hearing. The product does not comply with the requirements of the Toy Safety Directive nor with the European standard EN 71-1.	Import rejected at border
A12/01859/22	Poland	Plastic toy gun (Country of Origin: China)		Choking, Cuts The size of foam projectiles is inadequate. A child playing with the toy may put the projectile in the mouth and choke. Moreover the ball-shaped bullets have sharp parts which can cause cuts during impact. The product does not comply with the requirements of the Toy Safety Directive nor with the European standard EN 71-1.	Warning consumers of the risks
A12/01865/22	Germany	Children's scooter (Country of Origin: China)		Injuries The steering axle is not sufficiently strong. As a result, it may break at high speed when the scooter is used on a steep slope, increasing the risk of injuries. The product does not comply with the requirements of the Toy Safety Directive nor with the European standard EN 71-1.	Ban on the marketing of the product and any accompanying measures

Safety Gate: the EU rapid alert system for dangerous non-food products

“Safety Gate”, the EU rapid alert system (formerly known as ‘RAPEX’), enables the rapid exchange of information between **31 European countries** and the European Commission on non- food dangerous products found on the market posing a risk to health and safety of consumers.

A weekly overview of the alerts on those products is published in English for free on <https://ec.europa.eu/safety-gate-alerts/screen/webReport#weeklyReports>. The measures taken in the notifying country in order to restrict their marketing or use can be ordered by national authorities ("compulsory measures") or be taken directly by producers and distributors ("voluntary measures").

The official contact points of the Member and EFTA-EEA States provide the information published in these weekly overviews. Under the terms of Annex II.10 of the General Product Safety Directive (**2001/95/EC**) responsibility for the information provided lies with the notifying party. The Commission does not take any responsibility for the accuracy of the information provided.

Recall Summary – US Toys / Children's Products

CPSC Recall List (Dec 2022)

Recall No.	Notifying Country	Product	Product Photo	Hazard/ Risk	Remedy
23-060	USA	Cloud Island 4-Piece Plush Toy Sets (Country of Origin: China)		Choking Hazard Target Recalls Cloud Island 4-Piece Plush Toy Sets Due to Choking Hazard The tires on the toy vehicles can detach, posing a choking hazard to children.	Consumers should immediately take the recalled plush toys away from young children and return them to any Target store for a full refund or contact Target to receive a prepaid return label to return the toy set by mail.
23-077	USA	Pacific Igniter and Pacific Bubble Pop 20" kids' bicycles (Country of Origin: China)		Fall Hazard Pacific Cycle Recalls Pacific Kids' Igniter and Pacific Bubble Pop 20-Inch Bicycles Due to Fall Hazard; Sold Exclusively at Target The bicycle's handlebar can become loose during use, posing a fall hazard.	Consumers should immediately stop riding the recalled bicycles and contact Pacific Cycle to receive a free repair kit, which will contain a bolt, nut, washer and grease packet with instructions to apply grease to the bolt.
23-078	USA	Pillowfort™ Weighted Blankets (Country of Origin: China)		Asphyxiation Hazard Target Recalls Children's Pillowfort Weighted Blankets Due to Asphyxiation Hazard; Two Fatalities Reported A young child can become entrapped by unzipping and entering the blanket, posing a risk of death by asphyxiation.	CPSC and Target are urging consumers to stop using the recalled weighted blankets immediately and contact Target for a refund.

The information contained in this newsletter is obtained from sources believed to be accurate to the best knowledge of STC and its subsidiaries. It is distributed without warranty, representation, inducement or license of any kinds and STC and its subsidiaries do not assume any legal responsibility for use or reliance upon the information.

23-714	USA	Discovery Cubes Animal Hide and Seek Activity Toy (Country of Origin: China)		<p>Choking And Ingestion Hazards</p> <p>HABA USA Recalls Discovery Cubes Animal Hide and Seek Activity Toys Due to Choking and Ingestion Hazards (Recall Alert)</p> <p>The seam on the activity toy's house can open, allowing a young child access to the toy's filling, posing choking and ingestion hazards if placed in the mouth.</p>	<p>Consumers should immediately take the recalled toy away from a child, cut the toy in half with a pair of scissors, take a photo of it, and discard it in the household trash. Contact HABA to receive a \$30 refund or gift card. Email a photo documenting that the toy has been destroyed, along with your contact information to recall@habausa.com to receive the refund. HABA is contacting all known purchasers.</p>
23-717	USA	Thornhill Dark Brown and Natural Baby Cribs (Country of Origin: Vietnam)		<p>Fall And Entrapment Hazards</p> <p>Crate And Barrel Recalls Thornhill Baby Cribs Due to Fall and Entrapment Hazards (Recall Alert)</p> <p>The mattress support pins can become loose or not fit properly causing the mattress to fall, posing a fall hazard.</p>	<p>Consumers should immediately stop using the recalled cribs and contact Crate and Barrel for a full refund or free replacement. Crate and Barrel is contacting all purchasers directly.</p>

CPSC

The United States Consumer Product Safety Commission (CPSC) is an independent agency of the United States government. To provide better service in alerting the American people to unsafe, hazardous or defective products, a "one stop shop" for U.S. Government recalls, <http://www.recalls.gov>, has been created. Publics can report unsafe products to CPSC by using the platform.

The recall list is divided into seven categories: Consumer Products, Motor Vehicles, Boats, Food, Medicine, Cosmetics and Environmental Products. Generally, the recall was conducted, voluntarily by the company, under CPSC's Fast Track Recall program. Fast Track recalls are initiated by firms who commit to work with CPSC to quickly announce the recall and remedy to protect consumers.

Recall Summary – Australia Toys / Children's Products

ACCC Recall List (Dec 2022)

PRA No.	Notifying Country	Product/ Description	Product Photo	Hazard/ Risk	Remedy
2022/19369	Australia	Elefun Flyers is a game where players stomp on the elephant's tail to launch round butterfly disks into the air. The players then attempt to catch the disks in their nets.		<p>Risk Of Facial Injury The butterfly flyers may strike a child in the face.</p> <p>There is a risk of facial injury (skin abrasions or bruising) to children.</p>	Consumers should return the product to the place of purchase for a full refund.
2022/19646	Australia	UPPAbaby Ridge Pram (disc brake) Model 0401 All Terrain Jogging Stroller		<p>Amputation Injury Holes in the brake disc are large enough to catch the finger of a child.</p> <p>A child not seated in the stroller could insert their finger in the brake disc which may lead to an amputation injury.</p>	Consumers who own a RIDGE (Model 0401) manufactured between October 2021 and August 2022 will be supplied with a replacement set of discs together with comprehensive instructions on how to change the disc.
2022/19651	Australia	A baby rattle made of beechwood and silicone.		<p>Choking Or Suffocation Hazard The rattle does not comply with the size and shape requirements of the mandatory safety standard for toys for children up to and including 36 months of age.</p> <p>The rattle may pose a choking or suffocation hazard for young children, which can lead to severe injury or death.</p>	Consumers should immediately stop using the product. Consumers should dispose of or destroy the product and contact Baby Steps Co to arrange a full refund or replacement item from our shop of equal value.

The information contained in this newsletter is obtained from sources believed to be accurate to the best knowledge of STC and its subsidiaries. It is distributed without warranty, representation, inducement or license of any kinds and STC and its subsidiaries do not assume any legal responsibility for use or reliance upon the information.

2022/19653	Australia	Baby travel folding cot, suitable for babies and children aged 0-3 years and maximum weight 15kgs.		Risk Of Injury To Small Children The cot does not comply with the labelling requirements and the requirements to include prominent instructions for assembly and locking procedures of the mandatory safety standard for folding cots. Incorrect assembly of the cot may create a risk of injury to small children.	Consumers should refer to the assembly and operating instructions in the product manual to ensure the product is assembled correctly.
2022/19659	Australia	Lamaze Chill Teether Single Pack Batch Numbers E1920ALP01 and K1920ALP01		Microbial Contamination Hazard The recall is due to microbial contamination, the liquid filling in production code K1920ALP01 is contaminated with the bacteria Sphingomonas sp and the liquid filling in production code E1920ALP01 is contaminated with the bacteria Staphylococcus epidermidis. Product contaminated with Sphingomonas sp or Staphylococcus epidermidis may cause infection or illness in children with weakened immune systems, if the teether is punctured and the liquid filling is ingested.	Consumers should immediately stop using the product and keep out of reach of children.
2022/19661	Australia	A baby rattle made of beechwood and silicone		Choking Or Suffocation Hazard The rattle does not comply with the size and shape requirements of the mandatory safety standard for toys for children up to and including 36 months of age. The rattle may pose a choking or suffocation hazard for young children, which can lead to severe injury or death.	Consumers should immediately stop using the rattle. Consumers should destroy the product and contact Beads&BubsAU via Etsy to arrange a full refund of the rattle.

2022/19662	Australia	A baby rattle made of wood		<p>Choking Or Suffocation Hazard</p> <p>The rattle does not comply with the size and shape requirements of the mandatory safety standard for toys for children up to and including 36 months of age.</p> <p>The rattle may pose a choking or suffocation hazard for young children, which can lead to severe injury or death.</p>	Consumers should immediately stop using the rattle. Consumers should destroy the product and contact Jordy Giftz to arrange a full refund for the rattle.
2022/19663	Australia	Baby rattle made of beechwood		<p>Choking Or Suffocation Hazard</p> <p>The rattle does not comply with the size and shape requirements of the mandatory safety standard for toys for children up to and including 36 months of age.</p> <p>The rattle may pose a choking or suffocation hazard for young children, which can lead to severe injury or death.</p>	Consumers should immediately stop using the rattle. Consumers should destroy the product and contact Gigil to arrange a full refund for the rattle.
2022/19671	Australia	Wooden rattle with coloured rings		<p>Choking Or Suffocation Hazard</p> <p>The rattle does not comply with the size and shape requirements of the mandatory safety standard for toys for children up to and including 36 months of age.</p> <p>The rattle may pose a choking or suffocation hazard for young children, which can lead to severe injury or death.</p>	Consumers should immediately stop using the rattle. Consumers should destroy the product and contact Mish Mash and Co via Etsy to arrange a full refund for the rattle.

2022/19681	Australia	5 to 7 piece wooden rattle sets		Choking Or Suffocation Hazard The rattle does not comply with the size and shape requirements of the mandatory safety standard for toys for children up to and including 36 months of age. The rattle may pose a choking or suffocation hazard for young children, which can lead to severe injury or death.	Consumers should immediately stop using the rattle. Consumers should destroy the product and contact LovedAU via Etsy to arrange a full refund for the rattle.

Australian Product Safety System

The Australian product safety system is to maximize the safety of good by the cooperation of consumers, businesses and agencies. This policy sets out the principles adopted by the Australian Competition and Consumer Commission (ACCC) for prioritizing and addressing product safety risks.

Under the Australian Consumer Law, a responsible Minister can order a compulsory recall when there are hazards on the products. A voluntary recall could be conducted to remove the product from the marketplace when the suppliers become aware of unsafe or defective products.

The ACCC administers a national recalls system for recalls of specific and general consumer products, and publishes all product recalls on the website <https://www.productsafety.gov.au/recalls>.

STC (Hong Kong Standards and Testing Centre) is a not-for-profit, independent testing, inspection and certification organization. With a global network of ISO/IEC 17025 accredited testing laboratories and 60 years of experience in consumer product testing, we can meet your conformity assessment needs with highly efficient and reliable service. Our testing scope and capabilities related to toys and children's products include but not limited to:

EU Requirements

- EN 71
- Phthalates (EC) no. 1907/2006
- Nickel Release (EC) no. 1907/2006
- Total Cadmium (EEC) no. 91/338
- Lead in Jewellery product (EC) no. 836/2012
- Azo-dye (EC) no. 1907/2006
- Bisphenol-A (2014/81/EU)
- DMF (Dimethyl fumarate) (EU) no. 2011/135
- Flame retardants TCEP, TCPP, TDCP (2014/79/EU)
- Package Waste Directive (94/62/EC)

US & Canada Requirements

- ASTM F963
- CPSIA
- California Proposition 65
- 16 CFR 1501
- ASTM F2923 (Children's jewellery)
- ASTM F2999 (Adult's jewellery)
- US Toxic in Packaging Clearinghouse (TPCH)
